Welcome to the NOCCCD School of Continuing Education

Earning a career certificate, helping your children succeed in school, or obtaining citizenship can transform your life. At the School of Continuing Education (SCE), we believe that every student deserves access to affordable and high-quality education in a format that is most convenient for busy adults. It’s education your way!

It is my pleasure to present the 2016/17 SCE catalog of course offerings. As the base of this learning community, our outstanding faculty members are here to help you achieve your academic, career, and personal goals. The content and delivery methods of SCE’s instructional offerings are consistently updated to meet the evolving demands of the modern community and workplace. Our dedicated staff is committed to supporting you in every step on your path to success.

Besides providing courses and programs to suit students of all ages and walks of life, SCE offers a vibrant learning environment that includes a variety of support services. Counseling, orientation, tutoring, assessment, and career exploration are among the many services available to students who wish to engage in educational experiences.

SCE is honored that you have chosen us to further advance your very bright and exciting future. Whether you wish to pursue high school diploma studies and transition to one of our sister colleges, explore a different career, or learn a new craft, SCE is the right place to embark on your journey to success.

Sincerely,

Valentina Purtell
Interim Provost,
NOCCCD School of Continuing Education

Accreditation
The North Orange County Community College (NOCCCD) School of Continuing Education (SCE) is proudly accredited by the Accrediting Commission for Schools of the Western Association of Schools and Colleges (WASC). For more information regarding SCE's accreditation, please contact WASC at the following address:

Western Association of Schools and Colleges
Accrediting Commission for Schools
533 Airport Blvd., Ste 200
Burlingame, CA 90410

District Sexual Harassment, Drug-Free and Alcohol-Free District Policies
For a copy of these policies, please refer to the SCE website at www.sce.edu.

Non-Discrimination Statement
The policy of the North Orange County Community College District is to provide an educational, employment, and business environment, including but not limited to access to its services, classes, and programs in which no person shall be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination on the basis of ethnic group identification, national origin, religion, age, sex, gender, gender identification, gender expression, race, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, or military and veteran status, or as otherwise prohibited by state and federal statutes, or because he or she is perceived to have one or more of the foregoing characteristics in any program or activity of the District that is administered by, directly funded by, or that receives any financial assistance from the Chancellor or Board of Governors of the California Community College District. Discrimination of the basis of sex or gender also includes sexual harassment.

The following person is designated by the NOCCCD as the Responsible Officer/Section 504/Title IX Coordinator for receiving and coordinating the investigation of all unlawful discrimination complaints filed pursuant to section 59328 of Title V of the California Code of Regulations, and for coordinating compliance with section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, Title IX of the Education Amendments of 1992, and response to discrimination complaints related thereto:

Name: Irma Ramos
Position: Vice Chancellor, Human Resources
Address: 1830 W. Romneya Drive
Anaheim, California 92801-1819
Telephone: (714) 808-4822

Students and employees who believe they have been subjected to unlawful discrimination, including sexual harassment, or who seek information regarding the District's Unlawful Discrimination Policy should contact the Office of the Vice Chancellor, Human Resources.

Academics

Academic Honesty
Students are expected to abide by ethical standards in preparing and presenting material which demonstrates their level of knowledge and which is used to determine grades. Such standards are founded on basic concepts of integrity and honesty. These include, but are not limited to, the following areas:

1. Students shall not plagiarize, which is defined as:
   A. stealing or passing off as one's own the ideas or words of another or,
   B. using a creative production without crediting the source.
The following cases constitute plagiarism:
   • paraphrasing published material without acknowledging the source,
   • making significant use of an idea or particular arrangement of ideas, e.g., outlines,
   • writing a paper after consultation with persons who provide suitable ideas and incorporating these ideas into the paper without acknowledgement, or
   • submitting under one's own name term papers or other reports which have been prepared by others.

2. Students shall not cheat, which is defined as
   A. using notes, aids, or the help of other students on tests or exams in ways other than those expressly permitted by the instructor, or
   B. misreporting or altering the data in laboratory or research projects involving the collection of data.

3. Students shall not submit an original paper or project to more than one class without approval from the second instructor. Instructors who do not accept previously submitted papers should so inform the students in the course syllabus.

4. Students shall not furnish materials or information in order to enable another student to plagiarize or cheat.

Instructors may deal with academic dishonesty in one or more of the following ways:

1. Assign an appropriate academic penalty such as an oral reprimand or point reduction.
2. Assign zero points on all or part of a particular paper, project, or exam.
3. Report to the appropriate administrators, with notification of same to the student(s) for disciplinary action by the school. Such a report will be accompanied by supporting evidence and documentation.

Absences
By the direction of the Chancellor of Community Colleges of California, attendance shall be taken at all class sessions. Regular attendance is expected of every student. Attendance at the first class meeting is strongly recommended because of enrollment demands. Any student not attending the first class meeting may be dropped by the instructor.

Student Responsibilities
While an instructor may drop a student for excessive absences, it is the student's responsibility to officially drop the class by visiting a registration counter located at each SCE campus, or online by logging onto MyGateway (http://mygateway.nocccd.edu).
High School Diploma Credits
Prior to April 2010, continuing and returning students were provided the option to earn a diploma under the previous 185 credit requirement or current 160 credit requirement. Effective the fall 2012 term, variable credits can be assigned to new, matriculated students enrolling for or after the fall 2012 term. Variable credits will not be an option for continuing and returning students enrolled prior to fall 2012.

High School Diploma Program Transfer Policy
Effective spring 2012, the High School Diploma Program administrative staff will no longer consider transfer requests from diploma students seeking to relocate to a different diploma lab/campus/site. Diploma students enrolled in one of the High School Labs must commit to completing their diploma studies at their enrolled lab. The High School Diploma Program administrative staff may consider requests that are critical such as a legal reason for attending a different lab/campus/site and/or attempting to earn a diploma at the campus/site they enrolled in for other academic programs such as credit (college) and/or certificate courses. Diploma students having a critical reason for their request to transfer may contact the program manager directly after informing his/her High School Lab instructor and/or counselor. Because the majority of diploma students are employed and have a family, transferring for these two reasons will not be considered.

SCE Catalog Rights

The School of Continuing Education (SCE) issues a new catalog each academic year beginning in the fall term and, if needed, subsequent addendums for the winter, spring, and summer terms. The information published in the catalog or catalog addendums is in effect for the academic year beginning with the fall term and concluding with the summer term.

The course requirements for a specific certificate program may change from one catalog to the next and, therefore, may change during the period of time that a student attends SCE. Catalog rights established when a student first takes classes at SCE protect the student from being held for additional program requirements that may be added to a later catalog.

Students maintain catalog rights by maintaining continuous enrollment in one of the following courses at SCE: Basic Skills, Career Technical Education, Disability Support Services, and English as a Second Language. Continuous enrollment is enrollment in any two of the previous four consecutive terms, including Summer, resulting in an academic record of A, B, C, D, F, P (Pass), NP (No Pass), SP (Satisfactory Progress), or W (Withdrawal). Missing more than two consecutive terms will result in loss of catalog rights due to a break in continuous enrollment.

<table>
<thead>
<tr>
<th>Enrollment in the following term</th>
<th>No enrollment in the following terms</th>
<th>Must enroll in the following term to maintain catalog rights</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>Winter &amp; Spring</td>
<td>Summer</td>
</tr>
<tr>
<td>Winter</td>
<td>Spring &amp; Summer</td>
<td>Fall</td>
</tr>
<tr>
<td>Spring</td>
<td>Summer &amp; Fall</td>
<td>Winter</td>
</tr>
<tr>
<td>Summer</td>
<td>Fall &amp; Winter</td>
<td>Spring</td>
</tr>
</tbody>
</table>

If continuous enrollment is broken the student must adhere to the catalog requirements in effect at the time continuous enrollment is re-established and maintained.

The lab enrollment in CCTR 100, keyboarding exams, and required certifications (e.g. CPR card) cannot be used to maintain catalog rights. Course substitution and course challenges do not maintain catalog rights as well.

This policy supersedes all previous catalog rights provisions and applies only to the programs at SCE.

Medical Leave of Absence
Students may file a Petition for Exception for a medical leave of absence when there is appropriate evidence the student was unable to attend classes for an extended period of time to maintain Catalog Rights, as stated in the Catalog Rights Policy published in the school catalog. Students should contact the Registrar's Office at (714) 992-9502 to file a petition within one year of leaving the last term they were in continuous enrollment. The petition will be reviewed and considered for approval based solely upon the following:

Documentation on the student's inability to attend during the terms in which the student was not in attendance is required. Appropriate evidence should include, but not limited to, physician recommendations or other supporting documentation that is dated and on official organization letterhead.

A student who withdraws due to an approved medical leave will receive an NG (Not Graded) notation on their academic transcript for any classes that they were unable to complete due to medical leave. Any outstanding fees or tuition associated with the course will remain due and payable.

Eligibility applies only to the enrolled student.

Military Leave of Absence
Students who are called to active duty may submit a Petition for Exception for a military leave of absence to maintain their catalog rights. Students should contact the Registrar's Office at (714) 992-9502 to file a petition.

A student who withdraws due to military service will receive an MW (military withdrawal) notation on their academic transcript for any classes that they were unable to complete due to service. Any fees or tuition associated with the course will be refunded.

Students will retain their catalog rights and enrollment status if they return within one year of release from military service. For the purposes of maintaining catalog rights and enrollment status, any release from military service, other than a dishonorable release, will be accepted. The student must contact the Registrar's Office to provide appropriate documentation upon return from service.

(Section 824 of the Military and Veterans Code)
Grading System

In general, most noncredit courses are not graded, however the School of Continuing Education has two areas where students are awarded an evaluative symbol at the conclusion of the course; High School Diploma courses and courses in the category of Career Development and College Preparation (CDCP).

Grading for High School Diploma

Student performance in High School Diploma courses is indicated below. Grades which carry point value, and which are used in determining the grade point average (GPA), are as follows:

<table>
<thead>
<tr>
<th>High School Academic Grading Scale</th>
</tr>
</thead>
<tbody>
<tr>
<td>A—Excellent 4 grade points</td>
</tr>
<tr>
<td>B—Good 3 grade points</td>
</tr>
<tr>
<td>C—Average 2 grade points</td>
</tr>
<tr>
<td>D—Below Average 1 grade point</td>
</tr>
</tbody>
</table>

The GPA is the total completed grade points divided by the total attempted credit amount.

Credits indicated by the below evaluative symbols are not counted toward GPA:

| F—Fail 0 grade point                        |
| P—Pass Satisfactory, C or better 0 grade point |
| NP—No Pass 0 grade point                    |
| CR—Credit 0 grade point                     |
| NC—No Credit 0 grade point                  |
| IP—In Progress 0 grade point                |
| NG—Not Graded 0 grade point                 |
| U—Ungraded 0 grade point                    |

Grading for Career Development and College Preparation Courses

Students enrolled in a Career Development and College Preparation (CDCP) course are advised that they will be issued a grade that will appear on their SCE transcript and permanent academic history. The following grading system is used:

<table>
<thead>
<tr>
<th>CDCP Grading Scale</th>
</tr>
</thead>
<tbody>
<tr>
<td>P—Pass 0 grade point</td>
</tr>
<tr>
<td>NP—No Pass 0 grade point</td>
</tr>
<tr>
<td>W—Withdrawal 0 grade point</td>
</tr>
<tr>
<td>NG—Not Graded 0 grade point</td>
</tr>
</tbody>
</table>

If a student does not wish to be graded, they must drop the course prior to the eighth hour of instruction. While an instructor may drop a student for excessive absences, it is the student's responsibility to officially withdraw from a class. If a student withdraws after the eighth hour of instruction, but prior to the last quarter of instruction, the student will receive a "W" grade on their transcript, regardless of whether the drop was initiated by the student or instructor. Students may not drop a course after the start of the final quarter of the course.

Auditing Classes

If a student has received a passing grade in a Pharmacy Technician Program or a Medical Assistant Program course and wishes to repeat the course, the student should submit an audit request form to the CTE program manager. For more information about auditing a Pharmacy Technician or Medical Assistant course, please contact (714) 808-4673. There is a $15 fee charged for auditing a course. Fees charged for auditing a course is subject to change. Auditing other SCE courses is not permitted.

Grade Appeal Policy

SCE recognized the legal right of faculty to set standards of performance and to apply them to individual students. Therefore, the instructor is the final authority in determining grades that are assigned to students and that appear in their permanent academic records. Students have a right to inquire how their grade was determined and have a right to formally appeal the final grade earned. Appeals are limited to the situations in which students believe the grade is prejudicially, capriciously, or arbitrarily assigned. Grade appeal requests should be initiated by the student during the next term but no later than one year following the award of the original grade. All grade appeal requests should be directed to the SCE Registrar at (714) 992-9502. For additional information, you may refer to Board Policy 4231 at www.nocccd.edu.

Course Repetition

No limits are imposed on the repetition of most noncredit courses. However, in the case of special noncredit courses, such as those for students with disabilities, restrictions on repeatability may be imposed when students are judged to have met the objectives of a course and/or are no longer making measurable progress. For additional information, you may refer to Board Policy 4225 at www.nocccd.edu.

Credit by Exam

The purpose of credit by examination is to allow credit for prior or advanced knowledge of class material by the student. Currently enrolled students may be permitted to obtain Credit by Examination in subject areas in which they are especially qualified through previous training or experience for which credit has not previously been given. Examinations will be sufficiently comprehensive to determine that the student has essentially the same knowledge and skills as a student who successfully completes the course. Only those courses approved for Credit by Examination will be eligible. Students may discuss credit by exam with an SCE counselor or for additional information, refer to Board Policy 4235 at www.nocccd.edu.

Course Substitution

A request for a Course Substitution may be discussed with an SCE counselor.

Disciplinary Dismissal

The standards of student conduct and disciplinary action for violation of Board Policy 5500 are drawn in compliance with the State Education Code.

Students are expected to respect and obey civil and criminal law and shall be subject to the legal penalties for violation of the city, county, state, and national law(s). A student who violates the standards of student conduct shall be subject to disciplinary action including, but not limited to the removal, suspension or expulsion of the student. For additional information on disciplinary dismissal, you may refer to Board Policy 5500 at www.nocccd.edu.

Student Records and Transcripts

The California Administrative Code, Title V, and NOCCCD District policy states that students can review their student records at any time. All SCE student records are located at the Wilshire Continuing Education Center located at 315 E. Wilshire Avenue, Fullerton, CA 92832.
Transcript of Record - Verification of Enrollment and Attendance

Students are entitled to two (2) free copies of their student record in the form of an Official Transcript or a Verification of Enrollment/Attendance. Subsequent copies are $5 per copy. Requests are accepted in person or by mail and both request forms may be accessed at www.sce.edu. Rush transcripts can be obtained for an additional fee of $10.

We are unable to provide rush Verification of Enrollment/Attendance letters and requests will not be processed until completion of the third (3rd) week of the current term.

With the exception of High School Diploma courses, transcripts include a notation of the number of hours attended for each course of record.

Classification of Students

Students are classified at full time when enrolled and attending 12 hours or more of instruction per week. Students enrolled in fewer than 12 hours per week of instruction are considered part-time students. Enrollment and attendance can be confirmed after the student has attended two consecutive weeks of instruction.

The Family Educational Rights and Privacy Act (FERPA) and Release of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They have a right to:

- Inspect and review their education records
- Have some control over the disclosure of information
- Seek to amend incorrect education records

In accordance with FERPA, SCE may release or publish, without the student's prior consent, items in the category of public (directory) information. The NOCCCD Board of Trustees has identified the following as public (directory) information:

- Degrees and awards received by students, including honors, scholarships, athletic awards and Dean's List recognition
- Student participation in officially recognized activities and sports including weight, height and high school of graduation of athletic team members
- Dates of attendance

Students who wish to restrict this information must submit a written request to the SCE Registrar's Office at the Wilshire Continuing Education Center. Requests must be filed within 15 calendar days from the beginning of each trimester a student is in attendance. For more information, call (714) 992-9502

Student Identification Policy

Students are required to show a valid form of identification to obtain any form of non-directory information. Valid forms of identification accepted by SCE include: State-issued driver's license, State-issued identification card, or a government identification with photo issued by U.S. or other country. For additional information on what is considered non-directory information, you may refer to Board Policy 5040 at www.nocccd.edu.

Admissions/Registration Procedures

Admission to Classes

Students are admitted on a first-come, first-served basis. By District policy, "every course, course section or class shall be open to enrollment and participation by any person who has been admitted to the School of Continuing Education (SCE)." Students are not permitted to attend classes in which they are not officially enrolled. Classes filled may have a waitlist already established for students wanting to attend. Non-Tuition Classes: Students must attend the first day of class or they will lose their seat to a petitioning student.

New Students

New students are those who have never attended classes at SCE.

Continuing Students

Continuing students are those students who are currently enrolled and have not missed more than two consecutive terms.

Returning Students

Returning students are those students who previously attended classes at SCE yet did not re-enroll after missing two consecutive terms.

Campus Locations

Anaheim Campus
1830 West Romneya Drive
Anaheim, California 92801
(714) 808-4645

Cypress Continuing Education Center
9200 Valley View Street
Cypress, California 90630
(714) 484-7038

Wilshire Continuing Education Center
315 E. Wilshire Avenue
Fullerton, California 92832
(714) 992-9500

Additional classes are offered at many off-site locations throughout North Orange County. For specific off-site locations, please refer to the current class schedule at www.sce.edu/schedule.

Minor Students

SCE classes are open to those 18 years or older who have been admitted to SCE and are not attending school. Students under 18 who have not graduated from high school may be permitted to attend under special circumstances. It is advisable to contact the campus Dean at the site where the class is offered prior to obtaining the required permission letter from the school that the minor is attending. If permission to enroll is granted, the minor student may enroll only after the regular registration period so that priority is given to adult students. Children of any age may take Kids' College and Teen Program classes as indicated in the course schedule. Children are not permitted to attend adult classes.
International F-1 Visa Students

Students in F-1 Visa status are unable to register for SCE classes.

SCE is considered a publicly-funded adult education program by the federal government. The law prohibits publicly-funded adult education programs from enrolling in F-1 Visa status. This is according to the Code of Federal Regulations, Title 8 CFR Part 22 Section 214.2 (f).

Open Enrollment

It is the policy of NOCCCD that, unless specifically exempted by statute, every course section or class, the full-time equivalent students (FTES) attendance of which is to be reported for state aid, whenever offered and maintained by NOCCCD, shall be fully open to enrollment and participation by any person who has been admitted to the college(s) or SCE and who meets such prerequisites as may be established pursuant to Chapter II, Division 2, part VI, Title V of the California Administrative Code, Commencing with Section 51820.

In-Class Registration

Students must attend the first meeting where in-class registration takes place or they may lose their seat to another student. A minimum number of students must attend the first class meeting to ensure the required enrollment is met. In-class registration is on a first-come, first-served basis; however, students enrolling in a year round class may enter and register in the class at any time.

Registration Locations

No matter where the class is held, students can register at any campus: Anaheim (Second Floor), Cypress (Parking Lot 4; Building 100), Wilshire (Building 300). Registration is also available through MyGateway at http://mygateway.noccccd.edu

Fees

Full payment is required at the time of registration. Cash, checks, money orders, and credit cards (MasterCard and VISA) are accepted. A $25 fee will be charged to any students’ account where a check is returned for non-sufficient funds.

Fee-Based Courses

Classes NOT funded by the State are supported by student tuition. Students must cover the cost of the class through fees. Additional instructional material or supply fees may be required. These classes will not be cancelled if attendance falls during the term. While late registration is permissible in most classes, full payment of tuition fees is always required.

Parking Information/Fees

A parking permit is required to park in marked spaces at all three SCE Continuing Education Centers, however; a purchased parking permit does not guarantee a parking space. If you do not have a permit, you will be ticketed. A SCE parking permit applies to any space that is marked for students, or any unmarked space. Parking permits are refundable prior to the first class meeting only and must be returned to receive a refund. Please do not back into the parking space or you will be ticketed.

DMV Disabled Person placard holders are permitted to park in disabled parking, or any other student or staff space, but must also purchase and post an SCE parking permit.

Virtual Parking Permits

At Cypress College’s in lieu of a physical parking permit/hanger, effective September 2016 parking general parking lots requires a virtual parking permit. Physical parking permit/hanger are not issued to students or guests. Students and guests may purchase their virtual parking permits online (http://www.parking.cypresscollege.edu). After purchasing virtual parking permit, students and guests must register their vehicle license plate number to activate the virtual parking permit. Daily use virtual parking permits/passes are available at kiosks on campus, using a debit or credit card only. Payment for term permits and registration of plates authorizes students to use any of the lots open to student and guest parking, as well as designated spots on Circle Drive. Cypress College term-length parking permits are also honored at Fullerton College and the Anaheim Campus.

Students and guests may also register vehicles using short-term parking machines for $2 per day, using a debit or credit card only. Short-term permits are valid at Cypress College only. Students and guests are not eligible to park in staff spaces. The parking permit does not guarantee a parking space.

Any vehicle found parked on Cypress College property that has three (3) or more unpaid Cypress College parking citations may be towed without notice. Registered owners of the vehicle will be responsible for paying all citations, towing fees, and impound fees prior to the vehicle being released by the impound company.

Parking Fees

Vehicle permits: $35; motorcycle permits: $20. Daily physical permits are available at Anaheim and Wilshire for $2, with cash in the parking pass boxes located throughout the parking areas. Virtual parking permits are available at the Cypress College kiosks for $2 with credit or debit card only.

Bus Passes

Student bus passes are available at any SCE registration counter for students who are enrolled in a minimum of nine (9) hours per week; 30-day passes are available for disabled and senior students; 75- and 120-day passes are available for all students. Passes are sold year round. OCTA provides service to each of our three SCE campuses. For more information, call (714) 636-7433.

Book Information

All three bookstores offer textbooks and supplies available for purchase, in addition to supplemental education materials and supplies. Books and supplies can be purchased at the following campus books stores:

Anaheim Campus Bookstore
1830 W. Romneya Drive,
Anaheim, California 92801
714.808.4675

Cypress College Bookstore
9200 Valley View Street,
Cypress, California 90630
714.484.7336
or online at www.cypresscollegebookstore.com

Fullerton College Bookstore
330 East Chapman Avenue,
2000 Bldg., 1st Floor,
Fullerton, California 92832
We recommend you call and confirm the hours of operation to ensure they are open during the time you plan to make your purchase.

Refund Policy
To receive a refund, a Refund Petition form must be submitted at least two (2) full business days prior to the first class meeting. A $10 processing fee will be deducted from all refunds one time per term per student, except for classes canceled by SCE. Refunds will be processed two weeks after the term begins. No refunds will be given on books. Refund checks to KIDS’ COLLEGE students will be made to the name of the student of record as required by State Education Code regulations. The only other criteria considered for refunds are circumstances in which the course differs from the way it was described in the class schedule, such as incorrect start date, time or wrong location. You may request a credit valid for six months towards any fee-based course. Requests for credits must be submitted prior to the second class meeting of the course being dropped.

Name Changes
Students are encouraged to visit one of the SCE campus registration offices to change a name on a student record. Students must provide a valid photo identification card when requesting a name change.

Holds
SCE will withhold transcripts, registration privileges or any combination hereof from any student or former student who has failed to pay all outstanding fees owed to SCE, Fullerton College or Cypress College (from current or previous terms) or for other administrative reasons.

Class Attendance/Cancellations
Students are expected to attend all classes. Non-tuition classes may be discontinued during the term if attendance drops. Tuition classes will continue according to schedule once they have started.

It is SCE's practice that classes do not normally meet on a weekend following a Friday District Holiday or preceding a Monday District Holiday. If it is necessary for a class to be held on a holiday weekend, this would be an exception to the rule.

Waitlist Procedure
You may petition a closed class by adding yourself to the waitlist during registration in MyGateway. Waitlisted students are accepted into a class as space is available and in the order in which they have been placed on the waitlist. A waitlisted student is not officially registered into the course until they have returned the instructor approval to an SCE registration office.

Additional Seats for Special Programs
To promote matriculation for students in certain Career Technical Education Programs, additional seats may be reserved for students who have declared their intent to complete a program. At this time Pharmacy Technician students may declare their intent to complete the program by returning a declaration form to the registration office. Pharmacy Technician students who return this form at least five (5) business days prior to the start of registration will be eligible for additional seats during registration in the following classes: MEOC 135 - Human Relations for Health Care Workers and MEOC 140 - Pharmaceutical Mathematics.
DSS offers a large variety of special classes and programs for students with disabilities that provide students with a college experience, that focus on skills needed to live, work and get around the community independently. Other programs include Workability III (WAIII), College to Career (C2C), and bus mobility skills training. WAIII and C2C are collaborations with the Department of Rehabilitation (DOR), and the bus mobility program is in collaboration with the Orange County Transportation Authority (OCTA). WAIII is a program to help students with disabilities get jobs. C2C is a program that provides additional support to students with intellectual disabilities who are integrating into general education classes. The final stage of C2C provides job development assistance to students. These additional supports are not mandated services in the community college system.

Students and their families who are interested in DSS should apply to the School of Continuing Education (SCE) on line at www.sce.edu, and then call (714) 484-7057 to schedule an intake. General hours of operation are Monday through Friday from 8 a.m. to 5 p.m.

**Student Success and Support Program (SSSP)**
The Student Success and Support Program (SSSP, formerly known as Matriculation) is a process that enhances student access to the California Community Colleges and promotes and sustains the efforts of students to be successful in their educational endeavors. The goals of SSSP are to ensure that students complete necessary coursework, persist to the next academic term, and achieve educational objectives through the assistance of the following student-direct core services:

- **Orientation**
  Prior to registration, the orientation is designed to introduce students to the School of Continuing Education, program requirements, student support services, and success tips.

- **Assessment**
  The purpose of the assessment process is to provide information regarding basic skill levels and activities necessary for a successful academic experience.

- **Counseling and Advisement**
  Counselors are available to discuss course offerings, career counseling, transfer counseling, and personal counseling (including discussing personal concerns and issues affecting students’ academic progress).

- **Educational Planning**
  Students are encouraged to see a counselor for help planning their courses prior to registration, identifying electives and program requirements, and track academic progress towards program completion.

Student Success and Support Program provides support to students while completing their educational goals. In general, a student goal is defined as a diploma, certificate, employment or career advancement, ESL, or transfer to credit.

**Instructional Support Services Open Labs**

**Basic Skills/Learning Centers**
High School Diploma and Learning Center students receive assistance in gaining skills to attain personal and educational goals by working with faculty, staff, and tutors in small groups or one-on-one in a variety of subjects such as math, grammar, and reading. Computers are available for online instruction and assessment. Students may also enroll in the Learning Center to gain employability skills, receive additional instructional support in diploma subjects as referred by the diploma lab faculty or staff, obtain tutorial support in vocational/career technical education subject areas, and/or prepare for college-level assessments or coursework. Instructional materials, including textbooks, are provided at no cost to students. However, materials are to remain in the labs as they are shared by all students in the classroom.

**Business/Computer Skills Lab**
Students receive assistance while accessing a variety of self-paced courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for speed and accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Introduction to the Internet and World Wide Web. Internet and email access is also available during lab hours.

**English as a Second Language (ESL) Learning Center**
The ESL Learning Center offers an opportunity to practice English through various instructional media. Students learn through ESL software and/or receive individual and group tutoring to improve their speaking, listening, reading and writing skills. Special interest areas such as Vocational ESL and EL Civics are also part of the instruction.

**Commencement Ceremony**
SCE conducts a commencement ceremony in celebration of student accomplishments in the following programs: High School Diploma, Administrative Assistant, Early Childhood Education, Electrical Trainee, Funeral Service Assistant, Management, Medical Assistant (Back Office Only), Pharmacy Technician, and Quality Assurance Management for Medical Devices. The ceremony is held annually near the end of each academic year at the Fullerton High School Stadium.

**Standard Definitions**

**Definition of Hours/Credits**
SCE course work is measured in terms of instructional hours. A noncredit course awarding ten high school credits is designed to require a minimum of 144 hours of lecture, study or laboratory work.

**Definition of a Prerequisite**
When a course has a prerequisite, it means that a student must have certain knowledge to be successful in the course. The prior knowledge may be a skill, ability (i.e. speaks and writes Spanish fluently), a test score, or a successful completion of a prior course (i.e. must have completed MEOC 104 Medical Terminology with a grade of “P”). Completion of the prerequisite or a current enrollment in the prerequisite is required prior to enrolling in the course. Successful completion of a prerequisite course means that a grade of Pass was earned; NP, W, or NG grades are not acceptable.
Definition of Advisory
When a course has an advisory, it means that a student is recommended to have certain preparation before entering the course. The preparation is advantageous to a student’s success in the course but is not required.

Definition of a Career Development and College Preparation (CDCP) Course
Courses identified as CDCP are 1) within a sequence of courses that may lead to improved employability or job placement or 2) recognized in a career field and prepares students for transfer to a four-year institution.

Definition of Apportionment
These classes appear as free but are actually funded by the State. Funding is received for each hour of student attendance. The cost of offering the class is covered by these funds. The class may be cancelled if the attendance falls below the level needed to cover the costs of the class. There are 10 recognized areas in Title V that are eligible for noncredit education apportionment. SCE offers noncredit classes in the following areas:

- English as a Second Language
- Citizenship for Immigrants
- Elementary and Secondary Basic Skills
- Health and Safety
- Parenting
- Older Adults
- Short-Term Vocational

Definition of Year Round Classes
- ESL, DSS, and LEAP Programs
Most English as a Second Language (ESL), Disability Support Services (DSS), and LEAP classes are offered year round and allow students to enroll in an open entry/open exit basis. Initial enrollment into the course remains active until the student stops attending for an extended period of time, at which time they are dropped from the course.
The School of Continuing Education offers quality programs and services for students seeking self-improvement, enhanced earning power, increased literacy skills and access to higher education and employment. For people with busy lives, courses are offered during all hours throughout the week and weekends.

Most classes offered through noncredit programs are free of charge. The School of Continuing Education also offers a wide variety of fee-based community service classes. These include career and professional development programs, seminars and workshops, and special programs for kids and youth.

Some courses may be out of our schedule for a term or two, but you can find something good year-round.

**Basic Skills Labs/ Learning Center**

Learning Centers are open-entry labs where adult students, 18 years of age and older, receive assistance in gaining skills to attain personal and educational goals by working with faculty, staff, and tutors in small groups or one-on-one in a variety of subjects such as math, grammar, and reading. Computers are available for online instruction and assessment. Students may also enroll in the Learning Centers to gain employability skills, receive additional instructional support in High School Diploma subjects as referred by the diploma faculty and staff, obtain tutorial support in vocational/career tech subject areas, and prepare for college level assessments and coursework. GED/HiSet Preparation is offered for adult students at the SCE Wilshire Learning Center. For list of courses, see course descriptions: Adult Basic Education (ABE) and Labs (LABS).

**Business Skills & Opportunities**

See Career Technical Education for more details. For list of courses, see course descriptions: Business Management (BMGR); Business (BUSN); and Finance (FINC).

**Career Technical Education (CTE)**

The Career and Technical Education (CTE) department offers students a variety of short-term certificate programs and single course options designed to prepare for a high-demand career and advance current work skills. CTE programs combine academic knowledge with technical and occupational skills to provide students with pathways to long-term careers and success. Our CTE instructors are leaders in their fields with extensive practical experience to share with students. Much of the growth in current and future jobs will require training beyond high school. Choosing Career Technical Education at SCE means job readiness for a new career or a better position in current work field in two years or less. For list of courses, see course descriptions: Business Management (BMGR); Business (BUSN); Computers (COMP); Construction (CONS); Early Childhood Education (ECE); Electrical (ELET); Funeral Services (FSRV); Medical Occupations (MEDO); Medical Occupations Clerical (MEOC); and Microsoft (MS).

**Computer Applications**

The Computer Applications Program offers courses in the foundational concepts needed to operate personal computer systems. Courses offered include application specific skill development in Microsoft, Adobe and Internet-based software. For list of courses, see course descriptions: Computer (COMP); Computer Lab (CCTR) and Microsoft (MS).

**Disability Support Services**

The School of Continuing Education's Disability Support Services (DSS) provide students with disabilities with a variety of accommodations and support services that minimize the impact of their disabilities on their academic performance. Services include academic, vocational, and personal advisement; test taking assistance; advocacy and referral services; registration assistance; assessment and evaluation; interpreters for the deaf and adaptive technology. Special classes designed to promote the development of independent living and employment skills of individuals with intellectual disabilities are offered. For list of courses, see course description: Disability Support Services (DSS).

**English & Communication**

The English and Communication classes offer a variety of opportunities for the adult student to improve their writing, speaking or presentation skills or gain skills to be a better communicator on the job. Courses such as Communication with the Deaf, Sign Language, and Educational Interpreting also offer pathways to possible future careers. For list of courses see course description: English/Communications (ENCO) and Sign Language (SIGN).

**English as a Second Language (ESL & Citizenship)**

These courses help second language learners improve their English listening, speaking and pronunciation skills in order to reach their career, academic, and personal goals. Classes also incorporate civics education to community members and prospective United States citizens. Specialized strands such as Vocational ESL and ESL for Academic Success are available to the advanced-level students. For list of courses, see course descriptions: English-as-a-Second Language (ESLA) and ESL Education Planning (ESLW).

**Foreign Language**

Foreign Language courses introduce students to basic grammar, pronunciation and vocabulary with special emphasis on auditory comprehension and conversation. Students will broaden their language skills while at the same time experiencing a new culture through various class activities. Special emphasis will be placed on spoken communication while expanding listening, reading and writing skills. For list of courses, see course description: Language (LANG).
GED/HiSET Preparation
Earning a high school equivalency credential is an alternative option for adults to demonstrate their high school competency skills. The Wilshire Learning Center can help students prepare to pass their High School Equivalency Test (HiSET or GED). Lab faculty and staff assist students with preparation in the subject areas of math, science, social studies, reading, and language arts. Test-taking skills such as keyboarding and calculator usage are included in the preparation. Practice tests are administered to assess readiness for the official exams. Assistance in finding and signing up for the official tests is part of the program. At the Wilshire Learning Center, adults are given the opportunity to prepare and demonstrate their high school level proficiency and their readiness for higher education or the workplace. For list of courses, see course descriptions: Adult Basic Education (ABE).

High School Diploma
High School Diplomas are issued by the North Orange County Community College District to adult students, 18 years of age and older, who earn 160 credits by completing the required course of study and demonstrate proficiency in basic skills. The High School Diploma Program operates as an open-entry lab where students work individually and at their own pace on various required subjects. All labs have instructors and staff to assist students with completing their courses. Whole-class or small-group instruction is offered in the major content areas, particularly math and language arts, as well as other subjects as the need arises. Elective credits can be earned in continuing education classes offered though SCE. New students enter the HSD Program through orientation, assessment, and counseling service. Counselors meet with students individually to review assessment scores and transcripts and develop an educational plan of study. High School Diploma Program students are highly encouraged to attend their enrolled high school lab a minimum of ten (10) hours per week to make academic progress in their diploma studies. For list of courses, see course descriptions: Individual High School Subjects (IHSS).

Lifeskills Education Advancement Program (LEAP)
The LEAP Program provides dynamic and responsive life-long learning opportunities to meet the needs of the residents of our diverse community. These are learning opportunities in the areas of vocational training, health and safety, socialization, parenting, enrichment and skill development leading toward personal fulfillment and greater involvement in the community. Both apportionment and fee-based courses are held at various site throughout the district.

- **Family & Consumer Sciences**
  These courses focus on the lifespan of individuals and families developing and functioning in family, work and community settings. Individuals are prepared to balance personal, family and work responsibilities throughout life. Course offerings address the full spectrum of skills necessary to achieve optimal and sustainable living. Courses are offered in the areas of home resource management; parenting and family education; fashion design, clothing production; and hospitality.

  - **Finance and Personal Investments**
    For list of courses, see course descriptions: Accounting (ACCT) and Finance (FINC)

  - **Fashion Design & Clothing Production**
    For list of courses, see course description: Clothing (CC)

  - **Bartending**
    For list of courses see course description: Hospitality Management (HOSM)

  - **Parenting**
    For list of courses, see course description: Parenting (PARN)

- **Fine/Applied Art**
  These courses are dedicated to teaching skills by emphasizing the appreciation and production of works of art placing emphasis on the creative and esthetic principles and technical processes and development of culture. Students are given an opportunity to be artistically expressive including performance in the areas of art and music. The Fine/Applied Arts courses include photography.

  - **Drawing & Painting**
    For list of courses, see course descriptions: Arts and Crafts (ARTC) and Creative Arts (CRAE)

  - **Music**
    For list of courses, see course description: Music (MUSC)

  - **Photography**
    For list of courses, see course descriptions: Photography (FOTO)
- **Kids’ College and Teen Program**
  The Kids’ College and Teen Program is a fee-based program providing enrichment activities outside of the regular classroom experience for children and teens from ages 6 months to 17 years old. Classes are offered to provide academic enrichment, personal improvement or instruction in sports, art or music. Sessions of six to eight weeks are offered four times a year with classes held after school hours, on Saturdays and daily during the summertime. For list of courses, see course description: Kids (KIDS).

- **Mature Driver**
  The DMV approved Mature Driver Improvement Course for individuals 55 or older provides instruction on defensive driving and California Motor Vehicle Laws. Information is provided on the effects that medication, fatigue, alcohol, visual or auditory limitations have on a person’s driving ability. Upon completion, a DMV certificate will be provided to the student, which may qualify the student for reduced motor vehicle insurance premiums. For list of courses, see course description: Safety (SAFE).

- **Older Adults**
  These courses are designed to address the educational needs and interests of older adults (50 years and older but anyone over age 18 may enroll in these courses), focusing on topics that promote independence, advocacy, community engagement, self-maintenance, personal growth, physical and cognitive health, career development and economic self-sufficiency. For list of courses, see course descriptions: Adult Basic Education (ABE); Arts & Crafts (ARTC); Consumer Ed (CNED); Creative Arts (CRAE); Education Enrichment (EDEN); Communication (ENCO); Financial (FINC); Fitness (FITN); Health (HLTH); and Music (MUSIC).

- **Physical Fitness**
  Encompasses classes in physical exercise, dance, and martial arts. All of these are offered as fee-based classes. the variety of offerings provides students with options to start or maintain a fitness program. For list of courses, see course descriptions: Fitness (FITN) and Dance (DAN).

- **Medical**
  See Career Technical Education for more details. For list of courses, see course descriptions: Medical Occupations (MEDO) and Medical Occupations Clerical (MECO).

- **Training, Development and Innovation (TDI)**
  TDI serves as the economic development arm for the District. TDI is a single point of contact for local companies, organizations or individuals seeking technical services or training for their employees throughout North Orange County. Instruction and training includes but is not limited to specialized homeland security, environmental health, workplace safety and hands-on training in digital product design and web development. For list of courses, see course descriptions: Digital (DIG) and/or http://www.tdioc.com

- **Woodshop**
  Cabinet and Millwork prepares individuals to apply technical knowledge and skills to set up, operate and repair industrial woodworking machinery, and to use such machinery to design and fabricate wooden components and complete articles. For list of courses, see course description: Shop (SHOP)
What are CDCP programs? Career Development and College Preparation (CDCP) Programs are sequenced courses resulting in noncredit certificates of completion or competency and leading to improved employability, job placement, and academic skills. CDCP Programs are offered in the areas of short term vocational or workforce preparation, basic skills, and English as a Second Language. Certificate programs are favorably recognized by business and industry and are frequently used as a requirement for professional advancement. Classes are noncredit and do not generate degree applicable college units.

- Quality Assurance Management Certificate for Medical Devices

GED Test Preparation
Program #24258
This program is designed to prepare the adult student to obtain a passing score on the official General Education Development (GED) test. Upon successful completion of this program, the student will be prepared in all five areas of the GED competency requirement. Acquisition of a GED certificate will lead to improved employability and the skills mastered will apply to entry-level college preparation.

Core Courses
- ABE 405 GED: Mathematics 60
- ABE 410 GED: Reading 60
- ABE 415 GED: Science 60
- ABE 420 GED: Social Studies 60
- ABE 425 GED: Language Arts & Writing 60

Elective Courses
- ABE 105 SCE Learning Center 36

Total Program Hours 336

ABE 105
SCE Learning Center
Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.
ABE 405
GED: Mathematics
GED mathematics prepares students to pass the math section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of instruction is basic computation, analytical and reasoning skills, word problems and word problems with graphics.

ABE 410
GED: Reading
GED reading prepares students to pass the reading section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of instruction includes comprehension, fiction, nonfiction, poetry, and drama.

ABE 415
GED: Science
GED science prepares students to pass the science section of the GED test. Sciences covered are life, physical, earth and space. Students learn to analyze and apply science information.

ABE 420
GED: Social Studies
GED social studies prepares students to pass the social studies section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of course covers U.S. history, world history, civics and government, geography and economics.

ABE 425
GED: Language Arts and Writing
GED writing prepares students to pass the language arts and writing section of the GED test. The GED pre-test identifies needed areas of instruction for each student. This course covers the writing process, grammar usage and mechanics.

Literacy Program
Program #24305
The Literacy program is divided into three levels. Each level contains a reading, writing, speaking and listening component which allows the student to develop a complete set of communication skills that will prepare him/her for the workplace, vocational training, or success in academic programs such as GED, high school or college.

Total Program Hours 297

ABE 430
Literacy - Beginning
Designed for students with very limited reading skills. The focus of this course is on decoding skills, fluency and workplace literacy. Sight words and essential word reading are covered.

ABE 432
Literacy - Intermediate
Reading and writing preparation for the workplace or academic advancement. Emphasis on reading for information, vocabulary expansion and good communication skills.

ABE 435
Literacy - Advanced
Reading for information and academic vocabulary. Writing skills necessary for higher education and the workplace such as essays, note taking, job applications, resumes, and business writing.

Braille Transcribing

Braille Transcribing Program
Program #33138
The Braille Transcribing Program is comprised of three classes that prepare students for the Library of Congress Braille Transcriber Certification which is required to be employed as a braille transcriber in public schools. The three sequenced courses are designed to provide the necessary skills to read and produce braille for all levels of educational institutions as well as other community needs.

Total Program Hours 90

ENCO 535
Braille Transcribing: Basic Rules
This class is designed for sighted and visually-impaired persons to learn the basic skills of transcribing print into braille.

ENCO 537
Braille Transcribing: Reading and Writing Contractions
This class is geared for sighted and visually-impaired persons to learn the art of transcribing print into braille at the intermediate level.

ENCO 539
Braille Transcribing: Advanced Symbols and Formatting Manuscripts
This class is geared for sighted and visually-impaired persons to learn the art of transcribing print into braille at the advanced level.
### Business

#### Administrative Assistant Certificate Program

**Program #24174**

Training includes: Keyboarding and Speed Building, Introduction to Computers, Window XP, Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Internet, Email, Customer Service, Communication and Problem Solving, Telephone Techniques, Business Mathematics, Writing Memos, Proofreading and Spelling, Filing, Job Hunting Skills. (Two Trimesters or 24 weeks).

**Total Program Hours** 264

**BUSN 320 Office Skills I**

First in a series of two levels that prepare students for an entry-level position as an administrative assistant. Includes units on the office environment, career opportunities, attitude, human relationships, and work ethics. Textbook required.

**BUSN 321 Office Skills II**

Prerequisite: BUSN 320 Office Skills I. Second in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on telephone procedures, filing and managing records, processing business documents, sending and receiving mail, and managing office activities. Textbook required.

**BUSN 340 Computer Applications for the Administrative Assistant I**

First in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on Keyboarding and Word. Textbook Required.

**BUSN 341 Computer Applications for the Administrative Assistant II**

Prerequisite: BUSN 340 Computer Applications for Administrative Assistant I. Second in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on Windows and Internet. Textbook Required.

**CCTR 100 Business/Computer Skills Lab**

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

---

### Management Program

**Program #24114**

This program will prepare students for first-line supervisory or management positions. Students learn management principles and develop basic skills in decision-making, problem-solving, planning, organizing, speaking and writing. The sequence builds their knowledge base to enhance their effectiveness on the job by covering topics such as leadership development, business law, finance, negotiations, marketing and more. (There are ten required courses, and student must choose one of nine computer electives.)

**Total Elective Hours** 36

**Total Program Hours** 216

**BMGR 410**

**Elements of Supervision**

Provides instruction in communication, problem solving, team building and leadership. Designed for managers in both public and nonprofit organizations.

**BMGR 412**

**Management Skills I**

This course provides an overview of the functions of the management process and its practical applications in a business environment. The course focuses on the planning process and organizing skills, including decision-making, strategic planning, delegating and staffing. Students will learn management principles that provide basic guidelines for supervisory decisions and actions.

**BMGR 415**

**Written Communications for Business**

Provides extensive hands-on experience with all types of written business communications including letters, resumes, cover letters, memos, and reports.
BMGR 417
**Effective Business Presentations**
This course provides instruction and practice in business presentation skills. Students will learn techniques to enhance their ability to speak before any size group with more confidence and communicate their message effectively. Students are encouraged to participate in a video tape exercise for their own assessment of strengths and weaknesses.

BMGR 421
**Successful Negotiations**
Participants will learn, practice, and perfect the skills required for achieving better outcomes in sale transactions, employment and promotion, purchasing, employee cooperation.

BMGR 423
**Introduction to Employment Law**
This course is an introduction to the federal and California state laws governing the relationships between employers and employees. It examines the nature, purpose, and operation of these laws from the perspectives of both the employer and employee.

BMGR 430
**Marketing Principles**
Introduces the student to the marketing principles of product, price, distribution and promotion in support of goods and services. The course will focus on real world application and case studies. The student will learn to apply marketing skills in the development of a marketing plan.

BMGR 431
**Finance for the Non-Financial Manager**
This course introduces students to the basics of business finance for the non-financial manager. Financial statements will be covered along with discussions on sales and expenses, assets and liabilities, budgeting and planning, and financial analysis.

BMGR 452
**Understanding Business Contracts**
This course will provide an overview of contract principles and will explore the meaning, purpose and effect of common contracts clauses, i.e., limitation of liability, warranty and indemnification. Students will learn how to achieve a better contract result by knowing why, when and how to request contract modifications.

BMGR 610
**Management Skills II**
This course focuses on developing management skills in working with individuals and teams to promote productivity, quality and innovation. Topics include employee performance appraisal, performance management, work groups, and the control process for keeping people, plans and programs on track.

COMP 100
**Introduction to Computers**
Designed for those who know nothing or very little about computers. Builds computer technology understanding, makes one a better consumer of computers and products, and explores operation systems, software and hardware. Provides foundation for other SCE computer classes.
Computers

Advanced Office Applications Program
Program #24176
This certificate program will prepare students for a professional level office environment in administrative work. Students completing this program will be successful in a mid-level office environment requiring stronger knowledge of spreadsheet, database, and planning at an administrative support level.

CCTR 100
Business/Computer Skills Lab
Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

COMP 645
Integrated Computer Projects
Designed for those who want to apply the knowledge they have gained from previous computer classes. See how those skills can be put to work in real world simulations! Capstone course for students who have already learned the basics of computer usage. Recommended proficiency in: Introduction to Computers, Discover the Internet, MS Office Overview or equivalent.

MS 107
Intermediate Access
Learn how to build and modify advanced tables, forms and reports. Develop proficiency in use of encrypting database files, defining relationships and defining queries. Text/disk required. Recommended proficiency in: Introduction to Computers, Introduction to Windows, Introduction to Access or equivalent.

MS 134
Intermediate Word
Advisory: Introduction to Computers, Introduction to Windows, Introduction to Word or equivalent. This continuing course covers features such as mail merging, styles and templates, large documents and WordArt. Textbook purchase may be required at first class.

MS 165
MS Excel - Power-User Skills
Advisory: MS 105 Introduction of Excel or equivalent. This course is for people who are comfortable using MS Excel and who want to develop "power skills". Topics include computational techniques (defining names, nested IF functions, summarizing data), using Excel's database tools (tables, database operations, lookup functions), and expert skills (conditional formatting, macros). Also covered are advanced formatting techniques and shortcuts for accelerating productivity.

Fundamental Computer Concepts & Skills Program
Program #24414
This certificate program will prepare students to work in an entry-level office environment performing tasks such as basic data entry, word processing, research utilizing the Internet, and basic computer operation suitable for working in a business environment. Students completing this program would have the basic computer skills to be successful in an entry-level clerk or general office support position.

CCTR 100
Business/Computer Skills Lab
Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

COMP 100
Introduction to Computers
Designed for those who know nothing or very little about computers. Builds computer technology understanding, makes one a better consumer of computers and products, and explores operation systems, software and hardware. Provides foundation for other SCE computer classes.

COMP 105
Discover the Internet
A hands-on overview of Internet concepts, Web browsing using Internet Explorer; email, newsgroups, FTP, netiquette, security issues, research, and more. Hands-on including on-line browsing. Recommended proficiency in: Introduction to Computers or equivalent.

MS 104
Introduction to Windows Operating System
Advisory: Knowledge of Windows. Learn the newest Windows operating system; includes desktop and file management, security, adding hardware and software, personalizing Windows XP, making connections and communicating with other people.

MS 156
Computer Bytes
This course covers various topics for Microsoft Windows on how to buy or upgrade a computer, buy and use a digital camera, use a scanner, create a slide show, and set up a home wireless network safely.

MS 160
MS Office - Overview
Advisory: Knowledge of Windows and keyboarding. Learn the basics of Word, Excel, PowerPoint and Access in one class. Topics include document formatting, working with graphics, basic formulas, queries and reports. This class serves as a foundation for other MS Office Courses.
## Fundamentals for Financial Office Applications Program
**Program #24032**

Students may take this additional training for obtaining employment in a financial office work environment and enhancing their marketability.

### COMP 650 QuickBooks Fundamentals for the Financial Office Applications

Teaches students the basics of using the QuickBooks software to develop customized financial application for business. The course covers special techniques for reducing data entry time, eliminating errors and getting consistent results. Upon completion students will understand the basics of QuickBooks to simplify financial tasks.

### COMP 655 MS Word Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple documents with Microsoft Word in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include memos, lists, letters, resumes and signs.

### COMP 660 MS Excel Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple spreadsheets with Microsoft Excel in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include an address list, budget, and inventory tracking sheet.

### COMP 665 MS PowerPoint Fundamentals for the Financial Office Applications

This brief course covers the essentials to creating simple presentations with Microsoft PowerPoint in a financial office environment. An excellent course for beginners or those who need to know the basics. Topics will include animations, transitions and slide shows. Learn how to create a professional-looking slide show without designing each slide from scratch!

### COMP 670 Create PDFs with Adobe Acrobat

Learn the standard for sharing documents online! Create PDF files using Adobe Acrobat. Protect documents, create forms, and combine multiple files with Adobe Acrobat.

## Graphic, Design and Web Skills Program
**Program #32943**

This certificate program will prepare students to work in an entry-level graphic design/web development position performing such tasks as editing a simple website, creating and optimizing digital images, cataloging and retrieving digital files.

### CCTR 100 Business/Computer Skills Lab

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

### COMP 119 Adobe Photoshop Elements

Advisory: Knowledge of Windows. Utilize photo editing software to enhance graphic design capabilities. This class introduces tools used by professional designers in an easy to use, powerful, digital image editing program. Textbook may be required.

### COMP 121 Digital Photo Albums for Beginners

Advisory: MS 104 Introduction to Windows Operating Systems and COMP 105 Discover the Internet. Learn how to import photos from various sources; organize and manage photos; perform basic editing functions of photos, email photos and share albums; create slide shows and video CDs; and create cards, calendars, albums, and a photo book. Textbook may be required.

### COMP 675 Digital Scrapbooking

Advisory: Knowledge of Windows and Photoshop or Photoshop Elements. Scrapbooking is a 2.5 billion dollar industry in the United States. Computerized graphic design is dramatically transforming the industry. Digital scrapbooking skills are important for anyone working in the graphic design field. Learn the design essentials of professional digital scrapbooks, hardware and software requirements, and the creation of graphic elements.

### COMP 705 Digital Photo Restoration and Portrait Makeovers

Advisory: COMP 119 Adobe Photoshop Elements and knowledge of Windows for photographers and scrap bookers who want to advance their skills to repair old photos and touch up portraits. Topics include repairing scratches and tears on old photos; fixing hair, teeth, skin, red eyes, and blemishes; enhancing photos; combining images; creating backgrounds and frames; and selecting photo papers. Textbook required.
Office Application Essentials Program
Program #24346
This certificate program will prepare students to work in an entry level office environment performing tasks such as basic word processing, spreadsheet, database and other essential business software applications. Students completing this program would have the basic computer administrative support position.

Enjoy free, flexible scheduling for a variety of courses: Office Keyboarding, Data Entry, 10-Key, Typing/Keyboarding for Speed and Accuracy, Windows XP, MS Office (Word, Excel, Access, Outlook, PowerPoint), Intro to Internet and World Wide Web, internet access and free email!

MS 105 Introduction to Excel
Provides a basic working knowledge of this popular spreadsheet program. Covers topics such as formulas, functions, and charting.

MS 106 Introduction to Access
Advisory: Introduction to Computers, Introduction to Windows or equivalent. Design databases using this popular software package. Includes creating tables, forms, reports and labels.

MS 119 Introduction to PowerPoint
Advisory: Knowledge of Windows. Learn how to create on-screen presentations using text, graphics, sound effects and movies.

MS 143 Introduction to Publisher
Advisory: Recommended proficiency in COMP 100 Introduction to Computers and MS 104 Introduction to Windows. Provides a basic working knowledge of this popular desktop publishing program. Covers topics such as flyers, newsletters, and business cards.

MS 144 Introduction to Word
Advisory: Introduction to Computers, Introduction to Windows or equivalent. Provides a basic working knowledge of Word. Covers topics such as formatting with fonts, paragraph alignment, indents, margins, inserting clip art bullets and numbering, columns and tables.

MS 160 MS Office - Overview
Advisory: Knowledge of Windows and keyboarding. Learn the basics of Word, Excel, PowerPoint and Access in one class. Topics include document formatting, working with graphics, basic formulas, queries and reports. This class serves as a foundation for other MS Office Courses.

Construction

Construction Technology - Electrical Program
Program #24033
This program will prepare students to work in an entry-level position in the construction field assisting with the electrical installation and repair of electrical wiring in buildings.

Core Courses | Hours
--- | ---
ELET 102 Basic Electricity | 48
CONS 100 Electrical Wiring & Safety I | 36
CONS 101 Electrical Wiring & Safety II | 36
CONS 142 Electrical Wiring & Safety III | 36

Total Program Hours 156

ABE 105
SCE Learning Center
Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

CONS 100 Electrical Wiring and Safety I
Covers basic electrical theory, terms, residential wiring techniques, grounding, basic switching circuits, residential load calculations and services. Based on current National Electrical Code (NEC).

CONS 101 Electrical Wiring and Safety II
Course covers commercial wiring, conduit systems, over-current protection, polyphase distribution, grounding, voltage-drop equations and lighting. Based on the current National Electrical Code (NEC).

CONS 142 Electrical Wiring and Safety III
Course covers industrial wiring, conduit systems, over-current protection, transformer circuits, electrical motors, motor repairs, motor control circuit, and electrical installations. Based on Current National Electrical Code (NEC) trips to various electrical installations.

ELET 102 Basic Electricity
Course starts with basic electricity and progresses into residential wiring in accordance with the National Electrical Code (NEC). Students learn how to obtain an electrical contractor's license. Supplies purchase required as specified by instructor.
### Construction Technology - General Contracting Program

**Program #24087**

This program will prepare students to enter the business of general contracting for residential buildings and/or subcontracting (trade specific). Topics covered include State licensing and experience requirements; financial and legal aspects of the contracting business; residential construction fundamentals; and project management.

<table>

---

**CONS 121  Contracting License**

This course is designed for students interested in exploring career opportunities in general contracting and subcontracting, current contractors interested in enhancing their business and law skills, and students who want to prepare for the California Contracting License Examination by the Contractors State License Board (CSLB).

**CONS 138  Room Addition Fundamentals**

This course covers the fundamentals of residential construction and the sequence of events that take place for a room addition. This includes preparing the required plans, obtaining city building permits and communicating with city building inspectors. The course will also cover project management and legal considerations.

---

### Electrical Trainee Program

**Program #31327**

This program will prepare students to work in an entry-level position in the construction industry assisting with the electrical installation and repair of electrical wiring in buildings. Students will receive an overview of the construction industry with a focus on the career path of an electrical trainee. Topics include safety; construction math; tools and materials handling; electrical theory; code requirements and application for residential, commercial and industrial wiring; prints and specifications.

**ACE 105  SCE Learning Center**

Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

**CONS 121  Contracting License**

This course is designed for students interested in exploring career opportunities in general contracting and subcontracting, current contractors interested in enhancing their business and law skills, and students who want to prepare for the California Contracting License Examination by the Contractors State License Board (CSLB).

**CONS 230  Introduction to Blueprint Reading**

An introduction to blueprint reading using a fundamental approach, this course will familiarize trainees with basic blueprint terms, components and symbols. Trainees will learn the different types of blue print drawings (civil, architectural, structural, mechanical, plumbing/piping, and electrical) and how to interpret and use drawing dimensions.

**ELET 140  Introduction to Electrical Trainee**

Course provides an overview of the construction industry with focus on the career path of an electrical trainee. Students will learn about the skills needed to launch a successful career in the electrical trade. Topics include safety, construction math, tools and materials handling, job site management, and State Certification requirements for electricians.

**ELET 145  Electricity Fundamentals**

Prerequisite: ELET 140 Introduction to Electrical Trainee. Course covers basic electrical concepts, including electrical measurements, basic electrical theory, and an understanding of how common electrical components work. Course provides a basis for understanding electrical safety concepts.

**ELET 150  Wiring Fundamentals: Residential**

Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to residential wiring. Topics include electrical standards, residential wiring techniques, grounding, basic switching circuits, residential load calculations, and electrical services in accordance with the NEC.

**ELET 160  Wiring Fundamentals: Commercial**

Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to commercial wiring. Topics include commercial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, and voltage-drop equations and lighting sources in accordance with the NEC.
ELET 170
**Wiring Fundamentals: Industrial**
Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to industrial wiring. Topics to include industrial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, electrical motors, motor circuit conductors, motor control circuits, and electrical power installations in accordance to the NEC.

---

Disability Support Services

Employability Certificate
Program #24065
This sequence provides skills necessary to enhance employability of students with disabilities. It offers a foundation of basic skills that increase the direct and indirect job skills necessary for obtaining and maintaining employment. Among the skills that students will develop are the ability to: communicate effectively on the job; locate job opportunities; problem solve; set goals; remain safe; utilize transportation resources to and from work; manage personal finances; use computer technology; develop and maintain appropriate interpersonal relationships; and advocate for personal rights. Counselors provide accommodations and services to assist students throughout their time in the program. A job transition specialist refers students to appropriate employment opportunities and agencies. In addition, the program maintains relationships with vocational agencies and employers that enhance students’ opportunities for obtaining employment.

Total Program Hours: 1302

DSPS 114
**Relationships and Sexuality Training**
A class geared for students with developmental or learning disabilities that is designed to provide a comprehensive and meaningful overview. The course strives to build healthy, safe sexual attitudes, behaviors, and relationships consistent with personal values.

DSPS 121
**Computer-Assisted Instructional Lab**
Designed for students with disabilities to provide instruction in computer operation, word processing and the use of adaptive computer equipment.

DSPS 130
**Bill Paying and Banking**
This class is designed for adults with developmental disabilities and learning disabilities who want to learn how to maintain a checking account. This is an introductory class that teaches banking vocabulary and step by step on how to open and manage a checking account. Students will be required to use the Quicken software program for balancing their checking account.

DSPS 133
**Self-Advocacy**
Instruction designed for students with developmental or learning disabilities to enhance advocating for self in everyday life situations.

DSPS 137
**Job Skills**
Designed for students with developmental or learning disabilities to help recognize and achieve potential as independent members of the community. Lecture, lab, and field experience are combined to provide the student with a comprehensive and meaningful educational experience.

DSPS 138
**Communication on the Job**
A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will include activities to enhance written and verbal skills.

DSPS 140
**Social Skills**
This course is designed to give students with developmental and learning disabilities an overview of appropriate social skills at school, work, and in the community. Through examples in their own lives as well as instructional materials various areas social skills challenges will be explored, any necessary coping strategies taught.

DSPS 150
**Critical Thinking**
Designed to assist adults with disabilities in acquiring or improving critical thinking skills necessary to function independently in a variety of activities, situations, and environments. Emphasis on problem solving and decision making through understanding and evaluating situations, utilizing knowledge of cause and effect relationships, exploring options, and planning and implementing strategies.

DSPS 155
**Mobility Skills**
A class designed for students with disabilities to enhance independence by introducing safe practices and knowledge for using public transportation.

DSPS 175
**Personal Safety**
This course is designed to introduce students with developmental disabilities to personal safety awareness. Students with disabilities will be presented with proactive steps to take to avoid dangerous situations in the community and at home. Students with disabilities will also be presented with basic techniques for self-defense and first aid.

---

25
DSPS 180
**Beginning Banking**
This class is for students with disabilities who want to learn how to spell money amounts, fill out a check, make a deposit, record checks and deposits in a check register, and record ATM transactions in a register. This class would be beneficial for students who want to learn the basics of banking, who need practice with the basics of banking, or who are new and would like to take the Banking for Apartment Living class.

**Workplace Preparation Program #24250**
This sequence provides skills necessary to enhance employability of students with disabilities. It offers a foundation of basic skills that increase the direct and indirect job skills necessary for obtaining and maintaining employment. Among the skills that students will develop are the ability to: locate job opportunities; problem solve; set appropriate vocational goals; develop a budget and manage personal finances with the use of computer technology. Counselors provide accommodations and services to assist students throughout their time in the Program. A Job Transition Specialist refers students to appropriate employment opportunities and agencies. In addition, the Program maintains relationships with vocational agencies and employers that enhance students’ opportunities for obtaining employment.

**DSPS 260 Introduction to Checking Accounts**
A quick-paced course designed to provide students with disabilities with basic banking skills including writing checks and depositing paychecks.

DSPS 265
**Exploring Your Occupational Path**
This course is intended to assist adults with disabilities in establishing a clear and realistic occupational goal. Students will assess their interests and abilities in order to establish attainable objectives to achieve their goal. Students will also explore resources for seeking employment in their chosen occupational field.

DSPS 270
**Work Attitudes and Employer Expectations**
This course is intended to prepare students for successful employment by introducing them to appropriate on-the-job behavior, communication, attitude and work ethic. Students will also be introduced to the importance of workplace safety and customer service.

**DSPS 275 Paying Bills**
A quick-paced course designed to provide students with disabilities with basic money management skills including use of an ATM and bill paying.

DSPS 280
**Landing a Job**
This course is designed to introduce students with disabilities to filling out and submitting both written and online job applications. This course will also introduce students to effective job interview preparation, technique and attire.

DSPS 285
**Budgeting for Apartment Living**
A quick-paced course designed to provide students with disabilities with money management skills for employed students living in their own apartment.

**Early Childhood Education**

**Early Childhood Education Program Program #24404**
This program is designed to train individuals for teacher and caregiver positions in licensed, proprietary infant/toddler/preschool/child daycare center. Curriculum is approved by the State Department of Community Care Licensing. (There are five required courses, and student must choose two of seven electives.)

**Total Program Hours** 276
ABE 105  
_SCE Learning Center_  
Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

ECE 100  
_Child Health and Safety_  
For teachers and directors of pre-schools, this course will focus on the skills and knowledge needed for developing emergency plans and responding to health and safety issues in the classroom.

ECE 108  
_ECE Program Principles and Practice_  
Course examines the history, basic principles, and philosophies of various types of early childhood programs, emphasizing the role of the adult and characteristics of quality programs. This course is part of a program approved by the California Department of Social Services, Community Care Licensing, for employment in private facilities only.

ECE 112  
_Language Arts and Literacy in Early Childhood_  
This course examines the teacher's role in promoting and facilitating children's emerging literacy and language development through the use of storytelling, books, songs, flannel board stories and puppetry. This course is part of a program approved by the California Department of Social Services for employment in a private facility.

ECE 116  
_Program Music & Movement_  
Explores areas of music and movement appropriate to child's development through participating and experimenting.

ECE 130  
_Program Science & Math_  
Plan, organize and implement activities that help children develop skills, appreciation and enthusiasm for science and math.

ECE 132  
_Program Creative Experience_  
Student awareness and application of materials appropriate for preschool art activities.

ECE 136  
_Family Community Relationships_  
Examination of the sociological relationships between family and society; institutional, racial, social, and economic factors affecting the family and the child.

ECE 140  
_Early Childhood Development_  
Intro to age-related child growth, development, learning characteristics, self-concept, mechanics and techniques of positive learning.

ECE 165  
_Children with Special Needs_  
This course offers a broad study of children with special needs and early childhood education as it relates to inclusion. This course covers federal and state laws and regulations, terminology and definitions, appropriate practices and intervention. This course is part of a program approved by Department of Social Services, Community Care Licensing.

ECE 170  
_Introduction to Curriculum for Early Childhood Education_  
Prerequisite: ECE 140 Early Childhood Development. This course provides the foundation for curriculum planning, implementation, observation, assessment and evaluation. Emphasis includes modalities, learning styles, environments, activities, schedules, routines and adaptations to facilitate learning for all children. This course is part of a program approved by the California Department of Social Services for employment in private facilities.

ECE 175  
_Infant-Toddler Care_  
This course explores the theories, principles and practices of an infant/toddler program. Content includes respectful, responsive care giving, licensing and regulation issues, and enriching, safe, healthy developmentally appropriate environments. This course is part of a program approved by the California Department of Social Services for employment in private facilities.

---

**Electronics**

Electronics - Consumer and Computer Program  
Program #24405  
This program will prepare students to work in an entry-level position in a small electronics business assisting in the repair and/or sales of electronic equipment including home entertainment equipment and computers.

ELET 100  
_Basic Electronics for Video, Audio and Computer_  
This course offers the fundamentals of basic electronics, including electronics theory with a focus on analog electronics. Students receive practical lab experience to understand and troubleshoot circuits. This course is a starting point for students preparing for a career as an electronic technician.
ELET 112
Electronic Service Technology
Prerequisite: Basic electronic knowledge. Course reviews AC/DC theory and basic electronic circuits. Learn to use electronic test equipment and hook up home entertainment equipment. Proceed with testing, troubleshooting and preventive maintenance for radio, TV, VCR, microwave and DVD/CD player. Purchase of small electronic kit as specified by instructor required. Basic knowledge of electronics recommended.

ELET 116
Personal Computer Repair, Beginning
Covers the fundamentals of computer repair and maintenance through the study of theory, terminology, troubleshooting of IBM compatible personal computers and hands-on training.

ESLA Academic Success
Program #24293
The ESL Academic Success Program is a fully-integrated program that bridges ESL classes with college, high school, the GED, and vocational training programs. The goal is to prepare students to function successfully in a variety of academic settings. The program will offer high-level ESL courses as well as student services including but not limited to counselor-led workshops, assistance with college application, and field trips.

The students will learn how to take notes, build vocabulary, write research papers, and participate in academic discussions. The basics of time and stress management, financial aid, and college orientation are embedded in the course outlines and presented in the workshops.

ESLA Beginning
Program #24211
ESL Beginning is an articulated sequence of courses designed to equip students with the basic language and cultural proficiencies required for fulfillment of personal, vocational, and academic goals. The courses integrate language acquisition (linguistic competence) with relevant life experiences (sociolinguistic competence) stressing the importance of critical thinking, problem solving, and self-sufficiency including learning strategies, i.e. how to learn on your own outside of class (strategic competence). The sequence is articulated in terms of progressing levels of language skills and informational content. Vocational skills for the ESL Beginning sequence include handling basic routine work situations that combine oral directions and demonstration. Academic skills include getting limited meaning from printed materials and generating basic short sentences.

ABE 105
SCE Learning Center
Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style.

ESLA 001
ESL Learning Center
The ESL Learning Center offers an opportunity to practice English through various instructional media. Students learn through ESL software and/or receive individual and group tutoring to improve their speaking, listening, reading and writing skills. Special interest areas such as Vocational ESL and EL Civics are also part of the instruction.

ESLA 100
ESL Beginning Literacy
This course is designed for language learners who possess limited or no proficiency in English. It develops students’ ability to recognize basic language functions and forms. Students will also practice basic penmanship.
ESLA 120
Family Literacy
The course focuses on incorporating reading and literacy as a fundamental component of a healthy, well-functioning family. The family-oriented assignments integrate school and home.

ESLA 200
ESL Beginning Low
The course content integrates language functions and forms with informational sources, skills, and topics. Topics may be general or vocational, such as personal identification, weather, money, job titles, following simple instructions. Among informational sources the topics may include: lists, signs, schedules, calendars and advertisements.

ESLA 300
ESL Beginning High
The course integrates language functions and language forms with informational sources, skills and topics such as housing, transportation, emergencies, health, job skills, and job safety.

ESLA Intermediate / Advanced
Program #24179
ESL Intermediate/Advanced is an articulated sequence of courses designed to equip students with the high-level language and cultural proficiencies for fulfillment of personal, vocational, and academic goals. The courses integrate language acquisition (linguistic competence), relevant life experiences (sociolinguistic competence), critical thinking, and, learning strategies, i.e. time management and basics of research (strategic competence).

The sequence is articulated in terms of progressing levels of language skills and informational content. Upon exit, students will have the ability to use English to meet social, academic, and vocational demands of the society. They will function effectively in situations that require interaction with the public and following written instructions in technical work manuals, and will have sufficient language skills to enter higher educational institutions: community colleges and technical schools.

ESLA 400
ESL Intermediate Low
The course integrates language functions and language forms with informational sources, skills and topics such as housing, transportation, emergencies, and health, job skills and job safety.

ESLA 500
ESL Intermediate High
The course integrates language functions and language forms with informational sources. Students will improve their proficiency by acquiring new vocabulary related to specific topics and by learning appropriate grammatical structures.

ESLA 600
ESL Advanced
This course integrates language functions and forms with informational sources and topics. Students will improve their proficiency by acquiring new vocabulary related to specific topics relevant to students’ lives and experiences. Language skills such as listening and reading comprehension, speaking and writing are incorporated in the class activities.
ESL Oral Communication Skills
Program #24062
The goal of this sequence of courses is to develop students' receptive language skills of listening and productive skills of speaking to communicate effectively in a variety of contexts, including academic and vocational. The pronunciation instruction focuses on intelligibility so that students can meet communication demands of a particular job or academic program. Communication strategies include ability to adjust one's speech to be understood and ability to sustain formal and informal conversations on practical, academic, and social topics.

Students will use acquired skills in the context of theatrical performance and oral interpretation in pre-academic setting. This includes knowledge of specific terminology, comprehending short lectures, interpreting a play, and building social skills and confidence necessary for public speaking.

By completing the Drama for Communication or Reading Out Loud course, students may earn credits towards obtaining a High School Diploma.

Total Program Hours 177

ESLA 802
ESL Pronunciation/Conversation Skills
This course is designed for intermediate to advanced ESL learners to improve conversation and pronunciation skills in English. It is recommended that participants have English language skills at a Beginning High level.

ESLA 805
Drama for Communication
This ESL course builds students' reading, speaking, and pronunciation skills in the context of theatrical performances. Students will examine human experiences and cultural norms through imagined roles and expand creative thinking. Students will learn history and terminology of the performing arts and build social skills and confidence necessary for public speaking.

ESLA 809
American Idioms
Students will become familiar with common American English idioms, their meanings and uses and demonstrate the application of idioms to everyday situations. In addition, students will learn the skills of deducing the meaning of the new vocabulary from context and become more comfortable sharing their opinions and experiences while practicing the target idioms.

ESLA 814
Intermediate Vocabulary Review
Students will review, expand, and retain vocabulary words and phrases organized by commonly used topics. Students will work on using approximately twenty-five practical target words per class in oral and written exercises. This course is designed for the ESL students placed in the Intermediate Low, Intermediate High, and Advanced levels.

ESL Work Readiness
Program #24063
ESL Work Readiness sequence of courses is offered before employment and focuses on developing SCANS - language and technology literacy skills needed to obtain employment. Computer skills for ESL courses focus on improving language skills through computer applications tasks using MS Office Suite, online resources, and presentation programs. The sequence of courses ends with the Intermediate/Advanced Work Skills course focusing on managing resources, developing interpersonal skills, as well as understanding and improving systems.

This sequence of courses develops foundation skills needed for successful employment, such as, basic language and math skills, thinking creatively, making responsibility, self-esteem, sociability, self-management, and integrity.

Total Program Hours 108

ESLA 801
Computer Skills for ESL, Beginning
The course introduces ESL students to hands-on exploration and use of current Microsoft Windows programs. Students will learn basic computer parts, keyboarding, and the basics of MS Word, PowerPoint, Print Shop, and Excel. Emphasis is on building confidence in computer use to improve English skills in grammar, vocabulary, writing, speaking, pronunciation, and reading.

ESLA 808
ESL Intermediate/Advanced Work Skills
This ESL course covers basic job-search and workplace survival language skills while building necessary computer and critical thinking skills for students who are at an intermediate level or higher. Emphasis is on understanding basic principles of getting a job as well as wages, benefits and concepts of employee organizations. Students will practice work-related safety standards and procedures and demonstrate effective use of common workplace technology and systems. Students will acquire skills of how to communicate effectively and manage workplace resources.

ESLA 815
Computer Skills for ESL, Advanced
Students will enhance their English language skills through challenging computer application tasks using MS Word, PowerPoint, Print Shop, Excel, the Internet, and MS Publisher. Emphasis is on building confidence in independent projects to improve English skills in grammar, vocabulary, writing, and reading. Students will be actively involved in computer projects linking the academic environment with their communities.
ESL Written Communication Skills
Program #24117
The goal of this sequence is to develop students’ receptive skills of reading and productive skills of writing to communicate effectively in a variety of contexts, including academic and vocational. Competency-based reading instruction includes survival literacy addressing students’ day-to-day needs, document literacy needed to understand charts, tables, bills, etc., quantitative literacy containing numeric information, and prose literacy focusing on understanding extensive texts like vocational manuals, literature pieces, short academic passages, periodicals, etc.

The goal of the writing instruction is an independent writer equally successful in an academic or job-related setting. Students will use acquired skills in pre-academic setting of the ESL and the Arts course, which will include writing a research paper, an essay, and preparing a PowerPoint presentation. By completing the ESL and the Arts course, students may earn credits towards obtaining a High School Diploma.

ESLA 804

**ESL and the Arts**
This course builds students' reading comprehension, writing, and speaking skills in the context of thematic and aesthetic exploration of arts. Students will identify common artistic themes while comparing and contrasting a variety of aesthetic forms, styles, and periods. This interactive course includes visiting museums, watching performances, and listening to guest speakers.

ESLA 813

**Intermediate Grammar Review**
Students will learn to understand grammar structures in various contexts and practice using them in both oral and written communication. This class supplements core ESL courses or works as a stand-alone course. This course is designed for the ESL students placed in the Intermediate Low, Intermediate High, and Advanced levels.

ESLA 810

**Writing and Reading**
This ESL course emphasizes reading comprehension skills while building vocabulary and critical thinking skills for students who are at an intermediate level or high. In addition, the writing component is designed to acquaint students with writing skills required to develop college-level writing techniques by focusing on prewriting, outlining, drafting, revising and editing.

Workplace Vocational English as a Second Language: Administrative Assistant
Program #24115
This VESL sequence of courses focuses on the language needs of the students who are currently enrolled in the occupational training as well as the students pursuing a career of an Administrative Assistant. The goal is to prepare students to function successfully in academic or workplace setting by introducing them to the field terminology and job-related language skills. Special emphasis is on business writing skills, oral communication strategies, and conflict resolution techniques.

Students will also obtain necessary skills and confidence needed to find a job, managing resources, developing interpersonal skills, as well as understanding and improving system.

**ESL Intermediate/Advanced Work Skills**
This ESL course covers basic job-search and workplace survival language skills while building necessary computer and critical thinking skills for students who are at an intermediate level or higher. Emphasis is on understanding basic principles of getting a job as well as wages, benefits and concepts of employee organizations. Students will practice work-related safety standards and procedures and demonstrate effective use of common workplace technology and systems. Students will acquire skills of how to communicate effectively and manage workplace resources.

ESLA 1030

**Vocational English as a Second Language: Administrative Assistant**
This ESL course provides students with necessary language skills to succeed in the vocational administrative assistant programs, thereby bridging the gap between standard ESL and VESL coursework. The course also focuses on preparing students to interact in real-life office situations.
Workplace Vocational English as a Second Language: Early Childhood Education
Program #24292
This VESL sequence of courses focuses on the language needs of the students who are currently enrolled in the ECE programs as well as the students who have completed the occupational training and pursuing a career of a preschool instructor. The goal is to prepare students to function successfully in the ECE academic or workplace setting by introducing students to the field terminology and building effective oral and written communication strategies in real-life situations.

Students will also obtain necessary skills and confidence needed to find a job, managing resources, developing interpersonal skills, as well as understanding and improving systems.

Funeral Service

**Funeral Service Assistant Certificate Program**  
Program #33698
This program serves as an introduction to the theoretical and practical knowledge required for professional licensure. It will help individuals determine their level of interest in the funeral service industry and in more formal vocational training in Mortuary Science. This program will prepare students for an entry-level position as a Funeral Service Assistant. The program consists of a sequence of courses that prepares students with the knowledge and skills needed to perform the tasks of a funeral service assistant such as placing casket in parlor or chapel prior to service; arranging floral offerings or lights around casket; directing or escorting mourners; closing casket; and issuing and storing funeral equipment. It is not intended as a substitute for the Associate in Science – Mortuary Science program, licensing or certification requirements, which include an apprenticeship, but would provide students a more realistic expectation of the rigors of funeral service practice that will lead to employment as a Funeral Service Assistant and/or a pathway to the Cypress College Mortuary Science Associate in Science degree program.

**Core Courses** | **Hours**
--- | ---
MEOC 210 Introduction to Computers for Health Care Workers | 48
FSRV 100 Introduction to Funeral Service Practice | 60
FSRV 110 Communication Skills for the Funeral Assistant | 60
FSRV 125 Funeral Service Practices and Procedures I | 60
FSRV 120 Funeral Service Operations | 60
FSRV 126 Funeral Service Practices and Procedures II | 60

**Total Program Hours** | 348

---

FSRV 100  
**Introduction to Funeral Service Practice**
This course is an introduction to the funeral service profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, funeral service settings, mortuary law, and communication skills.

FSRV 110  
**Communication Skills for the Funeral Assistant**
This class will prepare the student to provide support to client families in grief, bereavement, and mourning, and communicate effectively with the public. Topics include an exploration of cultural differences in grief and funeralization practices, as well as the diversity of religious beliefs impacting disposition options.

FSRV 120  
**Funeral Service Operations**
This course introduces students to funeral service practices and procedures in preparation for entry-level positions in the funeral home. These include funeral service assistant, receptionist, mortuary representative, transfer personnel, funeral director assistant, and pre-need salesperson. Students review historical funeral service practices, funeral service price lists, and service arrangements.
FSRV 125
Funeral Service Practices and Procedures I
This course introduces students to the sociology of funeral service practice. It is designed to develop the necessary skills for arranging religious funeral ceremonies, conducting funeral and memorial services, and assisting in the disposition of human remains including cremation and scattering. Funeral service merchandise options are also covered.

FSRV 126
Funeral Service Practices and Procedures II
This course provides students with experience related to administrative and managerial funeral directing. Students will explore the necessary skills required to operate within the funeral home, including advertising and public relations, marketing and merchandising, and compliance with applicable laws, rules, and regulations.

MEOC 210
Introduction of Computers for Health Care Workers Image
Prerequisite: COMP 685 Beginning Keyboarding or Typing 30 words per minute. This course is an introduction to computers for individuals entering the health care field. This course provides a general introduction to computer literacy and information technology for health care students. The course provides a comprehensive survey of the interconnections of information technology and health care.

Medical Assisting Program
Program #30422
This program will prepare students for an entry-level position as a medical assistant in a front office (administrative) and back office (clinical setting). The program consists of a sequence of courses that prepares students with the knowledge and skills needed to perform the tasks of a medical assistant in keeping the offices of physicians, podiatrist, chiropractors, and other health practitioners running smoothly.

Core Courses Hours
MEDO 260 Introduction to Medical Assisting 48
MEOC 210 Introduction of Computers for Health Care Workers 48
MEOC 104 Medical Terminology 48
MEDO 115 Medical Assisting: Front Office Procedures 36
MEOC 112 Medical Insurance Billing: A Practical Approach to Medical Billing 72
MEDO 235 Medical Assisting: Back Office Procedures I 80
MEDO 240 Medical Assisting: Back Office Procedures II 80

Total Program Hours 412

MEDO 115
Medical Assisting: Front Office Procedures
Prerequisite: MEDO 260 Introduction of Medical Assisting and COMP 685 Beginning Keyboarding. This course introduces students to medical office procedures in preparation for entry-level positions in the front office or reception area of a medical facility. These include medical data entry. Students review reception techniques, patient records and insurance forms. Keyboarding experience advised.

MEDO 235
Medical Assisting: Back Office Procedures I
Prerequisite: MEOC 104 Medical Terminology and MEDO 260 Introduction to Medical Assisting. This course introduces students to the back office, clinical duties of the medical assistant. It is designed to develop the necessary skills for performing exam room procedures, including medical asepsis and infection control; patient intake; vital signs; and assisting with physical examination. Specialty exams and electrocardiograph procedure are also covered.

MEDO 240
Medical Assisting: Back Office Procedures II
Prerequisite: MEOC 104 Medical Terminology and MEDO 235 Medical Assisting Back Office I. This course develops the necessary skills for the back office. Students review assisting physicians with minor surgical procedures, pharmacology, laboratory procedures, nutrition, patient education, diagnostic imaging, and urgent care and emergency procedures.

MEDO 260
Introduction to Medical Assisting
This course is an introduction to the medical assisting profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, health care settings, medical law, and therapeutic communication skills.

MEOC 104
Medical Terminology
Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics.

MEOC 112
Medical Insurance Billing - A Practical Approach to Medical Billing
Prerequisite: COMP 100 Introduction to Computers or MS 104 Introduction to Windows Operating System and keyboard competency of 30 wpm. An overview of outpatient medical insurance billing in preparing students for entry-level positions. Students review theory and practice data entry for private, Blue Cross/BlueShield, Medicare, Medicaid/Medi-Cal, TRICARE/CHAMPUS and workers' compensation billing. CPT and ICD-9 coding covered. Medical billing software utilized in computer lab. Keyboarding experience advised.
Introduction of Computers for Health Care Workers Image
Prerequisite: COMP 685 Beginning Keyboarding or Typing 30 words per minute. This course is an introduction to computers for individuals entering the health care field. This course provides a general introduction to computer literacy and information technology for health care students. The course provides a comprehensive survey of the interconnections of information technology and health care. (Apportionment)

Medical Assistant: Front Office Program
Program #24445
This program will prepare students to work in an entry-level position in the front office or reception area of a medical facility. These include medical receptionist, appointment scheduler, medical bookkeeping, authorization clerk, and medical data entry.

Medical Assisting: Front Office Procedures
Prerequisite: MEDO 260 Introduction of Medical Assisting and COMP 685 Beginning Keyboarding. This course introduces students to medical office procedures in preparation for entry-level positions in the front office or reception area of a medical facility. These include medical data entry. Students review reception techniques, patient records and insurance forms. Keyboarding experience advised.

Introduction to Medical Assisting
This course is an introduction to the medical assisting profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, health care settings, medical law, and therapeutic communication skills.

Medical Terminology
Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics.
Pharmacy Technician Program
Program #24219
This program prepares students for an entry-level position as a pharmacy technician at a community and institutional pharmacy. The certificate program exceeds the State Board of Pharmacy’s registration requirements and meets American Society of Health-System Pharmacists (ASHP) credential standard.

Core Courses                     Hours
MEOC 104 Medical Terminology     48
MEOC 130 Introduction to Pharmacy Technician 60
MEOC 140 Pharmaceutical Mathematics 36
MEOC 121 Pharmacology I            36
MEOC 122 Pharmacology II          36
MEOC 135 Human Relations For Healthcare Workers 36
MEDO 230 Pharmacy Operations Lab  36
MEDO 220 Out-Patient Lab: Pharmacy Technician 48
MEDO 221 In-Patient Lab: Pharmacy Technician 48
MEDO 317 Out-Patient Externship of the Pharmacy Technician 24
MEDO 316 In-Patient Externship of the Pharmacy Technician 24

Total Program Hours               432

MEDO 220
Out-Patient Lab for the Pharmacy Technician
Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an out-patient pharmacy and begin working with minimal additional training.

MEDO 221
In-Patient Lab for the Pharmacy Technician
Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an in-patient pharmacy and begin working with minimal additional training.

MEDO 230
Pharmacy Operations Lab
Prerequisite: MEOC 130 Introduction to Pharmacy Technician and Keyboarding score of 30 or above or passing grade in COMP 685 - Beginning Keyboarding. This course introduces students to the operations of a pharmacy. It provides them with a working knowledge of the structural, functional, business and inter-relational aspect of pharmacy as part of the health care system. Through hands-on instruction, students develop the entry-level skills needed to assist in a pharmacy operation.

MEDO 316
In-Patient Externship for the Pharmacy Technician
Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Healthcare Workers; and MEDO/221 In-Patient Lab Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an in-patient pharmacy setting. It requires weekly class meetings plus 200 hours of externship in an approved and contracted pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. (Apportionment)

MEDO 317
Out-Patient Externship for the Pharmacy Technician
Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Healthcare Workers; and MEDO/221 In-Patient Lab: Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an out-patient/retail pharmacy setting. It requires weekly class meetings plus 120 hours of externship in an approved pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. (Apportionment)

MEOC 104
Medical Terminology
Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics.

MEOC 121
Pharmacology I
Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Equips students with the necessary beginning theoretical knowledge. Includes categorizing, differentiating between drug classifications and inventorying. Provides a basic knowledge and understanding of drug effects on the body.

MEOC 122
Pharmacology II
Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Provides a continuation of theoretical knowledge acquired in Pharmacology I. Includes categorizing, inventorying and differentiating between drug classifications. Equips students with an advanced knowledge and understanding of drug effects on the body.

MEOC 130
Introduction to Pharmacy Technician
Course orients students to pharmacy practice and the work of pharmacy technicians. It covers pharmacy technician registration process and educational requirements, the role of the technician, duties and tasks technicians perform as regulated by pharmacy law, and the necessary abilities and skills for a successful career as a pharmacy technician.

MEOC 135
Human Relations For Healthcare Workers
Covers basic communications skills with emphasis on health care. Includes non-verbal communication, group communication, conflict resolution, ethics in health communication, and elements of intercultural communication, resume writing, job application and interviewing techniques.
Pharmacy Technician Registration Program
Program #32816
This program prepares students for an entry-level position as a pharmacy technician at a community and institutional pharmacy. The certificate program exceeds the State Board of Pharmacy’s registration requirements.

It provides them with a working knowledge of the structural, functional, business and inter-relational aspect of pharmacy as part of the health care system. Through hands-on instruction, students develop the entry-level skills needed to assist in a pharmacy operation.

MEOC 104
Medical Terminology
Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics.

MEOC 121
Pharmacology I
Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Equips students with the necessary beginning theoretical knowledge. Includes categorizing, differentiating between drug classifications and inventorying. Provides a basic knowledge and understanding of drug effects on the body.

MEOC 122
Pharmacology II
Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Provides a continuation of theoretical knowledge acquired in Pharmacology I. Includes categorizing, inventorying and differentiating between drug classifications. Equips students with an advanced knowledge and understanding of drug effects on the body.

MEOC 130
Introduction to Pharmacy Technician
Course orients students to pharmacy practice and the work of pharmacy technicians. It covers pharmacy technician registration process and educational requirements, the role of the technician, duties and tasks technicians perform as regulated by pharmacy law, and the necessary abilities and skills for a successful career as a pharmacy technician.

MEOC 135
Human Relations For Healthcare Workers
Covers basic communications skills with emphasis on health care. Includes non-verbal communication, group communication, conflict resolution, ethics in health communication, elements of intercultural communication, resume writing, job application and interviewing techniques.

MEOC 140
Pharmaceutical Mathematics
A review of basic mathematics focusing on its application to common pharmaceutical calculations, abbreviations and units; how to interpret pharmaceutical documents using acquired pharmaceutical math knowledge.
Quality Assurance Management Certificate for Medical Devices
Program #24128
Students who complete the Certificate will be prepared to obtain an entry-level position in quality assurance within the medical device industry. Topics covered include regulatory agencies and laws pertaining to the medical device industry; introduction to the medical device industry and trends in the field; document control and database management; quality assurance concepts for medical device manufacturing; technical writing; the quality audit process; and employability skills. Upon successful program completion, students will have the skills required of positions in the medical device industry such as quality assurance specialist, quality compliance specialist and quality systems auditor. This certificate will also benefit incumbent workers seeking promotional opportunities within the industry.

Total Program Hours 216

BMGR 645
Introduction to Medical Device Quality Assurance
This course introduces students to the medical device industry in preparation for an entry-level position as a Quality Assurance Specialist. Learn about the industry's size and scope, current trends, and the wide range of products used in a variety of healthcare settings. Industry job resources are also covered.

BMGR 648
Regulatory Affairs for Medical Devices
Course will provide students with an in-depth understanding the regulations and regulatory agencies that are specific to the medical devices industry. The course will cover U.S. and European Union (EU) regulations as well as other related agencies. Includes laws governing the development, manufacturing and approval of medical devices.

BMGR 651
Document and Database Management for Medical Devices
An overview of regulatory requirements for document control and database management for the medical device field. Covers the fundamentals of writing documents that meet regulatory compliance. Equips students for handling document management systems efficiently.

BMGR 654
Quality Assurance for Medical Devices
This course provides students with an in-depth definition of quality assurance and its role with medical devices. The course covers the responsibilities of assurance during the manufacturing and production of a product. Topics will include management responsibilities, process controls, and other subjects providing an overall understanding of quality assurance.

BMGR 657
Technical Writing for Bio-Medical Industries
This course will provide students with an overview and understanding of technical writing for the bio-medical industry. The course will cover principle writing methodologies for quality assurance, engineering, manufacturing, and production of a medical device product. Topics will address documentation as related to FDA mandated requirements, ISO standards and for writing GMP procedures.

BMGR 660
Quality Auditing for Medical Devices
This course presents the principles and techniques for assessing the adequacy of a quality system for a medical device manufacturer. Coverage includes evaluating the quality system as it conforms to FDA regulatory requirements, standards, review of standard audit terms and other audit concepts.
School of Continuing Education
High School Diploma Program

This program is designed for adults who return to complete the requirements for a high school diploma. Upon completion of these courses, the student will be able to demonstrate a level of competency for each academic subject studied. Acquisition of a high school diploma will lead to improved employability and preparation for entry into college.

<td>This course is an individualized, self-paced study of film appreciation. Topics covered include film genres, directing and critique. This course is used for SCE High School Diploma credit. (Apportionment)</td>
</tr>
</tbody>
</table>
IHSS 116  
High School General Math  
Credits: 1 - 10  
This course presents activities to help the student with basic arithmetic skills, real-life applications, and problem-solving techniques. The units of study include a review of whole number operations, and basic functions of fractions, decimals, percents, measurements, algebra and geometry. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 117  
High School Vocational Math  
Credits: 1 - 10  
This course develops mathematical problem solving skills for occupational areas and everyday situations. Problems are given for payroll, retail business, manufacturing, mechanics, construction, inventory, health, and personal finance. Topics include formulas, basic algebra, proportions, percents, basic geometry, and measurements. This course is offered for SCE high school diploma credit. (Apportionment)

IHSS 118  
High School Algebra 1  
Credits: 1 - 10  
This course covers basic algebra concepts including an introduction to variables, equations, factoring, an introduction to variables, equations, factoring, formulas and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 119  
High School Geometry  
Credits: 1 - 10  
This course covers basic geometry concepts including key terms, geometric shapes and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 120  
High School Life Science  
Credits: 1 - 10  
This course is an individualized, self-paced study of Life Science. This course covers scientific methods, classification and body systems. This course is used for SCE High School Diploma credit. (Apportionment)

IHSS 121  
High School Earth Science  
Credits: 1 - 5  
Earth Science deals with the earth and other heavenly bodies of the universe. Students learn the various characteristics that make Earth unique in the solar system. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 122  
High School Physical Science  
Credits: 1 - 5  
Physical Science explores matter and its properties, motion, heat, energy, sound and light, as well as electricity and magnetism. This course is used for SCE High School Diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 123  
High School Biology  
Credits: 1 - 10  
This biology course is an individualized, self-paced study of living things including classification, survival, reproduction, growth, and development. Other topics explore ecological cycles, behaviors and evolution. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 124  
High School Health  
Credits: 1 - 10  
This class is designed to give students an understanding of various facets of physical, mental, and social well being. The student will gain knowledge to promote wellness, identify causes of health problems and ways to prevent them. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 127  
High School Computer Literacy  
Credits: 1 - 10  
Students will learn the basics of Windows, Internet browsing, keyboarding, email, course management systems and the modern office environment. (Apportionment)

IHSS 153  
High School General Science  
Credits: 1 - 10  
General Science covers physical, Earth, and life science. This course is used for SCE High School Diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 163  
High School Composition  
Credits: 1 - 10  
This course provides writing strategies that include basic sentence structure, a review of grammar and mechanics, paragraph formation and essay composition skills. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)
IHSS 167  
**High School English Basic Skills**  
Basic English skills are presented in this self-paced course. This introductory course includes workbook activities to improve skills in spelling, capitalization, punctuation, and reading. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 170  
**High School Grammar**  
This course covers a variety of English language skills in a flexible format suitable for individualized, self-paced coursework. The topics covered include grammar, usage, writing mechanics and composition strategies. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 173  
**High School Novels**  
This literature course offers a variety of literary works in a flexible format suitable for individualized self-paced coursework. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 174  
**High School Literature**  
This literature course offers a variety of literary works in a flexible format suitable for individualized self-paced coursework. Literary options include poetry, short stories, essays and complete novels. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 177  
**High School Reading**  
This developmental reading course represents many options to build skills in reading comprehension, vocabulary, and critical thinking. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. *(Apportionment)*

IHSS 181  
**High School Short Stories**  
This course introduces a variety of short stories through self-paced reading activities. Through guided reading activities, students explore character development, plot and author's purpose. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 183  
**High School Vocabulary**  
This course covers grade-level vocabulary development and is offered for the SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 300  
**Transitioning to College**  
This course is designed to help SCE High School Diploma Program and ESL Academic Success students successfully transition to a college campus. Topics presented will include identifying academic goals, designing an educational plan, utilizing the college processes (registration, financial aid, learning resources), and graduation. This course will include campus tours of several student resource centers. *(Apportionment)*

IHSS 500  
**High School Language Arts I**  
This is an integrative course consisting of an array of topics including reading, writing, grammar, and vocabulary. Emphasis will be placed on sentence construction, word choice, paragraph development, maintaining coherence, recognizing main ideas, drawing upon sources informatively, reading with accuracy, writing and revising. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 501  
**High School Language Arts II**  
This is an integrative course consisting of an array of topics including reading, writing, grammar, and vocabulary. Emphasis will be placed on sentence construction, word choice, paragraph development, maintaining coherence, recognizing main ideas, drawing upon sources informatively, reading with accuracy, writing and revising. The content of this course is delivered in a modular format using lecture-style instruction. *(Apportionment)*

IHSS 660  
**High School Psychology**  
This psychology course explores the connections of human thought, behavior and development. It emphasizes the importance of these relationships to learning, personality, health, and society. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 846  
**High School Algebra 1A**  
This course covers basic algebra including variables, equations, positive and negative integers, formulas, polynomials, and factoring. This course is offered for SCE high school diploma credits to satisfy graduation requirements. *(Apportionment)*
IHSS 847  Credits: 5  High School Algebra 1B  This course covers basic algebra concepts including graphing, equations with two variables, fractions, decimals, percents, squares, square roots and quadratic equations. This course is offered for SCE high school diploma credits to satisfy graduation requirements.  (Apportionment)

IHSS 990  Credits:1 - 10  High School American History 2  This American history course covers the lives of America's people, their contributions and struggles from westward expansion in the mid 1800's, worldwide conflicts, America's social change, to the U.S. policies of the twenty-first century. This course is offered for SCE high school diploma credits to satisfy graduation requirements.  (Apportionment)

IHSS 991  Credits:1 - 10  High School Assessment  Orientation to the SCE High School Diploma Program and overview of educational options. Includes assessing skills for the program and review of students support services.  (Orientation)

IHSS 992  Credits:1 - 5  High School Art History - Artists and their Work  This course will explore art movements from the Italian Renaissance to American painters and sculptors of the twentieth century. Students will discover why some artists and their artwork retain prominence. They will be given the opportunity to expand their knowledge on a variety of art forms. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course.  (Apportionment)

IHSS 993  Credits:1 - 5  High School Elements and Principles of Design  This course is an individualized, self-paced study of art and how people from other cultures and times have used a common visual language to express their own unique perspective. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course.  (Apportionment)

IHSS 994  Credits:1 - 10  High School Academic Success  This study skills course provides reading and writing activities to help a student master the thinking, planning and basic skills necessary to achieve academic success in school and is available for credit for the SCE High School Diploma Program. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course.  (Apportionment)

IHSS 995  Credits:1 - 10  High School American History 1  This course covers the lives of America's people and aspects of their cultures from early exploration through the late 1800's. This course is offered for SCE high school diploma credits to satisfy graduation requirements.  (Apportionment)
Course Descriptions

Note this publication must be prepared in advance of the time period it covers; therefore, changes in some programs and policies may occur. Courses as described are subject to change without notice, and some listed courses are not offered each year. In addition, some courses or programs that are offered may have to be canceled because of insufficient enrollment, elimination, or reduction in programs or for any other reason considered sufficient by the Provost or designee.

All courses meet the standards and criteria for noncredit courses and programs as set forth in the California Education Code Title V regulations, Section 55150 – 55155.

Adult Basic Education (ABE)

**ABE 105**
**SCE Learning Center**
Designed for students from beginning levels of reading to those working toward a high school diploma. Through the use of small-group instruction, computer-aided instruction, audio books and workbooks, students will learn to become better readers, writers and thinkers. The skills attained can be used for personal growth, job advancement or for entry into other educational programs. A specific learning plan is developed for each student based on student goals, needs and learning style. (Apportionment)

**ABE 120**
**Improving Individual Skills Lab**
For students interested in improving general and specific academic subjects at the secondary level (grades 9-12) experiencing difficulty in curriculum ranging from basic academics to college preparatory. (Apportionment)

**ABE 240**
**Creative Writing for Seniors**
This course for older adults teaches both beginning and experienced writers how to create shape autobiographies, fiction and non-fiction writing, and poetry into readable and publishable forms. (Apportionment)

**ABE 405**
**GED: Mathematics**
GED mathematics prepares students to pass the math section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of instruction is basic instruction for each student. Scope of instruction is basic computation, analytical and reasoning skills, word problems and word problems with graphics. (Apportionment)

**ABE 410**
**GED: Reading**
GED reading prepares students to pass the reading section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of instruction includes comprehension, fiction, nonfiction, poetry, and drama. (Apportionment)

**ABE 415**
**GED: Science**
GED science prepares students to pass the science section of the GED test. Sciences covered are life, physical, earth and space. Students learn to analyze and apply science information. (Apportionment)

**ABE 420**
**GED: Social Studies**
GED social studies prepares students to pass the social studies section of the GED test. The GED pre-test identifies needed areas of instruction for each student. Scope of course covers U.S. history, world history, civics and government, geography and economics. (Apportionment)

**ABE 425**
**GED: Language Arts and Writing**
GED writing prepares students to pass the language arts and writing section of the GED test. The GED pre-test identifies needed areas of instruction for each student. This course covers the writing process, grammar usage and mechanics. (Apportionment)

**ABE 430**
**Literacy - Beginning**
Designed for students with very limited reading skills. The focus of this course is on decoding skills, fluency and workplace literacy. Sight words and essential word reading are covered. (Apportionment)

**ABE 432**
**Literacy - Intermediate**
Reading and writing preparation for the workplace or academic advancement. Emphasis on reading for information, vocabulary expansion and good communication skills. (Apportionment)

**ABE 435**
**Literacy - Advanced**
Reading for information and academic vocabulary. Writing skills necessary for higher education and the workplace such as essays, note taking, job applications, resumes, and business writing. (Apportionment)

**ABE 440**
**Writing Your Life Story for Older Adults**
This course teaches both beginning and experienced older adult writers how to write a life story in the form of memoirs--short stories that tell of life events, people, and major turning points, expressed in vivid ways to delight readers, offer important insights, and to provide a written legacy for family and friends. (Apportionment)

**ABE 445**
**ASE Ed Planning**
Assessment & orientation to and for students referred to Learning Centers. Basic skills level will be reviewed with individual student per referral to support services and to assist student in successfully completing educational goal. (Grant-Funded)
ARTC 136
**Cartooning & Caricaturing Made Easy**  
Enter as a amateur; leave as a professional!..... Learn the easy step-by-step procedures of cartooning & caricaturing from a professional cartoonist with over 45 years experience in the field. Learn how to create people, small bodies for caricaturing, animals, backgrounds, and more including inking, lettering, use of pens, brushes, perspective, and creating professional comic strips. Let us show you how! Taught by Mel Schoenberger national and international cartoonist and caricaturist. Class is for all levels of experience. Please bring an 11x14 pad of tracing paper to the first class. A supply list will be provided. Class is for those 15 years and older. *(Fee-Based)*

ARTC 137
**Caricaturing Made Easy**  
This class will tickle you from head to toe! It's easy, it's fun and rewarding. If you can draw, you can caricature. It's amazing how fast you will learn. You will learn inking, lettering, drawing small action bodies, use of equipment, creative ideas, shadowing, etc. Join in the fun and learn professional caricaturing. Taught by an international caricature cartoonist with over 45 years experience. Bring 11x14 tracing paper pad, pencil and eraser to first class. Additional supply list will be provided. All levels of experience are welcomed. You must be 14 years or older. *(Fee-Based)*

ARTC 140
**Fashion Illustration for Adults**  
In this class, you will learn how to draw proportional figures, faces, gesture drawings, and flats of garments. Along with how to draw collars, blouses, skirts, pants, hats, and accessories. Students will learn to illustrate fashion figures using watercolors, colored pencils, markers, pen, etc. *(Fee-Based)*

ARTC 141
**Fashion Illustration II for Adults**  
Advanced level of Fashion Illustration. Learn to complete group figures with a theme. Illustrate different textures of fabric. Also create accessory and shoe illustrations and flats of garments. Recommend Fashion Illustration I prior to this class. *(Fee-Based)*

ARTC 145
**Costume Illustration and History of Fashion for Adults I**  
Learn the history of fashion then illustrate costumes and accessories using watercolors, markers, colored pencils and more. (same supplies as Fashion I and II) *(Fee-Based)*

ARTC 160
**Painting**  
Students will develop the skills of painting using their selected media. Students will apply and practice a creative approach to achieve an understanding of color, space, form, and composition. Beginning students will have assignments in acrylic paint. Intermediate/advanced students work independently with individual instructor guidance. Critique held each week. *(Fee-Based)*

ARTC 165
**Drawing: Basics and Beyond**  
Drawing is the foundation of all visual arts. Learn fundamentals of drawing in this exciting hands-on class. Acquire technical and perceptual skills while exploring properties of line, shape, value, perspective, and composition. All levels welcome. *(Fee-Based)*

ARTC 170
**Essentials of Painting**  
Get creative and discover the joys of expressing yourself with paint and brush. Course covers basic color theory and principles of good composition. Students will learn basic technique through structured assignments. Intermediate/advanced students may work independently with instructor guidance. Voluntary, supportive critiques given at end of each class. Materials list provided at first class meeting. *(Fee-Based)*

ARTC 173
**Drawing Fundamentals**  
Acquire the fundamental concepts and skills to visually express yourself through drawing. The course will cover drawing theory and basic skills development in contour drawing, shading and composition. Students will complete one to three drawings. Materials list given at first class meeting. All levels welcome. *(Fee-Based)*

ARTC 175
**Drawing: Basics and Beyond**  
This course will emphasize the perceptual and technical skill of manipulating drawing materials using observational and drawing methodologies. Fundamental concepts in visual problem solving strategies will be emphasized. Each term will wrap around a theme such as landscape, portraiture, light and texture, etc. *(Fee-Based)*

ARTC 180
**Drawing for Beginners**  
This drawing class covers the fundamental drawing techniques for beginning students. It also aims to inspire the more experienced students to experiment and develop their true potential of artistic talents with demonstrations and practical tips by the instructor. All levels welcome. *(Fee-Based)*

ARTC 185
**Watercolor Painting**  
This watercolor class covers the fundamental watercolor techniques for beginning students. The instructor will offer intensive and practical instruction and step-by-step demonstration. In this supportive and friendly classroom environment will also inspire the more experienced students to experiment and develop their own unique form of expression. All levels welcome. *(Fee-Based)*

ARTC 190
**Still-Life Art Workshop for Teens and Adults (ages 15+)**  
This course will teach students how to draw and paint still-life in three different styles. Students will explore the artwork of three prominent artists: Vincent Van Gogh, Paul Cezanne, and Wayne Thiebaud. This course is designed to teach various art techniques, art movements, painting styles, and to strengthen observation skills. Painting subjects include: flowers, fruit and desserts. *(Fee-Based)*
ARTC 200  
**Nylon Fabric Flower Design I**
This course teaches students how to create chiffon/nylon stock flowers. The students will learn how to plan and create beautiful, artistic, realistic-looking flowers for all kinds of arrangements. The materials are provided and the tools will be available to students during the course. *(Fee-Based)*

ARTC 220  
**Origami 3-D Designs**
This course provides training in three-dimensional origami design. Origami is the traditional art of paper folding from Japan. The goal of the class is to transform flat sheets of paper into finished three-dimensional sculptures through traditional folding and sculpting techniques. Students will create beautiful birds, animals, baskets, and containers. *(Fee-Based)*

ARTC 225  
**Pastels and More**
This class teaches students to paint with pastels and charcoal. Content includes instruction regarding color, value and pastel techniques. Compositions are student-selected, composed, and created with instruction. Beginning to advanced students are welcomed. *(Fee-Based)*

**Aviation (AVI)**

AVI 105  
**Private Pilot**
Intro to basic principles of aviation and Federal Aviation Regulations to qualify for the FAA written exam for Private Pilot certificate. Meets FAA requirement for ground instruction. *(Fee-Based)*

**Business Management (BMGR)**

BMGR 410  
**Elements of Supervision**
Provides instruction in communication, problem solving, team building and leadership. Designed for managers in both public and nonprofit organizations. *(Apportionment)*

BMGR 412  
**Management Skills I**
This course provides an overview of the functions of the management process and its practical applications in a business environment. The course focuses on the planning process and organizing skills, including decision-making, strategic planning, delegating and staffing. Students will learn management principles that provide basic guidelines for supervisory decisions and actions. *(Apportionment)*

BMGR 415  
**Written Communications for Business**
Provides extensive hands-on experience with all types of written business communications including letters, resumes, cover letters, memos, and reports. *(Apportionment)*

BMGR 417  
**Effective Business Presentations**
This course provides instruction and practice in business presentation skills. Students will learn techniques to enhance their ability to speak before any size group with more confidence and communicate their message effectively. Students are encouraged to participate in a video tape exercise for their own assessment of strengths and weaknesses. *(Apportionment)*

BMGR 421  
**Successful Negotiations**
Participants will learn, practice, and perfect the skills required for achieving better outcomes in sale transactions, employment and promotion, purchasing, employee cooperation. *(Apportionment)*

BMGR 423  
**Introduction to Employment Law**
This course is an introduction to the federal and California state laws governing the relationships between employers and employees. It examines the nature, purpose, and operation of these laws from the perspectives of both the employer and employee. *(Apportionment)*

BMGR 429  
**Notary Public Seminar and Exam**
Learn what it takes to become a California Notary Public and fulfill the State of California mandated educational requirements at this one-day seminar. The actual Notary Public Exam will be administered by Cooperative Personnel Services (CPS) in the last hour. Please bring valid, government issued picture I.D. (i.e. driver's license or U.S. passport) and a check or money order payable to the Secretary of State for $40 if you plan to take the exam. To request special testing accommodations, you may contact CPS at (916) 263-3624 PLEASE NOTE: you must attend a State of California approved seminar prior to being commissioned as a notary. This seminar is approved by the State of California and you will be issued a Certificate of Completion at the conclusion of the seminar. *(Fee-Based)*

BMGR 430  
**Marketing Principles**
Introduces the student to the marketing principles of product, price, distribution and promotion in support of goods and services. The course will focus on real world application and case studies. The student will learn to apply marketing skills in the development of a marketing plan. *(Apportionment)*

BMGR 431  
**Finance for the Non-Financial Manager**
This course introduces students to the basics of business finance for the non-financial manager. Financial statements will be covered along with discussions on sales and expenses, assets and liabilities, budgeting and planning, and financial analysis. *(Apportionment)*

BMGR 452  
**Understanding Business Contracts**

Students will learn how to achieve a better contract result by knowing why, when and how to request contract modifications. *(Apportionment)*
BMGR 610  
Management Skills II  
This course focuses on developing management skills in working with individuals and teams to promote productivity, quality and innovation. Topics include employee performance appraisal, performance management, work groups, and the control process for keeping people, plans and programs on track. (Apportionment)

BMGR 625  
Introduction to the Medical Device Industry  
This course provides an introduction to the medical devices industry and the profession. It covers industry standards, regulatory authorities, safety, and current good manufacturing practices. Whether currently working in the industry or planning a career change, students will learn how to build their skills and knowledge to increase overall performance. (Fee-Based)

BMGR 630  
Quality System: ISO 13485:2003 Basics  
This course provides an overview of the quality management system requirements for manufacturers of medical devices defined by the ISO 13485:2003 standard. It is designed for all employees involved in developing, implementing and maintaining a quality management system, including managers, supervisors, and staff, including new hires and incumbent workers. (Fee-Based)

BMGR 635  
Overview of FDA's Medical Device Regulation  
Course provides an overview of the U.S. Food & Drug Administration (FDA) regulation pertaining to medical devices. Topics include FDA regulatory requirements and quality system regulation; pre-market notification and approval process; complaint handling and reporting; and U.S. labeling regulations. (Fee-Based)

BMGR 640  
Fundamentals of GMP and QSR  
Course covers the fundamentals of Good Manufacturing Practice (GMP) and Quality System Regulation (QSR). Topics include Food and Drug Administration (FDA) regulations in relation to quality systems and controls; employee safety in the design and construction of facilities; equipment and maintenance issues; and protection of products against contamination. (Fee-Based)

BMGR 645  
Introduction to Medical Device Quality Assurance  
This course introduces students to the medical device industry in preparation for an entry-level position as a Quality Assurance Specialist. Learn about the industry's size and scope, current trends, and the wide range of products used in a variety of healthcare settings. Industry job resources are also covered. (Apportionment)

BMGR 648  
Regulatory Affairs for Medical Devices  
Course will provide students with an in-depth understanding of the regulations and regulatory agencies that are specific to the medical devices industry. The course will cover U.S. and European Union (EU) regulations and related agencies. Includes laws governing the development, manufacturing and approval of medical devices. (Apportionment)

BMGR 651  
Document and Database Management for Medical Devices  
An overview of regulatory requirements for document control and database management for the medical device field. Covers the fundamentals of writing documents that meet regulatory compliance. Equips students for handling document management systems efficiently. (Apportionment)

BMGR 654  
Quality Assurance for Medical Devices  
This course provides students with an in-depth definition of quality assurance and its role with medical devices. The course covers the responsibilities of assurance during the manufacturing and production of a product. Topics will include management responsibilities, process controls, and other subjects providing an overall understanding of quality assurance. (Apportionment)

BMGR 657  
Technical Writing for Bio-Medical Industries  
This course will provide students with an overview and understanding of technical writing for the bio medical industry. The course will cover principle writing methodologies for quality assurance, engineering, manufacturing, and production of a medical device product. Topics will address documentation as related to FDA mandated requirements, ISO standards and for writing GMP procedures. (Apportionment)

BMGR 660  
Quality Auditing for Medical Devices  
This course presents the principles and techniques for assessing the adequacy of a quality system for a medical device manufacturer. Coverage includes evaluating the quality system as it conforms to FDA regulatory requirements, standards, review of standard audit terms and other audit concepts. (Apportionment)

BMGR 665  
European Certification Requirements for Medical Devices  
Course introduces students to the EU Medical Device Directive and its importance to medical device companies. The course provides step-by-step guidance to achieve and maintain EU requirements for the quality, safety, and performance of medical device products. (Fee-Based)

BMGR 670  
Notary Public Seminar  
State approved mandatory education for new and renewing notaries. Being a notary can mean a bigger income for you! Learn the notary laws and prepare for the State of California exam. Take a practice exam, receive your Certificate of Completion, and schedule and registration information for upcoming State exams. Bring ID and arrive early. Due to State regulations, no one admitted after 6 p.m. (Fee-Based)

BMGR 675  
Technical Writing 101 for the Medical Device Industry  
The course addresses writing effectively and complying with regulations in the medical device industry. Participants will learn how to meet the needs of the audience, research and organize information, write, edit, and deliver effective documents. The course includes an overview of requirements recommended by the FDA and other regulatory agencies. (Fee-Based)
| BMGR 680 | **Notary Loan Signing Certification**  
|---|---
| **Prerequisite:** Successfully completed six hours of notary education or have notary commission. Become a certified notary loan signing agent. This course covers proper notarization of real estate documents and loan packages. It emphasizes the ethical and administrative role of the notary and the notary's sense of duty associated with being a loan document signing agent. Marketing and customer service are also covered. | **Busn 341**  
| **Computer Applications for the Administrative Assistant II**  
| **Prerequisite:** BUSN 340 Computer Applications for Administrative Assistant I. Second in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on Windows and Internet. Textbook Required. | -- |

| BMGR 685 | **Overview of Medical Product Development**  
|---|---
| This workshop provides an understanding of the medical product development process and biomedical industry highlights and trends. A common development cycle for medical products is presented with explanations of various phases within the product development cycle, from concept to market. Fundamental industry terminology and medical product classification will be discussed. | -- |

| BMGR 690 | **Navigating a Career in the Biomedical Industry**  
|---|---
| Identify career paths in the biomedical industry that best suit your interests and career goals. Through lectures and discussion, develop an understanding of career paths in the life sciences, including sales and marketing, business development, and regulatory affairs. Get practical advice on working with recruiters, building your resume, and networking. | -- |

**Business (BUSN)**

| BUSN 235A | **Administrative Assistant Educational Planning**  
|---|---
| Orientation and assessment to and for the SCE Administrative Assistant Certificate program, overview of occupational options. Self-assessment of educational backgrounds and needs, referral to basic skills support to assist with successful completion of courses, overview in general of SCE Student Services. | **BUSN 350**  
| **Giving an Effective Presentation**  
| In today's world, it is easy to assemble a series of slides and deliver a speech and call it a business presentation, but there's much more to a presentation than just presenting particularly if you want to get the results you expect. Almost all presentations are just that: presentations. In this workshop, you will learn how and why you should converse with rather than merely present to your audience; what is the best room layout and why; how to organize and prepare your presentation; what to do before, during and after your presentation; how and why you should or shouldn't use PowerPoint or other visual aids; how to and why eliminate jargon and acronyms; how to and why you should refine and visualize your message; how to inspire and engage your audience; and much, much more. | -- |

| BUSN 320 | **Office Skills I**  
|---|---
| First in a series of two levels that prepare students for an entry-level position as an administrative assistant. Includes units on the office environment, career opportunities, attitude, human relationships, and work ethics. Textbook Required. | **BUSN 360**  
| **How to be an Effective Networker**  
| Do you find it hard to make conversation at business and social events? Networking can be the most efficient way to promote your business and find customers but you need to network effectively in order opportunity to learn the do's, don'ts and whereabouts of effective networking from a published author and international trainer. This workshop is particularly valuable not only for professionals and business people who want to increase their confidence and networking skills, but for anyone who wants to build business and social relationships with others. | -- |

| BUSN 321 | **Office Skills II**  
|---|---
| **Prerequisite:** BUSN 320 Office Skills I. Second in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on telephone procedures, filing and managing records, processing business documents, sending and receiving mail, and managing office activities. Textbook Required. | **BUSN 370**  
| **Public Speaking Workshop - Transcend Your Fear**  
| For many, public speaking is the #1 fear, but it really doesn't have to be. Public speaking can be enjoyable for both the speaker and the audience. In this workshop, you will understand the root causes of fear, reasons for your fear and solutions to transcend your fear of public speaking. | -- |

| BUSN 340 | **Computer Applications for the Administrative Assistant I**  
|---|---
| First in a series of two levels that prepares students for an entry-level position as an administrative assistant. Includes units on Keyboarding and Word. Textbook Required. | **BUSN 400**  
| **Starting a Small Business: Be Your Own Boss**  
| You will learn the role of entrepreneurial businesses in the United States and the impact on our national and global economy. This course will guide you to analyze the skills, commitment, and challenges necessary to successfully operate a small business. Topics also include entrance strategies and best practices. | -- |

Learn basic tools to build your followers on Twitter. You will be guided through a series of steps to find followers, build quality followers, maintain your followers by adding value to your tweets, and updating your followers on Twitter, your friends on Facebook and your network on LinkedIn and more. (Fee-Based)

BUSN 465  
Introduction to Scrum: An Agile Process  
Agile Scrum is a project management tool. This course covers the fundamental concepts for agile principles and the Scrum process. (Fee-Based)

BUSN 470  
Starting a Home-based Business  
Learn the key elements to starting a home-based business and becoming self-employed. This course provides students with an introduction to starting a home-based business, including marketing, finance, self-management skills, risk management and available resources. (Apportionment)

BUSN 472  
Improve Brain Power for the Workplace  
Learn how to improve your memory, concentration, confidence and listening skills which can enhance study skills and help you succeed in the workplace. This course covers how the brain learns and remembers, causes of memory loss, and various brain exercises, including computer-based programs, that preserve and improve brain health. (Apportionment)

BUSN 474  
Creative Writing: Building Skills for Career  
In this course students will develop and refine professional creative writing skills and create written pieces such as short stories, essays and articles that can be sold for income. Students will learn how to publish their literary works, including marketing to publishers and agents and promoting the published manuscript. (Apportionment)
BUSN 476
**Painting Arts: Building Skills for Art and Business**
In this course students will develop and refine skills for creating quality paintings that can be sold through their own home-based business. Learn a variety of media, including techniques in drawing, brush strokes, color mixing and application, and methods for promoting and selling paintings in various marketplace settings. Materials are supplied by students. *(Apportionment)*

BUSN 478
**Ceramic: Building Skills for Art and Business**
Students will learn and refine ceramic art skills with the goal of producing quality pieces that can be sold through a home-based business. Learn ceramic hand-building, decorating and firing techniques, and how to sell ceramic pieces, including the concepts of pricing, promotion, and identifying marketplace options for product sales. Materials are supplied by students. *(Apportionment)*

BUSN 480
**Needlecraft: Building Skills for Art and Business**
Students will develop and refine the skills needed to create quality needlecraft pieces that can be sold through their own home-based business. Learn techniques for knitting, crochet, needlepoint, and cross-stitch, and the concepts of pricing, promotion, and identifying appropriate marketplace options for product sales. Materials are supplied by students. *(Apportionment)*

BUSN 482
**Quilting: Building Skills for Art and Business**
Learn and refine skills for creating quality quilts and quilted items that can be sold through a home-based business. Course topics include hand and machine sewing techniques and methods for securing income from quilting, including commissioned and consignment sales, and the concepts of pricing, promotion, and identifying marketplace options. Materials are supplied by students. *(Apportionment)*

BUSN 484
**Craft Artistry: Building Skills for Art and Business**
Learn artistic techniques and refine creative art skills with the goal of creating quality craft pieces, such as seasonal and gift products, that can be sold through a home-based business. Methods for selling artistic creations are covered, including concepts of pricing, promotion, and identifying marketplace options for product sales. Materials are supplied by students. *(Apportionment)*

BUSN 486
**Drama: Performing as an Art and a Career**
In this course students will develop and refine acting skills with the goal of securing work as a paid professional. Study includes fundamentals of performance, script analysis, characterization, acting styles, stage and camera terminology, the business of stage, film and television, union and non-union, and positive communication skills. *(Apportionment)*

BUSN 490
**Machine Shorthand Speed Building 1**
This course promotes further development of speed and accuracy in taking dictation on the steno machine. Students will develop sufficient skills to take new material dictation at 160 words per minute (wpm) through 230 wpm for one minute at 98% accuracy. This class meets the state of California licensing requirements. *(Fee-Based)*

BUSN 492
**Machine Shorthand Speed Building 2**
Advisory: Completion of Machine Shorthand Speed Building 1. This course promotes further development of speed and accuracy in taking dictation on the steno machine. The student will develop sufficient skills to take new material dictation at 160 words per minute (wpm) through 200 wpm for five minutes with 98% accuracy. This class meets the State of California licensing requirements. *(Fee-Based)*

BUSN 494
**Machine Shorthand Speed Building 3**
Advisory: Completion of Machine Shorthand Speed Building 2. This course promotes further development of speed and accuracy in taking dictation on the steno machine. The student will develop sufficient skills to take new material dictation at 180 wpm to 200 wpm for ten minutes with 98% accuracy. This course meets the requirements of the Court Reporter's Board and the National Court Reporter's Association for speed level on question and answer and trial testimony. *(Fee-Based)*

BUSN 496
**Machine Shorthand Speed Building 4**
Advisory: Completion of Machine Shorthand Speed Building 1, 2, or 3. This course promotes further development of speed and accuracy in taking dictation on the steno machine. The student will develop sufficient skills to take new material from 160 words per minute (wpm) to 220 wpm sustained dictation with 98% accuracy. This course meets the requirements of the Court Reporter's Board and the National Court Reporter's Association for speed level on question and answer and trial testimony. *(Fee-Based)*

BUSN 500
**Auto Wholesale Home-based Business**
Supplement your income $3,000 to $5,000 with your DMV auto dealer license home-based business. Students will learn six to eight techniques to create profit and generate cash flow. Dealers obtain automobiles and parts at wholesale and are sales-tax exempt. They are not required to register inventory vehicles. List of 400+ dealer only auctions also included in course. DMV approved. *(Fee-Based)*

BUSN 645
**Customer Service**
This course covers the key elements of outstanding customer service. The student will be introduced to the concepts of internal and external customers, customer satisfaction and retention. Topics will also include communicating with customers, developing a positive attitude, handling complaints and sales skills. *(Apportionment)*

---

**Clothing (CC)**

CG 205
**Sewing Techniques for Beginners**
Students will learn new methods of sewing. Fundamental skills of understanding pattern directions, sewing machine use and making clothing alterations will be covered. *(Fee-Based)*
CC 206
**Basic Sewing Techniques for Beginners**
Students will learn new methods of sewing. Fundamental skills of understanding pattern directions, sewing machine use, hand stitching and making clothing alterations will be covered. *(Fee-Based)*

CC 215
**Sew What You Wish**
Using the newest sewing machine methods create garments or accessory items that fit your unique style. Projects include personal computer fashion analysis, alterations, sewing plaids and knits. *(Fee-Based)*

CC 220
**Sewing Special Occasion Outfits**
Through instructor demonstration and hands-on experience, students will be able to construct a variety of clothing items using couture techniques. The course includes wardrobe planning, a personal computer fashion analysis, alterations, fitting, and machine use. *(Fee-Based)*

CC 221
**Couture Dressmaking I: Blouses**
Through instructor demonstration and hands-on experience, students will be able to construct a classic fitted blouse using couture techniques. The course includes computer fashion analysis, alterations, fitting and sewing machine use. *(Fee-Based)*

CC 225
**Exploring Knitting and Crocheting**
Students will be introduced to hand-knit and crochet designs and techniques. Through hands-on experience they will improve their skills and learn to make attractive garments for family and friends. *(Fee-Based)*

CC 235
**Contemporary & Traditional Quilting**
This course will introduce basic steps of quilting and appliqué, including, fabric selection, design principles, assembly, borders and binding. Students will make projects using various quilting methods. *(Fee-Based)*

CC 236
**Contemporary & Traditional Quilting I**
Building on basic foundational skills of patchwork and appliqué, learning new techniques and working with tools of the trade, students will make a variety of projects. Instructions and demonstrations given in each session. *(Fee-Based)*

CC 240
**Technical and Creative Use of Serger Machines**
Learn how to thread and operate a serger while discovering creative applications for its use on various projects. Stitch formation and tension adjustments will be covered. Bring your machine or use ours. *(Fee-Based)*

CC 241
**Technical and Creative Use of Serger Machine I: Knits**
Learn how to thread and operate a serger while discovering techniques for serging with knit fabrics. Stitch formation and tension adjustments will be covered. Bring your machine or use ours. *(Fee-Based)*

CC 245
**Sew Tailored Projects that are Runway Worthy**
Enhance your image by creating garments that are sewn professionally and fit precisely. A personal computer fashion analysis, techniques for sewing faux fur, using specialty machines, proper interfacings, pressing and alterations will result in finished designer outfits at significant savings. May include men's tailoring. *(Fee-Based)*

CC 246
**Sew a Tailored Wardrobe I: Unlined Jacket**
Sew an unlined jacket that will enhance your image by creating garments that are sewn professionally and fit precisely. A personal computer fashion analysis, new techniques, proper interfacings, pressing and alterations will result in designer-like outfits and financial savings. *(Fee-Based)*

CC 250
**Fashion Design: Patternmaking**
Create and fit a personal basic pattern. Learn pattern manipulation processes to generate your own designs. One element of clothing will be emphasized each term, ex: bodices, pants, skirts, jackets. *(Fee-Based)*

CC 260
**Needlework for Home and More I**
Needlework techniques, such as cross stitch, embroidery and appliqué be explored in depth. No previous needlework experience needed. *(Fee-Based)*

CC 263
**Needlework for Home and More II**
Needlework techniques, such as Brazilian and ribbon embroidery, and Swedish Weaving will be explored in depth. No previous needlework experience needed. *(Fee-Based)*

CC 265
**Fashion Design: Patternmaking - I**
Learn pattern manipulation processes to generate your own designs. Includes slash-spread, and pivot-transfer methods. One element of clothing will be emphasized each term, ex: bodices, pants, skirts, jackets. *(Fee-Based)*

CC 268
**Fashion Design: Patternmaking- II**
Create and fit a personal basic pattern. Learn pattern alterations and grain line fitting. One element of clothing will be emphasized each term, ex: bodices, pants, skirts, jackets. *(Fee-Based)*

CC 270
**Basic Sewing Techniques**
Students will learn new methods of sewing. Fundamental skills of understanding pattern directions. Sewing machine use and making clothing alterations will be covered. *(Fee-Based)*

CC 275
**Sewing Machine Techniques - Beginning**
Introduction or update basic sewing machine techniques including threading, stitch length/width adjustments. Basic seams and seam finishes demonstrated and practiced. Use of basic feet and machine maintenance included. Bring your own machine or use ours. *(Fee-Based)*
CC 280
Sewing Machine Techniques - Intermediate
Update intermediate sewing machine techniques. Twin needles and decorative stitches covered. Use of specialty feet and machine maintenance included. Bring your own machine or use ours. (Fee-Based)

CC 405
Fashion Design: Copy Ready-to-Wear Garments I
Create a pattern from your favorite Ready-to-Wear garments without taking the garment apart. Bodices and dresses will be emphasized. (Fee-Based)

CC 406
Fashion Design: Copy Ready-to-Wear Garments II
Create a pattern from your favorite Ready-to-Wear garments without taking the garment apart. Jacket, pants and skirts will be emphasized. (Tuition) (Fee-Based)

CC 410
Fashion Design: Sewing Lab
A sewing lab to allow completion of unfinished projects. Learn to use sewing notions and machine accessories to expedite completion of project. Garment fitting and alteration included. (Fee-Based)

CC 415
Fashion Design: Sewing Techniques for Intermediates
Sew a blouse or shirt. Learn to set-in sleeves, embellish fabric, sew collars, buttonholes and zippers. (Fee-Based)

CC 420
Fashion Design: Fitting and Alteration-Blouse
Custom fit and alter a basic blouse pattern. Alter a commercial pattern then fit the fabric blouse to your body curves. Learn to recognize wrinkles and folds and how to eliminate them to create a perfect fit. (Fee-Based)

CC 422
Fashion Design: Sweatshirt Makeover
This class will teach students to re-design the basic pullover sweatshirt, including re-sizing and custom-fitting. Students will also learn about restyling a cardigan, vest or jacket. Students will have the opportunity to add various design details such as new necklines, sleeve lengths, and ruffles or embroidery. (Fee-Based)

CC 425
Fashion Design: Fitting and Alterations: Pants, Part 1
This course will teach students to custom fit a commercial pants pattern. Student will complete alterations to the garments and practice pattern changes to create a variety of pant styles. (Fee-Based)

CC 426
Fashion Design: Fitting and Alterations: Pants, Part 2
This course will teach students to custom fit a commercial pants pattern. Students will also learn how to create a master pattern-sloper. They will complete alterations to the garments and practice pattern changes to create even more pant styles. (Fee-Based)

CC 430
Fashion Design: T-Shirt Makeover
This course teaches students to re-design a basic T-shirt. Resize and custom fit any purchased, commercial T-Shirt. Students will learn how to add various design details as a new neckline, adjust sleeve lengths, and adding ruffles and embroidery designs. (Fee-Based)
Computer (COMP)

COMP 100
Introduction to Computers
Designed for those who know nothing or very little about computers. Builds computer technology understanding, makes one a better consumer of computers and products, and explores operation systems, software and hardware. Provides foundation for other SCE computer classes. (Apportionment)

COMP 105
Discover the Internet
A hands-on overview of Internet concepts, Web browsing using Internet Explorer; email, newsgroups, FTP, netiquette, security issues, research, and more. Hands-on including online browsing. Recommended proficiency in: Introduction to Computers or equivalent. (Apportionment)

COMP 119
Adobe Photoshop Elements
Advisory: Knowledge of Windows. Utilize photo editing software to enhance graphic design capabilities. This class introduces tools used by professional designers in an easy to use, powerful, digital- image editing program. Textbook may be required. (Apportionment)

COMP 121
Digital Photo Albums for Beginners
Advisory: MS 104 Introduction to Windows Operating Systems and COMP 105 Discover the Internet. Learn how to import photos from various sources; organize and manage photos; perform basic editing functions of photos, email photos and share albums; create slide shows and video CDs; and create cards, calendars, albums, and a photo book. Textbook may be required. (Apportionment)

COMP 350
Introduction to Visual Basic for Applications (VBA) for Excel
Advisory: MS 165 MS Excel - Power-User skills or Experience building Excel spreadsheet in response to data needs or externally delivered requirements. Learn how to create and edit Visual Basic for Applications (VBA) code without using the macro recorder. Learn how to write VBA projects using subroutines and functions. Understand how to utilize VBA's methods and properties to perform Excel work in a fast and flexible manner. (Apportionment)

COMP 510
Keyboarding Mastery I
Prerequisite: The student must be able to key 35 net words per minute (nwpm) timed writing or have completed COMP 685 Beginning Keyboarding with a pass grade. The first of two keyboarding courses designed to increase keying speed and accuracy to employment levels of 50+ nwpm. (Apportionment)

COMP 511
Keyboarding Mastery II
Prerequisite: The student must have completed COMP 510 Keyboarding Mastery I with a pass grade. The second of two keyboarding courses designed to increase and maintain keying speed and accuracy to employment levels of 50+ net words per minute (nwpm). (Apportionment)

COMP 620
Securing Your PC For The Internet
Prerequisite: Prior Windows Experience. Learn preventive techniques to secure your Windows PC from Internet threats such as viruses, spyware, and hackers. Explore different tools available to remove these threats and prevent future occurrences. (Apportionment)

COMP 645
Integrated Computer Projects
Designed for those who want to apply the knowledge they have gained from previous computer classes. See how those skills can be put to work in real world simulations! Capstone course for students who have already learned the basics of computer usage. Recommended proficiency in: Introduction to Computers, Discover the Internet, MS Office Overview or equivalent. (Apportionment)

COMP 650
QuickBooks Fundamentals for the Financial Office Applications
Teaches students the basics of using the QuickBooks software to develop customized financial application for business. The course covers special techniques for reducing data entry time, eliminating errors and getting consistent results. Upon completion students will understand the basics of QuickBooks to simplify financial tasks. (Apportionment)

COMP 655
MS Word Fundamentals for the Financial Office Applications
This brief course covers the essentials to creating simple documents with Microsoft Word in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include memos, lists, letters, resumes and signs. (Apportionment)

COMP 660
MS Excel Fundamentals for the Financial Office Applications
This brief course covers the essentials to creating simple spreadsheets with Microsoft Excel in a financial office environment. An excellent course for beginners or those who need to know the basic. In-class projects will include an address list, budget, and inventory tracking sheet. (Apportionment)

COMP 665
MS Powerpoint Fundamentals for the Financial Office Applications
This brief course covers the essentials to creating simple presentations with Microsoft PowerPoint in a financial office environment. An excellent course for beginners or those who need to know the basics. Topics will include animations, transitions and slide shows. Learn how to create a professional-looking slide show without designing each slide from scratch! (Apportionment)

COMP 670
Create PDF's with Adobe Acrobat
Learn the standard for sharing documents online! Create PDF files using Adobe Acrobat. Protect documents, create forms, and combine multiple files with Adobe Acrobat. (Apportionment)
COMP 675
Digital Scrapbooking
Advisory: Knowledge of Windows and Photoshop or Photoshop Elements. Scrapbooking is a 2.5 billion dollar industry in the United States. Computerized graphic design is dramatically transforming the industry. Digital scrapbooking skills are important for anyone working in the graphic design field. Learn the design essentials of professional digital scrapbooks, hardware and software requirements, and the creation of graphic elements. (Apportionment)

COMP 685
Beginning Keyboarding
Stop hunting and pecking at the keyboard with this short course. Learn the keyboard layout to build speed and accuracy. Course covers proper technique at the computer keyboard as well as 10-key keyboarding. (Apportionment)

COMP 690
Email Essentials
Advisory: Introduction to Computers. Students will create an email account, learn to send electronic messages, attachments, manage contacts, create distribution lists and organize messages in folders Learn this critical business skill set in this 18-hour course. (Apportionment)

COMP 700
Adobe Photoshop Elements Tools for Intermediate Users
Advisory: Knowledge of Windows and Adobe Photoshop Elements For intermediate- or advanced-level photographers or scrapbookers. Covers tools and techniques for creating text with character, custom shapes and layer styles to add pizzazz, using and creating brushes for embellishments, adding blend modes and filters to give dimension, and automating pages using templates. (Apportionment)

COMP 705
Digital Photo Restoration and Portrait Makeovers
Advisory: COMP 119 Adobe Photoshop Elements and knowledge of Windows. For photographers and scrapbookers who want to advance their skills to repair old photos and touch up portraits. Topics include repairing scratches and tears on old photos; fixing hair, teeth, skin, red eyes, and blemishes; enhancing photos; combining images; creating backgrounds and frames; and selecting photo papers. Textbook Required. (Apportionment)

COMP 715
Introduction to Computer Components
This course is designed to provide the fundamentals in computer servicing. It introduces individuals to the names and general characteristics of a variety of a variety of components of a computer system. You will experience a hands-on approach to learning installation, configuring, and upgrading computer components. (Fee-Based)

COMP 720
Fundamental Principles of Printers, Scanners and Networks
This course is designed to provide the fundamentals of using printers, scanners and networks and providing support for them. The course will cover elements of installation, configuration, and networking that are necessary to provide support. (Fee-Based)

COMP 725
Intro to Windows Security, Safety and Environmental Issues
This course is designed to assist individuals in understanding personal computers on a technical level. You will receive hands-on experience managing Windows desktop security and internet security. You will also learn about safety and environmental computer issues. Essential elements of security are covered. (Fee-Based)

COMP 730
Microsoft Windows for Help Desk Careers
This course will give individuals fundamental knowledge of various Windows Operating Systems. The course includes the installation, configuration, and supporting of Windows Operating Systems. Customizing and configuring to meet a company's needs will also be covered. (Fee-Based)

COMP 735
Communication and Professionalism for Help Desk Professionals
This course is designed to provide the fundamentals of good communication and professionalism skills for working in a help desk environment. Topics include using good listening and diplomacy skills when communicating with customers and colleagues. (Fee-Based)

COMP 740
A+ Essentials
This course will prepare you for the CompTIA A+ Essentials certification exam (2006 Objectives). Students will obtain the skills and knowledge necessary to install, build, upgrade, repair, configure, troubleshoot, and perform preventative maintenance on personal computer hardware and operating systems. Textbook Required. (Fee-Based)

COMP 745
A+ Remote Support Technician (Practical Application)
Learn the skills necessary to work as a field service technician or support technician through hands-on activities. With a focus on A+ exam preparation, you will gain knowledge to install, configure, upgrade, and maintain PC workstations, the Windows OS and SOHO networks. Troubleshooting and computer security also covered. Textbook Required. (Fee-Based)

COMP 750
Network+ Certification
This course will prepare you for the CompTIA Network+ Certification. This hands-on class covers describing the features and functions of networking components. It also includes managing, maintaining, troubleshooting, installing, operating, and configuring basic network infrastructure. Textbook Required. (Fee-Based)

COMP 755
Blogging For Beginners
Learn to create your own blog. Topics include: name your blog, choose a blogging program, write creative posts, use tags, and add audience-building links to your text. Students will practice creating blogging and creating posts. (Fee-Based)
COMP 760
Using Facebook & LinkedIn for Business
Social networking applications such as Facebook and LinkedIn allow you to communicate and share information with your contacts through message walls, groups, and instant messages. This course teaches how to use social networking applications to communicate and share information. Learn how to give your business maximum exposure with networking applications. (Fee-Based)

COMP 765
Using Google Apps for Business
Google apps such as Gmail, Google Docs, and Google Calendar are used by millions of users. Learn how to use these apps in your personal life and to save your company time and money. (Fee-Based)

COMP 770
How To Use Microsoft Office Live
Microsoft Office Live is used for personal use and small business. Learn how to use Office Live to create a website, and store and share documents online. (Fee-Based)

COMP 775
Transitioning to Windows 7 for Beginners
This course provides an overview of important new features in Windows 7 to help users work easily and efficiently with computers. Topics include the new features and tools to organize, find, protect, and share information. Hands-on lab instruction will be provided. (Fee-Based)

COMP 780
Windows 7 Beta for IT Professionals
Advisory: Experience installing, configuring, and windows desktop operating systems. This course is designed for individuals with experience installing, configuring, and supporting Windows desktop operating systems. Students will be introduced to the new features in Windows 7 Beta. Topics include user productivity, security and control, PC management, and desktop optimization. Participants will receive hands-on lab instruction. (Fee-Based)

COMP 800
MS Overview for Help Desk
Learn the essential principles of Word, Excel, Access and PowerPoint. Topics include document formatting, working with graphics, basic formulas, queries and reports. Participants will receive hands-on instruction on all concepts. (Fee-Based)

COMP 805
What is GIS and How is it Used?
This class provides an overview of Geographic Information Systems (GIS) and career opportunities with GIS. Topics include what GIS is, how it can be used, fundamental concepts of GIS, how and where GIS data is obtained, and how to create basic maps. Activities use ESRI ArcGIS 9.2 software. (Fee-Based)

COMP 807
Introduction to Geographic Information Systems
This course will discuss Geographic Information Systems (GIS) and its applications to spatial data management. The course will cover how and where GIS data is obtained, using Global Positioning Systems (GPS), geo-coding, map projection, georeferencing, and coordinate systems. Spatial analysis and hands-on projects will also be included. (Fee-Based)

COMP 810
Introduction to Operating Systems
This course provides an introduction to computer operating systems such as Unix/Linux, DOS, and Microsoft Windows Operating Systems. Learn about system requirements, file systems management, protection and security, emerging technologies, and storage management through lectures and hands-on lab. (Fee-Based)

COMP 812
Microsoft Windows Client Administration
This class covers installing, configuring, and administering Microsoft Windows client operating systems. Topics include using administrative tools to create user and group accounts and accessing shared resources on a network. Learn how to manage user profiles, how clients can join and operate within a domain network environment. (Fee-Based)

COMP 814
Intro to Microsoft Project Professional
This course is designed to teach you how to create, modify, update and implement project plans using Microsoft Project. You will learn the essentials for managing time, people, and budgets for projects large and small with Microsoft Project. (Fee-Based)

COMP 815
Help Desk Support & Troubleshooting
This courses covers help desk support skills for the computer and information systems field. Topics include delivering effective technical support, common user problems, identifying the problem, help desk support tools, and resolving user problems. Students will be prepared to provide technical assistance to computer users. (Fee-Based)

Construction (CONS)

CONS 100
Electrical Wiring and Safety I
Covers basic electrical theory, terms, residential wiring techniques, grounding, basic switching circuits, residential load calculations and services. Based on current National Electrical Code (NEC). (Apportionment)

CONS 101
Electrical Wiring and Safety II
Course covers commercial wiring, conduit systems, over-current protection, polyphase distribution, grounding, voltage-drop equations and lighting. Based on the current National Electrical Code (NEC). (Apportionment)

CONS 121
Contracting License
This course is designed for students interested in exploring career opportunities in general contracting and subcontracting, current contractors interested in enhancing their business and law skills, and students who want to prepare for the California Contracting License Examination by the Contractors State License Board (CSLB). (Apportionment)
CONS 138
Room Addition Fundamentals
This course covers the fundamentals of residential construction and the sequence of events that take place for a room addition. This includes preparing the required plans, obtaining city building permits and communicating with city building inspectors. The course will also cover project management and legal considerations. (Apportionment)

CONS 142
Electrical Wiring and Safety III
Course covers industrial wiring, conduit systems, over-current protection, transformer circuits, electrical motors, motor repairs, motor control circuit, and electrical installations. Based on Current "National Electrical Code" (NEC). Trips to various electrical installations. (Apportionment)

CONS 201
Electrician Certification - State Test Preparation
This course covers the 16 areas of the 1999 National Electrical Code that the State of California has designed the State Certification test after. Ohm's Law and electrical calculations will also be covered. Students must bring the 1999 National Electrical Code (NEC) book and a calculator to the first class. (Fee-Based)

CONS 225
Construction Math
A review of basic mathematics focusing on its application to common calculations used in the construction trades. Course covers arithmetic operators, word problems, fractions, angles, metric measuring systems and algebraic formulas. (Fee-Based)

CONS 230
Introduction to Blueprint Reading
An introduction to blueprint reading using a fundamental approach, this course will familiarize trainees with basic blueprint terms, components and symbols. Trainees will learn the different types of blue print drawings (civil, architectural, structural, mechanical, plumbing/piping, and electrical) and how to interpret and use drawing dimensions. (Apportionment)

Creative Arts (CRAE)

CRAE 100
Creative Arts for Older Adults
This class for older adults encourages art appreciation, self-expression, and creativity through a variety of art media. Projects are designed to expose older adult students to artistic design, and to give experience with different artistic methods, techniques, tools, and materials. (Apportionment)

CRAE 101
Ceramics for Older Adults
This course in basic ceramics for older adults includes lecture, demonstration and application of ceramic artwork. Student will learn mold selection, glazing, decorating techniques, and proper firing procedures. Individual artistic creativity is encouraged and completed art projects of the older adult student are often displayed publicly. (Apportionment)

CRAE 103
China Painting for Older Adults
Older adults will learn the fundamentals of china painting as presented to older adult students through demonstration and individual instruction. The older adult students will learn techniques such as brush strokes, blending, shading, grounding, and masking. Final class projects are heirloom quality artworks that may be displayed in a community art exhibit. (Apportionment)

CRAE 104
Needlecrafts, Knitting, Crochet for Older Adults
Older adult students will learn the practical application, knowledge, and skills required to create knitted, crocheted, needlepoint, and cross-stitched hand-made items. A wide variety of items are created, by older adult students, including decorations for the home and clothing for babies, children and adults. (Apportionment)

CRAE 105
Painting for Older Adults
This class offers older adults an individualized approach to learning painting and artistic expression at their own pace and within their interest and style. Older adult will learn techniques in drawing, brush strokes, and color mixing and application. (Apportionment)

CRAE 106
Quilting for Older Adults
This course offers the essentials of quilting, for older adult students, which includes fabric selection, cutting, and sewing methods along with the history and vocabulary of the craft. Special techniques for older adults are covered such as patchwork, applique, hand and machine methods, and finishing techniques. (Apportionment)

CRAE 215
Scrapbooking Design and Techniques
Students will make personalized scrapbook pages. This is an introductory course for beginners who want to learn about design and several techniques. Projects include metal embellishments, paper flowers, and transfers. Learn how to incorporate the principles and elements of art and design to create captivating layouts for your memories. (Fee-Based)

CRAE 310
Intergenerational: Creative Arts Exchange for Older Adults
Older adults along with participants of multiple generations create artistic legacy keepsakes that reflect the individual histories of older adults, lifetime memories, and personal creative expression. Class projects are designed to encourage mutual appreciation and connections among older adult students and participants of varying age groups. (Apportionment)

CRAE 315
Beginning Drama for Older Adults
This course is designed to introduce older adult students to the world of drama and to the theatrical creative process. Students are encouraged to experiment and develop personal performance skills as well as gain an understanding of drama through participation and practice critiques. (Apportionment)
CRAE 320  
**Basic Drawing**  
This course will begin with basic skill development in contour drawing, shading, creating texture, basic composition and perspective. The drawing medium will include graphite, charcoal and ink. A short lecture/demonstration is followed by a related drawing assignment. *(Fee-Based)*

CRAE 325  
**Watercolor**  
This course is designed for beginning to intermediate watercolor. Lecture/demonstration is followed by guided lab session. Among the subjects covered will be materials, washes, glazes, color theory, etc. There are voluntary, supportive critiques at the end of each class. *(Fee-Based)*

CRAE 332  
**Tole Painting and Decorative Artwork Intermediate**  
The course offers students the opportunity to build on the basic skills learned in basic Tole and Decorative classes. The course includes the use of acrylic paint, discussion of strokes and techniques, and projects utilizing a variety of surfaces including tin, wood, porcelain and furniture. Some painting experience is necessary for this class. *(Fee-Based)*

CRAE 340  
**Silk Painting**  
This is a course to learn silk painting with the Serti technique where designs are outlined with gutta or resist on stretched white silk. *(Fee-Based)*

CRAE 345  
**Recycled Materials Become a Tote Bag**  
This course is designed to teach students basic sewing techniques and to create a reusable tote bag all while learning about recycling and reusing materials in our everyday lives. Students will make a functional reusable bag that can be used as a beach tote, grocery/shopping bag, and a diaper or book bag. *(Fee-Based)*

CRAE 350  
**Art Appreciation: Looking and Learning**  
This course takes students on an educational journey to the world of art and the artist. Students will learn about different periods of art, about the lives of the artists, and the world in which they lived that inspired their work. *(Fee-Based)*

**Career Planning (CRPL)**

CRPL 365  
**Work Experience**  
This course provides career technical education students with work experience in their program of study. It covers job readiness skills that will prepare students to be effective job seekers and workers. Students are introduced to the basics of resume writing, interviewing, workplace communication and job searching. 120 Hours of fieldwork required. *(Grant-Funded)*

CRPL 370  
**Job Readiness**  
This course covers basic job readiness skills that will prepare students to be effective job seekers and effective workers. Students will be introduced to the basics of resume writing, interviewing, workplace communications and job searching. Students will develop a personal skills inventory, create a resume, and prepare an employment portfolio. *(Grant-Funded)*

**Dance (DAN)**

DAN 102  
**Ballroom/Latin/Swing Dance**  
Learn the most popular dances. Includes traditional contemporary dances: cha cha, waltz, foxtrot, tango, East Coast swing samba, rumba, and country western. Have fun and make new friends! A partner is not required. You must wear soft-soled shoes. Last class meeting arranged for night out dancing (nominal fee). *(Fee-Based)*

DAN 103  
**West Coast Swing Dance**  
Learn only one dance West Coast Swing! Dance it fast or slow to your favorite music. The official state dance of California. This dance will be popular forever. A partner is not required. Wear soft-soled shoes. Last class meeting arranged for night out dancing (nominal fee). *(Fee-Based)*

DAN 104  
**Salsa Dance**  
Learn the basics and fun variations of this hot dance. A partner is not required. *(Fee-Based)*

DAN 112  
**Adult Jazz Dance**  
Students will learn jazz dance techniques with strength and flexibility training along with simple dance combinations. *(Fee-Based)*

DAN 114  
**Adult Ballet**  
Beginning  
This course will concentrate on the fundamental techniques of ballet. Each class will begin with the basic "barre" exercises, moving into the center for stretching and ballet combinations, followed by executing moves while traveling across the floor. *(Fee-Based)*

DAN 117  
**Waltz and Cha Cha Dance**  
Learn and dance some fun patterns of both Waltz and Cha Cha. Both dances are very popular. Learn the basics and techniques of both. Join us for some fun. Last class meeting arranged for night out dancing (nominal fee). *(Fee-Based)*

DAN 118  
**Fox Trot and Tango Dancing**  
Experience both the Fox Trot and American and Argentine styles of Tango dancing. Both dance styles are very popular. Learn the basics and techniques of both. Join us for some fun. Last class meeting arranged for night out dancing (nominal fee). *(Fee-Based)*

DAN 119  
**The Art of Belly Dancing**  
Exercise while exploring the dance and rhythms of the Near and Middle East through Belly Dancing. Learn arm, hand and body movements including belly rolls as well as techniques for finger cymbals and veil work. Class taught to accommodate beginners as well as those with experience. Bring finger cymbals or learn how to make them with bottle caps and 3 yards of flowing fabric approximately 45 inches wide for the veil session. *(Fee-Based)*
**DAN 120**  
**Hip Hop Dance**  
Learn new hip hop dance moves and fun, funky choreography! Stimulate your mind while learning choreography and strengthen your body with our fun stretches and exercises. *(Fee-Based)*

**DAN 125**  
**Irish Dance - Beginning**  
Ages 13-Adult  
Learn Irish dance from an instructor who has taught adults for 15 years! Students will learn the beginner steps of the Reel and Jig and a social dance. Class will be fun, informative, and a place to meet new friends. Also, a great way to prepare for St. Patrick's Day! Music CD required. *(Fee-Based)*

**DAN 130**  
**Waltz, Cha Cha & Tango Dance**  
Learn the basics and have fun with American style dancing. A partner is not required. *(Fee-Based)*

**DAN 135**  
**Ballroom Dancing - Rhythm & Latin Style: Cha Cha, Swing, Rumba, Mambo, Samba**  
Learn the basic steps and variations of these rhythm and latin style dances. Join the class for a fun evening of dancing. *(Fee-Based)*

**DAN 140**  
**Latin Cardio Blast**  
Come dance to a variety of latin beats while learning the basic steps of salsa, merengue, samba and more. Have fun while burning calories. This is a cardio blast workout, so bring a towel and water. *(Fee-Based)*

**DAN 145**  
**Ballroom Dancing: Smooth Style: Fox Trot, Waltz, Tango**  
Learn the basic steps and variations of these smooth, elegant ballroom dances. Join the class for a fun evening of dancing. *(Fee-Based)*

**DAN 150**  
**Bellydancing Techniques for Performance**  
Learn everything necessary to perform a short belly dancing routine in 6 weeks. Good for parties or events and anyone interested in learning the proper technique and execution of this dance quickly. Learn finger cymbals and veil techniques as well. *(Fee-Based)*

**DAN 160**  
**Afro-Latin Dance Workout**  
In this low impact aerobics class, students will learn basic African and Caribbean dance moves to the beat of percussion music. *(Fee-Based)*

**DAN 165**  
**Belly Dance Workout**  
Students will experience the mystery and beauty of the dances of the Middle East including Belly dance, Dabke and fusion forms designed in an exercise/workout format. *(Fee-Based)*

**DAN 170**  
**Salsa Boot Camp**  
Students will learn eight count Salsa basics and how to lead and follow in this intensive class. Learn this popular dance, have fun and exercise. *(Fee-Based)*

**DAN 175**  
**Argentine Tango**  
Students will learn basic steps, coordination, and partnering skills, along with styling and more intricate footwork. Once you experience this dance form, you will want to continue your Tango journey forever! *(Fee-Based)*

**DAN 177**  
**Argentine Tango Workshop**  
Learn and practice the fabulous style of Tango from Argentina that continues to gain popularity. Get yourself prepared to attend a Milonga/dance and enjoy the energy. American and International derived from this beautiful Tango. Learn Caminadas, Ochos, Ganchos and more. *(Fee-Based)*

**DAN 180**  
**East Coast Swing Dance**  
Students will learn various Swing dance styles such as: Jitterbug, East Coast Triple Step, Charleston, Lindy, and Balboa. The course will focus on learning the steps, body mechanics, and partnering skills to get you Swingin’ with style! *(Fee-Based)*

**DAN 185**  
**Latin Social Dance**  
Classes will cover Merengue. By the end of these six weeks, you will have developed lots of partnering and styling skills, and you’ll know what to do when you hear some fabulous Latin music! *(Fee-Based)*

**DAN 190**  
**West Coast Swing Boot Camp**  
Students will learn six and eight count basics and how to lead and follow in this intensive class. Learn this popular smooth style swing, have fun and exercise. *(Fee-Based)*

**DAN 195**  
**Tap Dance for Adults**  
Students will learn the unique American dance form of Tap. This is a beginner level tap dance class that introduces students to basic tap steps and vocabulary during rhythmic exercises. Emphasis is placed on footwork and rhythmic movement during floor choreography and short routines. Tap shoes required. *(Fee-Based)*

**Digital Arts (DIG)**

**DIG 100**  
**Adobe After Effects**  
Students will get an overview of the features, techniques and effects used in Adobe After Effects. This is a most powerful editing and composition video production and effects tool, used by professionals every day, for television, video and film. *(Fee-Based)*

**DIG 101**  
**Adobe Premiere Pro**  
Prerequisite: Computer Literacy. Edit in real-time and enjoy an elegant interface. Create productions that stand-out using new professional tools such as color correction, multiple nestable timelines, keyframable effects and much more. Work with your tools of choice thanks to tight integration with leading video hardware and software. Bring DVD/Flash Drive. PC lab only. *(Fee-Based)*
DIG 102  
Adobe Photoshop - Beginning  
Adobe Photoshop is the world’s leading image editing software, and the tool of choice for computer graphic artists and web designers. Learn the basics of digital imaging, and how to use Photoshop’s common tools, palettes, and commands for manipulating images and compressing them for the fastest downloads. Exercises include color corrections, image retouching, photo montaging and other uses. Discover how to alter photographs, create digital collages, and scan images. Need to know basic computer and typing skills. (Fee-Based)

DIG 103  
Adobe Illustrator - Beginning  
Advisory: COMP 100 Introduction to Computers and MS 160  
MS Office - Overview The Adobe Illustrator beginning course covers the basic concepts and techniques of computer graphics. The principles of art and design are taught in a studio setting emphasizing hands-on experience. Students create original illustrations using vector-based graphics software. (Fee-Based)

DIG 104  
Illustrator - Advanced  
Prerequisite: Beginning Illustrator or equivalent experience. Review the basics of Illustrator and then go on to create elaborate graphics for web pages, commercial design and desktop publishing. Learn the essentials of pre-press printing technique (color separation and trapping), professional page layout tips, fundamental digital color theory and design concepts. Illustrator is a graphic artist’s essential tool along with Adobe Photoshop. Bring Flash Drive. (Fee-Based)

DIG 105  
Adobe Dreamweaver - Beginning  
Prerequisite: Knowledge of internet, operating system navigation, basic computer skills, opening/saving documents. Learn the principles of web design and how to edit HTML documents. Integrate web graphics find resources on the Web and survey advanced techniques related to E-commerce websites. Create your own site and demo your work in last class. Bring Flash Drive. PC lab only. Textbook Required. (Fee-Based)

DIG 106  
Adobe Flash Pro - Beginning  
Prerequisite: Knowledge of internet, operating system navigation, basic computer skills, opening/saving documents. Students will learn how to use Flash to do web animations, interactivity and will build complete websites using only Flash. Learn basic animation, key frames, tweening, movie clips, basic action script, preparing images for web/multimedia and more! Bring Flash Drive. PC lab only. Textbook required. (Fee-Based)

DIG 109  
Photoshop - Introduction  
Students will learn how to use Photoshop to do a variety of image correction, coloring, compositing, and special effects techniques for print, web and multimedia. Questions regarding visual aesthetics and design, importing digital files and output will be discussed. Students will have the opportunity to produce finished projects according to their needs and aspirations. (Fee-Based)

DIG 111  
Adobe Photoshop - Intermediate  
Prerequisite: Beginning Photoshop or equivalent experience. Explore more professional features: working with complex masks, filters and advanced layers, professional photo editing and restoration, 3D-like rendering with gradients, and much more. Learn fundamental digital color schemes and design concepts. Bring Flash Drive. Textbook required. PC lab only. (Fee-Based)

DIG 112  
Website Design HTML 5  
Prerequisite: Knowledge of Internet, operating system navigation, basic computer skills, opening/saving documents. Learn the basic principles of web page construction; edit and format HTML documents. Make hyperlinks to other pages, make tables, build forms, embed and optimize images. Learn about JPG, GIF formats, create frames; learn to use Java and JavaScript, review professional web-authoring tools like Dreamweaver and Fireworks. Bring Flash Drive. PC lab only. Textbook Required. (Fee-Based)

DIG 113  
Adobe After Effects - Intro  
Advisory: Adobe Premiere or editing experience and Familiar with Photoshop. Express your creative ideas using After Effects CS5. Employ innovative 2D, 3D, text, and vector graphic compositing and animation tools; choose from an extensive selection of effects; and add high-quality audio. Explore a large library of creative building blocks to get you started, and take advantage of command line automation and scripting for advanced applications. Combine layers into new, visually rich alternate realities. Mask, key, motion track, color correct, paint, and perform a variety of visual effects magic with powerful, efficient, and precise tools. (Fee-Based)

DIG 114  
Adobe After Effects  
Prerequisite: Adobe Photoshop and Premiere Pro. Learn the Adobe After Effects work area; integrating video and graphic motion, creative mattes, animation, filtering, and multimedia animation. Bring DVD/Flash Drive. PC lab only. (Fee-Based)

DIG 115  
After Effects - Advanced  
Learn advanced graphics motion and modification. Advanced key frame techniques and special effects. Students will have a choice of either a PC or MAC computer system as available. Prerequisite: Intro to After Effects. (Fee-Based)

DIG 116  
Apple Final Cut Pro  
Prerequisite: Knowledge of MAC OS X.2; familiar with graphics and editing. Learn basic and advanced editing techniques. Work with clips in the viewer: trimming, adjusting and controlling numerous characteristics in video, audio, filters and motion settings. Use various methods of sequencing your videos in the Canvas/timeline with “drag and drop” and automatic methods such as insert, overwrite, replace, fit to fill, and superimpose. Become familiar with key framing for effects, applying transitions for creative moments. Learn how to capture/create, edit and place still images and audio files. (Fee-Based)
DIG 135
Adobe Flash Pro - Intermediate
Prerequisite: Adobe Flash Pro (Beginning). Students must have a complete understanding of Flash basics: tweening, motion paths, the library, movie clips and basic action script. Learn to use Flash for complex web animations, special effects, and sophisticated interactivity. Learn intermediate action scripting which includes working with objects, classes, methods, properties, functions and event handlers. Controlling multiple timelines, sound effects and text will be taught as well as adding dynamic interactivity to the movie and clip. Bring Flash Drive. PC lab only. Textbook required. (Fee-Based)

DIG 151
Adobe Indesign
Beginning
Advisory: Computer Literacy. This course combines basic desktop publishing skills with the specifics of how to use Adobe InDesign to create visual communications. You will learn page layout tools as you are introduced to the software interface. This course teaches the fundamentals, basic commands and procedures used to create professional documents. (Fee-Based)

DIG 162
Adobe Dreamweaver
Intermediate
Prerequisite: Beginning Dreamweaver. Students will build upon their beginning Dreamweaver and/or HTML skills to learn how to develop more interactive and sophisticated websites. Special emphasis will be placed on developing and linking to databases using Dreamweaver. Bring Flash Drive. PC lab only. Textbook Required. (Fee-Based)

DIG 164
SolidWorks for the Designer - Beginning
Prerequisite: Computer Literacy. Class will consist of hands-on exercises to develop 3D CAD design skills with state-of-the-art intuitive, parametric 3D CAD system. This course is designed for students with no prior knowledge of 2D or 3D CAD. The beginning course will focus on an introduction to SolidWorks and learning the basic tools to perform product design exercises for manufacturing. Bring Flash Drive. PC lab only. (Fee-Based)

DIG 165
SolidWorks for the Designer - Intermediate
Prerequisite: Beginning Solidworks. Class will consist of hands-on exercises to develop 3D CAD design skills with state-of-the-art intuitive, parametric 3D CAD system. This course is designed for students who have completed SolidWorks (Beginning). The intermediate course will focus on achieving a more in-depth understanding of SolidWorks by implementing more advanced operations. Bring Flash Drive. (Fee-Based)

DIG 166
Adobe Encore and Adobe Audition
Prerequisite: Computer literacy and knowledge of Photoshop and/or Premiere Pro. Learn to author DVDs and output your project to all recordable DVD formats with Adobe Encore file editing software and Adobe Audition software for mixing and editing audio. Use Adobe Photoshop to create and edit menus. Output your project to all recordable DVD formats. Bring DVD/Flash Drive. PC lab only. (Fee-Based)

DIG 167
Digital Camera Workshop
Learn how to use your digital camera. This is a one time only, 4 hour workshop to learn the basic operation of your digital camera and how to transfer your digital images to your computer. Bring camera, cable, memory card and instructions. (Fee-Based)

DIG 168
Scanner Workshop
Learn how to use a scanner. This is a one time only, 4 hour workshop to learn how to use a scanner to copy photos, slides, negatives or drawings and store them on your computer. Bring material to copy including old photos and small 3-dimensional objects. (Fee-Based)

DIG 169
Photoshop for Web Workshop
Advisory: Any Website Design course or Photoshop course. For the more advanced Photoshop/WEB student. Learn how to manipulate photos for minimum download time with maximum resolution. This workshop consists of two, 4 hour classes over two consecutive Saturdays. (Fee-Based)

DIG 170
Computer Monitoring with Spector Pro for Home Or Office
Learn how to easily monitor your children's or employees' computer activities with the highly ranked sleuth software program Spector Pro 5.0 by Spectorsoft. See what they are doing on MySpace, the internet or e-mail correspondence. The most impressive feature is the "Play" function. It allows you to perform a fast slide show of the previous activities on their computer. Keystrokes are also recorded so you can learn their passwords. This is a 3 hour workshop held in our state of the art computer lab at our Anaheim Campus. (Fee-Based)

DIG 175
Silk - Illustrator
Prior experience with Illustrator required. Intermediate to advanced techniques of Illustration using the pen tool, clipping masks, gradients, blends, and gradient meshes to create watercolor and silk painting effects. Printing to various medias, including silk will be explored. (Fee-Based)

DIG 180
Mobile Device Game Development
An introduction of game theory and game design as it pertains to websites and mobile devices. The class will focus on action script 3 programming language with emphasis on user interaction. Course includes hands-on exercises for art asset generation, game play mechanics and audio. Textbook required. (Fee-Based)

DIG 185
Website Development Workflow - Methods and Techniques
An introduction to modern workflow methods and techniques used in professional content creation pipelines. The class will focus on integrating multi format assets such as video, audio, vector, 3D and image sequences into a production pipeline. Overview of content management tools, and meta data tracking with an emphasis on reusable/flexible asset generation. (Fee-Based)
DIG 190  
**Print on Fabric**  
Printing on fabric with a basic color printer and scanner using Photoshop and Illustrator texture filters to create watercolor and silk painting effects will be explored and demonstrated. Students will print from their own drawings or photos on to various media such as silk and cotton to create a scarf or quilt block. *(Fee-Based)*

DIG 195  
**Flash Intermediate Workshop**  
If you already know how to animate in Flash but want to take it to the next level this workshop is for you. We will cover intermediate to advanced tools and techniques in CS4. What makes the difference between amateurish Flash sites and professional level Flash come and find out. *(Fee-Based)*

DIG 200  
**Photoshop Workshop**  
An in-depth journey into professional Photoshop techniques and workflows with an emphasis on creative techniques. *(Fee-Based)*

DIG 210  
**Adobe Lightroom**  
Advisory: Knowledge of windows operating systems and experience with digital cameras and Photoshop. Adobe Photoshop Lightroom helps bring out the best in your photographs, whether you’re perfecting one image, searching for ten, processing hundreds, or organizing thousands. Create images, edit with state-of-the-art nondestructive editing tools. Manage all your images. Showcase your work in elegant print layouts, slide shows, and web galleries. *(Fee-Based)*

DIG 215  
**Adobe Illustrator (Intermediate)**  
Advisory: Current working knowledge of beginning Adobe Illustrator or have used Adobe Illustrator in the past. Use pen tool. This course explores more advanced vector artwork; font manipulation; isometrics; shadows and shading; and other 3-dimensional effects. *(Fee-Based)*

DIG 220  
**Adobe Dreamweaver with PHP and MySQL**  
Beginning  
Advisory: Basic computer class and keyboarding class or equivalent. Adobe Dreamweaver CS6 is an application for web designers and developers used to create websites and applications for use across multiple targets including browsers, devices, and tablets. In this students will create a development environment for building PHP web applications with Adobe Dreamweaver and a MySQL database server. *(Fee-Based)*

DIG 225  
**Introduction to Animation**  
Adobe Edge  
Advisory: Basic computer, Internet, and computer graphics skills or equivalent. This course introduces graphic animation tools that use web standards for incorporating smooth animations and interactivity into projects. The generated content can be displayed across multiple platforms such as mobile phones, tablets and desktops computers and browsers without the need for additional plugins. You will learn to create motion content in the application’s timeline-based interface. This course also covers importing and keyframing web graphics and adding interactivity to projects. *(Fee-Based)*

DIG 230  
**PHP and MySQL, Introduction**  
Advisory: Basic computer and keyboarding skills and basic HTML and CSS knowledge. MySQL (TM) and PHP are two of the most popular open source technologies to emerge during the past decade. PHP is a powerful language for writing server-side Web applications. MySQL is the world’s most popular open source database. Together, these two technologies provide you with a powerful platform for building database-driven Web applications. This hands-on MySQL and PHP course teaches everything you need to successfully build data-driven Web sites using MySQL and PHP. *(Fee-Based)*

DIG 232  
**PHP and MySQL, Intermediate**  
Advisory: HTML 5 and CSS and DIG 230 - PHP and MySQL, Introduction. This intermediate hands-on MySQL and PHP course teaches everything you need to successfully build data-driven Web sites using MySQL and PHP. Should know HTML and CSS. *(Fee-Based)*

DIG 240  
**JavaScript Programming, Introduction**  
Advisory: Basic computer skills and knowledge of HTML and CSS fundamentals. This course explores the fundamentals of JavaScript programming, one of the leading web development languages. Learn how to incorporate JavaScript code into HTML documents to produce stunning interactive Web pages. Students will be introduced to basic computer programming concepts including variables, operators, arrays, conditional statements, loops and functions. Hands-on exercises are performed each day to demonstrate key concepts and make web development with JavaScript fun and exciting. Bring USB Flash Drive. *(Fee-Based)*

DIG 242  
**JavaScript Program, Intermediate**  
Advisory: JavaScript Programming basics, HTML and CSS fundamentals. This course is designed for students who have a solid foundation in the basics of using and writing JavaScript (either through completion of the Intro to JavaScript course or with instructor approval). This course is an intermediate level JavaScript course, which focuses on JavaScript’s object-based features, and creating practical JavaScript applications. *(Fee-Based)*

DIG 245  
**Introduction to Programming**  
Designed for non-computer science students interested in programming, or developing useful problem solving skills. This course explores the relationship between programming and problem solving using programming languages. Programming using scripting languages such as JavaScript and PHP, and a compiled, object-oriented language such as Java will be introduced. No prior programming experience is assumed. *(Fee-Based)*

DIG 255  
**WordPress, Beginning**  
This course is designed for anyone looking to learn how to use the WordPress platform for either personal or business website use. The course covers the basics on how to use the WordPress platform including installation, content management, and configuration. The course also covers WordPress themes, plugins, and settings. Prior web publishing experience not required. Familiarity with web browsers and email is highly recommended. *(Fee-Based)*
**Disabled Support Services (DSS)**

**DPS 106**  
Braille Transcribing  
This course is designed to familiarize the student with the Braille system and its usage. Students will be expected to learn to read, write and proofread Braille and submit a manuscript to the Library of Congress for certification in Braille Transcription. (**Apportionment**)  

**DPS 111**  
Exploratory Arts for Visually Impaired  
A course designed for students with visual impairments, which provides experience using various art media. (**Apportionment**)  

**DPS 114**  
Relationships and Sexuality Training  
A class geared for students with developmental or learning disabilities that is designed to provide a comprehensive and meaningful overview. The course strives to build healthy, safe sexual attitudes, behaviors, and relationships consistent with personal values. (**Apportionment**)  

**DPS 115**  
Music for Communication for Students with Disabilities  
This course is designed for students with developmental or learning disabilities to teach verbal and nonverbal language skills and increase one’s attention span and decision-making skills with the use of music. (**Apportionment**)  

**DPS 116**  
Nutrition & Exercise  
Geared for students with developmental or learning disabilities that is designed to teach the benefits of healthy eating and proper exercise. (**Apportionment**)  

**DPS 119**  
Kinesthetic PE For Visually Impaired  
A class designed for students with visual impairments to improve body awareness, stamina, cardiovascular fitness and muscle tone. Instruction will be characterized by specialized techniques relying on tactile input to the students. (**Apportionment**)  

**DPS 120**  
Career Preparation and Life Management  
A course designed for students with developmental or learning disabilities to prepare for employment and independent living. (**Apportionment**)  

**DPS 121**  
Computer-Assisted Instructional Lab  
Designed for students with disabilities to provide instruction in computer operation, word processing and the use of adaptive computer equipment. (**Apportionment**)  

**DPS 122**  
Adaptive PE Weight Training  
Increases physical endurance, stresses body condition/muscle development. Prerequisite: entry into this class based on physician’s release. (**Fee-Based**)  

**DPS 124**  
Independent Living Skills  
A comprehensive program for adults with developmental disabilities to improve the social, academic, personal, prevocational and avocational capabilities. (**Apportionment**)  

**DPS 125**  
Daily Living Skills for Students with Disabilities  
A class geared for students with disabilities that is designed to enhance their ability to live more independently. (**Apportionment**)  

**DPS 126**  
Basic Reading for the Disabled  
Designed to enhance reading skills by providing a strong foundation to increase vocabulary and reading comprehension. (**Apportionment**)  

**DPS 128**  
Improving Individual Skills for Student with Disabilities  
Geared for students with developmental, psychiatric or learning disabilities, designed to improve academic and personal skills through social interactions, healthy living, and academic success. (**Apportionment**)  

**DPS 129**  
Community Resources  
A class geared for students with developmental or learning disabilities designed to teach skills necessary to independently take part in typical community activities by traveling to various locations in the area. Lessons learned in the classroom will be practiced in the community. (**Apportionment**)  

**DPS 130**  
Bill Paying and Banking  
This class is designed for adults with developmental disabilities and learning disabilities who want to learn how to maintain a checking account. This is an introductory class that teaches banking vocabulary and step by step on how to open and manage a checking account. Students will be required to use the Quicken software program for balancing their checking account. (**Apportionment**)  

**DPS 131**  
Basic Cooking  
Designed for students with developmental or learning disabilities to have them acquire skill in safely preparing and storing foods for independent living. Also includes nutrition, appropriate manners and kitchen organization. (**Apportionment**)  

**DPS 132**  
Communication Skills  
A course geared for students with developmental or learning disabilities to provide instruction on the different forms of effective communication including body language, gestures, and non-verbal cues. Students actively participate in role playing real-life situations, discussing current events, and practicing listening exercise to improve their communication skills. (**Apportionment**)  

**DPS 133**  
Self-Advocacy  
Instruction designed for students with developmental or learning disabilities to enhance advocating for self in everyday life situations. (**Apportionment**)
DSPS 134  
**Banking for Apartment Living**  
A class designed for students with developmental or learning disabilities who want to learn how to budget their money, pay bills, make purchases, grocery shop, rent an apartment, and interview roommates. The class simulates living in an apartment and the responsibilities of being independent. Students must have prior banking experience in writing checks, making deposits, and ATM transactions. Students will be required to use the Quicken software program for balancing their checking account. *(Apportionment)*

DSPS 135  
**Beginning Money for Students with Disabilities**  
A course designed for students with developmental or learning disabilities to learn the skills necessary for performing accurate money exchanges. Students will learn money counting skills, and consumer skills in the marketplace. *(Apportionment)*

DSPS 136  
**Living More Independently**  
A class geared for students with developmental or learning disabilities that is designed to provide a comprehensive and meaningful overview of a variety of options for living more independently (i.e. group home, own apartment), how to achieve those options, and what is needed to be successful in your choice. *(Apportionment)*

DSPS 137  
**Job Skills**  
Designed for students with developmental or learning disabilities to help recognize and achieve potential as independent members of the community. Lecture, lab, and field experience are combined to provide the student with a comprehensive and meaningful educational experience. *(Apportionment)*

DSPS 138  
**Communication on the Job**  
A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will include activities to enhance written and verbal skills. *(Apportionment)*

DSPS 139  
**Orientation to DSPS**  
A course designed to inform adults with disabilities about the programs and services offered through SCE/DSPS. *(Orientation)*

DSPS 140  
**Social Skills**  
This course is designed to give students with developmental and learning disabilities an overview of appropriate social skills at school, work, and in the community. Through examples in their own lives as well as instructional materials various areas social skills challenges will be explored, any necessary coping strategies taught. *(Apportionment)*

DSPS 150  
**Critical Thinking**  
Designed to assist adults with disabilities in acquiring or improving critical thinking skills necessary to function independently in a variety of activities, situations, and environments. Emphasis on problem solving and decision making through understanding and evaluating situations, utilizing knowledge of cause and effect relationships, exploring options, and planning and implementing strategies. *(Apportionment)*

DSPS 155  
**Mobility Skills**  
A class designed for students with disabilities to enhance independence by introducing safe practices and knowledge for using public transportation. *(Apportionment)*

DSPS 160  
**Adaptive PE Activity**  
This course is designed for the disabled student. The class modified individual and team sport activities. *(Fee-Based)*

DSPS 165  
**Wheelchair Basketball**  
Weekly practice or a minimum of four hours per week is required. The most qualified student athletes will be selected to represent the college during the season. *(Fee-Based)*

DSPS 170  
**Wheelchair Athletics**  
This course includes instruction and participation in the fundamentals of the spectrum of wheelchair athletics. *(Fee-Based)*

DSPS 175  
**Personal Safety**  
This course is designed to introduce students with developmental disabilities to personal safety awareness. Students with disabilities will be presented with proactive steps to take to avoid dangerous situations in the community and at home. Students with disabilities will also be presented with basic techniques for self defense and first aid. *(Apportionment)*

DSPS 180

Geared for students with disabilities to learn how to create a social life for themselves by discussing how to meet people and making friends, identifying low cost activities, learning age appropriate games to play with guest, practicing social manners, and planning a social event and carrying it out. *(Apportionment)*
DSPS 190  
**Beginning Computers / Open Lab for Adults with Disabilities**  
This course is designed to provide students who have developmental disabilities with the knowledge to develop or maintain skills in basic computer applications such as, but not limited to: Windows, word processing, data entry, Internet navigation, keyboarding, and remedial academic software. (Apportionment)

---

DSPS 195  
**Have Internet; Will Travel**  
This course is designed to provide students who have developmental disabilities with the knowledge to develop the skills needed for travel planning while building computer and researching skills by use of the Internet. Students will plan 3 trips: a day trip, a weekend get-away, and a week vacation. (Apportionment)

---

DSPS 200  
**Rules of the Road**  
This course is designed to provide students who have developmental disabilities with the knowledge to increase awareness as a pedestrian/bicyclist or future licensed driver about the laws and rules of the road. (Apportionment)

---

DSPS 205  
**Money Skills for Students with Disabilities**  
This course is designed for students with developmental learning disabilities to learn the skills necessary for performing accurate money exchanges. Students will learn to count money, and to solve real life shopping problems using money. (Apportionment)

---

DSPS 210  
**Photoshop for Students with Disabilities**  
Through class and individual instruction students with developmental or learning disabilities will acquire basic knowledge and skills in digital photography and manipulation of photographs utilizing the Adobe Photoshop Elements program. Students will also develop their creativity through personalized PhotoShop projects. (Apportionment)

---

DSPS 215  
**Get in Shape: Healthy Eating and Exercise**  
Students with disabilities will learn the benefits of healthy eating and proper exercise. Students will prepare four healthy snacks and participate in exercise activities. Students should consult with a physician before starting an exercise program. (Apportionment)

---

DSPS 220  
**Summer Cooking**  
This course is designed to provide students that have developmental disabilities with the knowledge and skills needed to cook simple, nutritious meals. We will plan our meal, walk to the grocery store, shop for food, prepare the meal together, and clean up. (Apportionment)

---

DSPS 225  
**Actor’s Workshop**  
This course is designed to expose students with disabilities to basic acting techniques. Additionally, the acting, focused on everyday social dilemmas, will enhance the student’s ability to interpret and then deal with these everyday life situations on a regular basis. (Apportionment)

---

DSPS 235  
**Improving Daily Living Skills for Students with Disabilities**  
A quick paced course designed to provide students with disabilities with basic banking skills including writing checks and depositing paychecks. (Apportionment)

---

DSPS 245  
**Exercise for the Disabled Student**  
Geared for students with developmental or learning disabilities that is designed to lead students in a variety of exercises to improve mobility, increase blood circulation, flexibility, and coordination and boost one's energy levels. (Apportionment)

---

DSPS 250  
**Healthy Living with Exercise for Students with Disabilities**  
Geared for students with developmental or learning disabilities that is designed to get them moving according to their own individual abilities, while encouraging through music and stress management exercises. (Apportionment)

---

DSPS 255  
**Movement Through Music for Students with Disabilities**  
Geared for students with developmental or learning disabilities that is designed to teach nutrition, healthy eating habits while reinforcing proper exercise. (Apportionment)

---

DSPS 260  
**Introduction to Checking Accounts**  
A quick paced course designed to provide students with disabilities with basic banking skills including writing checks and depositing paychecks. (Apportionment)

---

DSPS 265  
**Exploring Your Occupational Path**  
This course is intended to assist adults with disabilities in establishing a clear and realistic occupational goal. Students will assess their interests and abilities in order to establish attainable objectives to achieve their goal. Student’s will also explore resources for seeking employment in their chosen occupational field. (Apportionment)

---

DSPS 270  
**Work Attitudes and Employer Expectations**  
This course is intended to prepare students for successful employment by introducing them to appropriate on-the-job behavior, communication, attitude and work ethic. Students will also be introduced to the importance of workplace safety and customer service. (Apportionment)

---

DSPS 275  
**Paying Bills**  
A quick paced course designed to provide students with disabilities with basic money management skills including use of an ATM and bill paying. (Apportionment)

---

DSPS 280  
**Landing a Job**  
This course is designed to introduce students with disabilities to filling-out and submitting both written and online job applications. This course will also introduce students to effective job interview preparation, technique and attire. (Apportionment)
DSPS 285
Budgeting for Apartment Living
A quick paced course designed to provide money-management skills for employed students with developmental or learning disabilities living in their own apartment. (Apportionment)

DSPS 290
Computer Assisted Instruction Lab - Beginning Level
Designed for individuals with developmental or learning disabilities, this course teaches basic computer skills including use of a keyboard and word processing. (Apportionment)

DSPS 295
Computer Assisted Instruction Lab - Intermediate Level
Designed for individuals with developmental or learning disabilities, this course provides training in word processing, use of the Internet and operation of e-mail accounts. (Apportionment)

DSPS 300
Computer Assisted Instruction Lab - Open Lab
This course is designed around the individual needs and goals of students with disabilities. Among the disciplines available for study are assistive technology, word processing, remedial academics and desktop publishing. (Apportionment)

DSPS 305
Fitness & Nutrition for Students with Disabilities
Geared for students with developmental or learning disabilities that is designed to teach the benefits of healthy eating and proper exercise. (Apportionment)

DSPS 310
Mobility Training for Students with Disabilities
The mobility training class is designed for adult students with developmental disabilities. In a small group the student learns all the skills necessary to use the OCTA public transportation services. This class stresses self-reliance and basic skill building. (Grant-Funded)

DSPS 315
Relationships for Students with Disabilities
This is a class for students with developmental disabilities or learning disabilities that is designed to provide them with a meaningful overview of adult relationships, primarily friendships and romantic/intimate relationships. Students will learn basic information and skills in order to build healthy and safe relationships. (Apportionment)

DSPS 320
Human Sexuality for Students with Disabilities
This is a class for students with developmental disabilities or learning disabilities that is designed to provide them with a comprehensive and meaningful overview of human sexuality. Students will learn current appropriate information in order to build healthy, safe sexual attitudes, behaviors, and relationships consistent with personal values. (Apportionment)

DSPS 325
Workplace Skills Training for Students with Disabilities
Workplace Skills Training is a lecture and lab course designed to provide students with developmental disabilities with hands-on training in basic janitorial tasks that may be expected of them in an entry-level position. Lecture topics include work safety and on-the-job behavior and attitude. (Apportionment)

DSPS 327
Workplace Safety and Janitorial Skills for Students with Disabilities
This course will provide students who have disabilities with hands-on training in basic cleaning tasks that may be expected of them in an entry-level job. Topics include appropriate dress, hygiene, on-the-job safety and safety equipment related to janitorial tasks. (Apportionment)

DSPS 329
Workplace Training: Exceptional Employee for Students with Disabilities
This is a lecture and lab course designed to provide students who have disabilities with hands-on training in basic janitorial tasks that may be expected of them in entry-level employment. Lecture topics include on-the-job behavior and attitude for potential pay raise and/or promotion. (Apportionment)

DSPS 330
Options for Independent Living for Students with Disabilities
This course is an overview of living options for students with disabilities who are considering living independent of their family homes. The advantages and disadvantages of various living options will be presented. Students will also explore the process of choosing and renting an apartment. (Apportionment)

DSPS 332
Living More Independently: Apartment Living
Students with disabilities will explore moving into their first apartment and responsibilities of maintaining a home. Topics will include identifying needed furnishings and supplies, basic house cleaning, and safe use and storage of cleaning products. Students will also be required to practice house cleaning tasks. (Apportionment)

DSPS 334
Living More Independently: Health, Safety and Living With Your Roommate
Students with disabilities will learn about choosing and living with a roommate. Students will be presented with strategies for cooperative living and problem solving. Students will also learn about health and safety in the home. (Apportionment)

DSPS 335
Balance and Mobility Skills for Students with Visual Impairments
This course is designed to provide students who are legally blind with the techniques needed to improve balance, strategies needed to reduce falls and skills needed to safely get up after a fall. Students will use sensory cues to identify environmental risks, learn exercises that increase strength and balance, and create a personal fall-prevention plan. (Apportionment)

DSPS 340
Music for Communication: Social Skills for Students with Disabilities
This course uses music to enhance communication skills and cultural awareness for students with intellectual and developmental disabilities. (Apportionment)
DSPS 345
Community Volunteering for Vocational Skills Enhancement
Students with developmental disabilities participate in weekly field trips. Trips will include resources in the community that can provide opportunities for volunteer service. Curriculum includes instruction for use of public transportation to get to and return from field trip destinations. (Apportionment)

DSPS 350
Job Skills Field Work for Students with Disabilities
Students with developmental or learning disabilities participate in weekly field trips to destinations that provide them with first hand observation of workplaces and/or introduce them to agencies that can assist them in attaining and maintaining employment. Curriculum also includes instruction in the use of public transportation. (Apportionment)

DSPS 355
Accessing the Community Through Mobility Skills for Students with Disabilities
A class designed for students with disabilities to enhance independence by introducing knowledge and safe practices for using public transportation. The course will include route preparation, and will help students learn to travel in the community to access services, community resources, vocational agencies, work sites, and student homes or apartments. (Grant-Funded)

DSPS 360
Making a Plan for Self-Advocacy
Students will examine personal strengths and skills as well as areas that need improvement in order to be successful in advocating for their chosen life or vocational goal. Students will also research resources pertaining to their goal in order to prepare a plan for advocating for their life or vocational goal. (Apportionment)

DSPS 362
Advocating for Life and Vocational Goals
This course provides students with disabilities with knowledge, skills and resources to make decisions and communicate needs for determining their own life and vocational path. Students will learn about disabilities and adaptive skills to mitigate personal disabilities. Students will learn and practice effective communication techniques. (Apportionment)

DSPS 364
Interacting with Authority and Emergency Personnel
This course will prepare students with disabilities for interaction with police and emergency personnel. Topics include an overview of the criminal justice system, rights of individuals if taken into custody and reporting victimization. This course also prepares students for interaction with fire, medical, and emergency medical personnel. (Apportionment)

DSPS 370
ILS: US Civics
This class is designed for adults with developmental disabilities and learning disabilities who want to become better citizens by gaining knowledge about the civics of the United States of America. (Apportionment)

DSPS 372
ILS: US Geography
This class is designed for adults with developmental disabilities and learning disabilities who want to learn United States geography. Students will learn about states, state capitals, and major United States landmarks. (Apportionment)

DSPS 374
ILS: US National Symbols and History
This class is designed for adults with developmental disabilities and learning disabilities who want to become better American citizens by gaining knowledge of American national monuments, American heroes, and national patriotic symbols. (Apportionment)

DSPS 380
Survival Vocabulary and Basic Reading and Writing
This course is the first in a series of three courses designed for adults with disabilities to learn survival vocabulary and basic reading and writing skills. (Apportionment)

DSPS 382
Basic Reading Comprehension & Writing for Students with Disabilities
This course is the second in a series of three courses designed for adult students with disabilities to increase their reading comprehension and writing skills. (Apportionment)

DSPS 384
Using Reading in Real Life Situations
This course is the third in a series of three courses designed for adult students with disabilities to increase their reading comprehension and writing skills found in real life situations. (Apportionment)

DSPS 390
Daily Living Skills: Reading Skills in the Kitchen for Students with Disabilities
This is an introductory cooking course for students with intellectual and developmental disabilities to practice reading and vocabulary in the kitchen so they can prepare a simple and nutritious meal. (Apportionment)

DSPS 392
Daily Living Skills: Basic Math with Money
This is an introductory course for students with intellectual and developmental disabilities to practice money skills to learn money exchanging concepts. (Apportionment)

DSPS 394
Daily Living Skills: Basic Math with Time
This is an introductory course for students with intellectual and developmental disabilities to practice math skills to learn time concepts. (Apportionment)

DSPS 396
Daily Living Skills: Basic Math with Calendars
This is an introductory course for students with intellectual and developmental disabilities to practice math skills to learn calendar concepts. (Apportionment)

DSPS 400
Applied Academics: Communication Skills
This course is geared for students with developmental, psychiatric or learning disabilities, designed to improve reading, writing and speaking skills. (Apportionment)
DSPS 402  
**Applied Academics: Math Skills for Everyday Living**  
This course is designed to improve everyday math skills for students with developmental, psychiatric or learning disabilities. (Apportionment)

DSPS 404  
**Applied Academics: Reading and Writing for Employment**  
This course is designed to improve reading and writing skills as they relate to employment for students with developmental, psychiatric or learning disabilities. (Apportionment)

DSPS 410  
**Introduction to Computers**  
Designed for individuals with disabilities, this course provides a basic introduction to computers. (Apportionment)

DSPS 412  
**Introduction to Basic Word Processing**  
Designed for individuals with disabilities, this course teaches the basic introduction to word processing. (Apportionment)

DSPS 414  
**Introduction to Basic Word Processing Editing for Students with Disabilities**  
Designed for individuals with disabilities, this course teaches basic word processing editing. (Apportionment)

DSPS 420  
**Intermediate Word Processing**  
Designed for individuals with disabilities wanting to increase their basic knowledge of word processing (Apportionment)

DSPS 422  
**Intermediate Electronic Mail**  
Designed for individuals with disabilities, this course provides training in the use of the Internet and operation of e-mail accounts. (Apportionment)

DSPS 424  
**Intermediate PowerPoint Slide Presentation & Basic Formatting**  
Designed for individuals with disabilities, this course provides training in the use of PowerPoint slide presentation software and basic spreadsheet software. (Apportionment)

DSPS 430  
**Beginning Money for Students with Disabilities**  
A course designed for students with developmental or learning disabilities to learn the skills necessary for accurate money exchanges. Students will learn how to count money, give appropriate amounts of money for purchases, make change, and how to calculate a tip. (Apportionment)

DSPS 432  
**Smart Shopping and Saving Money in the Community**  
A course designed for students with developmental or learning disabilities to learn how to save money by shopping smartly. Students will learn how to use comparison techniques, unit pricing, coupons, and online deals to find the best bargain. (Apportionment)

DSPS 434  
**Safe Shopping and Safe Money Management**  
A course designed for students with developmental or learning disabilities to learn how to safely shop and manage their money. Students will learn to identify and avoid scams within the community. (Apportionment)

DSPS 440  
**Improving Individual Skills: Consumer Skills**  
This course is geared for students with developmental, psychiatric or learning disabilities, and designed to improve consumer skills. (Apportionment)

DSPS 442  
**Improving Individual Skills: Self-Determination Skills for Students with Disabilities**  
This course is designed to improve self-determination skills for students with developmental, psychiatric or learning disabilities. (Apportionment)

DSPS 444  
**Improving Skills: Functional Writing Skills**  
This course is designed to improve everyday writing skills of students with developmental, psychiatric or learning disabilities. (Apportionment)

DSPS 446  
**Improving Skills: Reading Comprehension Skills**  
This course is designed to improve reading comprehension skills of students with developmental, psychiatric or learning disabilities. (Apportionment)

DSPS 450  
**Basic Cooking: Beginning Skills**  
This course is designed to give students with disabilities a foundation of basic cooking and food preparation concepts and activities, kitchen cleanliness and safety, and grocery shopping skills, using a variety of basic skills. (Apportionment)

DSPS 452  
**Basic Cooking: Intermediate Skills for Students with Disabilities**  
This course is designed to give students with disabilities intermediate skills of cooking and food preparation concepts and activities, kitchen cleanliness and safety, and grocery shopping skills, using a variety of basic skills (Apportionment)

DSPS 454  
**Basic Cooking: More Advanced Skills for Students with Disabilities**  
This course is designed to give students with disabilities more advanced skills of cooking and food preparation concepts and activities, kitchen cleanliness and safety, nutrition, and grocery shopping skills, using a variety of basic skills. (Apportionment)

DSPS 460  
**Social Skills: Foundational Basics**  
This course is designed to give students with disabilities an overview of foundational basic social skills at home, school, work, and in the community, using a variety of basic skills. (Apportionment)
DSPS 462
Social Skills: Conflict Management and Resolution
Basics
This course is designed to give students with disabilities an overview of conflict management and resolution skills at home, school, work, and in the community, using a variety of basic skills. (Apportionment)

DSPS 464
Social Skills: Additional Interpersonal Concepts
This course is designed to give students with disabilities an overview of additional social skills concepts at home, school, work, in the community, and in their personal life, using a variety of basic skills. (Apportionment)

DSPS 470
Relationships: Foundational Basics
This course is designed to give students with disabilities an overview of appropriate interactions with foundational relationships concepts, using a variety of basic skills. (Apportionment)

DSPS 472
Relationships: Building and Maintaining Healthy Relationships
This course is designed to give students with disabilities an overview of appropriate interactions for building and maintaining healthy friendships and romantic relationships, using a variety of basic skills. (Apportionment)

DSPS 474
This course is designed to give students with disabilities a review of general relationships, intimate relationships, and an overview of sexuality concepts, using a variety of basic skills. (Apportionment)

DSPS 480
Human Sexuality: Human Development, Puberty, and Conception
This course is designed to give students with disabilities an overview of basic human sexuality concepts of boundaries, human development, and puberty in order to build safe, healthy sexual behaviors and attitudes, consistent with personal values, using a variety of basic skills. (Apportionment)

DSPS 482
Human Sexuality: Sexual Expression, Reproduction, and Birth Control
This course is designed to give students with disabilities an overview of the basic human sexuality concepts of sexual expression, reproduction, birth control, and sexual health, in order to build safe, healthy sexual behaviors and attitudes, consistent with personal values, using a variety of basic skills. (Apportionment)

DSPS 484
Human Sexuality: Children, Personal Safety, & Healthy Relationships
This course is designed to give students with disabilities an overview of the basic human sexuality concepts of having children, sexual abuse safety, and healthy relationships, in order to build safe, healthy sexual behaviors and attitudes, consistent with personal values, using a variety of basic skills. (Apportionment)

DSPS 490
Affectively Dealing With Work-Related Problems
A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will include activities to enhance written and verbal skills. (Apportionment)

DSPS 492
First Impressions On The Job
A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will focus on making good first impressions and will include activities to enhance written and verbal skills. (Apportionment)

DSPS 494
Interviewing & Professional Communication
A class designed for students with developmental or learning disabilities who want to learn how to improve their communication skills in relationship to employment. Course will focus on interviewing skills and will include activities to enhance written and verbal skills. (Apportionment)

DSPS 500
Keyboarding & Basic Word Processing
This course is the first in a series of three courses designed for adults with developmental disabilities. The course teaches keyboarding and basic word processing. The skills learned in the first course will carry over into the subsequent two courses. (Apportionment)

DSPS 502
Exploring the Internet and Email
This course is the second in a series of three courses designed for adults with developmental disabilities. The course teaches the student how to use email and how to do research on the Internet using common search engines. The skills learned in this course will carry over into the last course in this series. Students will use keyboarding and word processing skills learned in prior course. (Apportionment)

DSPS 504
Creating PowerPoint Presentations for Students with Disabilities
This course is the third in a series of three courses designed for adults with developmental disabilities. The course teaches the student how to create PowerPoint presentations. Students will use keyboarding, word processing, and internet research skills learned in prior courses. (Apportionment)

DSPS 514
Job Skills Fieldwork: Working in Food Service for Students with Disabilities
Students with disabilities participate in weekly field trips to destinations that provide them with first hand observation of workplaces in the food service industry. Curriculum includes instruction in the use of bus schedules to determine departure and arrival time for destinations. (Apportionment)
DSPS 516
Job Skills Field Work: Working in Childcare & Vocational Assistance for Students with Disabilities
Students with disabilities participate in field trips to childcare facilities, educational programs and vocational agencies that can assist them in attaining and maintaining employment. Curriculum includes instruction in using public transportation, using Internet resources for planning bus trips to field trip destinations and creating a written day schedule. (Apportionment)

DSPS 520
Relationships and Boundaries for Students with Disabilities
This course is designed to provide students with developmental disabilities with the knowledge and skills they need to have safe and healthy interpersonal relationships. Topics covered include personal boundaries, dealing with strangers, and appropriate types of relationships. (Apportionment)

DSPS 522
Interpersonal Relationships for Students with Disabilities
This course provides students with developmental disabilities with the knowledge and skills to have safe and healthy interpersonal relationships. Topics in the course include personal values, making choices, dating and sexual relationships. (Apportionment)

DSPS 524
Personal Development and Safety In Relationships for Students with Disabilities
This course is designed to provide students with developmental disabilities with the knowledge and skills they need to have safe and healthy interpersonal relationships. Topics covered include human development, sexual activity, birth control, and pregnancy. (Apportionment)

DSPS 530
College to Career Open Lab for Adults with Disabilities
This course is designed to provide students who have developmental or learning disabilities with the knowledge to develop vocational and educational skills. (Grant-Funded)

DSPS 531
Educational Support and Employment Prep Lab
This course is designed to provide students who have disabilities with the knowledge to develop vocational and educational skills. (Apportionment)

DSPS 533
Community Resources: Employment Options
Students will participate in weekly field trips to destinations that provide them with tours and first hand observation of appropriate workplaces for entry level employment. Curriculum includes instruction in the use of public transportation. (Apportionment)

DSPS 535
Photoshop: Digital Camera Operation for Students with Disabilities
Designed for individuals with developmental or learning disabilities wanting to increase their basic knowledge of operating a digital camera. (Apportionment)

DSPS 537
Photoshop Elements: Introduction for Students with Disabilities
Designed for individuals with developmental or learning disabilities wanting to increase their basic knowledge of Photoshop Elements. (Apportionment)

DSPS 539
Photoshop Elements: Layering and Special Effects
Designed for individuals with developmental or learning disabilities wanting to increase their basic knowledge of Photoshop Elements. (Apportionment)

DSPS 540
Exploring Career Options for Students with Disabilities
This course is intended to assist adults with disabilities in establishing a clear and realistic occupational goal. Students will assess their interests and abilities in order to establish attainable objectives to achieve their goal. Students will also explore resources for seeking employment in their chosen occupational field. (Apportionment)

DSPS 542
Workplace Attitudes and Standards for Students with Disabilities
This course is intended to prepare students with disabilities for successful employment by introducing them to appropriate on-the-job behavior, communication, attitude and work ethics. Students will also be introduced to the importance of workplace safety and customer service. (Apportionment)

DSPS 544
Getting a Job for Students with Disabilities
This course is designed to introduce students with disabilities to filling out and submitting both written and online job applications. This course will also introduce students to effective job interview preparation, technique and attire. (Apportionment)

DSPS 550
Independent Living Skills: Exploring Employment
This is the first of three sequential courses designed for adults with disabilities to succeed at a workplace. This course covers job-seeking skills. (Apportionment)

DSPS 552
Independent Living Skills: Pre-Vocational Skills Practice
This course is designed for adults with developmental disabilities and intellectual disabilities who want to learn basic vocational skills. Students will practice different vocational work skills in various settings. (Apportionment)

DSPS 554
Independent Living Skills: Social Skills on the Job
This course is designed for students with developmental disabilities and intellectually disabilities who want to learn how to be a good employee. Students will learn about traits that employees need to succeed in a job. (Apportionment)

DSPS 560
Independent Living Skills: Budgeting Skills
This course is designed to teach students with developmental and intellectual disabilities how to budget and save their money. (Apportionment)
School of Continuing Education 2016 – 2017

DSPS 562
Independent Living Skills: Money Skills
This class is designed to teach adults with developmental and intellectual disabilities how to count money and pay bills safely and correctly. (Apportionment)

DSPS 564
Independent Living Skills: Consumer Skills
The class is designed to teach adults with developmental and intellectual disabilities to increase their skills and knowledge to be better consumers. (Apportionment)

DSPS 570
Independent Living Skills: Health Skills
This class is designed to teach adults with developmental and intellectual disabilities to improve their health and physical well-being. (Apportionment)

DSPS 572
Independent Living Skills: Safety Skills
This class is designed to teach adults with developmental and intellectual disabilities to improve their personal safety at home. (Apportionment)

DSPS 574
Independent Living Skills: Nutrition
This class is designed to teach adults with developmental and intellectual disabilities the benefits of achieving good health through nutrition, exercise, and lifestyle choices. (Apportionment)

DSPS 580
Independent Living Skills: Practical Living Skills
This class is designed to teach adults with developmental and intellectual disabilities how to apply practical living skills in order to live more independently in the community. (Apportionment)

DSPS 582
Independent Living Skills: Accessing Community Resources
This course is designed to teach adults with developmental and intellectual disabilities how to access public transportation and integrate into their community more independently. (Apportionment)

DSPS 584
Independent Living Skills: Kitchen Skills
This course is designed to teach adults with developmental and intellectual disabilities how to plan and safely cook a simple meal. (Apportionment)

ECE 108
ECE Program Principles and Practice
Course examines the history, basic principles, and philosophies of various types of early childhood programs, emphasizing the role of the adult and characteristics of quality programs. This course is part of a program approved by the California Department of Social Services, Community Care Licensing, for employment in private facilities only. (Apportionment)

This course is part of a program approved by the California Department of Social Services for employment in a private facility. (Apportionment)

ECE 116
Program Music & Movement
Explores areas of music and movement appropriate to child's development through participating and experimenting. (Apportionment)

ECE 124
Infant Care I
Methods of sanitation, illness and Title 22 regulations will be discussed. (Apportionment)

ECE 126
Infant Care II
Theory and appropriate caregiver methods applied in daily curriculum activities for infants and toddlers. (Apportionment)

ECE 130
Program Science & Math
Plan, organize and implement activities that help children develop skills, appreciation and enthusiasm for science and math. (Apportionment)

ECE 132
Program Creative Experience
Student awareness and application of materials appropriate for preschool art activities. (Apportionment)

ECE 134
Developmental Readiness: Preschool
Prerequisite: ECE 140 Early Childhood Development. Bring original certificate to first class! Explore how children learn. Develop the ability to plan developmentally-appropriate activities to ensure children's success. Learn how to detect and prevent learning difficulties. (Apportionment)

ECE 136
Family Community Relationships
Examination of the sociological relationships between family and society; institutional, racial, social, and economic factors affecting the family and the child. (Apportionment)
ECE 140
Early Childhood Development
Intro to age-related child growth, development, learning characteristics, self-concept, mechanics and techniques of positive learning. (Apportionment)

ECE 141
Early Childhood Educational Planning
Orientation and Assessment to and for the SCE Early Childhood Education Certificate program, overview of occupational options. Evaluate reading comprehension, writing abilities, English language acquisition via student self-assessment. Provide advisory referrals to basic skills support as needed per individual student. Provide overview of general SCE programs and student support services. (Orientation)

ECE 142
Supervision & Administration
(Offered Spring Term Only) Prerequisites: ECE 170 Introduction to Curriculum for ECE, and ECE 108 ECE Program Principles and Practice, and ECE 140 Early Childhood Development, and ECE 136 Family/Community Relationships, and ECE 100 Child Health and Safety. (or courses equivalent - see Program Manager). In depth study of the essentials of daily school supervision and operation as mandated by State regulations. (Apportionment)

ECE 165
Children with Special Needs
This course offers a broad study of children with special needs and early childhood education as it relates to inclusion. This course covers federal and state laws and regulations, terminology and definitions, appropriate practices and intervention. This course is part of a program approved by Department of Social Services, Community Care Licensing. (Apportionment)

ECE 170
Introduction to Curriculum for Early Childhood Education
Prerequisite: ECE 140 Early Childhood Development. This course provides the foundation for curriculum planning, implementation, observation, assessment and evaluation. Emphasis includes modalities, learning styles, environments, activities, schedules, routines and adaptations to facilitate learning for all children. This course is part of a program approved by the California Department of Social Services for employment in private facilities. (Apportionment)

ECE 175
Infant-Toddler Care
This course explores the theories, principles and practices of an infant/toddler program. Content includes respectful, responsive care giving, licensing and regulation issues, and enriching, safe, healthy developmentally appropriate environments. This course is part of a program approved by the California Department of Social Services for employment in private facilities. (Apportionment)

Educational Enrichment (EDEN)

EDEN 100
Senior Topics for Older Adults
This course presents older adults with various topics for discussion and class activities based on the students’ individual interest, backgrounds, physical and mental abilities. Older adults are encouraged to share and compare life experiences, and learn about international, national and local events and issues from a current and historical viewpoint. (Apportionment)

EDEN 550
Intergenerational: Life Review for Older Adults
This course for older adults and participants of multiple generations will explore, celebrate, and share their life histories with other class participants through personal interviews, with the older adult students, completing a family tree chart, and participating a life-layers activity. Relationships across generations are encouraged through interactive class projects and activities. (Apportionment)

EDEN 600
Intergenerational: Learning Connection for Older Adults
This class provides older adults and participants of multiple generations the opportunity to gain understanding and appreciation for themselves and others through various interactive class activities and projects. Older adults students are encouraged to explore different perspectives by comparing and contrasting the past, present, and future from different generational viewpoints. (Apportionment)

EDEN 640
Genealogy 101 - First Steps to Family Heritage
This course is designed for participants to develop a plan to document their family history through genealogy. (Fee-Based)

Electrical (ELET)

ELET 100
Basic Electronics for Video, Audio and Computer
This course offers the fundamentals of basic electronics, including electronics theory with a focus on analog electronics. Students receive practical lab experience to understand and troubleshoot circuits. This course is a starting point for students preparing for a career as an electronic technician. (Apportionment)

ELET 102
Basic Electricity
Course starts with basic electricity and progresses into residential wiring in accordance with the National Electrical Code. Students learn how to obtain an electrical contractor’s license. Supplies purchase required as specified by instructor. (Apportionment)

ELET 112
Electronic Service Technology
Prerequisite: Basic electronic knowledge. Course reviews AC/DC theory and basic electronic circuits. Learn to use electronic test equipment and hook up home entertainment equipment. Proceed with testing, troubleshooting and preventive maintenance for radio, TV, VCR, microwave and DVD/CD player. Purchase of small electronic kit as specified by instructor required. Basic knowledge of electronics recommended. (Apportionment)
ELET 116
Personal Computer Repair (Beginning)
Covers the fundamentals of computer repair and maintenance through the study of theory, terminology, troubleshooting of IBM compatible personal computers and hands-on training. (Apportionment)

ELET 140
Introduction to Electrical Trainee
Course provides an overview of the construction industry with focus on the career path of an electrical trainee. Students will learn about the skills needed to launch a successful career in the electrical trade. Topics include safety, construction math, tools and materials handling, job site management, and State Certification requirements for electricians. (Apportionment)

ELET 145
Electricity Fundamentals
Prerequisite: ELET 140 Introduction to Electrical Trainee. Course covers basic electrical concepts, including electrical measurements, basic electrical theory, and an understanding of how common electrical components work. Course provides a basis for understanding electrical safety concepts. (Apportionment)

ELET 150
Wiring Fundamentals: Residential
Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to residential wiring. Topics include electrical standards, residential wiring techniques, grounding, basic switching circuits, residential load calculations, and electrical services in accordance with the NEC. (Apportionment)

ELET 160
Wiring Fundamentals: Commercial
Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to commercial wiring. Topics include commercial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, and voltage-drop equations and lighting sources in accordance with the NEC. (Apportionment)

ELET 170
Wiring Fundamentals: Industrial
Prerequisite: ELET 145 Electricity Fundamentals. Course provides an overview of the National Electrical Code (NEC) and its application to industrial wiring. Topics to include industrial wiring, conduit systems, conductor types and applications, over-current protection, polyphase distribution, system and equipment grounding, electrical motors, motor circuit conductors, motor control circuits, and electrical power installations in accordance to the NEC. (Apportionment)

ENCO 125
Senior Choir: Signs of the Holidays
This class for older adults provides training in American Sign Language vocabulary and grammatical expression as it applies to seasonal music. Students will engage in community performances of tradition and ceremony for their community, both Deaf and Hearing. (Apportionment)

ENCO 180
Books Come Alive for Older Adults
“Books Come Alive” is an intellectually and socially rewarding activity designed for older adults in which outstanding works of fiction/non-fiction are read and discussed. Through the method of shared inquiry, along with thought-provoking questions, older adult students are offered exciting opportunities for self-discovery and personal growth. (Apportionment)

ENCO 181
Oral Histories for Older Adults
Older adult students will participate in group activities that encourage interactive discussion, sharing, and relating life stories as they relate to the older adult perspective. Older adult students will explore a life time of memories and experiences. Learn to recognize the importance of remembered experiences and personal uniqueness associated with aging. (Apportionment)

ENCO 183
Great Literature for Seniors
“Great Literature for Seniors” is an intellectually and socially rewarding class designed for older adults in which outstanding short stories are read and discussed. Through the method of shared inquiry, along with thought-provoking questions, students are offered exciting opportunities for self-discovery and personal growth. (Apportionment)

ENCO 452
Public Speaking Workshop - Mastering Your Fear
in front of a group in a non-threatening workshop Effective communications is essential for success, yet many are too fearful or lack the confidence to speak in front of a group of people. In this workshop, you will have the opportunity to master your fear by understanding the root causes of fear, realizing that fear is a positive emotion, and learning how to turn your fear into a world of excitement and enthusiasm. In fact, you may realize that public speaking can be enjoyable for both you and the audience. (Fee-Based)

ENCO 501
Journey Back Into Time for Older Adults
This class offers older adults students the opportunity to explore and share their personal histories, cultures, and values among older adult students through group discussion. Shared experiences, memories and linking the past with the present, encourage self-awareness, positive self-esteem, mental stimulation, and enjoyment. (Apportionment)

ENCO 515
Be an Effective Presenter and Speaker
Are you giving presentations but you’re not getting the results you expect? Braille Transcribing: Basic Rules
This class is designed for sighted and visually impaired persons to learn the basic skills of transcribing print into braille. (Apportionment)

ENCO 537
Braille Transcribing: Reading and Writing Contractions
This class is geared for sighted and visually impaired persons to learn the art of transcribing print into braille at the intermediate level. (Apportionment)

ENCO 539
Braille Transcribing: Advanced Symbols and Formatting Manuscripts
This class is geared for sighted and visually impaired persons to learn the art of transcribing print into braille at the advanced level. (Apportionment)

ENCO 550
Be a Productive PowerPoint Presenter
This class emphasizes organizing and delivering effective presentations while using PowerPoint slides. PowerPoint must enrich a presentation to be effective, yet many presenters underuse, misuse or overuse PowerPoint. Learn how to optimize PowerPoint presentations to ensure each individual slide improves the presentation. Some knowledge of PowerPoint necessary for students enrolling in this class (Fee-Based)

ESLA 100
ESL Beginning Literacy
This course is designed to meet the student's needs as determined by assessment of the student's language proficiencies, goals, and interests. ESL instruction integrates language components, vocabulary, grammatical structures, language functions, and pronunciation in units and topics that are important to the students. (Apportionment)

ESLA 110
ESL Multilevel
The course focuses on preparing students to use English to achieve tasks within a variety of real-life situations such as a doctor's office or a department store. Students are instructed to be able to listen, speak, read, and write in English in context-specific environments. (Apportionment)

ESLA 120
Family Literacy
The course focuses on incorporating reading and literacy as a fundamental component of a healthy, well-functioning family. The family-oriented assignments integrate school and home. (Apportionment)

ESLA 130
ESL and Computers
This course provides English language instruction through the medium of English as a Second Language (ESL) computer programs. The primary focus is situated vocabulary development through the use of the Oxford Picture Dictionary program and supplementary software. (Apportionment)

ESLA 200
ESL Beginning Low
The course content integrates language functions and forms with informational sources, skills, and topics. Topics may be general or vocational, as follows: Personal Identification, weather, Money, job titles, following simple instructions. Among informational sources the topics may include: lists, signs, schedules, calendars and ads. Among the skills: scanning. (Apportionment)

ESLA 300
ESL Beginning High
The course content is relevant to the life’s of the students. It integrates language functions and language forms with informational sources, skills and topics. Topics are chosen in accordance with students goals: general or vocational. Samples of information sources are: Telephone directory and indexes, among the skills: Alphabetizing, General topics should include: Housing, transportation, Emergencies, General Health. Vocational Topics includes: Job Skills, Classified Adds, Job Safety. (Apportionment)

ESLA 400
ESL Intermediate Low
The course content is relevant to the lives of the student. It integrates language functions and language forms with informational sources, skills and topics. Topics are chosen in accordance with student goals: general or vocational. Samples of informational sources are: Telephone Directory and indexes. Among the skills: alphabetizing. General topics should include: Housing, Transportation, Emergencies, General health. Vocational topics include: Job skills, Classified Ads, Job Safety. (Apportionment)

English as a Second Language (ESLA)

ESLA 001
ESL Learning Center
The ESL Learning Center offers an opportunity to practice English through various instructional media. Students learn through ESL software and/or receive individual and group tutoring to improve their speaking, listening, reading and writing skills. Special interest areas such as Vocational ESL and EL Civics are also part of the instruction. (Apportionment)

ESLA 101
ESL Advanced Literacy
This course focuses on preparing the student to use English to achieve tasks within a variety of real-life situations such as a doctor's office or department store. Students are instructed to be able to listen, speak, read, and write in English in context-specific environments. (Apportionment)

ESLA 102
ESL Intermediate Low
This course is designed to meet the student's needs as determined by assessment of the student's language proficiencies, goals, and interests. ESL instruction integrates language components, vocabulary, grammatical structures, language functions, and pronunciation in units and topics that are important to the students. (Apportionment)

ESLA 103
ESL Intermediate High
The course focuses on preparing students to use English to achieve tasks within a variety of real-life situations such as a doctor's office or department store. Students are instructed to be able to listen, speak, read, and write in English in context-specific environments. (Apportionment)

ESLA 104
ESL Advanced Low
The course focuses on preparing students to use English to achieve tasks within a variety of real-life situations such as a doctor's office or department store. Students are instructed to be able to listen, speak, read, and write in English in context-specific environments. (Apportionment)

ESLA 105
ESL Advanced High
The course focuses on preparing students to use English to achieve tasks within a variety of real-life situations such as a doctor's office or department store. Students are instructed to be able to listen, speak, read, and write in English in context-specific environments. (Apportionment)
ESLA 500
ESL Intermediate High
The course content is relevant to the lives of the students. It integrates language functions and language forms with informational sources, skills and topics. Topics are chosen in accordance with student’s goals: general vocational, or academic. The vocational topics should include: Social Security, preparedness for job interviews, wages and deductions, benefits. Academic topics could include: Major historical events, current events, stories/fables. Familiarization with U.S. culture should include topics such as taboos and politics. (Apportionment)

ESLA 600
ESL Advanced
Course content is relevant to the lives of the students. It integrates language function and language forms with informational, sources, skills and topics. Topics are chosen in accordance with students’ goals: general, vocational, or academic. Samples of informational sources include but are not limited to: Almanacs, newspapers, paragraph organization, consumer protection procedures, Health facilities, work manual, customer relation, work ethics, education system, and immigration patterns. (Apportionment)

ESLA 700
ESL Advanced High
Course content is relevant to the lives of the students. It integrates language function and language forms with informational sources, skills and topics. Topics are chosen in accordance with students’ goals: general, vocational, or academic. (Apportionment)

ESLA 801
Computer Skills for ESL
Beginning
The course introduces ESL students to hands-on exploration and use of current Microsoft Windows programs. Students will learn basic computer parts, keyboarding, and the basics of MS Word, PowerPoint, Print Shop, and Excel. Emphasis is on building confidence in computer use to improve English skills in grammar, vocabulary, writing, speaking, pronunciation, and reading. (Apportionment)

ESLA 802
ESL Pronunciation/Conversation Skills
This course is designed for intermediate to advanced ESL learners to improve conversation and pronunciation skills in English. It is recommended that participants have English language skills at a Beginning High level. (Apportionment)

ESLA 803
Citizenship Preparation
The course is designed to prepare prospective candidates for the US citizenship process. Students will learn how to complete all required immigration forms and practice the USCIS Citizenship Test by becoming familiar with US history. Students will acquire an understanding of the rights and responsibilities of being a US citizen. (Apportionment)

ESLA 804
ESL and the Arts
This course builds students’ reading comprehension, writing, and speaking skills in the context of thematic and aesthetic exploration of arts. Students will identify common artistic themes while comparing and contrasting a variety of aesthetic forms, styles, and periods. This interactive course includes visiting museums, watching performances, and listening to guest speakers. (Apportionment)

ESLA 805
Drama for Communication
This ESL course builds students’ reading, speaking, and pronunciation skills in the context of theatrical performances. Students will examine human experiences and cultural norms through imagined roles and expand creative thinking. Students will learn history and terminology of the performing arts and build social skills and confidence necessary for public speaking. (Apportionment)

ESLA 808

American Idioms
Students will become familiar with common American English idioms, their meanings and uses and demonstrate the application of idioms to everyday situations. In addition, students will learn the skills of deducing the meaning of the new vocabulary from context and become more comfortable sharing their opinions and experiences while practicing the target idioms. (Apportionment)

ESLA 810
Writing/Reading
This ESL course emphasizes reading comprehension skills while building vocabulary and critical thinking skills for students who are at an intermediate level or high. In addition, the writing component is designed to acquaint students with writing skills required to develop college-level writing techniques by focusing on prewriting, outlining, drafting, revising and editing. (Apportionment)

ESLA 812
Spanish Literacy
The Spanish Literacy course is designed for native Spanish-speaking students at the beginning literacy level. Students will acquire basic Spanish reading comprehensive and writing skills as well as improved their Spanish vocabulary and speaking. Students will acquire English literacy level skills by immersing into the English language to improve acquisition of the second language. The skills attained will give students a strong foundation for success in the basic skills or ESL Programs. (Apportionment)

ESLA 813
Intermediate Grammar Review
Students will learn to understand grammar structures in various contexts and practice using them in both oral and written communication. This class supplements core ESL courses or works as a stand-alone course. This course is designed for the ESL students placed in the Intermediate Low, Intermediate High, and Advanced levels. (Apportionment)
ESLA 814  
**Intermediate Vocabulary Review**  
Students will review, expand, and retain vocabulary words and phrases organized by commonly used topics. Students will work on using approximately twenty-five practical target words per class in oral and written exercises. This course is designed for the ESL students placed in the Intermediate Low, Intermediate High, and Advanced levels. (Apportionment)

ESLA 815  
**Computer Skills for ESL (Advanced)**  
Students will enhance their English language skills through challenging computer application tasks using MS Word, PowerPoint, Print Shop, Excel, the Internet, and MS Publisher. Emphasis is on building confidence in independent projects to improve English skills in grammar, vocabulary, writing, and reading. Students will be actively involved in computer projects linking the academic environment with their communities. (Apportionment)

ESLA 990  
**Oral Interpretation (Reading Out Loud)**  
Literature and communication are integrated in the art of oral interpretation. This course emphasizes the study and analysis of relevant printed materials. Students learn to select and communicate the material orally and effectively to an audience through public presentation/performance. (Apportionment)

ESLA 995  
**Vocational English-as-a-Second Language: Electricity and Construction**  
The course focuses on improving communicative competence within real-life situations related to working with electricity and general construction. Students will gain confidence as they improve their ability to communicate effectively while on the job. (Apportionment)

ESLA 1020  
**Vocational English as a Second Language: Early Childhood Education**  
This ESL course provides students with necessary language skills to succeed in early childhood education (ECE) programs, thereby bridging the gap between standard ESL coursework and ECE coursework. The course also focuses on preparing students to interact in the real world in ECE situations (e.g. parent-teacher conferences). (Apportionment)

ESLA 1025  
**Vocational English as a Second Language: Pharmacy Technician**  
This ESL course covers basic English communication skills in a pharmacy setting for students who are at an intermediate ESL level or higher. Students will practice typical in-person and phone conversations with pharmacy customers and coworkers. (Apportionment)

ESLA 1030  
**Vocational English as a Second Language: Administrative Assistant**  
This ESL course provides students with necessary language skills to succeed in the vocational administrative assistant programs, thereby bridging the gap between standard ESL and VESL coursework. The course also focuses on preparing students to interact in real-life office situations. (Apportionment)

ESLA 1035  
**Public Speaking for ESL**  
This ESL course builds students' public speaking skills with direct focus on the preparation, practice, presentation and evaluation of formal speaking. Students will learn the elements and organization of a speech, the most common types of speeches, the use of verbal and nonverbal techniques in formal speaking, and the evaluation standards of speeches. (Apportionment)

ESLA 1040  
**Listening/Speaking for Academic Success**  
Learn how to listen to and take lecture notes; participate in classroom discussions; give presentations; and take exams in college, career technical education, high school, and GED programs. Acquire technological skills necessary for academic success. Experience campus life through field trips to local colleges. For Intermediate High thru Advanced level students. (Apportionment)

ESLA 1045  
**Reading/Writing for Academic Success**  
Acquire reading, writing, note-taking, test-taking, critical thinking, and computer skills necessary for academic success in college, high school, GED, or career technical education programs. Learn American cultural norms in the classroom. Participate in campus life through field trips to local colleges. For Intermediate High through Advanced level students. (Apportionment)

ESLA 1050  
**ESL Workplace Advancement Skills, Basic**  
This course focuses on introducing ESL students to the workplace discourse system and culture. By improving their communication skills and understanding the United States culture within the workplace, students will become successful employees. (Apportionment)

ESLA 1052  
**ESL Workforce Readiness Skills, Basic**  
This course covers basic work skills as well as language skills necessary for intermediate level students to gain employment. Students will identify various job opportunities available in their respective communities and will learn to communicate with employers. In addition, students will gain basic knowledge of basic technology. (Apportionment)

ESLA 1054  
**Advanced ESL Workplace Advancement Skills**  
This course prepares ESL students at an advanced level for the American workplace. Students will learn American workplace expectations, practice effective business communication including giving presentations and participating in meetings, and identify professional development needs. In addition, students will enhance their computer applications skills by gaining additional experience with Microsoft Office. (Apportionment)

ESLA 1056  
**Advanced ESL Workforce Readiness Skills**  
This course prepares ESL students at an advanced level for the American workforce. Students will plan a career path based on skills and interests. They will also practice all aspects of conducting a job search, perform business communication tasks, and use computers for word processing and internet searches. In addition, students will learn about American workplace values and expectations. (Apportionment)

FITN 209
**Tennis - Intermediate/ Advanced (coed)**
Students will practice skills learned in beginning tennis and further refine tennis skill. Bring racquet and one can of new tennis balls. *(Fee-Based)*

FITN 355
**Yoga for Health**
This course will cover Yoga postures and deep breathing designed to help bring about relaxation, stress reduction, improvement of flexibility, balance, concentration, and strength. Yoga for Health is presented as a method of personal development encompassing body mind and spirit. Please bring a yoga mat, towel and water. *(Fee-Based)*

FITN 360
**Beginning Swimming**
Want to learn to swim? These swim lessons for adults are provided in a small group setting. Water safety emphasized. *(Fee-Based)*

FITN 365
**Full Body Stretch**
Take one hour to stretch your body from head to toe. Improve your posture, circulation and general feeling of well being through a full body stretch. *(Fee-Based)*

FITN 370
**ZUMBA® Fitness**
The ZUMBA® fitness program fuses hypnotic Latin rhythms and easy-to-follow moves to create a one-of-a-kind fitness program that feels more like a party than a work out. The routines feature interval training sessions where fast and slow rhythms and resistance training are combined to tone and sculpt your body while burning fat. *(Fee-Based)*

FITN 373
**ZUMBA® Sentao**
This is an active ZUMBA® exercise and fitness class that uses ZUMBA® routines and chair-based choreography to strengthen balance, stabilize the core, and elevate the standard ZUMBA® cardio workout. *(Fee-Based)*

FITN 374
**ZUMBA® Toning**
ZUMBA® Toning workout emphasizes muscle group work along with traditional ZUMBA® rhythms choreography and dance moves. The use of the lightweight maraca-like Toning Sticks enhance rhythm and movement. *(Fee-Based)*
FITN 375
ZUMBA® Gold Fitness
ZUMBA® Gold is a series of fitness programs specifically designed to take the exciting Latin and International dance rhythms created in the original ZUMBA® and bring them to the active older adult, the beginner participant, and other special populations that may need modifications for success. (Fee-Based)

FITN 410
Total Body Workout
This course provides an opportunity to improve overall fitness in an open entry self paced fitness lab. Life Fitness equipment for a cardiovascular workout and free weights for strength training will improve or maintain health. Participants develop an individual fitness plan. (Fee-Based)

FITN 415
High/Low Impact Aerobics
Low impact, high intensity cardiovascular exercise set to music. Class is coed. Hand weights are encouraged along with a towel or mat for floor exercises. Any materials are the student's responsibility. (Fee-Based)

FITN 425
Cardio Kickboxing
Class focuses on cardiovascular conditioning through aerobic exercise, including kicks, lunges, squats and punch movements. Improve your cardiovascular and muscular fitness through this vigorous workout. Please bring a towel and bottle of water. (Fee-Based)

FITN 430
Aerobics/Cardio Kickboxing
Improve your cardiovascular and muscular fitness through this low impact, high intensity aerobic workout followed by a second hour of cardio kickboxing conditioning with kicks, lunges, squats and punch movements. Please bring 2-5lb, hand weights, a mat, water, and a towel to this coed class. (Fee-Based)

FITN 440
Kenpo Karate: Beginning
Course includes basic self-defense techniques, kicking, striking, blocking and fighting stances. Theory of techniques, including principles of power and body alignment are used to enhance student's understanding. (Fee-Based)

FITN 442
Kenpo Karate: Beginning/Intermediate
This course will include basic self-defense techniques, kicking, striking, blocking and fighting stances. For repeating students more advanced skills are presented. Class provides an aerobic workout and pilates exercise program. (Fee-Based)

FITN 444
Kenpo Karate, Intermediate
Course covers medium impact training, aerobic workout and pilates exercise program. Intermediate level self-defense skills, techniques and theory presented. Three trimesters of beginning level class recommended before enrolling in intermediate class. (Fee-Based)

FITN 446
Kenpo Karate, Advanced
Course provides advanced impact training, heavy aerobic workout and advanced pilates exercise program. Advanced level self-defense skills, techniques and theory presented. Three trimesters of intermediate level class recommended before enrolling in the advanced class. (Fee-Based)

FITN 450
Judo, Jujitsu and Self-Defense
Beginning/Intermediate
Self-defense class for beginners teaches coordination and quick reflexes; build stamina, speed and strength. Includes all phases of judo and karate throws and free sparring. Learn to protect yourself. (Fee-Based)

FITN 455
Judo, Jujitsu and Self-Defense Level
Intermediate/Advanced
Improve your coordination, reflexes, stamina, speed and strength while improving cardiovascular function. Intermediate to advanced skill level self-defense classes includes all phases of judo and karate throws and free sparring as well as self-defense simulations. One year of beginning level class recommended. (Fee-Based)

FITN 460
Kung Fu San Soo
Kung Fu San Soo is well known as the “thinking persons” martial art. All students at any fitness level will benefit from study. San Soo is considered to be one of the original complete fighting systems. Students learn to utilize body dynamics to control punches, kicks, leverages, flips, throws and ground techniques. Benefits include enhanced physical well-being, self-control and awareness. Join in one of the oldest traditional martial arts in existence today. (Fee-Based)

FITN 465
Yoga for Relaxation
This course is designed for all levels of yoga students. The class will focus on flexibility, breathing and gentle stretching. This class encourages a non-competitive, restorative setting. Students should bring a sticky mat and a towel. Class will end with a quiet meditative period. (Fee-Based)

FITN 470
Aqua Aerobics
Increase your cardiovascular endurance, muscle strength and endurance and flexibility while reducing the chance of injury using the resistance of water. This class is designed for students of various ages and fitness levels. (Fee-Based)

FITN 472
Lap Swimming
This class is designed for students who want to improve their endurance, strength and technique through lap swimming. Must demonstrate ability to swim. (Fee-Based)

FITN 475
Pilates Mat Class
This course focuses on strengthening, lengthening, and toning all core muscle groups. This course is a step beyond Yoga. Pilates is a series of body movements designed to strengthen the back, and abs as your core. Students will be taken through a timeline of body movements that will reach and tone every muscle in the body while increasing balance, and strength. Bring a mat to class. (Fee-Based)
FITN 480
Stretch, Relax, and Breathe
This class is designed to increase muscle flexibility, circulation, strength and promote relaxation by learning various stretching exercises including reciprocal and yoga postures, breathing and relaxation techniques, dance exercises and Pilates based techniques. (Fee-Based)

FITN 485
Self-Defense for Seniors
Improve your coordination, reflexes, stamina, speed and strength while improving cardiovascular function. Self-defense classes include all phases of Karate, Judo and Jujitsu throws and free sparring as well as self-defense simulations. (Fee-Based)

FITN 490
Wheelchair Basketball
The course includes instruction and participation in the fundamentals of wheelchair basketball. The course is expressly designed for, but not limited to, those students with permanent disability of the lower extremities who are therefore unable to participate in regular able-bodied athletics. The emphasis is on rules, safety, with specific skill development in wheelchair basketball leading to competition in California and U.S. wheelchair basketball programs. (Fee-Based)

FITN 500
Tai Chi for Healthy Living
In this course students are introduced to the principles of Tai Chi with an emphasis on the benefits associated with healthy living. Learn the psychological and physical health benefits of Tai Chi, as well as the history, techniques and philosophy of the various Tai Chi forms. (Fee-Based)

FITN 505
Capoeira Fitness
Capoeira is a unique martial art from Brazil. It is a blend of movement, music, and fitness. It is an energetic martial art that supports both physical and mental empowerment. (Fee-Based)

FITN 510
Aqua ZUMBA®/Aqua Fit
This course combines two ZUMBA® components into one water-based class. The class is made of energetic fitness moves conducted with the added buoyancy and flexibility that a water-based workout affords. The blending of the two formats burns body fat, builds muscle tone, and overall definition by integrating traditional aqua fitness disciplines. (Fee-Based)

FITN 515
PiYo Workout
PiYo combines the muscle-sculpting, core-firming benefits of Pilates with the strength and flexibility advantages of yoga. PiYo delivers a true fat-burning, low-impact workout. Class introduces dynamic, flowing sequences that both lengthen and tone muscles and increase flexibility. (Fee-Based)

Photography (FOTO)

FOTO 101
Basic Photography: The Mechanics of Digital Photography
Strengthen your photographic skills. Become familiar with current equipment for digital cameras. Instruction includes composition, digital formats, lenses, f-stops and shutter speeds, electronic flash, and night photography. Discussion will include how Photoshop software impacts photography. Dave Rosenberger has taught photography for over 30 years. He has worked for Canon USA in both technical and sales capacities. He teaches photography with the North Orange County College District. (Fee-Based)

FOTO 102
Photography - Intermediate
Sharpen your photographic skills. Become familiar with current day equipment and express your creative talents. Covers portrait photography, special effects, night-time digital photography. Field trip with instruction included. (Fee-Based)

FOTO 105
Photography Fundamentals
Improve your knowledge of how the camera thinks and put those tools to work. Learn the difference between F/stops and shutter speeds. Review file sizes and learn the different formats of the digital cameras. Settings, lenses, electronic flash, and computer software as tools also covered. Designed for students who just purchased or own a digital SLR camera. May bring camera to class. (Fee-Based)

FOTO 110
Photography: Beyond the Basics
Do you know the basics of photography, but want to take your skills a step forward? Learn about studio lighting and Green Screen photography. Build digital scrapbooks to display your work. Create your own business and greeting cards. Sharpen your skills with Photoshop and HDR programs. Photodex workshop and field trip included. (Fee-Based)

Funeral Service (FSRV)

FSRV 100
Introduction to Funeral Service Practice
This course is an introduction to the funeral service profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, funeral service settings, mortuary law, and communication skills. (Apportionment)

FSRV 110
Communication Skills for the Funeral Assistant
This class will prepare the student to provide support to client families in grief, bereavement, and mourning, and communicate effectively with the public. Topics include an exploration of cultural differences in grief and funeralization practices, as well as the diversity of religious beliefs impacting disposition options. (Apportionment)
FSRV 120  
**Funeral Service Operations**  
This course introduces students to funeral service practices and procedures in preparation for entry-level positions in the funeral home. These include funeral service assistant, receptionist, mortuary representative, transfer personnel, funeral director assistant, and pre-need salesperson. Students review historical funeral service practices, funeral service price lists, and service arrangements.  
*(Apportionment)*

FSRV 125  
**Funeral Service: Practices and Procedures I**  
This course introduces students to the sociology of funeral service practice. It is designed to develop the necessary skills for arranging religious funeral ceremonies, conducting funeral and memorial services, and assisting in the disposition of human remains including cremation and scattering. Funeral service merchandise options are also included with emphasis on the general principles in the major exercises.  
*(Apportionment)*

**Health (HLTH)**

HLTH 109  
**Food Preparation and Good Nutrition for Older Adults**  
This course offers a wide range of food preparation topics as they relate to the health and well-being of older adults. The course explores topics of interest for older adults in the areas of nutrition, consumerism, cultural traditions, entertaining, health, and safety. Various foods will be prepared, tasted, and discussed.  
*(Apportionment)*

HLTH 126  
**Hearing Impaired for Older Adults**  
This course for older adults explains hearing loss and includes a discussion of how the ear works, what can go wrong with it, and what can be done to improve hearing problems. An analysis of the speech-reading process is included with emphasis on the general principles in the major exercises.  
*(Apportionment)*

HLTH 161  
**History of Comedy and Humor for Older Adults**  
This class offers to older adults an informative look at past and present forms of comedy and humor, as it relates to their life experiences and what make them laugh. Older adult students become aware of the influences, various mediums, elements and forms of comedy and humor that has influences people throughout history.  
*(Apportionment)*

HLTH 163  
**Help Yourself to Health for Older Adults**  
Various health related topics of interest to older adults will be discussed and safe, beneficial, exercises intended to promote general health and fitness for older adults will be introduced. Each class will incorporate information, discussion, and exercises.  
*(Apportionment)*

HLTH 164  
**Bereavement Training for Older Adults**  
This training course will provide older adults the skills necessary to develop or participate in grief care and support program, to help those mourning the loss of a love one.  
*(Apportionment)*

HLTH 167  
**Staying Mentally Sharp for Older Adults**  
This course provides older adults with the tools to reach their optimum levels of brainpower through skill-building with memory techniques. Also covered are decision-making, problem-solving, planning, and determining opportunities for cognitive growth.  
*(Apportionment)*

HLTH 170  
**Healthier Living: Managing Ongoing Health Conditions for the Older Adult**  
This course provides older adults with effective strategies and skills, good nutrition, and a regular fitness program to assist in managing personal health conditions and to maintain an active and fulfilling life.  
*(Apportionment)*

HLTH 175  
**Healthcare Navigation Advocate for Older Adults**  
In this course, older adult students will learn the fundamentals of how to navigate healthcare systems, which will enable them to advocate for themselves and other seniors to better utilize healthcare resources. Topics include how to communicate with healthcare professionals, access healthcare resources, and develop transition and/or daily medical plans.  
*(Apportionment)*

HLTH 180  
**Brain Health for Older Adults**  
In this course older adults will learn about memory and cognitive processing; causes of memory loss and abnormal brain function; and various brain exercises, including computer-based programs, that preserve and improve brain health.  
*(Apportionment)*

HLTH 185  
**Fall Prevention for Older Adults**  
This course is designed to provide older adults with the knowledge and skills needed to improve balance and reduce the risks of falling. Students will learn to identify environmental risks, learn about practices that increase strength and balance, and create a personal fall-prevention plan.  
*(Apportionment)*

HLTH 200  
**Health and Wellness for Older Adults**  
Learn the benefits of adopting behaviors associated with healthy and successful aging. Focus on the natural effects of the aging process and the benefits of being proactive by using a healthy diet, managing chronic conditions, and engaging in routine physical activity as a means to living with optimum independence.  
*(Apportionment)*

HLTH 205  
**Health and Wellness for Older Adults: Restricted Mobility**  
This course provides older adults with techniques and strategies for healthy aging when restricted by physical impairments or limited mobility. Emphasis is on the benefits of managing age-related complications or medical conditions, routine and adaptive physical activity and a healthy diet.  
*(Apportionment)*
HLTH 210
Healthcare Medical Interpreter
Prerequisite: Must pass the MAGUS bi-lingual, bi-cultural assessment prior to course enrollment. This is a 40-hour course designed to prepare a bi-cultural and bi-lingual individual to work as a Healthcare Medical Interpreter. Those who complete and pass the course exit exam qualify to sit for national certification as a Healthcare Medical Interpreter. *(Fee-Based)*

HLTH 215
Secrets of Weight Loss and Healthy Eating
This course will benefit novices, people with special nutritional needs, as well as those already working in the food service industry. Students will learn about healthy cooking and eating and will have an in-class opportunity to prepare foods from a personalized menu. *(Fee-Based)*

HLTH 400
Preparation for Childbirth
Course provides expectant mother and coach(es) with knowledge, tools and support to have a positive birth experience. Anatomy and physiology of the birth process, relaxation, paced breathing and comfort techniques are covered. Mother should bring two pillows, sack lunch, wear comfortable pants or shorts and can have two coaches. *(Apportionment)*

Hospitality Management (HOSM)

HOSM 101
Bartending Workshops
This is a FAST PACED, SHORT TERM course for those interested in a career bartending. Students will be trained how to make drinks, bartending basics, customer interaction, along with resume, job searching, and interviewing techniques. Certificate issued upon completion of course will include: ABC regulations (Alcohol Beverage Control), and RBS (Responsible Beverage Service). HOSM 165
Creative Event Planning
Get a head start on holiday entertaining with a professional touch. Perhaps you are entertaining friends, planning a company party or thinking about becoming an event planner - this class is for you! This class will give you valuable tips, do's and don'ts to entertain with a flair. Whatever you are considering a career in event-planning or simply planning a party on your own - sign up today. *(Fee-Based)*

Individual High School Subjects (IHSS)

IHSS 100
High School English 1
This course is an individualized, self-paced study in the basics of English language arts, including vocabulary development, grammar, reading comprehension, and writing strategies. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 101
High School English 2
This course is an integrative course consisting of an array of subjects to address English language arts. Topics may include contextualized vocabulary, intermediate grammar, reading and composition, and literature. Instructional modules are assigned based on academic preparation, functional reading levels and vocational or educational goals. This content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 102
High School English 3
This course is an integrative course consisting of an array of subjects to address English language arts. Topics may include contextualized vocabulary, intermediate grammar, reading and composition, and literature. Instructional modules are assigned based on academic preparation, functional reading levels and vocational or educational goals. This content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 103
High School English 4
This course is an individualized, self-paced study in English language arts, including vocabulary, grammar usage, advanced reading in literature and composition skills. This course is offered for SCE high school diploma credit. *(Apportionment)*

IHSS 105
High School Writing Skills
Writing strategies are presented through individualized, self-paced modules in personal compositions and business letters. Techniques in structure, style and business correspondence are covered. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 106
High School US History
This United States history course covers the lives of America's people and aspects of their cultures, from early exploration through the beginning of the twenty-first century. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. *(Apportionment)*

IHSS 107
High School US Government
This course is an individualized, self-paced study of U.S. government. It will cover the Constitution, the roles of the federal, state and local government, and modern economic and political systems. This course is used for SCE High School Diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same completion of this course. *(Apportionment)*
IHSS 109  
High School World History  
This course presents the history of the world's people and major cultures from early times to the present. This course is offered for the SCE high school diploma and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 109  
High School World Geography  
This geography course surveys all the major regions of the world, explores processes that shape the Earth and relationships between people and environments. This course is offered for SCE diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 111  
High School Economics  
This course explores the changing economic climate in the United States and globally. Economic systems, development and problems that affect daily life are covered. This course is offered for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 113  
High School Mass Media  
This mass media course covers various forms of communications including television, advertising, print materials, and electronic media. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 114  
High School Film Appreciation  
This course is an individualized, self-paced study of film appreciation. Topics covered include film genres, directing and critique. This course is used for SCE High School Diploma credit. (Apportionment)

IHSS 116  
High School General Math  
This course presents activities to help the student with basic arithmetic skills, real-life applications, and problem-solving techniques. The units of study include a review of whole number operations, and basic functions of fractions, decimals, percents, measurements, algebra and geometry. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 117  
High School Vocational Math  
This course develops mathematical problem solving skills for occupational areas and everyday situations. Problems are given for payroll, retail business, manufacturing, mechanics, construction, inventory, health, and personal finance. Topics include formulas, basic algebra, proportions, percents, basic geometry, and measurements. This course is offered for SCE high school diploma credit. (Apportionment)

IHSS 118  
High School Algebra 1  
This course covers basic algebra concepts including an introduction to variables, equations, factoring, an introduction to variables, equations, factoring, formulas and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 119  
High School Geometry  
This course covers basic geometry concepts including key terms, geometric shapes and the application of skills. This course is used for SCE high school diploma credit and partial credits are available to satisfy graduation requirements. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 120  
High School Life Science  
This course is an individualized, self-paced study of Life Science. This course covers scientific methods, classification and body systems. This course is used for SCE High School Diploma credit. (Apportionment)

IHSS 121  
High School Earth Science  
Earth Science deals with the earth and other heavenly bodies of the universe. Students learn the various characteristics that make Earth unique in the solar system. This course is offered for SCE high school diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

IHSS 122  
High School Physical Science  
Physical Science explores matter and its properties, motion, heat, energy, sound and light, as well as electricity and magnetism. This course is used for SCE High School Diploma credit. The content of this course is delivered in a modular format and in a lab environment. In compliance with Title V, high school credits previously earned in the same subject will be evaluated and counted towards the completion of this course. (Apportionment)

KIDS 150A  
**Please Pass The Manners**  
**Ages 9+**  
This class will cover the basics of introductions, as well as how to handle silverware, napkins and the ABC’s of table manners. *(Fee-Based)*

KIDS 151  
**Reading & Comprehension**  
**Grades 5-6**  
This course will focus on what students like to read for fun. Learn tricks and techniques for better comprehension and how to become a reading "whiz". *(Fee-Based)*

KIDS 152  
**Please Pass The Manners**  
**Ages 9+**  
Good manners are a good first impression! Your children will learn American etiquette for all occasions. This is a fun class where we act out all sorts of situations and how to respond appropriately. We fine tune our special skills and then sit down to a pasta dinner to learn good table manners, and how to eat those foods that commonly end up on our chins and loaps! One day workshop! *(Fee-Based)*

KIDS 153  
**Celebrate Reading**  
**Grades 1-3**  
Your child will love to read while learning basic phonics and spelling skills in a fun and creative way to ensure confident and successful readers. Includes phonics games, letter and word bingo, story charts and word searches. Bring your favorite book to class to share. *(Fee-Based)*

KIDS 154  
**Word Power: Vocabulary and Spelling**  
**Grades 1-2**  
Exciting and fun class learning new words, their meaning, and how to spell them. Vocabulary building excels you in all of your school subjects. *(Fee-Based)*

KIDS 154A  
**Word Power: Vocabulary and Spelling**  
**Grades 3-4**  
Exciting and fun class learning new words, their meaning and how to spell them. Vocabulary building excels you in all your school subjects. *(Fee-Based)*

KIDS 155  
**Tutorial: Improve Reading**  
**Grades 3-4**  
Students will enrich their reading and vocabulary skills according to ability level. *(Fee-Based)*

KIDS 156  
**Tutorial: Improve Reading**  
**Grades 5-6**  
Students will enrich their reading and vocabulary skills according to ability level. *(Fee-Based)*

KIDS 158  
**Celebrate A Book A Day Camp!**  
**Grades K-3**  
Children will explore a book a day! They’ll learn about characters, settings, beginnings, middles and ends, and even dress up as a character. We’ll act out parts of books, play related reading games, cook related snacks and make related crafts. *(Fee-Based)*

KIDS 160  
**Spanish Grammar Skills Camp**  
**Grades 3-5**  
Learn how to conjugate Spanish verbs in the past, present, future and conditional tenses. Students will become familiar with intermediate Spanish grammars so that they will develop the confidence to use their language skills in everyday conversations with friends and family. *(Fee-Based)*

KIDS 161  
**Bringing Reading Alive Camp**  
**Grades 1-2**  
Students will integrate reading and comprehension with arts and crafts to help students have fun with reading! *(Fee-Based)*

KIDS 161B  
**Bringing Reading Alive**  
**Grades 1-2**  
Students have fun learning basic comprehension strategies and develop an understanding of basic story elements through arts and crafts projects, writing, and critical thinking. Basic art vocabulary will be introduced through the projects. *(Fee-Based)*

KIDS 162  
**How To Structure Sentences**  
**Grades 4-5**  
This class covers the basics of sentence writing, including the essential parts of speech and sentence formation in an enjoyable fashion! *(Fee-Based)*

KIDS 163  
**Intensive Writing Camp**  
**Grades 7+**  
This camp will expose students to a wide range of writing styles, familiarize students with the writing process, and enhance both the reading and writing skills of the student. Students will share their work and critique each other in a cooperative, nurturing environment. Whether the student is a struggling writer or a highly-skilled writer, this camp will benefit them. *(Fee-Based)*

KIDS 164  
**ABC’s and 123’s Camp: Let’s Get Ready for Kindergarten!**  
**Grades 2+**  
Let's Get Ready for Kindergarten. For the youngster about to start kindergarten in the Fall. In this class, we'll play games, sing songs, and do all sorts of activities and crafts to teach beginning skills in reading, writing and math. Parents welcome to attend! *(Fee-Based)*

KIDS 166  
**Reading, Writing and Math Review Camp**  
**Grade 1**  
Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 1st Grade skills before starting 2nd Grade. *(Fee-Based)*

KIDS 167  
**Reading, Writing and Math Review Camp**  
**Grade 2**  
Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 2nd Grade skills before starting 3rd Grade. *(Fee-Based)*
KIDS 168
3rd Grade: Reading, Writing and Math Review Camp
Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 3rd Grade skills before starting 4th Grade. (Fee-Based)

KIDS 169
Reading, Writing and Math Review Camp
Grade 4
Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, worksheets and a "hands-on project" will be used to review 4th Grade skills before starting 5th Grade. (Fee-Based)

KIDS 177
Power Learning Strategies: Empowering Students For Success
Grades 6-8
Power Learning provides students with the study skills and learning techniques that make a difference in their educational success. This six week workshop will identify styles; provide learning strategies; develop effective time management; target skills for comprehension memory; tools for mastering course material, and preventing test stress. Materials included. (Fee-Based)

KIDS 178
Power Learning Strategies: Empowering Students For Success
Grades 9-12
This six week workshop will identify learning styles; provide learning strategies; develop effective time management skills and weekly action plans. Sessions will focus on study skills, effective tools for mastering course material, preparation for objective and essay tests, and notable WhizBits certain to make class notes easier. The goal of Power Learning Strategies is provide students with study skills that make a difference. (Fee-Based)

KIDS 179
Harry Potter Literature Adventure: The Goblet of Fire
Grades 3+
This course will explore the work of the Harry Potter book The Goblet of Fire, by J.K. Rowlings. Students will read the books, explore related chemistry, vocabulary exercises and literary analysis of the characters and plot. Book will be loaned to the student if needed. Reading outside of class time is required. Designed for mature readers who have completed grade 3 and up. (Fee-Based)

KIDS 180
Around the World
Ages 6+
Children will learn geography and discover interesting facts about Mexico, Central and South America, the United States, Europe, the Orient, Egypt, Saudi Arabia, Israel and many others. Artifacts, dolls and pictures will be displayed. (Fee-Based)

KIDS 181
Reading, Writing and Math Review Camp
Grades 2 and 3
Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, Worksheets and a "hands on project" will be used to review 2nd grade or 3rd grade skills before starting the next grade. (Fee-Based)

KIDS 182
Reading, Writing and Math Review Camp
Grades 3 and 4
Students will sharpen their reading, writing and basic math skills in a fun and relaxed workshop! Games, Worksheets "hands on project" will be used to review 3rd grade or 4th grade skills before starting the next grade. (Fee-Based)

KIDS 191
Improve Your Reading and Writing
Grades 7-10
Students will become more effective readers by learning strategies to read different types of writing. By responding in writing to what they read, students will increase comprehension and improve written communication skills. Techniques such as analyzing, summarizing, comparing, critiquing, and interpreting will be applied to in-class reading and writing projects. (Fee-Based)

KIDS 194
Basic Reading Skills
Ages 4-5
Children will participate in a variety of meaningful, interactive, and stimulating games and activities to build phonemic awareness and phonics skills. Activities include developing skills in decoding, beginning to read word families, print practice and beginning sentence writing. This class is for students preparing to enter Kindergarten. This class develops a strong reading foundation for success in school. (Fee-Based)

KIDS 195
Reading Camp for Kindergarten
Children will participate in a variety of meaningful, interactive, and stimulating games and activities to build phonemic awareness and phonics skills. These activities are based on the new Common Core standards and include decoding, beginning to read word families, printing practice, and beginning sentence writing. This camp is for students entering kindergarten. The camp also develops a strong reading foundation for success in school. Enrollment is limited. (Fee-Based)

KIDS 199
Geography & The USA
Grades 3+
Study American geography and acquaint yourself with maps, legends, climates and regions. Learn how to use the "compass rose". (Fee-Based)

KIDS 202
Pre-Algebra Concepts
Grades 6
Increase your skills in pre-algebra and acquaint yourself with calculating activities. Also fractions, decimals, integers and solving equations. (Fee-Based)

KIDS 211
Tutorial: Math Mania
Grades 1-2
Students will review and enhance basic math skills such as, addition, subtraction, fractions, place value, money and telling time according to their grade level. Students will use games, worksheets and story problems to enrich their skills. Limited to 8 students. (Fee-Based)
KIDS 211A
Tutorial: Math Mania
Grades 3-4
Students will review and enhance basic math skills such as addition, subtraction, multiplication, division, fractions, charts and graphs, and telling time according to their grade level. Students will use games, worksheets and story problems to enrich their skills. Limited to 8 students. *(Fee-Based)*

KIDS 211B
Tutorial: Math Mania
Grades 5-6
Kids will review and enhance basic math concepts by practicing skills such as long division, decimals, fractions, integers, geometry, charts and graphs, word problems and more. Limited to 8 students! *(Fee-Based)*

KIDS 213
Improve Your Math and Study Skills
Grades 3-4
Personalized math; children will learn how to improve basic math skills in a fun, relaxed and enjoyable manner through the use of games and worksheets. Tutors student by grade level. Reviews addition, subtraction, multiplication and division. Includes fractions, decimals and story problems. *(Fee-Based)*

KIDS 213A
Improve Your Math and Study Skills
Grades 5-6
Personalized math; children will learn how to improve basic math skills in a fun, relaxed and enjoyable manner through the use of games and worksheets. Tutors student by grade level. Reviews addition, subtraction, multiplication and division. Includes fractions, decimals and story problems. *(Fee-Based)*

KIDS 214
Tutorial: Ready, Set, Read!
Grades 1-2
This is a tutorial-based class that is developed to assist the emergent reader. There will be a strong focus on phonics and mastery of basic sight words. Limited to 8 students. *(Fee-Based)*

KIDS 215
Tutorial: Number Sense
Grades 3-4
This is a tutorial-based class that is developed to assist students that are having difficulty with the basic concepts of addition, subtraction and multiplication, as well as a strong focus on place value and regrouping. Limited to 8 students. *(Fee-Based)*

KIDS 217
Algebra
Grades 7+
Learn how to solve equations, multiplying polynomials, work word problems, graph functions, solve inequalities without stress. *(Fee-Based)*

KIDS 218
Reading & Comprehension
(Grades 3-4)
This is a tutorial-based class that is developed to help students learn more effectively, comprehension, interpretation and vocabulary. *(Fee-Based)*

KIDS 219
Pre-Algebra II
Grades 5-6
Students will learn properties of real numbers, conversions, slope, graphs, operations with positive and negative numbers (absolute value equations), scientific notation, graphing inequalities, and solving equations involving inequalities! *(Fee-Based)*

KIDS 220
Tutorial: Pre-Geometry
Grades 4-6
Students will learn basic ideas of geometry such as line and angle relationships, transversals, area and perimeter of various polygons, and area and circumference of circles in a fun environment. *(Fee-Based)*

KIDS 222
Tutorial: Math Skills
Grades 5-6
This course reinforces school curriculum using strong math skills. Large multiplication, division, integers (addition subtraction of positive and negative integers), exponents, decimals, fractions, percents (addition, subtraction, multiplication and division), order of operation and simple variables and equations. Educational materials provided. Class limited to 8 students. *(Fee-Based)*

KIDS 223
Statistics and Graphing
Grades 4-6
Students will learn how to calculate frequencies, means, medians, and modes and interpret and draw graphs. *(Fee-Based)*

KIDS 224
Tutorial: Pre-Algebra
Grades 6+
This class will prepare the student for Algebra. Topics include: Order of operation, integers, rational numbers, GCF, LCM, exponents, fractions, decimals, variables, simple one or two step equations, and functions. Educational materials provided. Class limited to 8 students. *(Fee-Based)*

KIDS 225
Algebra 1 Operations
Grades 7+
This course is designed to accomplish the goals of enhancing and increasing the math skills and knowledge in broader scope. It will cover topics on rational numbers and their operations, solving equations and inequalities, relations and functions, graphing linear equations, finding the equation of the line, parallel and perpendicular lines, solving systems of equations, consistent and inconsistent systems, polynomials and their operations, factoring polynomials, solving quadratic equations and simplifying rational expressions. Workbook provided. *(Fee-Based)*

KIDS 226
Tutorial: Algebra 1
Grades 7+
This course is designed to enhance equation solving skills. It will also cover integers, rational numbers, square roots, fractions, decimals, percent, and solving equations with variables on both sides. Educational materials provided. Class limited to 8 students. *(Fee-Based)*
KIDS 227  
Algebra II  
Grades 8+  
Topics include Rational Algebraic Expressions, Quadratic Equations, Radicals, Function Notation, Composite, Inverse and Even Functions, Distance Formula, Midpoints, and Transformations. (Fee-Based)

KIDS 228  
Tutorial: Improve Math  
Grades 3-4  
Students will review and enhance basic math skills according to ability level. (Fee-Based)

KIDS 229  
Tutorial: Improve Math  
Grades 5-6  
Students will review and enhance basic math skills according to ability level. (Fee-Based)

KIDS 233  
Tutorial: Chemistry  
Grades 9+  
This course is designed to enhance the problem solving skills of students currently enrolled in high school chemistry or are planning to take a chemistry course in high school. Topics covered will include atomic structure, chemical formulas and chemical compounds, equations and reactions. With a review of significant figures and conversions. (Fee-Based)

KIDS 234  
Phonics and Printing  
Ages 5-6  
This hands-on course introduces proper letter formation and develops student's ability to sound out words. Through fun games and printing activities students become better printers and spellers. Students will also learn beginning sentence writing. Each term has different activities. (Fee-Based)

KIDS 235  
Figuring With Fractions  
Grades 5-6  
Improve and strengthen your math skills. Reviews and reinforces school curriculum. Includes: addition, subtraction, multiplication and division of proper and improper fractions and mixed numbers; comparing fractions and mixed numbers; converting fractions to decimals and percents; reducing fractions; obtain GCF (reducing fractions) and LCM (least common denominator); reciprocals. (Fee-Based)

KIDS 236  
Comprehensive Pre-Algebra  
Grades 6+  
This course reinforces the school curriculum using strong algebra skills. Topics include: whole numbers, decimals, integers and their operations, algebraic and numerical expressions, order of operations, powers and exponents, rational numbers, GCF, LCM, solving equations and inequalities, ratio, proportions and percent, finding the area and volume, square roots and Pythagorean theorem. Materials provided. Homework assignments. (Fee-Based)

KIDS 237  
Tutorial: Physics  
Grades 9-12  
This course is designed to enhance the problem solving skills of students currently enrolled in high school physics or planning to take a physics course in high school. Topics covered will include phases of matter, thermodynamics, light and sound. Review of significant figures, conversions, motion and energy. (Fee-Based)

KIDS 239  
Master Math - 1st Grade  
Students will review counting to 100, learn and practice basic math skills including addition and subtraction. Also included are time and fractions. Students will learn to use reasoning when solving problems. (Fee-Based)

KIDS 240  
Master Math: 2nd Grade  
"Ah-ha" moments will be recorded in a math journal. The focus of this course is to support students in second grade math and enhance accurate calculating skills. There will be group useof whiteboard work and access to math websites. (Fee-Based)

KIDS 241  
Master Math: 3rd Grade  
"Ah-ha" moments will be recorded in a math journal. Focus will be on supporting students in third grade math and on enhancing calculating skills. There will be group whiteboard work and use of math websites. (Fee-Based)

KIDS 242  
Master Math: 4th Grade  
Students will learn and practice basic math skills in fun and enriching sessions. Includes adding, subtracting, multiplying and dividing, as well as using graphs and charts, place values, test prep, fractions and word problems. (Fee-Based)

KIDS 243  
Comprehensive Mathematics  
Grades 6+  
Get an advanced start in middle school. Learn math the easy way. Includes order of operation, variables, exponents, solving equations, decimals, scientific notation, averages, prime factorization, GCF, fractions, probabilities, LCM, integers, two-step equations, inequalities, functions, perimeter and finding circumferences. Materials provided. Homework assignments. (Fee-Based)

KIDS 244  
Tutorial: Algebra 2  
Grades 8+  
This course is designed to further strengthen and develop a student's Algebra skills. It will quickly review basic Algebra knowledge, and subsequently delve into more complex Algebra materials, such as: 2nd and 3rd degree polynomials, radicals, exponents, logarithms, intermediate geometry, and analyzing and graphing various functions. (Fee-Based)

KIDS 245  
Math Foundation Tutorial  
Grade 5+  
This course will strengthen the math foundation of each student. topics include order of operation, number line, addition, subtraction, multiplication and division of integer integers and fractions. A solid math foundation will help a student develop, build, and learn new materials in the future with relative ease. (Fee-Based)
KIDS 250
Calligraphy Camp
Ages 8-11
Kids will learn step-by-step instructions in the art of Calligraphy, especially suitable for young children. Students will learn a beautiful style (italic) suitable for cards, envelopes, gifts, etc. (Fee-Based)

KIDS 255
Introduction to Chinese and Chinese Calligraphy
Ages 6-10
The objective of this course is to help students gain mastery of the basic skills of Mandarin Chinese including speaking, listening, reading, and writing. Students will also be exposed to the foundations of Chinese Calligraphy as well as customs and culture. (Fee-Based)

KIDS 299A
I Am Worth A Million Dollars
Ages 11+
This class will begin with a focus on helping each child discover his and her uniqueness. Through the use of activities, discussion, and art projects children will explore ways to make responsible choices to enhance self esteem. (Fee-Based)

KIDS 315
Musical Theatre
Ages 7+
Enjoy this introduction to the exciting world of musical theatre! Participants will learn choreography and vocals to a musical theatre song. Family and friends are invited to a performance on the last day of class. (Fee-Based)

KIDS 319
Creative Drama for Teens
Ages 12+
Students will explore the nature of drama fiction, movies, plays and real life experiences. Students will do exercises and role playing to create their own drama. No prior experience is necessary! (Fee-Based)

KIDS 324
Musical Theater Camp
Ages 8+
This week-long camp will consist of singing songs from "The Wizard of Oz", "You're A Good Man, Charlie Brown" and "Peter Pan". Children will create choreography and many solo opportunities will be available! (Fee-Based)

KIDS 325
Vocal for Kids
Ages 7-10
This class is designed to help children develop good ear training to sing in groups or solos. It will help build confidence as well as strengthen their individual style. (Fee-Based)

KIDS 326
Vocal for Kids
Ages 11+
This class is designed to help children develop good ear training to sing in groups or solos. It will help build confidence as well as strengthen their individual style. (Fee-Based)

KIDS 329
Music for Little Mozarts
Ages 4-5
This is an introductory course to the piano for children 4 and 5 years old that uses a story, stuffed animals, songs with movements from a CD and a music book that is enjoyable and age appropriate. It is easy for the children to play simple tunes with a lively accompaniment. This course teaches many skills that will be used later in more advanced piano lessons. Students must bring a keyboard (40 key minimum) every week. Text required, CD optional. (Fee-Based)

KIDS 330
Kids College Singers
Grades 2-6
This is a choir for children and includes singing in unison and in rounds, using microphones, rhythm instruments with CD and keyboard accompaniment. The class will use a songbook with CD that sells for about $25 and contains copyrighted material of stage and screen music. (Fee-Based)

KIDS 351
Violin I
Ages 4+
Prerequisite: Must have completed Violin I. Learn songs using beginner finger and melodic patterns. (Fee-Based)

KIDS 352
Violin II
Ages 4+
Prerequisite: Must have completed Violin I. Learn songs using beginner finger and melodic patterns. (Fee-Based)

KIDS 353
Violin IV
Ages 4+
Prerequisite: Must have completed Violin I - III or have instructor's approval. Develop for playing primary level songs on all 4 strings and begin reading music. (Fee-Based)

KIDS 355
Violin III
Ages 4+
Prerequisite: Must have completed Violin I and II or have instructor's approval. Develop technique for playing primary level songs. (Fee-Based)

KIDS 356
Violin: Performance III
Ages 4+
Prerequisite: Must be enrolled in Violin VI. Chamber music for violin ensemble including string and piano trios, quartets and string orchestra. (Fee-Based)

KIDS 357
Violin: Performance II
Ages 4+
Prerequisite: Must be enrolled in Violin V. Chamber music for violin ensemble including string and piano trios. (Fee-Based)
KIDS 358
Violin V
Ages 4+
Prerequisite: Must have completed Violin I - IV or instructor's approval. Technique and reading in one position. (Fee-Based)

KIDS 359
Violin VI
Ages 4+
Prerequisite: Must have completed Violin I - V or have instructor's approval. Technique and reading including I, III, and V position. (Fee-Based)

KIDS 364
Violin: Performance I
Ages 4+
Prerequisite: Must be enrolled in Violin IV. Chamber music for violin ensemble. (Fee-Based)

KIDS 368
Piano Keyboarding - Beginning I
Ages 7+
Students will learn the basics of the keyboard and music theory. Students: bring your own keyboard (40-key minimum) every week. A recital will be held on the last day. Books will be suggested to buy at first class. (Fee-Based)

KIDS 368A
Piano Keyboarding - Beginning I
Ages 11+
Students learn basics of piano and keyboard theory. Bring your own keyboard (40-key minimum) every week. Recital will be held on last day. Suggested books to buy discussed at first class. (Fee-Based)

KIDS 368B
Piano Keyboard: Beginning
Ages 11+
Students will learn the basics of piano and keyboard theory. Bring your own keyboard (40-key minimum) to class each week. A recital will be held on the last day of class. Pick up book list at registration. (Fee-Based)

KIDS 369
Piano Keyboarding - Intermediate
Ages 7+
For students who have completed Beginning II; or have at least 6 months keyboard/piano experience. Pick up book list at registration. (Fee-Based)

KIDS 370
Guitar For Kids - Beginning
Ages 6-8
Learn to play the guitar in a fun way! Play simple chords, read chord bar charts, and strumming patterns. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. Parents, please accompany children to class. (Fee-Based)

KIDS 370A
Guitar For Kids - Beginning
Ages 9+
Young beginners develop confidence and enjoyment for music. Learn parts of the guitar, strokes and strumming, chords and melodies in order to play FUN exercises and songs. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. (Fee-Based)

KIDS 370B
Guitar for Kids - Intermediate/Advanced
Students will learn three new songs each quarter (never repeated), review scales and basic theory, learn more chords such as bar chords, new lead licks, strum patterns and play songs to a CD or a drum track with and without bass accompaniment. Acoustic or Electric Guitar and pick required. (Fee-Based)

KIDS 371
Guitar For Kids - Intermediate
Ages 9+
Learn to play the guitar in a fun way! Play simple chords, read chord bar charts, and strumming patterns. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. (Fee-Based)

KIDS 372
Guitar For Kids - Advanced
Ages 9+
Learn to play the guitar in a fun way! Play simple chords, read chord bar charts, and strumming patterns. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. (Fee-Based)

KIDS 373
Bass Guitar for Kids
Ages 10+
Students will learn basic notes on the bass guitar, major and minor keys & scales (basic music theory), root notes of chords, how to reach a lead sheet, play with a pick and with fingers. Bring a bass guitar, a heavy pick and if possible (optional) a small bass amplifier. (Fee-Based)

KIDS 375
Playing the Cello - Beginner I
Ages 7+
Learn to play the cello! Develop good technique, musicality, and have fun at the same time. Develop self-confidence, good listening and motor skills, memory, and concentration. Prior playing experience is not required. Teacher will assist with instrument rental. Class is limited to 6 students. (Fee-Based)

KIDS 375A
Playing the Cello - Beginner II
Ages 7+
Prerequisite: Must have completed Beginner I or have instructor's approval. Learn to play and read simple one position songs. Chamber music for Cello ensemble. (Fee-Based)

KIDS 375B
Playing the Cello - Beginner III
Ages 7+
Learn to play and read 1st through 4th position songs. Chamber music for Cello ensemble. Prerequisite: Must have completed Beginner II or have instructor's approval. (Fee-Based)

KIDS 376
Piano Keyboarding - Beginning II
Ages 7+
For students who have completed Beginning I; pick up book list at registration. (Fee-Based)
KIDS 377
Summer Band
Grades 5-8
This course is open to those students who already play a band instrument and read music. This class is perfect for students wanting to have fun while practicing their instrument over the summer in preparation for the next school year. Bring instrument to class or receive information about rental in class. A concert will be presented on the last day of class.  (Fee-Based)

KIDS 378
Jazz Improvisation
Grades 5-8
This class is for young musicians who want to explore the exciting world of jazz improvisation. You will learn music theory and skills needed to improvise on the blues and 32 bar song form. Students must read music and have one year experience on a band instrument. A concert will be presented on the last day of class.  (Fee-Based)

KIDS 379
Intro to Jazz and Blues Music Camp
Ages 10+
Students will enjoy singing Jazz and Blues as well as watching videos, listening to CDs, and learning about the key people through the history of Jazz!  (Fee-Based)

KIDS 380
You've Got Rhythm
Ages 5-8
Learning basic rhythms can be easy and fun! Students will learn to read and recognize basic rhythms. While experimenting with many types of hand percussion instruments all students interested in learning about music, will benefit from learning rhythms at an early age. No experience or instruments needed.  (Fee-Based)

KIDS 382
Beginning Band
Grades 4-6
Strike up the band! Students learn the fundamentals of flute, clarinet, trumpet and trombone in a dynamic and interactive band setting. There will be one or more performances during the term. Students need to provide their own instrument and supplies - information will be available at the first class meeting.  (Fee-Based)

KIDS 383
Playing the Cello - Intermediate I
Learn higher level of sound productions and 1st through 4th positions. Chamber music for Cello ensemble.  (Fee-Based)

KIDS 384
Playing the Cello - Intermediate II
Learn higher level of sound and bow techniques including vibratos. Chamber music for cello ensemble.  (Fee-Based)

KIDS 390
Violin: Performance IV
Advanced chamber music for violin ensemble including string and piano trios, quartets and string orchestra.  (Fee-Based)

KIDS 391
Violin VII
Learn to play and read I, II, III, and V position repertoire. Completion of Violin I - VI and instructor’s approval is required. Must have appropriate reading and sight-reading skills and able to shift in III and V position.  (Fee-Based)

KIDS 403
Cartoon Drawing
Ages 8+
Introduces drawing/thinking techniques. Offers in-class drills and drawings with demonstrations and reviews; receive supplemental handout to help support a long-term interest. Parents and adults may enroll.  (Fee-Based)

KIDS 404
Creative Art for the Preschool Child
Ages 3-4
A wonderful opportunity for the parent and child to "work together." With your help, your child will create exciting, simple projects using a variety of materials. Improves fine motor skills and launches their imaginations!  (Fee-Based)

KIDS 406
Spend A Day With An Artist Camp!
Grade K-3
Come and be creative! Let's get out the paintbrushes, crayons and pastels and learn about great artists such as Van Gogh and Dali while creating your own masterpiece!  (Fee-Based)

KIDS 408
Wonderful Watercolors
Ages 8+
Come have fun learning basic watercolor painting techniques. No experience is necessary! Please bring a "set of 8" dry watercolor paints, a pad of inexpensive watercolor paper and two watercolor brushes: one 1/4" round and one 1/4" flat.  (Fee-Based)

KIDS 410
Young Artist Workshop
Ages 7+
Learn to draw animals, natural objects, landscapes, and people. Covers basic theory of color, value, perspective and spatial relationships. Your child will learn to draw better!  (Fee-Based)

KIDS 412
The "Arts" Extravaganza
Ages 7+
Children are encouraged to express themselves, emphasizing creativity and experimentation through age-appropriate art projects. Classes will include a variety of art techniques, which may include drawing, sketching, painting, clay and various other art media.  (Fee-Based)

KIDS 414
Art is for You (Ages 5-8)
Calling young artists bold and shy! Come use different art materials each day to learn how to "draw what you see" and what you imagine.  (Fee-Based)

KIDS 415
Pencils & Paintbrushes
Ages 4-10
An art class that will encourage your child’s imagination to soar! Designed to build self-esteem through individual expression while interacting creatively with other students. Children will learn basic drawing skills and fun techniques of watercolor painting. Instruction at age- and ability-appropriate levels. Each session explores different themes. Repeat students will experience more advanced levels of previous sessions. Pick up a minimal materials list at the first class meeting.  (Fee-Based)
KIDS 415A
Pencils & Paintbrushes
Ages 8+
An art class that will encourage your child's imagination to soar! Designed to build self-esteem through individual expression while interacting creatively with other students. Children will learn basic drawing skills and the application of color using pencils and watercolors. Instruction at age and ability appropriate levels. Repeat students experience different projects. Pickup material list when you register.  (Fee-Based)

KIDS 418
Origami For Fun
Ages 7-
Origami is Japanese and comes from the word ori (to fold) and kami or gami (paper). You'll become familiar with the basic technique or art of paper folding step by step from a single sheet of paper into an animal, bird, boat, butterfly, crane, and more. Parents are welcome to enroll too!  (Fee-Based)

KIDS 428
Photography For Kids
Ages 7-10
Children will learn basics techniques of photographic process, conventional to digital. Material/equipment needs will be given first day of class. Bring a 35mm (digital, conventional, or disposable) to class. There will be additional fees for film developing/printing. Children will take a photo shoot tour of the campus.  (Fee-Based)

KIDS 429
Photography for Kids
Age 10+
Children will learn basics techniques of photographic process, conventional to digital. Material/equipment needs will be given first day of class. Bring a 35mm (digital, conventional, or disposable) to class. There will be additional fees for film developing/printing. Children will take a photo shoot tour of the campus.  (Fee-Based)

KIDS 431
Drawing the World Around You
Age 8-11
For the inspired young artist who wants to learn how to make drawings that look realistic. From still life to portrait to landscape, students will learn how to draw exactly what they see both accurately and beautifully.  (Fee-Based)

KIDS 432
Paint-A-Rama Camp
Ages 6-
Children of all ages love to paint! In our "art camp" we will be painting on wood, glass, terracotta, cardstock and watercolor paper! Students will use a variety of different paint media and added textures and design to create beautiful art projects for home and gift giving.  (Fee-Based)

KIDS 432A
Paint-A-Rama Camp
Ages 9+
Children of all ages love to paint! In our "art camp" we will be painting on wood, glass, terracotta, cardstock and watercolor paper! Students will use a variety of different paint media and added textures and design to create beautiful art projects for home and gift giving.  (Fee-Based)

KIDS 433
Be Creative With Paper Mache Camp
Ages 8+
Learn textures, techniques and design elements to create unique dazzling projects for home and gift giving. Individual creative designs include projects such as picture frames, festival face masks, floral vase and flowers, treasure box, deskset mat or artist mural background. Add individual decorating concepts using fabric, beads, shells, ribbon, etc., to each creative project. Please wear old clothes or bring an apron.  (Fee-Based)

KIDS 435
Basic Knitting for Kids
Ages 9+
Learn basic knitting techniques including casting on, knit stitch, purl stitch, increase, decrease, and binding off. Knit some basic projects such as book marks, scarves, purses and more. Learn about different yarns and become aware of the fulfillment of making your own creations.  (Fee-Based)

KIDS 437
Paint Like Great Masters Camp
Ages 10-15
Feeling creative? Love to paint? In this class you will learn how to create your own original artwork in the styles of Warhol, Picasso, Michelangelo, Matisse and others!  (Fee-Based)

KIDS 438
Wonderful Arts and Crafts
Ages 5-7
Come and create art and craft projects using different media and surfaces.  (Fee-Based)

KIDS 438A
Wonderful Arts & Crafts
Ages 8+
Come and create art and craft projects using different media and surfaces.  (Fee-Based)

KIDS 441
Drawing and Acrylic Painting
Ages 9+
Students will learn about abstract shapes and forms, faces, fruits, veggies, and landscapes and still life!  (Fee-Based)

KIDS 442
Creative Art for the Young Child
(Ages 3-5)
This is an arts and crafts class for children 3-5 years and a parent to spend quality time together developing motor skills and artistic abilities through drawing and painting with watercolors and making arts and crafts items.  (Fee-Based)

KIDS 443
Drawing and Watercolors
Ages 5+
Students will learn the basics of drawing and painting shapes, cartoons, landscapes, underwater scenes, animals, cars and use watercolors to enhance their projects.  (Fee-Based)
KIDS 445  
**Fashion Illustration I**  
**Ages 12+**  
Calling all aspiring fashion illustrators. In this class you will complete a fashion figure with collars, blouses, skirts, pants, hats and accessories by the end of the course. Students will learn how to draw proportional figures and faces, as well as gesture drawings. Fashion figures will be created using watercolors, colored pencils, markers, and pens. Special supplies required, pick up list in office. *(Fee-Based)*

KIDS 446  
**Mask Making**  
**Ages 8+**  
This class will introduce the young artist to the world of fantasy in mask making. Learn to make various masks such as animal faces, insects, super heroes, and other whimsical selections. Students will design sketches and create a mask using various materials such as paper, pasta, feathers, beads, foil and paper mache. *(Fee-Based)*

KIDS 451  
**Create Art from Around the World Camp!**  
**Ages 8+**  
Come join our adventure as we explore art from around the world! We will create fun and unique art with influences from Mexico, Africa, Europe, Asia, and the Mediterranean. Learn how to do paper mache, mosaics, painting and more! *(Fee-Based)*

KIDS 452  
**Art Techniques for Kids Camp**  
**Ages 8+**  
Have fun while learning great art techniques! Learn to do pencil drawing, acrylic painting, pastels, still-life creation, mixing your own paints, and more! We will create our own works of art using the techniques we learn! *(Fee-Based)*

KIDS 453  
**Fashion Illustration II**  
**Ages 12+**  
Advanced level of Fashion Illustration. Learn to complete group figures (3-5) with a theme. Illustrate different textures of fabrics. Also create accessory and shoe illustrations and flats of garments. *(Fee-Based)*

KIDS 454  
**Costume Illustration & History of Fashion**  
**Ages 12+**  
Students will learn about the History of Fashion. Then students will illustrate various costumes and accessories using watercolors, markers, colored pencils and more. *(Same supply list as Fashion I & II)* *(Fee-Based)*

KIDS 475  
**Piano Keyboarding - Advanced**  
**Ages 7+**  
Students will continue learning the basics of the keyboard and music theory. In addition, students will be introduced to major scales and arpeggios, and sight-reading. Students must bring their own keyboard (40 key minimum) every week and headphones. Books may be suggested to buy during the session. *(Fee-Based)*

KIDS 500  
**Introduction To Dance**  
**Ages 3-4**  
Come and learn the fundamentals of movement and dance. This class incorporates many styles of dance using a fun approach to learning through repetition, games and props. Students will develop self-confidence in a creative environment. *(Fee-Based)*

KIDS 501  
**Children’s Tap Dance**  
**Ages 7+**  
Children will learn tap techniques, rhythm exercises and simple dance combinations at beginning level. *(Fee-Based)*

KIDS 502  
**Children’s Ballet and Tap Dance**  
**Ages 5+**  
At the beginning level, children will learn ballet and tap techniques, simple dance combos and rhythm exercises. *(Fee-Based)*

KIDS 506  
**Jazz Dance**  
**Ages 12+**  
This jazz dance class is high energy dance with stretching, strengthening and learning short dance combinations. *(Fee-Based)*

KIDS 507  
**Toe Tapping Feet**  
**Ages 6+**  
This is a beginning Tap class that will introduce beginning level tap steps, center work and simple progressions across the floor. Children will develop coordination and self-esteem and have fun learning one of America’s original art form. Parents are not allowed in the dance studio during class. The children will learn and perform a short dance that will be performed on the last day of classes during the fall, winter and spring sessions only. Tap shoes are required. *(Fee-Based)*

KIDS 508  
**Beginning Tap**  
**Ages 10+**  
This course will be an introduction into the simple beginning steps of tap dance. The class will consist of the basic steps of tap and gradually being able to put them together into simple routines. *(Fee-Based)*

KIDS 510

Digital Photography Camp
Ages 10+
This class will help to develop or improve your digital photography skills. Using the computer and Photoshop, students will learn photo editing skills to restore, resize, change colors and enhance your photos. Bring your own photos, a digital camera and USB flash drive to each class. (Fee-Based)

KIDS 916
Presentations With Powerpoint Camp
Ages 9+
Students will have fun creating a simple slide show presentation using Microsoft PowerPoint. Learn how to use text, animation, sound effects and graphics to complete a short in-class slide show. (Fee-Based)

KIDS 918
Using Movie Maker 2 in Windows XP Camp
Ages 10+
Students will learn how to create, record and import audio and video and learn how to create and save a new video collection and a new project in Windows XP. Edit movies, record a narration to go with the movie, trim a clip as well as creating and deleting a movie and saving and sending a movie and more! Fee includes all materials. (Fee-Based)

KIDS 920A
Drawing & Sketching
Ages 7-8
Designed to heighten your child’s self-esteem through individual expression while interacting creatively with others. Basic drawing skills and the application of colors using colored pencils and watercolors will be used. Pickup supply list at registration. (Fee-Based)

KIDS 920B
Drawing & Sketching
Ages 9+
Designed to heighten your child’s self-esteem through individual expression while interacting creatively with others. Basic drawing skills and the application of colors using colored pencils and watercolors will be used. Pickup supply list at registration. (Fee-Based)

KIDS 930
Create Your Own Web Page Using HTML
Ages 12+
Learn how to create your own web page with HTML. Includes creating, formatting, enhancing and publishing HTML/web pages. Prerequisite: Basic Internet navigation skills. (Fee-Based)
KIDS 932
Introduction to PowerPoint
Ages 9+
Students will have fun creating a simple slide show presentation using Microsoft PowerPoint. Learn how to use text, animation, sound effects and graphics to complete a short in-class slide show. (Fee-Based)

KIDS 936
Create Your Own Web Page with FrontPage
Ages 9+
Using Microsoft FrontPage, students will design their own Web pages. They will learn how to add text and pictures to the Web page, their Web page on the Internet for free! (Fee-Based)

KIDS 940
Computer Hardware Repair and Installation
Ages 14+
Students will learn how to diagnose hardware and software-related problems and how to solve them. They will learn how to install memory to hard drives, floppy drives, CD drives and various other major hardware parts inside the computer. (Fee-Based)

KIDS 941
Story time on the Computer: Create Your Very Own Electronic Book
Grades 2-4
Using Kid Pix software, imagination and creativity; you will design your very own electronic book on the computer! Your book will include pictures, sound and animation. What story will the book tell? Well, it's all up to you! (Fee-Based)

KIDS 945
Introduction to Computer Programming
Grades 5-8
Be creative and have fun! You will learn basic computer programming using Squeak software as you design objects (such as a car) and then give them a series of instructions to follow (such as drive a car in a circle). Whether you know a lot or a little about computers, you will enjoy this course! (Familiarity with computers, use of mouse, keyboard recommended). (Fee-Based)

KIDS 947
Writing Workshop
Grades 7+
This writing workshop will expose students to a wide range of writing styles, familiarize students with the writing process, and enhance both the reading and writing skills of the student. Students will share their work and critique each other in a cooperative, nurturing environment. Whether the student is a struggling writer or a highly skilled writer this workshop will benefit them. (Fee-Based)

KIDS 950
Chess - It's Your Move
Ages 8+
Want to be King of your own army? Chess is the oldest skill game in the world, played many centuries ago in China, India and Persia. This class will start at the basics and introduce concepts appropriate for every level. Opening, middle game, and endgame theory will be examined along with tactical theory. (Fee-Based)

KIDS 951
Clutterology for Kids and Teens
Grades 7-12
From your closet to your locker to finding your homework, we all have stuff, but how do you organize it? Design zones for you to work in, play in and get dressed in. Have fun while you sort, store and simplify. Gain great skills that will last you a lifetime. Book included. (Fee-Based)

KIDS 952
Fun with Phonics
Grades 1-2
Children will participate in a variety of meaningful, interactive, and stimulating games and activities to build phonics and spelling skills. In order for children to be successful in beginning reading, they must have a strong phonics foundation. (Fee-Based)

KIDS 954
Tutorial: Read, Read, Read
Grades 1-2
Emergent readers will be taught essential reading skills (phonics, basic sight word memorization & comprehension strategies) through the use of word games, poetry, story books, and direct instruction. Limited to 8 students. (Fee-Based)

KIDS 960
Art Techniques for Kids!
Ages 4-6
Come make fun and beautiful art! Learn how to use pastels, mix paints, and how to paint on paper, and canvas. We will use our imaginations, photos, and real life to create our own lively works of art! (Fee-Based)

KIDS 961
Art Techniques for Kids!
Ages 7+
Come make fun and beautiful art! Learn how to use pastels, mix paints, and how to paint on paper, wood and canvas. We will use our imaginations, photos, and real life to create our own lively works of art! (Fee-Based)

KIDS 962
More Spanish For Kids
Ages 5-6
Children have fun with Spanish by doing activities, playing games and singing song. Introduces basic communication about active words, nature, animals, days of the week, food, numbers, house and body. Will include some review of Spanish Kids I. (Fee-Based)

KIDS 964
Jewelry Making
Ages 8+
Students will learn to make jewelry with various materials such as paper mache, beads, clay, etc. (Fee-Based)

KIDS 965
Bookmaking
Ages 7-10
Students will learn to make various books with different themes using mixed mediums. The books can be used as sketch books or for making up your own stories. (Fee-Based)
KIDS 967
Creative Arts and Cultural Crafts Camp
Grades 3-6
Explore the world through art! This class is to inspire and motivate the young artist through the creative discovery of various cultures and their techniques. You will become skilled at painting, collage, drawing and crafts. (Fee-Based)

KIDS 969
Make Art Like the Masters Camp!
Ages 8+
Come create beautiful artwork and learn about famous master artists such as Monet, Van Gogh, Picasso and more! We will recreate famous paintings and make works of our own in the style of these talented master artists. (Fee-Based)

KIDS 970
Recycled Art Camp
Ages 7+
Let's help the environment and create art. In this class we will be recycling materials such as coffee cans, glass water bottles, and cardboard into vases, candle holders, pencil holders, decorative sketch books, art portfolio cases, and masks. (Fee-Based)

KIDS 975
Creating Small Sculptures
Age 8+
Students will learn to make cups, teapots, coffee pots, whimsical animals, vases, mosaics, candleholders using various clays such as modeling and fimo clay, clay hardener. (Fee-Based)

KIDS 976
Creating Small Sculptures
Ages 6+
Students will learn to make cups, teapots, coffee pots, whimsical animals, vases, mosaics, candleholders using various clays such as modeling and fimo clay, clay hardener. (Fee-Based)

KIDS 980
Draw and Paint Animals
Ages 5+
In this class, you will learn how to draw and paint different animals. You will be using watercolors, colored pencils, markers, crayons to capture textures of animals. (Fee-Based)

KIDS 990
Printmaking for Kids
Ages 7+
The young artist in this class will be introduced to various materials and mediums to create their own unique prints. Students will make pictures which can be used to create their own specialized cards, gift paper, or art pieces. (Fee-Based)

KIDS 995
Handmade Cards for Different Occasions
Ages 10+
Come learn to make handmade cards for different occasions. Make cards using various materials, such as watercolor paper, paints, felt, fabric, etc. (Fee-Based)

KIDS 1010
Modern Masters Art Camp
Ages 7+
Let's create modern art in the style of Andy Warhol, Jackson Pollock, Robert Rauscenberg, and more. We will use various art mediums such as acrylics, tempera, and watercolors. Some of the art techniques we will learn are printmaking, action painting, and collage. Please wear old clothes or bring an apron. (Fee-Based)

KIDS 1012
Anime Drawing
Ages 8+
Learn how to draw unique anime fantasy characters and settings. Also learn how to pose and costume the characters. Fantasy characters will be created using colored pencils, markers and watercolors. (Fee-Based)

KIDS 1015
Anime Drawing Camp
Ages 8+
Learn how to draw unique anime fantasy characters and settings. Also learn how to pose and costume the characters. Fantasy characters will be created using colored pencils, markers, and watercolors. (Fee-Based)

KIDS 1020
Fun With Clay Camp
Ages 7+
Let's make fun clay puppets, plates, dishes, bowls, tiles, animals, and faces! We will be using air-drying clay, polymer clay and paints. (Fee-Based)

KIDS 1035
The Art of Sketching & Painting People Camp
Ages 8+
Have you ever wantaed to draw realistic people? This is the class for you. We'll learn to draw and paint people on the go, complete figures, real-life clothing, faces, hands, feet, life-like hair, and facial expressions! This class will have you on your way to drawing and painting great pictures of people! (Fee-Based)

KIDS 1040
Seasonal Arts and Crafts Workshop
Ages 3-4
A wonderful opportunity for the parent and child to work together creating a seasonal craft project using variety of materials. Children will be encouraged to use their imagination. (Fee-Based)

KIDS 1041
Seasonal Arts and Crafts Workshop
Ages 5-7
Create a seasonal craft project using a variety of materials. Children will be encouraged to use their imagination. (Fee-Based)

KIDS 1042
Seasonal Arts and Crafts Workshop
Ages 8+
Create a seasonal craft project using a variety of materials. Children will be encouraged to use their imagination. (Fee-Based)
KIDS 1043  
Seasonal Arts and Crafts Workshop  
Ages 6+  
Create a fun craft project to keep for yourself or give as a gift.  
Children will be encouraged to use their imagination.  (Fee-Based)

KIDS 1045  
Beyond Smoothies and More  
Ages 7-12  
Child and parent will join forces to create a variety of colorful and delicious summer-time drinks.  
This one day workshop will include demonstration and hands-on participation in the creation of fun summer-time drinks for kids including smoothies and fruit juices beverages.  
Demonstration will be given on fun fresh fruit garnishes and colorful ice rings.  
The class will be taught by our vocational bartending instructor and class will be held in our adult bartending classroom.  (Fee-Based)

KIDS 1050  
Write Your Own Newspaper  
Grades 4-6  
Students will have fun writing their own newspaper.  
Writing assignments will include interviews, movie reviews, sports features and editorials.  (Fee-Based)

KIDS 1055  
Writers Camp  
Grades 5-6  
Students will sharpen their writing and critical thinking skills.  
They will edit short articles, review grammar and punctuations rules, and learn skills used to write paragraphs about a variety of topics.  (Fee-Based)

KIDS 1060  
Poems and Plays  
Grades 4-6  
Students will learn how to write short plays and present them to the class.  (Fee-Based)

KIDS 1065  
Grammar Rules!  
Grades 3-5  
This class will review parts of speech, punctuation, and capitalization.  
A strong foundation in grammar enhances a student’s ability to write and speak effectively.  (Fee-Based)

KIDS 1070  
Research Techniques  
Grades 4-6  
Students will learn techniques for writing a research paper, including choosing a topic, using the Internet, writing an outline, taking notes and writing a draft.  (Fee-Based)

KIDS 1075  
How to Write a Research Paper Camp  
Grades 6-8  
Students will learn to write a research paper.  
Topics include finding resources, taking notes, writing an outline, writing and revising a draft, and writing a bibliography.  (Fee-Based)

KIDS 1080  
Science Camp - Earth Science Exploration  
Ages 6-9  
Children will explore the wonders of earth science.  
Through hands-on activities, students will investigate mineral and fossil specimens to assemble their own beginning rock collection.  
Students will build a clay model to discover how volcanoes grow.  
Learning about geodes and rock formations students will write about their discoveries in their science journal and create their own fossil model.  
Class size is limited.  (Fee-Based)

KIDS 1085  
Getting Ready for First Grade  
Grades 3  
Ages 6-9  
Students will participate in a variety of fun and effective Common Core-based activities to review and sharpen their reading (phonics and reading comprehension), writing and math skills.  
Games, worksheets, music and hands-on projects will be used to review kindergarten skills and introduce Common Core 1st grade standards.  (Fee-Based)

KIDS 1090  
Teen Chef Camp  
Ages 13-16  
Spend a week with our professional chefs.  
The Teen Chef Camp at SCE wants you to learn the basic skills of a chef; “mis en place”, knife skills, nutrition, safety, sanitation and culinary terminology.  
Apprentice chefs will embark on a culinary tour that spans the globe as they prepare dishes from start to finish.  
The day concludes at the chef’s table as they discuss and enjoy their daily creations.  
Bring two dish towels, white apron and a container for leftover food to take home and share.  
Students must wear black cotton pants, white t-shirts and closed-toe sneakers to class.  (Fee-Based)

KIDS 1095  
Computer Fun for Kindergarten Students  
Grades 4-6  
Students will learn the basic skills of a chef; “mis en place”, knife skills, nutrition, safety, sanitation and culinary terminology.  
Apprentice chefs will embark on a culinary tour that spans the globe as they prepare dishes from start to finish.  
The day concludes at the chef’s table as they discuss and enjoy their daily creations.  
Bring two dish towels, white apron and a container for leftover food to take home and share.  
Students must wear black cotton pants, white t-shirts and closed-toe sneakers to class.  (Fee-Based)

KIDS 1105  
How to Write a Research Paper  
Grades 4 to 6  
In this class students will learn the process for writing a research paper.  
Topics include finding resources, taking notes, writing an outline, writing and revising a draft, and writing a bibliography.  (Fee-Based)

KIDS 1110  
Improve Your Writing  
Grades 5 & 6  
In this class students will sharpen their writing and critical thinking skills.  
They will edit short articles, review grammar and punctuation rules, and learn skills used to write paragraphs about a variety of topics.  (Fee-Based)

KIDS 1145  
Tutorial: Trigonometry  
Grades 9+  
The course is to introduce and study the properties of trigonometric functions.  
Students will learn the fundamental laws that govern relationships between sides and angles of triangles, various techniques in taking measurements of triangles, graphing trigonometric functions, and using identities in preparation for Calculus.  (Fee-Based)
KIDS 1150  
*Pre-Calculus*  
Grades 10+  
This course is designed for preparation into Calculus. Topics range from relations and functions, linear and quadratic functions, polynomials, rational functions, radicals and roots, exponentials and logarithms, conic sections, systems of equations, and sequences/series. *(Fee-Based)*

KIDS 1155  
**Calculus I**  
Grades 10+  
This course is the first of a three part series of Calculus that is designed as a quick review of the Pre-Calculus functions. Topics covered will include understanding of properties of limits, techniques of finding limits, asymptote, continuity and one-sided limits, and infinite limits. These skills are an excellent preparation for the AP Calculus exam given in May. *(Fee-Based)*

KIDS 1157  
**Calculus II**  
Grades 10+  
This course is the second of a three part series of Calculus that is designed to build the foundations of limits to learn the concepts of derivatives. Students will be able to learn the definition of a derivative and later use them to solve FOR word problems such as related rates and graphing functions. These skills are a strong preparation for the AP Calculus exam. This class is limited to 8 students. *(Fee-Based)*

KIDS 1160  
**Arts & Crafts - Beautiful Beads Workshop**  
Grades 3-5  
Come and have fun learning the basics about beading to create your own beautiful bracelet and necklace. Students will learn about the history and traditions of beading all over the world, examine and use beading tools and techniques, and design, plan, and assemble their individual beaded jewelry. Materials included. *(Fee-Based)*

KIDS 1165  
**English Rules (English-as-Second Language)**  
Ages 8+  
This course is a fun way to learn English. Students will practice English basic grammar, parts of speech, and frequent word vocabulary lists. Emphasis will be on reading and writing concepts through songs, poems, reading, story telling and student journal writing. *(Fee-Based)*

KIDS 1170  
**Science & Health - the Amazing 5 Senses**  
Grades 3-4  
Students will learn about their 5 senses through fun and hands-on activities and experiments that explore seeing (eye), hearing (ear), smelling (nose), touching (skin, hand), and tasting (tongue). Emphasis on using scientific observational skills, writing in a Science Journal, and how to keep these vital senses healthy through daily care. *(Fee-Based)*

KIDS 1175  
**Science & Health - Wonderful You**  
Grades 3 & 4  
Students will learn about the wonders within their own bodies by exploring its major systems; nervous (brain/nerves), skeletal (skeleton/bones), muscular (muscles), respiratory (lungs), circulatory (heart), and digestive (stomach/intestines). Engaging and fun activities will focus students on healthy living choices to care for these important systems to stay "wonderful". *(Fee-Based)*

KIDS 1180  
**Teen Advanced Tennis**  
High School Level  
An accelerated program to review a student's ability to enter a High School Tennis competition. *(Fee-Based)*

KIDS 1185  
**Spelling and Writing Enrichment**  
Ages 6-8  
If your child has a foundation in basic phonics, then this is the class for him. This class will develop skills in writing correct sentences and paragraphs. *(Fee-Based)*

KIDS 1190  
**Dining and Party Etiquette**  
Ages 8-12  
This fun and informative class provides an overview of good manners and leadership skills. Students will learn social courtesies, introductions, dining and party etiquette. *(Fee-Based)*

KIDS 1200  
**Teen Etiquette**  
Ages 13-17  
This class will provide a foundation of good manners and leadership skills. Topics include: introductions and handshaking, dining skills, thank you notes, getting up in front of a group and listening skills *(Fee-Based)*

KIDS 1215  
**ESL - English Language Skills**  
Ages 5-6  
This course is designed for students who are not native speakers of English. This class will help the student advance in the following three areas: 1) Speaking and Listening Skills, 2) Grammar and Writing skills, 3) Reading and Vocabulary skills. *(Fee-Based)*

KIDS 1217  
**ESL - English Language Skills**  
Ages 7-12  
This course is designed for students who are not native speakers of English. This class will help the student advance in the following three areas: 1) Speaking and Listening skills, 2) Grammar and Writing skills, 3) Reading and Vocabulary skills. *(Fee-Based)*

KIDS 1225  
**Singing, Dancing and Storytelling**  
Ages 2-4  
Parent and child will enjoy self-esteem building activities together; singing and dancing, storytelling and art. *(Fee-Based)*
KIDS 1230
Storytelling, Singing and Dancing
Ages 3-5
Your child will enjoy age appropriate self-esteem building activities; storytelling, singing, dancing, and art. (Fee-Based)

KIDS 1235
Hands-on Science and Art Camp
Ages 6-9
In this class, children will discover science through hands-on art experiences. Through the use of a variety of mediums and techniques, students will explore, manipulate and realize the intertwined nature of science experimentation and art creation. Fun activities with water and air, light and sight, motion and energy reaction and matter, and nature and earth will help students to learn and enjoy basic scientific concepts. (Fee-Based)

KIDS 1240
Cheerleading Workshop
Ages 4-7
Students will learn the fundamentals of cheerleading including; arm motions, jumps, tumbling, cheers and dances. Students will also learn proper warm-up and stretching techniques to improve their flexibility. This class is designed to build self-confidence and give the students the fundamentals of cheerleading skills. Wear comfortable clothing and bring water. Show performance on the last day of class for family and friends. (Fee-Based)

KIDS 1243
Cheerleading Workshop
Ages 8-11
Students will learn the fundamentals of cheerleading including; arm motions, jumps, tumbling, cheers and dances. Students will also learn proper warm-up and stretching techniques to improve their flexibility. This class is designed to build self-confidence and give the students the fundamentals of cheerleading skills. Wear comfortable clothing and bring water. Show performance on the last day of class for family and friends. (Fee-Based)

KIDS 1246
Cheerleading Workshop
Ages 12-15
Students will learn the fundamentals of cheerleading including; arm motions, jumps, tumbling, cheers and dances. Students will also learn proper warm-up and stretching techniques to improve their flexibility. This class is designed to build self-confidence and give the students the fundamentals of cheerleading skills. Wear comfortable clothing and bring water. Show performance on the last day of class for family and friends. (Fee-Based)

KIDS 1250
Dance Workshop
Ages 4-7
Dance students will learn the moves and techniques of a variety of dances including ballet, jazz, hip hop, latin, pop and more! Students will learn the fundamental stretches, steps and conditioning for the most popular dances. Short choreography will be presented and practiced throughout the workshop. Please wear comfortable clothing and bring water. A short performance will be conducted on the last day of class. (Fee-Based)

KIDS 1253
Dance Workshop
Ages 8-11
Dance students will learn the moves and techniques of a variety of dances including ballet, jazz, hip hop, latin, pop and more. Students will learn the fundamental stretches, steps and conditioning for the most popular dances. Short choreography will be presented and practiced throughout the workshop. Please wear comfortable clothing and bring water. A short performance will be conducted on the last day of class. (Fee-Based)

KIDS 1256
Dance Workshop
Ages 12-15
Dance students will learn the moves and techniques of a variety of dances including ballet, jazz, hip hop, latin, pop and more. Students will learn the fundamental stretches, steps and conditioning for the most popular dances. Short choreography will be presented and practiced throughout the workshop. Please wear comfortable clothing and bring a bottle of water. A short performance will be conducted on the last day of class. (Fee-Based)

KIDS 1260
Writing from A to Z
Grades 4-6
Course will provide individual assessments at the beginning and focus on strengthening writing skills through the use of adjectives, adverbs, and introductory adverbial phrases. Paragraph writing skills are developed as well as expository and narrative writing skills. Class size limited. (Fee-Based)

KIDS 1265
Tutorial: Geometry - Basics of Geometry
Grades 7+
Geometry-Part I includes basic concepts such as points, lines, planes, and angles. A significant part of the course deals with logic and reasoning, which is an important foundation in constructing proofs. Students will also learn about congruent triangles, quadrilaterals, and inequalities. Class is limited to 8 students. (Fee-Based)

KIDS 1267
Tutorial: Geometry - Part II
Grades 7+
The second part of Geometry is learning about congruence, the study of right triangles (including Pythagorean Theorem and special triangles), coordinate geometry, circles, area, and volume. A significant portion of this course will emphasize proofs. Class is limited to 8 students. (Fee-Based)

KIDS 1269
Tutorial: Geometry - Part III
Grades 7+
The third course in Geometry is about finding area, volume, and surface areas of solids and various polygons. Further study into circles is also emphasized along with proofs. Class is limited to 8 students. (Fee-Based)

KIDS 1270
Solving Word Problems
Grades 3-4
Students will learn 6-10 strategies such as Guess and Check, Make an Organized List, Act it Out, and Work Backwards, to solve different types of math word problems. Enrollment limited to 10 students. (Fee-Based)
KIDS 1273  
**Solving Word Problems**  
Grade 4+  
Are word problems a challenge? Students will review basic math strategies to select data and successfully solve different types of math word problems. Enrollment is limited to 10 students. *(Fee-Based)*

KIDS 1276  
**Solving Word Problems**  
Grades 6-7  
Students will refine data analysis skills, reviewing all basic strategies and learn to select an algebraic strategy when one exists. Efficient use of time will be emphasized. Class can be repeated for additional skill building. Enrollment limited to 10 students. *(Fee-Based)*

KIDS 1280  
**Introduction to the Martial Arts**  
Ages 4 - 6  
Students will be introduced to basic martial arts skills as well as important life skills. Class will enhance your child's coordination and increase your child's confidence. Self Awareness skills and personal safety skills will be covered. Martial arts is a process that will help develop a positive attitude, respect, self discipline and build character. *(Fee-Based)*

KIDS 1285  
**Tutorial: Solving Word Problems Using Algebra**  
Grade 7+  
This course complements Algebra I where algebraic skills are applied to solve word problems. Students are taught to translate words into equations and solve them in an organized manner. This course is limited to 8 students. *(Fee-Based)*

KIDS 1290  
**Sing and Learn Chinese for Parent and Child**  
Ages 0-6  
A jump start opportunity for children to learn pronunciation, greetings, and basic Mandarin concepts through music, movements, storytelling and various activities. Class offers a great opportunity for parents wanting to increase their child's social, emotional, interpersonal skills. Parents can also learn along with their own child in a fun setting. *(Fee-Based)*

KIDS 1295  
**Sing and Learn Chinese for Parent and Child**  
Ages 0-6  
A jump start opportunity for children to learn basic Mandarin vocabularies, simple conversations through songs, movements, storytelling, play, and various activities. Class offers a great opportunity for parents wanting to increase their child's social, emotional, interpersonal skills. Parents can also learn along with their own child in a fun setting. *(Fee-Based)*

KIDS 1300  
**SAT/ACT Prep - Math**  
This course is designed for students taking the SAT (Scholastic Aptitude Test) for College Admission purposes. The focus in this course includes review with Numbers/Operations and Algebra/Functions, Geometry, Data Analysis, Statistics, and Probability. *(Fee-Based)*

KIDS 1310  
**Toy Factory**  
Grades 1-3  
Students will explore, design and build simple, fun toys such as parachutes, rocket launchers, catapults, spinning tops and marble runs. Students will use many everyday, household supplies to build their toys. In the process, students will also learn the science of how the toys work. *(Fee-Based)*

KIDS 1315  
**Lights...Crafts...Action!**  
Grades 4-6  
This class puts a new twist on arts and crafts! Students will make greeting cards that light up, simple lanterns, flashlights and batteries. In the process, you will learn about electricity and circuits. A fun class for both boys and girls! *(Fee-Based)*

KIDS 1320  
**Introduction to Computer Animation & Games**  
Grades 5-8  
Girls and boys, it's time to be creative and have fun! In this course, you will learn basic computer programming. You will design simple animations and even make your own video game. Whether you know a lot or a little about computers, you will enjoy this course! *(Fee-Based)*

KIDS 1330  
**Basic Reading Skills**  
Ages 4-5  
This class focuses on developing your child's ability to rhyme and blend sounds in words to become better readers and spellers. We will use "phonemic awareness" techniques that allow children to practice manipulating sounds in words thru fun songs and activities. A student assessment and parent packet will be given. Each term has different activities. *(Fee-Based)*

KIDS 1340  
**Calculus III (Integral Calculus)**  
Grades 10+  
This a third part course in Calculus that focuses on antiderivatives and integration. Students will learn different methods of integration. In addition, these techniques will be used to calculate area and volume of functions. These skills are a strong preparation for the AP Calculus course every May. *(Fee-Based)*

KIDS 1350  
**Math CAHSEE Test Taking Strategies**  
Grade 10  
Students will get familiar with the California High School Exit Exam (CAHSEE) questions and the necessary strategies to approach them. Students will also learn how to organize their study materials to prepare themselves for the test. *(Fee-Based)*
KIDS 1353
Math CAHSEE Test Taking Strategies
Grades 11-12
Students will get familiar with the California High School Exit Exam (CAHSEE) questions and the necessary strategies to approach them. Students will also learn how to organize their study materials to prepare themselves for the test. (Fee-Based)

KIDS 1355
Reading & Writing en Espanol
Grades 5-6
Students will learn the basics about writing and reading in Spanish through easy and fun activities. Spanish grammar and phonics will be emphasized. This class is designed for fluent Spanish speakers. (Fee-Based)

KIDS 1357
Reading & Writing en Espanol
Grades 7-8
Students will learn the basics about writing and reading in Spanish through easy and fun activities that will engage them into the learning of the language that they already speak. (Fee-Based)

KIDS 1365
Positive Living Skills for Youth
Ages 8-11
This class is geared toward teaching youth, ages 8 - 11, to become more positive, more confident, more skilled at coping with stress, and more focused on their pursuits. Activities encourage students to participate, accept others, and develop cooperation skills while having fun! Class adapted from Terry Orlick's "Feeling Great" program. (Fee-Based)

KIDS 1370
Fun with Magnets and Magnetic Fields
Grades 2-6
You will learn about magnets and magnetic fields, and get firsthand experience in determining whether poles of a magnet are the same or different and will repel or attract. Through hands on activities see how magnets repel and cause objects to float in midair as well as hold certain objects in the air without being touched. How strong magnets are and how they make objects move without being touched is also investigated. (Fee-Based)

KIDS 1371
Fun with Magnets and Electricity Camp
Grades 2-6
Kids will learn about magnets and magnetic fields. Through hands on activities they can see how magnets repel and cause objects to float in mid air. Experience how series and parallel circuits are made and useful things that electricity and circuits can do. Electricity is "measured" using meters and series and parallel circuits. Attendees will perform experiments to turn electrical currents into magnetic fields. (Fee-Based)

KIDS 1375
Jammin' Chemistry
Grades 3-5
Introduces the properties of solids, liquids, and gases. Learn about chemical change when solids and liquids produce gases and temperature changes. Experience chemical change when acids and bases make cabbage juice and goldenrod paper indicators change color. See density changes with the salt volcano, liquid layers, and suspended spheres of oil. (Fee-Based)

KIDS 1376
More Jammin' Chemistry Camp
Grades 3-7
Students will learn about chemical reactions between solids, liquids, and gases with a variety of demonstrations. Watch a sea of bubbles erupt from a jar in a reaction of household items. Students will learn about solutions and mixtures and will see how light can be produced by mixing chemicals. (Fee-Based)

KIDS 1377
More Jammin' Chemistry
Grades 3-6
Students will learn about reactions of solids, liquids, and gases. Hands-on activities with materials and chemical reactions will be shown in a variety of demonstrations. Color changing chemical reactions with simple and safe materials will be demonstrated. (Fee-Based)

KIDS 1380
Popping, Colliding, and Flashy Physics
Grades 3-6
Learn energy transfer by conduction, convection, motion, and light. Explore conduction with color-changing films, amazing ice blocks, and "hand boilers". Experience heat transfer with dry ice and light sticks in hot water. Use the swinging wonder, kinetic yoyos, and an astrobender to show energy transfer by moving objects. See how fuel makes a miniature steam boat move. Learn about light with radiometers, light-sensitive beads, prisms, and solar cells. (Fee-Based)

KIDS 1381
Popping, Colliding, Flashy and Noisy Physics Camp
Grades 3-6
Kids will learn about energy transfer by heat, light, sound, and moving objects. A "hand boiler", dry ice, hot water, light sticks, and color-changing films are used to show energy transfer by heat. Students also learn how fuel is used to do "useful" work using putt putt steam boats. Different types of fuel for vehicles, fires, and people will be discussed. How sound is produced, described, and heard is also shown. (Fee-Based)

KIDS 1385
Amazing Air and Water Pressure
Grades 4-5
Learn how air occupies space and exerts pressure and learn about water pressure. Learn that air pressure is equal in all directions and decreases the farther we go away from the Earth's surface. Examples of activities include the classic "Egg in the bottle", Hero's fountain, Cartesian divers, and Bernoulli Bags. (Fee-Based)

KIDS 1390
Computer Keyboarding I
Ages 12+
Multimedia software teaches your child the layout of the computer keyboard. Integrated music and puzzle activities make learning the keyboard fun! Enrollment is limited! (Fee-Based)

KIDS 1392
Intermediate Water Polo for Kids
Ages 12-14
This course is open to boys and girls age 12-14 who are at an intermediate playing level. This course will feature instruction in ball handing, shooting, passing and conditioning, and team play. (Fee-Based)

<td>KIDS 1393</td>
<td>Advanced Water Polo for Kids</td>
<td>Ages 14-17</td>
<td>This course open to boys and girls, will focus on water polo techniques, skills, and conditioning with an emphasis on competition. Optional opportunity to participate in competitions for an additional fee for US Water Polo registration. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1394</td>
<td>Computer Keyboarding II</td>
<td>Ages 8+</td>
<td>This class is for students who can already type but wish to improve their speed and accuracy. Be ready for school projects and research papers. Learn keyboarding through writing exercises including poetry and stories. On the last day of class students will share a creation from class. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1398</td>
<td>Computer Keyboarding II</td>
<td>Ages 12+</td>
<td>This class is for students who can already type but wish to improve their speed and accuracy. Be ready for school projects and research papers. Learn keyboarding through writing exercises including poetry and stories. On the last day of class student will share a creation from class. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1400</td>
<td>Creating Memories</td>
<td>Ages 10+</td>
<td>Using the computer and your own photographs from a special event learn how to create a variety of personalized items from storybooks to cards, calendars and more! Bring scannable photos and a USB flash drive or photos uploaded to a USB flash drive to class. Parents have the option of purchasing a variety of personalized items. Information sheet will be provided in class. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1403</td>
<td>Fun with Digital Education for Kids</td>
<td>Ages 5-7</td>
<td>This class uses online education that combines instruction with fun learning games for children creating interactive learning and fun. Learning games can help students concentrate on language arts, math, science, and social studies skills through an entertaining online curriculum. Fun with Digital Education motivates the student and offers a balance between educational activities and online learning games for kids. The students have freedom to explore in a safe and motivating environment. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1405</td>
<td>Internet Zone</td>
<td>Grades 6-8</td>
<td>When you search for information on the Internet, you are on the World Wide Web (a very large and complex Web of information). In this course, we will explore websites to help you succeed in school, explore your interests, and create your own projects. We will also discuss Internet safety. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1408</td>
<td>Microsoft Word, PowerPoint &amp; Excel for Kids</td>
<td>Ages 9+</td>
<td>This course is for students who know the basics in at least one of the Microsoft applications. Students will learn how Word, PowerPoint and Excel can be used in school projects (reports, presentations) and for personal use (digital scrapbooking, fun signs, presentations and money management spreadsheets). <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1410</td>
<td>Guitar for Kids - Songs of the Disney Channel</td>
<td>Ages 9+</td>
<td>Learn to play and sing all the coolest Disney Channel songs of High School Musical, Hannah Montana and the Jonas Brothers. Bring acoustic guitar and medium pick, get ready to rock and become a STAR! Recommended for students who have completed a beginning level guitar class. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1413</td>
<td>Guitar for Kids - Songs of Guitar Hero</td>
<td>Ages 9+</td>
<td>You've mastered the game console - now learn songs from &quot;Guitar Hero III&quot; and &quot;World Tour&quot; on a real guitar! Bring medium pick and acoustic or electric guitar - and get ready to ROCK THE STAGE! Recommended for students who have completed a beginning level guitar class. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1415</td>
<td>Singing is Fun</td>
<td>Ages 6-10</td>
<td>Introduces basic skills for singing in a group ensemble/or choir for young voices. Techniques for breath control, diction, posture will be taught with an emphasis on self confidence and fun! Musical Theatre/Children's theme repertoire. Music/Lyrics included! <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1417</td>
<td>Creating a Keepsake Book</td>
<td>Ages 11+</td>
<td>Do you have photographs of a special event like a dance recital or sporting event you would like to have in a keepsake book? Then this class is for you. In the computer lab learn how to upload pictures and artwork in a digital format to create a personal storybook. Select a theme and bring photos to class in a digital format. Tuition includes fee for a 5x7 hardbound book that will be mailed to your home. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1420</td>
<td>Word Wizard (Reading &amp; Writing)</td>
<td>Grades 2-3</td>
<td>This course will provide review and practice activities to build student understanding of basic word structures and strategies that strengthen reading, writing, and spelling skills. Students will create a personal Word Wizard Strategies Chart to use as a reinforcement tool for ongoing success. Class size is limited. <em>(Fee-Based)</em></td>
</tr>
<tr>
<td>KIDS 1425</td>
<td>Go Green</td>
<td>Grades 3-6</td>
<td>Everyone is talking about how we all need to GO GREEN. But, what does that really mean? In this course, you will understand what it means and create a plan on how YOU can go green every day. We will also have fun with recyclable crafts and renewable energy projects. Class size is limited. <em>(Fee-Based)</em></td>
</tr>

KIDS 1427
Tutorial: Probability and Statistics
Grades 7-8
This course is designed for middle school students to learn the basics of probability and statistics. Topics include probability of dependent or independent events, the counting principles, permutations, combinations, and graphing data. Class is limited to 8 students. (Fee-Based)

KIDS 1430
Shockingly Fun Electronics
Grades 4-6
Using hands-on demonstrations with manipulatives, learn about electronics and electrical circuits. Experience how series and parallel circuits are made and useful things that electricity and circuits do. Conductors and insulators are demonstrated. Electrospheres and lumin disks are used to demonstrate the concept of electricity. Learn how electricity is "measured". Learn how energy from the sun can be turned into electricity. (Fee-Based)

KIDS 1433
Spanish Fun for Mommy, Daddy and Me
Ages 3-4
Parent and child learn Spanish through songs, dancing and games. Introduction to greetings, colors, numbers and body parts. All in a fun way. (Fee-Based)

KIDS 1435
Can U Dig It? Volleyball Camp for Beginners
Ages 8-16
This class is geared toward the beginner level youth who is interested in learning the basic fundamentals of volleyball. Conditioning, as well as drills that focus on the necessary skills to play the game, will be introduced. Students should wear tennis shoes and bring a small towel and water to class. Knee pads are optional. (Fee-Based)

KIDS 1438
Can U Dig It? Volleyball Camp for Beginners
Ages 14-16
This class is geared toward the beginner level youth who is interested in learning the basic fundamentals of volleyball. Conditioning, as well as drills that focus on the necessary skills to play the game, will be introduced. Students should wear tennis shoes and bring a small towel and water to class. Knee pads are optional. (Fee-Based)

KIDS 1440
Calligraphy Camp
Grades K-2
Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarks, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. (Fee-Based)

KIDS 1443
Calligraphy Camp
Grades 3-6
Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarks, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today’s tools. (Fee-Based)

KIDS 1445
Calligraphy Camp
Grades 7+
Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarks, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. (Fee-Based)

KIDS 1448
Writer’s Workshop Camp
Grades 2-3
In Writer’s Workshop, students engage in a supportive environment to review the essential organizing steps of the writing process. Through a series of mini-lessons, students practice pre-writing using brainstorming and graphic organizers, writing a first draft (slippery copy), revising and editing strategies, and publishing and illustrating final drafts. Class size limited to 12. (Fee-Based)

KIDS 1450
Reader’s Theater Camp
Grades 2-3
Reading from story scripts, students learn to hear and play with language while exercising their mind, emotions, and tongues together. In a relaxed, fun, and cooperative atmosphere, students practice vital Language Arts skills and abilities; oral reading fluency and expression, listening, and understanding literary elements such as motivation and characterization. Class size limited to 12. (Fee-Based)

KIDS 1452
Reading, Writing, Spelling and Math Adventure Camp
Grades 2-3
This class will reinforce reading, writing, spelling and math skills for 2nd and 3rd grade students. In a fun-filled environment the students will learn to write stories, play games and learn skills to enhance their spelling abilities. Math activities will include a variety of games and activities. (Fee-Based)

KIDS 1455
Calligraphy
Grades K-2
Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarks, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. (Fee-Based)

KIDS 1457
Calligraphy
Grades 3-6
Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarks, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. (Fee-Based)
KIDS 1459
Calligraphy
Grades 7+
Learn to write beautifully while having fun! Learn about ancient alphabets and the secrets that past scribes (hand written) had that can make your writing special today. We will make bookmarks, magnets, thank-you and holiday cards and more! Impress your friends, teachers, mom and dad too! It's easy with today's tools. *(Fee-Based)*

KIDS 1461
Calligraphy II
Grades 1-3
Learn more about writing with Chancery style! Have fun practicing a whole new alphabet and make some beautiful art/craft projects (ornamental capitals, gift bags, birthday cards and more!) Learn more about calligraphy and graphic art tools that add gold, silver and glitter to your work (the ancients called it illumination). Inspire your student to write more beautifully! *(Fee-Based)*

KIDS 1463
Calligraphy II
Grades 3-6
Learn more about writing with Chancery style! Have fun practicing a whole new alphabet and make some beautiful art/craft projects (ornamental capitals, gift bags, birthday cards and more!) Learn more about calligraphy and graphic art tools that add gold, silver and glitter to your work (the ancients called it illumination). Inspire your student to write more beautifully! *(Fee-Based)*

KIDS 1465
Fashion Illustration Camp
Ages 12+
Calling all aspiring fashion illustrators. In this class you will complete a fashion figure with collars, blouses, skirts, pants, and hats. Learn to draw proportional figures and faces, as well as gesture drawings. Fashion figures will be created using watercolors, colored pencils, markers, and pens. Illustrate different textures of fabrics. Also create accessory and shoe illustrations and flats of garments. Special supplies required, pick up list in office. *(Fee-Based)*

KIDS 1470
Window into the World of Magic
Ages 9+
Learn about the history of magic and famous magicians. See magic, memorabilia and magic books. Share the mystery of magic and learn tricks and terms of the trade. Work on developing your own magic show to amuse and amaze others. Enjoy the magic hobby. *(Fee-Based)*

KIDS 1475
Getting Ready for Third Grade
Summer is very long! Keep your child at the top of the class and ready for fall. This camp will review Common Core 2nd grade skills including reading, math, and writing through learning centers and fun activities. Students will also be introduced to beginning 3rd grade skills using the Common Core standards. *(Fee-Based)*

KIDS 1480
Beginning Group Guitar 1
Ages 8-9
Students will learn the basics of rhythm, note reading, tablature reading and some chords. Technical exercises will be introduced to help develop control of the instrument. Students should bring an Acoustic Guitar (nylon string preferred) to class each week. Enrollment limited to eight students. Hal Leonard Guitar Method Book I required. *(Fee-Based)*

KIDS 1481
Beginning Group Guitar 1
Ages 10-13
Students will learn the basics of rhythm, note reading, tablature reading and some chords. Technical exercises will be introduced to help develop control of the instrument. Students should bring an Acoustic Guitar (nylon string preferred) to class each week. Class size limited to eight students. Hal Leonard Guitar Method Book I. *(Fee-Based)*

KIDS 1482
Beginning Group Guitar 2
Ages 14-17
Students will elaborate further on the basics of rhythm, note reading, tablature reading and some chords. Intermediate Technical exercises will be introduced to further help develop control of the instrument. Students should bring a Acoustic guitar (nylon string preferred) to class each week. Class size limited to eight students. Hal Leonard Guitar Method Book I. *(Fee-Based)*

KIDS 1483
Beginning Group Guitar 2
Ages 8-9
Students will elaborate further on the basics of rhythm, note reading, tablature reading and some chords. Intermediate Technical exercises will be introduced to further help develop control of the instrument. Students should bring a Acoustic guitar (nylon string preferred) to class each week. Class size limited to eight students. Hal Leonard Guitar Method Book I required. *(Fee-Based)*
KIDS 1490
Sounds Funtastic
Grades 2-4
Experience concepts of how sounds are made and learn about pitch and tones. Experiment with groan tubes, talkie tapes, boomwhackers, and springs to understand how sounds originate and travel from vibrating objects to our ears. Learn which materials transmit sounds and which do not. (Fee-Based)

KIDS 1493
Layers of the Ocean and the Creatures that Live in the Ocean
Grades 1-3
Learn the layers of our oceans and the creatures living in the ocean (sharks, whales, dolphins, electric eels, jelly fish, bioluminous fish, oceanographers and more). We will use plastic creatures of the sea to create a large display of the ocean, explore books, play games and learn about ocean wonders. (Fee-Based)

KIDS 1495
Layers of the Ocean and the Creatures that Live in the Ocean
Grades 4-6
Learn the layers of our oceans and the creatures living in the ocean (sharks, whales, dolphins, electric eels, jelly fish, bioluminous fish, oceanographers and more). We will use plastic creatures of the sea to create a large display of the ocean, explore books, play games and learn about ocean wonders. (Fee-Based)

KIDS 1500
"Junior Idol" Summer Camp
Ages 9-12
Will you be the next "Junior Idol"? Perfect your art in this informative and fun summer camp. Refine your presentation both vocally and choreographically. The week will culminate in an opportunity to perform before our panel of judges as well as family and friends. Students should bring music in CD form for the song you wish to perform. (Fee-Based)

KIDS 1503
"Junior Idol" Summer Camp
Ages 13+
Will you be the next “Junior Idol”? Perfect your art in this informative and fun summer camp. Refine your presentation both vocally and choreographically. The week will culminate in an opportunity to perform before our panel of judges as well as family and friends. Students should bring music in CD form for the song you wish to perform. (Fee-Based)

KIDS 1505
Dance Like the Stars Camp
Ages 13+
Come have fun and experience the ballroom dancing craze. This class will cover four basic styles of dance: Swing, Fox-Trot, Waltz and Cha Cha. Students should wear comfortable closed toe shoes. (Fee-Based)

KIDS 1510
Baking Basics!
Ages 8-11
Have fun learning the basics of baking. Register for a single class or the entire series. Students will learn about and use basic kitchen tools. Safety, cleanliness and working with others will be emphasized. Bring an apron to class and a towel for clean-up and a container for leftovers. Check if there are additional supplies required each week. (Fee-Based)

KIDS 1512
Baking Basics!
Ages 12+
Have fun learning the basics of baking. Register for a single class or the entire series. Students will learn about and use basic kitchen tools. Safety, cleanliness and working with others will be emphasized. Bring an apron to class and a towel for clean-up and a container for leftovers. Check if there are additional supplies required. (Fee-Based)

KIDS 1515
Public Speaking for Children
Ages 8-12
Learn the skills to confidently present a book report or a speech in front of class. Gain the skills to plan, write and give a book report or a planned speech. Learn tips to combat stage fright, project your voice, and be comfortable in front of a group. (Fee-Based)

KIDS 1520
AP Biology Prep
Grade 9+
Nervous? Excited? Wondering what to expect in AP Biology? If you will be taking Advanced Placement Biology in the Fall, then this Camp is for you! We will cover many concepts critical in succeeding in AP Biology. You will complete some of the same labs that occur in a real AP Biology class. You will also learn how to enhance your test taking skills and have fun doing so. (Fee-Based)

KIDS 1525
AVID Enrichment - Social Science Focus
Grades 7+
The primary focus of the Advancement via Individual Determination (AVID) Enrichment program with Social Science Focus is to allow students the opportunity to study in-depth a variety of the best thinkers, scientists, artists and explorers whose work has greatly effected the course of human history. (Fee-Based)

KIDS 1530
Pee Wee Soccer Beginning High
Ages 4-6
This course is designed to continue teaching the soccer skills like simple shoelace kicking, trapping and receiving. A variety of soccer games will be used to help the students become confident kicking and passing the soccer ball. Bring a # 4 Soccer Ball to class. (Fee-Based)

KIDS 1533
Pee Wee Soccer Intermediate Low
Ages 6-8
This course is designed to teach and or improve kicking techniques for continuing and new students. Children will learn kicking the ball with the inside of the foot, shoelace, and exterior foot. Ball control and team work will be developed through a variety of soccer games. (Fee-Based)
KIDS 1535
Pee Wee Soccer Intermediate High
Ages 6-8
A combination of games will be used to continue improving the technical and tactical soccer skills. How to kick with different parts of the foot, to trap and receive the ball, to dribble with the shoelace, inside/outside the foot and to do a simple juggle will be the primary focus. (Fee-Based)

KIDS 1540
Parent and Me Swimming
6 month to Age 4
This course is intended to introduce pool water to our young students. Each student must be supervised by a parent or guardian who will be instructed in the water by our swim staff instructor. The same parent or guardian must attend each week. Skills introduced at this level are: back crawl safety, bubble blowing, submerged face, front supported kicking, supported back floating, underwater exploration and arm reaching to the side of the pool. (Fee-Based)

KIDS 1545
Summer Swim
Ages 5-17
The Summer Swim Program is designed for students ages 5-17. Primary emphasis will be on the safety of students and staff while creating a fun learning atmosphere. Students will be evaluated on the first day of class and placed in a class for their age and appropriate skill level. Pool safety, student and parent/guardian responsibility is introduced on the first day of instruction. Levels of swim included in these classes will be: Beginner, Advanced Beginner, Intermediate Swimmer and Swimmer. (Fee-Based)

KIDS 1550
Beginning Water Polo
Ages 7+
Water polo is a fun game for both girls and boys. Students will learn the basic skills and rules of the game and team work. Water polo is a team game that includes swimming, passing and shooting, team offensive and defensive strategy. (Fee-Based)

KIDS 1555
Junior Life Guards
Ages 11-14
The Junior Guard Program is a Red Cross approved program. Give your youth a jump start into a Lifeguarding job. Completion of this course sets a foundation for life guarding and life skills. Students will focus on improving swim strength, endurance, and prevention of aquatic accidents, response in an emergency, leadership skills and professionalism of a life guard. (Fee-Based)

KIDS 1560
Pre-Competitive Swim
This class is designed to train and fine tune all competitive swim strokes, turns and competitive racing starts off the starting blocks, increase endurance and strength. With the completion of this course the student will master the skills needed to compete on a swim team. Students must have completed the intermediate swim level to register for this class. (Fee-Based)

KIDS 1565
Beginning Spring Board Diving
Skills presented in this class: land drills on frontal three step approach, three step approaches on spring board, front dive, back dive and pool and diving safety. Students must have completed the advanced beginning swim level to register for this class. (Fee-Based)

KIDS 1567
Jammin' Chemistry Camp I
Grades 3-5
This Camp will explore the density of solids, liquids, and gases in extended activities. The definition and magic of density will be explained with demonstrations and hand-on projects. (Fee-Based)

KIDS 1569
Jammin' Chemistry Camp II
Grades 3 - 5
Introduces properties of solids, liquids, and gases as they react to produce different materials. Experiment with physical change where materials dissolve in other liquids. Experience chemical change with demonstrations and hand-on projects. (Fee-Based)

KIDS 1570
Directive Drawing of Animals for the Beginning Artist Camp
Ages 4-10
Become a more confident artist by learning drawing skills through step by step instructions. The basic elements of art, with the practice of following directions will produce a higher quality product. Supplies provided. (Fee-Based)

KIDS 1572
Draw and Paint Animals
Ages 8+
Students will learn how to draw and paint different animals using various art materials such as oil pastels, watercolors, colored pencils, markers and crayons to capture textures of animals. (Fee-Based)

KIDS 1575
Sing What's on Your I-Pod
Ages 13-17
This is a performance based class where students explore what they already love...singing music that is on their I-Pods. Through group instruction and guidance, they will learn the art of performance in front of their peers. Class time will be spent learning technique for singing and performing their favorite songs with karaoke accompaniment from the internet. A learning environment that is supportive and encouraging will be modeled and expected. Performance in last class. (Fee-Based)

KIDS 1600
Basic Hand Sewing for Kids
Grades 4-6
Come learn the basic tools and techniques in hand sewing! Great skills needed for everyone! Boys are welcome. We will complete three projects utilizing skills from threading a needle to completing a project with embellishments. Supply sheet available the first day of class. (Fee-Based)
KIDS 1602
**Basic Hand Sewing for Kids**
Grades 6-8
Come learn the basic tools and techniques in hand sewing! Great skills needed for everyone! Boys are welcome. We will complete three projects utilizing skills from threading a needle to completing a project with embellishments. Supply sheet available the first day of class. *(Fee-Based)*

KIDS 1605
**Art from Around the World**
Ages 8+
Come join our adventure as we explore art from around the world! We will create fun and unique art with influences from Mexico, Africa, Europe, Asia and the Mediterranean. Learn how to do paper mache, mosaics, painting and more! Materials will be provided. *(Fee-Based)*

KIDS 1615
**Beginning Band Instruments**
Grades 5-8
Beginning Instruments class is open to anyone wanting to learn to play a wind or percussion instrument. No experience necessary. Learn proper care, sound production and music reading. A concert will be presented on the last day of class. *(Fee-Based)*

KIDS 1620
**Introduction to Computer Animation**
Grades 5-8
Girls and Boys...It's time to be creative and have fun! In this course, you will learn basic computer programming as you design animations. Whether you know a lot or a little about computers, you will enjoy this course! All students must bring a flash drive, notebook and pencil to each class. *(Fee-Based)*

KIDS 1625
**Introduction to Computer Animation**
Grades 2-4
Girls and Boys...It's time to be creative and have fun! In this course, you will learn basic computer programming as you design animations. Whether you know a lot or a little about computers, you will enjoy this course! *(Fee-Based)*

KIDS 1627
**Computer Game Design**
Grades 5-8
This course will allow students to design their own computer game. Students will learn, in depth, how to use variables, conditional statements and other controls to create a game that accepts user input and presents a challenge. This class is for those who have completed the "Introduction to Computer Animation & Games" or "Introduction to Computer Animation." *(Fee-Based)*

KIDS 1630
**Games Galore - From the Past for Friends and Family Fun**
Grades 1-3
Students will learn about and play games from all different times in American History. *(Fee-Based)*

KIDS 1632
**Games Galore - From the Past for Friends and Family Fun**
Grades 4+
Students will learn about and play games from all different times in American History. *(Fee-Based)*

KIDS 1635
**Let's Learn Music**
Ages 7-11
Group instruction in the basics of music theory. Students will learn notes and recognize musical terminology through the use of games, puzzles, and rhythm instruments. Students will be introduced to sight reading skills. *(Fee-Based)*

KIDS 1640
**Awesome Air and Water Pressure**
Grades 3-6
In a series of hands-on experiments students learn that air occupies space and exerts pressure. Air pressure is exerted equally in all directions and air pressure decreases the farther we go from the Earth's surface. Kids also learn that air pressure can be used to tell how far from the Earth's surface an airplane is. Examples of activities include the classic "Egg in the bottle" trick, Hero's fountain, Cartesian divers, and the Bernoulli Bag. *(Fee-Based)*

KIDS 1645
**Artsy T-shirts**
Ages 12+
Let's make some fun, funky, and unique T-shirts! Learn how to use fabric paint, fabric pastels, fabric markers and silk screen. Bring your own T-shirt to decorate. *(Fee-Based)*

KIDS 1650
**Water Soluble Oil Painting**
Ages 10-13
In this fun class, students will learn color mixing, color value, still life, abstract art, landscape, and portrait painting using water soluble oil paints. Please wear an old T-shirt, apron, or smock. *(Fee-Based)*

KIDS 1657
**Exploring My World Through Science: Parent and Me**
Ages 3-4
Naturally, children love to explore, observe and play with the world around them. In this class, parents and their children will engage in songs, dance, storytelling, hands-on play and crafts that emphasize science concepts such as: the five senses, mixing colors, caring for nature, recycling, gravity, solids and liquids. Each class, children will leave with crafts to take home and further enhance the learning. *(Fee-Based)*

KIDS 1658
**Exploring My World Through Math & Science**
Ages 3-4
Naturally, children love to explore, observe and play with the world around them. In this class, parents and child will engage in songs, dance, storytelling, hands-on play and crafts that emphasize science and math concepts. Topics covered will include the five senses, caring for nature, mixing colors, gravity, solids, liquids, shapes, numbers, counting, matching, sorting and patterns. *(Fee-Based)*

KIDS 1659
**Exploring My World Through Math: Parent and Me**
Ages 3-4
Naturally, children love to explore, observe and play with the world around them. In this class, parents and their children will engage in songs, dance, storytelling, hands-on play and crafts that emphasize math concepts such as: shapes, numbers, counting, matching, sorting and patterns. Each class, children will leave with crafts to take home and further enhance the learning. *(Fee-Based)*
KIDS 1670  
*Art Experiences for Children*  
Ages 4-10  
This class encourages small muscle development, independence, creativity and fun! The "process not product" is emphasized. All artistic endeavors have merit. All artists are unique. Each session has different materials. Please have children wear old clothes. No supplies needed. *(Fee-Based)*

**KIDS 1680**  
*Digital Art for Kids*  
Grades 4-8  
Learn easy techniques for creating digital art using the computer. The course will cover digital painting, drawing cartoons with basic shapes, and turning photographs into art. This class is a fun way for students to improve their concentration and technology skills for Smarter Balance testing. USBC flash drive required. *(Fee-Based)*

**KIDS 1685**  
*Youth Ballet*  
Ages 11+  
This class is designed with the pre-teen/teen age dancer in mind. Class will focus on barre, center and across the floor work found in a traditional ballet class. Proper use of ballet vocabulary and technique is emphasized. Students will perform a short dance at the end of the Fall, Winter and Spring sessions only. Ballet slippers are required. *(Fee-Based)*

**KIDS 1690**  
*Grammar For Success*  
Grades 7-10  
This class will review parts of speech, sentence structures, noun-verb agreement, prepositional phrases, and clauses. It will then move into more complex grammatical structures, such as participles, gerunds and infinitives. A strong foundation in grammar enhances a student's ability to write and speak effectively. *(Fee-Based)*

**KIDS 1700**  
*Tutorial: Geometry I - The Basics*  
Grades 7+  
Topics covered in this introductory course are: patterns and inductive reasoning; points, lines, and planes; segments/angles and their measures/bisectors; and angle-pair relationships. *(Fee-Based)*

**KIDS 1702**  
*Tutorial: Geometry II - Reasoning and Proof*  
Grades 7+  
The Geometry II is about logic, reasoning, and developing proofs. Students will learn to structure two-column proofs and prove segment/angle relationships. *(Fee-Based)*

**KIDS 1704**  
*Tutorial: Geometry III - Perpendicular and Parallel Lines*  
Grades 7+  
Geometry III is studying properties of parallel and perpendicular lines. Also, students will learn ways to prove how lines are parallel and forming equations with given situations. *(Fee-Based)*

**KIDS 1706**  
*Tutorial: Geometry IV - Triangles*  
Grades 7+  
Geometry IV will cover a triangle in depth. Topics include congruence, classifying triangles, coordinate proof, perpendiculars and bisectors, medians and altitudes, midsegment theorem, and inequalities. *(Fee-Based)*

**KIDS 1708**  
*Tutorial: Geometry VI - Circles & Polygons*  
Grades 7+  
This course will discuss properties of circles and polygons. Circle topics include area, circumference, and applying arcs, angles, and segments. Topics in polygons include finding area and angle measures. Class is limited to 8 students. *(Fee-Based)*

**KIDS 1710**  
*Drama for Imagination*  
Ages 3-4  
Discover marvelous journeys in a creative drama workshop designed to increase the imagination of boys and girls. Children will explore and analyze life characters. A fantasy world will be created and enacted. Do not miss this magical moment of make believe, learning and having fun. Each session is new and offers creative dramatic play. Family and friends are invited for the final "play-let". *(Fee-Based)*

**KIDS 1712**  
*Drama for Imagination*  
Ages 5-6  
Discover marvelous journeys in a creative drama workshop designed to increase the imagination of boys and girls. Children will explore and analyze life characters. A fantasy world will be created and enacted. Do not miss this magical moment of make believe, learning and having fun. Each session is new and offers creative dramatic play. Family and friends are invited for the final "play-let". *(Fee-Based)*

**KIDS 1715**  
*Multi-Cultural Dance & Music for Parent and Child*  
Ages 6-18 months  
Each week students will explore basic dance movements with music from a different perspective. They are encouraged to use their vocals to create sounds and their body to create movement. We will be exploring multi-cultural music and dance from around the world. Emphasis is on movement, rhythm, beats and having fun. Family and friends are invited for the final creative dance. *(Fee-Based)*

**KIDS 1717**  
*Multi-Cultural Dance & Music*  
Ages 2-4  
Each week students will explore basic dance movements with music from a different perspective. They are encouraged to use their vocals to create sounds and their body to create movement. We will be exploring multi-cultural music and dance from around the world. Emphasis is on movement, rhythm, beats and having fun. Family and friends are invited for the final creative dance. *(Fee-Based)*
KIDS 1720
Puppetry & Storytelling
Ages 3-4
Discover the benefits of using puppets to enhance storytelling. Students will be introduced to basic puppet making and movements. This workshop encourages students to create and express their thoughts and emotions effectively. Family and friends are invited to final demonstration prepared by students. (Fee-Based)

KIDS 1722
Puppetry & Storytelling
Ages 5-6
Discover the benefits of using puppets to enhance storytelling. Students will be introduced to basic puppet making and movements. This workshop encourages students to create and express their thoughts and emotions effectively. Family and friends are invited to final demonstration prepared by students (Fee-Based)

KIDS 1725
Tutorial: Algebra 2 - Conic Sections
Grades 8+
This section of Algebra II covers the conic sections (parabolas, circles, ellipses, and hyperbolas). Students will learn how to use the quadratic formula and complete the square. Class is limited to 8 students. (Fee-Based)

KIDS 1727
Tutorial: Algebra 2 - Matrices and Determinants
Grades 8+
This course focuses on solving systems of equations with various methods. Topics include elimination/substitution method, matrix operations/properties, and finding determinants. (Fee-Based)

KIDS 1730
Photoshop for Teens Camp
Grades 9-12
Have fun creating the coolest images using Photoshop Elements. Learn to use simple layering, masking, and filtering tools to combine multiple photos to create images that will wow your friends. Student must bring a USB flash drive to every class meeting. Several projects will be completed in class and students will take home one mounted print of their work. (Fee-Based)

KIDS 1735
Guitar for Kids - Intermediate
Ages 6-8
Continue building on the fun progress of the beginning class with more chords, strumming, melodies and singing. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. Parents, please accompany children to class. (Fee-Based)

KIDS 1740
Comic Strip Adventures with Photoshop
Grades 4 - 8
In this class you will learn the art of making comic strips using Photoshop. You’re adventure begins as you dive into the process of creating your very own strip using storyboarding and scriptwriting techniques. Students have the option of purchasing a keepsake class comic book. (Fee-Based)

KIDS 1745
Improve Your Math Skills (Math Saturdays)
Grades 7-8
This FREE course will cover a variety of math topics covered in grades 7 & 8. Topics presented may include fractions, decimals, exponents, variables, order of operation, graphing, square roots, rational numbers, solving equations, Pythagorean Theorem, mathematical reasoning. Class may be repeated. Students may bring in homework examples. This class will prepare students for higher levels of math. (Fee-Based)

KIDS 1750
Improve Your Math Skills (Math Saturdays)
Grades 9-10
This FREE course will cover a variety of foundational math topics taught in Grades 9 & 10. Math concepts will be reviewed and new concepts introduced to help prepare students for higher levels of math. Class may be repeated. Students may bring in homework examples. Topics presented may include solving equations and finding values, probability, statistics, translating the problem into equations with variables, graphing and more. (Fee-Based)

KIDS 1755
Guitar for Kids- Advanced
Ages 9+
Welcome to advanced guitar. Have fun and learn the blues, barre chords, scales, and new patterns of strumming and picking familiar chords. All the while, learn modern songs from your favorite bands. (Fee-Based)

KIDS 1760
Fun with Multiplication Facts
Grades 3+
Are you struggling to remember the multiplication tables? In this class students will participate in activities and games to learn and practice multiplication facts. Class size limited. (Fee-Based)

KIDS 1769
Beginner Swimming
Ages 5-10
This class is for students learning to swim. Skills that must be mastered at this level to advance include: holding breath for 10 seconds, prone float, back float, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide, back glide with a kick, turn over, deep water jump, front dive level off and safety skills. Water safety emphasized. (Fee-Based)

KIDS 1770
Beginner Swimming
Ages 11-17
This class is for students learning to swim. Skills that must be mastered at this level to move to advanced beginner include: holding breath for 10 seconds, prone float, back float, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide, back glide with a kick, turn over, deep water jump, front dive level off and safety skills. Water safety emphasized. (Fee-Based)
**KIDS 1771**
**Beginner Swimming**
*Ages 12-17*
This class is for students learning to swim. Skills that must be mastered at this level to move to advanced include: holding breath for 10 seconds, prone float, back float, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide, back glide with a kick, turn over, deep water jump, front dive, level off and safety skills. Water safety emphasized. (*Fee-Based*)

**KIDS 1772**
**Advanced Beginner Swim**
*Ages 5-17*
The class is for students who successfully completed the Beginner requirements. This includes holding breath for 10 seconds, prone and back floats, prone glide, prone glide with flutter kick, front crawl arm stroke with rhythmic breathing, back glide with kick, turn over, deep water jump, front dive level off and safety skills. Students taught survival float, treading water, backstroke, front dive and underwater swimming. Water safety emphasized. (*Fee-Based*)

**KIDS 1774**
**Intermediate Swimmer**
*Ages 5-17*
This class is for students who have completed class requirements for the beginner swimming level. Students will learn the scissor kick, front crawl for 20 yards with rhythmic breathing, 5 minute survival float, 1 minute treading water, 10 yards of sculling, 20 yards of backstroke, elementary backstroke, breaststroke and sidestroke, and 100 yards of any taught stroke. Water safety rules emphasized. (*Fee-Based*)

**KIDS 1776**
**Swimmer**
*Ages 5-17*
This class is for students who have completed class requirements for the beginner and intermediate swimming level. To pass this level students must be able to swim 100 yards of the front crawl, elementary backstroke, side stroke, and back stroke, 50 yards of the butterfly stroke, 25 yards of the butterfly pull, 25 yards of dolphin kick, front surface dive, front and back turns, survival float with clothes and water disrobing. Water safety will be emphasized. (*Fee-Based*)

**KIDS 1778**
**Open Swim Lab/Lap Swim**
*Ages 8+*
This class provides an opportunity for students to improve their swimming skills. Water safety will be emphasized. Lanes will be available for lap swimming. (*Fee-Based*)

**KIDS 1790**
**LEGO Robotics Camp**
*Ages 8-12*
This course introduces student to the concepts of da Vinci robotics using LEGO products to design, build and operate a robot. (*Fee-Based*)

**KIDS 1791**
**LEGO Robotics Camp**
*Ages 13 - 17*
This course introduces student to the concepts of da Vinci robotics using LEGO products to design, build and operate a robot. (*Fee-Based*)

**KIDS 1795**
**Engineering of Aerospace Camp**
*Ages 13-17*
This course introduces students to the concepts of aerospace design and production that includes design and building of airplanes (both jet and propeller), rockets, space vehicles, hot air balloons, helicopters and other mechanical flying machines. (*Fee-Based*)

**KIDS 1797**
**Engineering of Cities Camp**
*Ages 13 -17*
This course introduces students to the concepts of civil engineering and production that includes design and building of tunnels, bridges, buildings and skyscrapers. (*Fee-Based*)

**KIDS 1799**
**Animation Flix Camp**
*Ages 7 - 13*
This course allows students to brainstorm movie ideas, create their own characters made from clay, glass stones, and other media, and film a stop action movie using a green screen backdrop. Students will develop a brief movie plot, create their sets, film their movie and add voice-overs. All Flix are available for download a month after the course ends. (*Fee-Based*)

**KIDS 1800**
**Math Prep for 4th Grade**
This course provides preparation for 4th Grade by reviewing the Key concepts from 3rd Grade Math Standards: Place Value, Addition and Subtraction with Regrouping (2 and 3 digits), Multiplication and Division Facts (Tables), Multiplying by Two-Digit Numbers, Dividing with Remainders, Knowing Relation and Comparison Symbols, Estimating and Rounding, Identifying Fractions, Identifying Simple Patterns, Solving Word Problems, Interpreting and Creating Bar Graphs, Sequencing of Events, Elapsed Time and Telling Time in 5 Minute Intervals, Counting Mixed Amounts of Money, and Measurement using Standard Units. Class size is limited. (*Fee-Based*)

**KIDS 1805**
**Comprehensive Geometry**
*Grades 8+*
Geometry includes concepts such as points, lines, planes, and angles. This course focuses on reasoning and logic, which are essential building blocks for geometric proofs. Students will learn about logical reasoning, parallel lines, congruent triangles, and properties of quadrilaterals. This class is for students who have completed Algebra I. There will be assignments and quizzes! (*Fee-Based*)

**KIDS 1810**
**SAT Reasoning Test - Math Section**
*Grades 9+*
This course will prepare students for the SAT Reasoning Test Math section. Specific test-taking strategies will be given as well as academic instruction. Topics covered will include test structure, number and operations, geometry, algebra and functions, and data analysis. Students will emerge completely prepared to take the math portion of the SAT. Practice tests will be given. (*Fee-Based*)
KIDS 1815  
**Sea Animal Adventures**  
Grades 1-2  
Come explore under the sea. Children will learn fascinating facts about a different sea animal each day including sharks, whales and octopus. Children will also complete a daily hands-on art project to bring home. *(Fee-Based)*

KIDS 1820  
**Know Your World: Maps and Geography**  
Grades 3-5  
Learn interesting facts about our country and world. Make your own maps. Discover where you can find the highest and lowest places in the United States and the World. *(Fee-Based)*

KIDS 1825  
**Designing with Science**  
Grades 4-6  
Students will be given challenges to design and build prototypes (such as a toy ball launcher) using simple materials. Students will learn about the design process and the science behind their designs. They will also enhance collaboration and presentation skills as they work in teams and present their designs. *(Fee-Based)*

KIDS 1830  
**Hands-On Biology**  
Grades 6-9  
In this class, you will learn and explore basic biology concepts through fun, hands-on activities and labs, such as finding the calories in your favorite snacks. If you already like biology, you will learn to like it more! If you thought biology was boring, this will change your mind! *(Fee-Based)*

KIDS 1835  
**Tots Tumbling II**  
Ages 3-5  
This course is for the continuing gymnasts who are ready to learn without mom or dad. Gymnasts will learn more advanced gymnastic skills including cartwheels, headstands, handstands, backbends and pullovers on the bar. Students must have a pass certificate from Moms, Pops, and Tots Tumbling. *(Fee-Based)*

KIDS 1840  
**Stop Motion Animation**  
Ages 8-15  
Freshi Stop-Motion Animation is a hands-on immersive experience that gives kids a chance to create an animated film. Young students decide how they will create their character (construction paper cut outs, Lego Figures, Action figures, etc.) and then imagine, plan, shoot and edit their own films. *(Fee-Based)*

KIDS 1842  
**Digital Video Game Design**  
Ages 8-15  
This is a hands-on immersive program that allows kids to develop, design, debug and distribute their own 2-D games. Using special software, students create their own game without having to learn actual programming. They can also put their own music, video, animations and photos into their games with a simple click. *(Fee-Based)*

KIDS 1844  
**Digital Film Making**  
Ages 8-15  
FRESHi Film Camp is a hands-on introduction to digital film making. You are front and center as the film maker. Gain experience in all aspects of production: including writing, shooting, scoring, editing and screening your own film. Work in small groups and experience all aspects of production. Under the guidance of professional film makers, you will pitch, plan, shoot, edit, screen, score and even copyright your movies! Learn to tell your own stories and share them with the world. *(Fee-Based)*

KIDS 1846  
**Digital Music Mixing**  
Ages 8-15  
Children will use professional music mixers and software to create their own music. Song structure, editing and mastering techniques are all taught. Children learn different beat methods, how to add instruments and vocal tracks and how to structure lyrics. Don’t just play tunes. Play your own music. *(Fee-Based)*

KIDS 1848  
**Screenwriting**  
Ages 8-15  
A totally hands-on immersive experience where students work with professional screenwriters to create and write their own short screenplays. Students are introduced to and use “Final Draft” screenplay software. Students can work in groups or individually to write screenplays. *(Fee-Based)*

KIDS 1850  
**Adventures in Web Page Creations**  
Grades 4-6  
Hey kids! Have you ever wanted to create your very own cool website to share with friends and family? Here is your chance to build incredible drag-and-drop web pages using free hosting sites on the internet. You will learn how to add pictures, video, text, game widgets and lots more! *(Fee-Based)*

KIDS 1855  
"**Dog Gone" Good Time**  
Grades 3-6  
Explore the world of dogs. Read and hear stories about famous dogs. Visit with live dogs in training to be GUIDE DOGS. Use dog puppets, stuffed animals and games with dogs. Dog training tips, vocabulary and seeing things from a dog’s eye view. *(Fee-Based)*

KIDS 1860  
**Comics and Superhero Fun**  
Grades 3-6  
Explore the history and origins of superheroes. Participate in a Superman Day, A SPIDERMAN DAY and create scenarios with action figures. Read and act out comics from the early days. Play games with superhero themes, create your own superhero or comic book. Share comic memorabilia. *(Fee-Based)*
KIDS 1870
People From the Past Camp
Grades 4-6
Come join the fun as the instructor portrays a famous person each day bringing activities, media and artifacts from the historic time periods for students to interact. You might experience magic with Harry Houdini, gramophones with Thomas Edison, apples with Johnny Appleseed, painting with Georgia O’Keefe, pan for gold with James Marshall, and more. The personalities went from adversity to achievement. (Choice will be determined by age of group and interests). (Fee-Based)

KIDS 1875
Gymnastics Summer Camp
Ages 4.5-7
Come join us for lots of fun learning gymnastic skills on the bars, beam and floor, as well as crafts, games and the parachute!! All parents and friends are invited to a special end of camp performance starring your little gymnast! Each gymnast will receive a special award! (Fee-Based)

KIDS 1877
Gymnastics Summer Camp
Ages 8-
Come join us for lots of fun learning gymnastics skills on the bars, beam and floor, as well as crafts, games and the parachute!! All parents and friends are invited to a special end of camp performance starring your little gymnast! Each gymnast will receive a special award! (Fee-Based)

KIDS 1880
Nature’s Art
Ages 7-11
Come create pictures of nature with a variety of art materials. Each day a masterpiece will be created and on the last day all will be made into one! All materials provided. (Fee-Based)

KIDS 1885
STEM Summer Camp
Grades 7-11
STEM Summer Camp is a three week enrichment program in which 7-11 graders participate in hand-on activities that promote science, technology, engineering, and math. The Camp also makes students aware on career opportunities in STEM related fields. (Fee-Based)

KIDS 1890
Digital Film Making Camp
Ages 8-15
FRESHi Film Camp is a hands-on introduction to digital film making. You are front and center as the film maker, where you will gain experience in all aspects of production: including writing, shooting, scoring, editing and screening your own film. Work in small groups and through the process, experience all aspects of production. Under the guidance of professional film makers, you will pitch, plan, shoot, edit, screen, score and even copyright your movies! Learn to tell your own stories and share them with the world through FRESHi Films. (Fee-Based)

KIDS 1892
Screenwriting Camp
Ages 8-15
A totally hands-on immersive experience where students work with professional screenwriters to create and write their own short screenplays. Students are introduced to and use “Final Draft” screenplay software. Students can work in groups or individually to write screenplays. (Fee-Based)

KIDS 1894
Digital Video Game Design Camp
Ages 8-15
This is a hands-on immersive program that allows kids to develop, design, debug and distribute their own 2-D games. Using special software, students create their own game without having to learn actual programming. They can also put their own music, video, animations and photos into their games with a simple click. (Fee-Based)

KIDS 1896
Stop Motion Animation Camp
Ages 8-15
FRESHi Stop-Motion Animation is a hands-on immersive experience that gives kids a chance to create an animated film. Young students decide how they will create their character (construction paper cut outs, Lego Figures, Action figures, etc) and then imagine, plan, shoot and edit their own films. (Fee-Based)

KIDS 1898
Digital Music Mixing Camp
Ages 8-15
Children will use professional music mixers and software to create their own music. Song structure, editing and mastering techniques are all taught. Children learn different beat methods, how to add instruments and vocal tracks and mastering techniques are all taught. Children learn different beat methods, how to add instruments and vocal tracks and how to structure lyrics. Don't just play tunes. Play your own music. (Fee-Based)

KIDS 1900
3D Design
Grades: 2-4
Have fun with 3D design in Google SketchUp! You will learn how to use SketchUp to create your very own 3D designs, such as a chair, fish tank, bedroom and much more! Whether you know a lot or a little about computers, you will enjoy this class! (Fee-Based)

KIDS 1903
3D Design
Grades: 5-8
Have fun with 3D design in Google SketchUp! You will learn how to use SketchUp to create your very own 3D designs. You can design your dream house, your own invention, a futuristic city and much more! Whether you know a lot or a little about computers, you will enjoy this class! (Fee-Based)

KIDS 1905
Kids Create and Animate
Grades 2-4
Using a simple, fun, kid-friendly computer programming environment, kids will create their very own animations. They will learn how to make characters walk across the computer screen, make sounds, and much more! (Fee-Based)
KIDS 1910
Coed Summer Sports
Grades 6-8
This is a multi-sport day camp in which students will learn the fundamentals of basketball, soccer, tennis, and volleyball through instruction and practice. Students can improve their knowledge of the games and their coordination. (Fee-Based)

KIDS 1915
Good Fortune Mandarin Chinese Camp
Ages 5+
A great opportunity for children whose first language is not Chinese to immerse in a fun and positive environment to learn about Chinese language, culture and beyond. Children will learn basic Mandarin Chinese concepts, simple sentence patterns and conversations through songs, storytelling, games, role play, movies and other fun activities. (Fee-Based)

KIDS 1920
Introductory Synchronized Swimming
Grades 7-12
Learn the techniques and skills that you need to develop to accomplish synchronized stunts, strokes, and floatation patterns. This is a fun way to advance your swimming knowledge and strength. Learn to do many of the stunts and skills that are used on the olympic synchronized swimming team. (Fee-Based)

KIDS 1925
Practical Crafts: Summer
Grades 7-12
This class will cover practical, seasonal crafts. A different craft skill/item will be offered for each session. For summer, techniques will be taught for a simple quilt that can be used as a table cloth or a picnic spread. Come join the fun and learn a skill that can be used in other fun crafts. Patterns and training fabrics will be provided. (Fee-Based)

KIDS 1930
Introduction to Origami
Ages 7-10
Learn the basics of the art of Origami, the Japanese craft of folding paper. Students will select one item to make in class from a variety of choices. Origami can be used for gift packages and holiday decorations. Instruction sheet and special origami paper will be provided. (Fee-Based)

KIDS 1932
Introduction to Origami
Ages 10-12
Learn the basics of the art of Origami, the Japanese craft of folding paper. Students will select one item to make in class from a variety of choices. Origami can be used for gift packages and holiday decorations. Instruction and special origami paper will be provided. (Fee-Based)

KIDS 1934
Introduction to Origami
Ages 13+
Learn the basics of the art of Origami, the Japanese craft of folding paper. Students will select one item to make in class from a variety of choices. Origami can be used for gift packages and holiday decorations. Instruction sheet and special origami paper will be provided. (Fee-Based)

KIDS 1940
On My Own Survival
Grades 10-12
Various independent living skills will be covered such as budgets, job hunting, cooking, laundry, record keeping and housekeeping. Coed class. Have fun learning everything you wanted to know about how to "make it on your own"! (Fee-Based)

KIDS 1945
Clutter Buster
Grades 3-6
Having trouble finding your stuff???? Learn how to simplify your life and have more time by organizing your room, locker, or work areas. Learn to keep things in order and design "zones" for various activities. Learn skills that you can use for a lifetime! (Fee-Based)

KIDS 1950
Basic Hand Sewing
Grades 4-6
Learn the basic skills and tools of hand sewing. Learn threading a needle, button repairs, hemming and other basic skills. Supply list will be provided. (Fee-Based)

KIDS 1952
Basic Hand Sewing
Grades 7-12
Learn the basic skills and tools of hand sewing. Learn threading a needle, button repairs, hemming and other basic skills. Supply list will be provided. (Fee-Based)

KIDS 1955
Learn To Sew for Fun
Grades 8-12
Learn to make your own clothes! Topics to be covered are pattern and fabric selection, basic sewing machine skills and clothing construction techniques. No sewing skills are required. Call the office for a list of needed supplies. (Fee-Based)

KIDS 1957
Advanced Clothing Construction
Grades 8-12
Learn to make your own clothes! Topics to be covered are pattern and fabric selection, zipper and button hole application, sleeves and finishing. Some good sewing skills are required. Call the office for a list of needed supplies. (Fee-Based)

KIDS 1960
Home Decor: Pillows
Grades 7-12
Learn to make beautiful, decorative pillows (with or without binding) for your home. Why spend $$$'s for pillows that you can easily make yourself. You choose the fabric, basic pattern, fillers and notions, bring it to class, and complete the project here. Take home and enjoy! Supply list provided. (Fee-Based)
KIDS 1963  
**Home Decorating Basics**  
Grades 9-12  
Learn the basics of decorating: style, color, room arrangement, and accessories. You will have opportunity to “design” and “create” a new look for your special space. (Fee-Based)

KIDS 1965  
**Reading for Fun**  
Grades 7-12  
Learn to enjoy reading and getting the most out of a good book. Three book genres: Non-Fiction, Fiction, and Biography will be discussed and explored in class. Learn to write a book report and how to read a book effectively so that it is fun and enriching. Develop reading skills that will help you for a life time! Reading list provided. (Fee-Based)

KIDS 1970  
**You and Me Cooking Class**  
Ages 5-7  
Bring mom, dad, grandparent or special friend to join you as you create special things in the kitchen. Various goodies will be made in each session including cookies, candy, cupcakes, and fruit. Have fun learning and sharing this special time with your child. Bring an apron and a container for left over treats. (Fee-Based)

KIDS 1975  
**Fun with Baking**  
Ages 8-11  
Learn the creativity and basics of baking! Each session will cover one of the following: pies, cookies, quick breads, and cup cakes. Bring an apron, a towel for clean-up and a container for left over goodies! (Fee-Based)

KIDS 1977  
**Fun with Baking**  
Ages 12+  
Learn the creativity and basics of baking! Each session will cover one of the following: pies, cookies, quick breads, and cup cakes. Bring an apron, a towel for clean-up and a container for left over goodies! (Fee-Based)

KIDS 1980  
**Be Big! Become a Best Friend**  
Ages 5-8  
Students will learn the basic elements of working cooperatively with others at home, and in small groups in the community. This course has been designed for students to be able to develop good characteristics and self-empowerment in order to make good decisions. (Fee-Based)

KIDS 1985  
**Making Money**  
Ages 8-12  
Students will explore how money is earned and how it is used in the home, in the community and around the world. (Fee-Based)

KIDS 1990  
**Power Up! Discover Your Talents**  
Ages 8-12  
Students will learn the responsibilities that each person has to share their talents in a community. This course is designed for students to be able to learn how they can discover their talents, build friendships, and share their talents, within their community. (Fee-Based)

KIDS 1995  
**Ready, Set, Lead! Being the Leader**  
Ages 11-12  
Students will learn the art of becoming a leader in the community, at home and at school. This course is designed for students to learn why certain people become leaders and how they can be leaders too. (Fee-Based)

KIDS 2000  
**My First Cooking Class**  
Ages 6-8  
Students will make and serve yummy snacks, and learn how to use different ingredients while being safe in the kitchen. Students will learn about kitchen tools and safety. Students will learn how to use simple ingredients found in the kitchen. Students will learn how to make simple snacks that don’t need to be cooked. Students will learn how to serve and clean up after snacks have been made. (Fee-Based)

KIDS 2005  
**Mommy/Daddy, Music and Me**  
Here’s a great way to have a bonding time with your child filled with lots of fun, musical, interactive activities, including singing, dancing, story telling, and various other circle time activities. This class is designed to help develop musical senses, creativity, cognitive, social, and motor skills. It’s a great way for your infant to explore various senses while having fun! (Fee-Based)

KIDS 2010  
**Music, Dance & Me**  
Ages 3-5  
Children love to engage in music and dance. Here is an opportunity for your child to explore his/her musical senses, dancing moves, rhythm, and other developmental skills in a high energy, fun-filled class. Story telling and other circle time activities will keep your child interested and entertained. Parent participation optional and encouraged for children without pre-school experience. (Fee-Based)

KIDS 2015  
**Introduction to the Martial Arts/Parent & Me**  
Ages 4-7  
Children will be introduced to basic martial arts skills and exercises with an emphasis on class discussion and participation. This practice improves basic coordination, balance and confidence. Martial Arts is a process that develops self-discipline, respect for others and builds character. Watch your child grow while learning skills that last a lifetime. Parents are encouraged to participate in certain elements during class. (Fee-Based)

KIDS 2020  
**Tutorial:Geometry V - Quadrilaterals**  
Grades 7+  
Geometry 5 will cover four-sided figures (parallelograms, squares, rectangles, and rhombuses) in depth. This course will classify special quadrilaterals and how to use their properties. Writing proofs about special quadrilaterals will be emphasized. Students should have completed Algebra I and Geometry Tutorials I and II before enrolling in this class. (Fee-Based)
KIDS 2025
Tutorial: Algebra 2 - Sequences and Series
Grade 8+
This course will emphasize arithmetic and geometric sequences in depth. Topics include finding patterns, writing sequences in generalized form, finding partial sums, and introducing mathematical induction. Students should have completed Algebra I prior to enrolling in this class. (Fee-Based)

KIDS 2027
Tutorial: Algebra II - Functions, Exponents
Grades 8+
and Logarithms This course is designed to study the behavior of functions. Topics will include polynomial functions, finding domain and range, and study relationship/properties between exponents/logarithms. Knowledge of Algebra I. Class is limited to 8 students. (Fee-Based)

KIDS 2030
Beginner Emergency Skills
Ages 3-6
Help prepare your young child for emergency situations. Students will learn how to listen, stay calm and practice calling 911 in life like scenarios. (Fee-Based)

KIDS 2035
Career Exploration
Ages 9-12
This course is designed to help students identify career possibilities according to their interests and educational goals. Students learn to evaluate information gathered and synthesize judgments to determine if a certain career is suitable for their interests and personality. (Fee-Based)

KIDS 2040
Helping Teens Find, Obtain and Keep a Job
Ages 13-16
Hey, get a job! Students will learn the labor laws for teens, where to look for job openings and how to pick up job applications. This course has been designed to help students prepare for future job openings, and learn ways to find out about job openings. (Fee-Based)

KIDS 2045
How to Plan Fun Activities
Ages 8-12
Empower your child with the skills of planning and organization. This class will help your child actively participate in planning a family trip, organizing a birthday party or planning a play date and other fun activities. (Fee-Based)

KIDS 2050
Exploring Rocks and Minerals
Grades 4-6
Students will learn about different types of rocks, how they are formed, and how they can be classified. Properties of minerals such as hardness, streak, color, and chemical reactions are demonstrated to show how they can be classified. Unique characteristics of rocks such as magnetism and geodes are discussed. Where minerals exist on earth and crystal structure will be shown. (Fee-Based)

KIDS 2055
Introduction to the Harp
Ages 7+
Have fun playing the harp! Learn basic technique and music theory. Hear about the history of the harp around the world. A harp is provided during class time. Ruth Inglefield’s - Songs for Sonja Vol.1 book required, more information given at first class. (Fee-Based)

KIDS 2060
Mosaic Masterpieces!
Ages 8+
Come turn your own artwork into mosaic style artwork, by cutting up your work in different shapes each week! Use different art materials to create a new look. No experience necessary just bring colored pencils, crayons and a glue stick; other materials will be provided. (Fee-Based)

KIDS 2063
Digital Camera Magic
Grades 4-9
In this hands-on digital camera class have fun learning to create amazing optical camera illusions. Discover techniques for operating camera exposure modes, composing shots, and enhancing images. Bring to every class meeting: a camera, the user’s guide, the camera’s USB connector cable, extra batteries, and a USB flash drive. (Fee-Based)

KIDS 2065
Digital Photography
Ages 10+
This class will help to develop or improve your digital photography skills. Using the computer and Photoshop, students will learn photo editing skills to restore, resize, change colors and enhance your photos. Bring your own photos, a digital camera and USB flash drive to each class. (Fee-Based)

KIDS 2070
Math & Science Tutoring
Grades 7-12 - Project GPS2 Grant
This course is designed to further strengthen and develop a student’s Math and Science skills. It will review the following topics: Basic Math, Pre-Algebra, Algebra 1 and 2, Probability/Statistics, Trigonometry, Biology, Chemistry, Earth Science, Human Anatomy & Physiology, Physics, and Astronomy. (Fee-Based)

KIDS 2075
Discovering Science Through Art Experiences
Ages 4-10
This class can awaken the imagination, challenge the mind and amaze the artist and scientist within each child. Build upon natural curiosity as children discover science concepts through art experiments. Themes investigated include: water and air, light and sight, motion and energy, and reaction and matter. Each term explores different elements of the above themes. No supplies needed. (Fee-Based)
KIDS 2078  
**Introduction to Montessori**  
Ages 3-6  
Students will be introduced to the Montessori method and work in four areas through hands-on activities to learn numbers and sounds. The areas include: practical life, sensorial, Math and Language. Students will develop order, coordination, concentration, and independence. This class will provide the academic readiness to succeed in kindergarten. Parents will attend class with their child. *(Fee-Based)*

KIDS 2080  
**Reading Academy**  
Ages 4-5  
This class will develop a strong reading foundation for success in school. Students will learn to blend sounds and recognize word patterns. Through fun songs and games students practice manipulating sounds to become strong readers and spellers. *(Fee-Based)*

KIDS 2085  
**Discovering Science Through Art Camp**  
Ages 4-10  
This class can awaken the imagination, challenge the mind and amaze the artist and scientist within each child. Build upon natural curiosity as children discover science concepts through art experiments. Themes investigated include: water and air, light and sight, motion and energy, and reaction and matter. Each session explores different elements of the above themes. *(Fee-Based)*

KIDS 2090  
**Introduction to American Poetry**  
Grades 7-12  
CSUF English Instructor will introduce students to popular American poetry. Students will learn how to analyze and discuss works by famous authors. Additionally, students will write short interpretations and even experiment writing a poem! Instructor will provide the necessary reading material. This course will be a great opportunity for students to become better critical readers, writers, and thinkers! *(Fee-Based)*

KIDS 2093  
**Reading and Writing: Famous Short Stories**  
Grades 7-12  
CSUF English Instructor will introduce students to popular short stories in English. Students will learn how to analyze and discuss works by famous authors. Additionally, students will write short literary responses with their own interpretations of the short stories. The short stories will be provided. This course will be a great opportunity for students to become better critical readers, writers, and thinkers! *(Fee-Based)*

KIDS 2095  
**Essay Writing**  
Grades 7-12  
CSUF English Instructor will teach students how to improve their essay writing skills. Students will learn and practice numerous methods that will make their writing stronger and more polished! *(Fee-Based)*

KIDS 2100  
**21st Century Leadership Academy**  
Grades 8-10  
The 21CLA is an intensive academic experience preparing students to enter college and careers. Daily activities will challenge and engage students. Students will be able to take advantage of the following opportunities: excursions; work with experienced teachers and college students; and develop college and career readiness skills. *(Fee-Based)*

KIDS 2103  
**Tutorial: Algebra 1A - Basics**  
Grade 6+  
Algebra basics will include topics such as expressions, signed numbers, reciprocals, equations, removing group symbols, adding like terms, inequalities, and absolute values. Class is limited to 8 students. *(Fee-Based)*

KIDS 2105  
**Tutorial: Algebra 1B - Exponents and Polynomials**  
Grade 7+  
Second course in Algebra deals with exponents, common factors, binomials, trinomials, and difference of squares. Class is limited to 8 students. *(Fee-Based)*

KIDS 2110  
**Tutorial Algebra 1C - Algebraic Fractions and Radicals**  
Grade 7+  
This is the third course in Algebra and focuses on solving values and simplifying expressions using algebraic fractions and radicals. A select number of word problems will be discussed. Class is limited to 8 students. *(Fee-Based)*

KIDS 2120  
**Judo, JuJitsu and Self-Defense: Beginners/Intermediate Level**  
Ages 13 - 18  
Improve your coordination, reflexes, stamina and strength while improving cardiovascular function. Beginners to Intermediate skill level self-defense classes includes all phases of Karat, Judo and Jujitsu throws and free sparring as well as self-defense simulations. One year of beginning level class recommended. *(Fee-Based)*

KIDS 2125  
**Agriculture for Kids**  
Ages 9 - 12  
This class will provide an introduction to a variety of aspects of agriculture or activity on a farm, including plants, livestock, bees, soil, and nutrition. Minimum 4th Grade is advised. Appropriate discussions will edge on aspects of animal husbandry, such as reproduction and purposes of raising livestock. Students will be offered honey, butter, fruits, and vegetables to try; so any known food allergies must be communicated in writing to instructor at first class meeting. *(Fee-Based)*

KIDS 2130  
**Be Bigger Than a Bully**  
Ages 8-12  
Students will learn and recognize what is a bully, what is a true friend and ways to be advocates against bullying. This course enables students to know how and where to get help if being bullied. Games and exercises on self-esteem, self-confidence and on honoring differences in ourselves and others and accepting these differences will be used in class. An overview of Social Media and its impact on bullying will be covered. *(Fee-Based)*
KIDS 2135
Ballroom Dancing
Ages 8+
Come join in the fun and learn popular American and Latin ballroom dances: Waltz, Fox Trot, Eastern Swing (Jitterbug/Lindy), Rumba, Cha-Cha, and Tango. Enhance your social graces and have fun with friends! You don't need a partner to attend the class. Parents welcome to dance with their child. (Fee-Based)

KIDS 2140
Agriculture for Kids: Beekeeping
Ages 9-12
Each day will cover a different topic: flowers, worker bees, the queen bee, the drone, and the hive box. Key scientific terms will be used with diagrams, games, creative booklets, and tools of beekeeping. Instructor was a beekeeper for five years, member of the Orange County Beekeepers Association and a science teacher. (Fee-Based)

KIDS 2141
Agriculture for Kids: Growing Plants
Ages 9-12
Students will be introduced to a a different topic each day: planting, green vegetables, root vegetables, apples and squash. Students will explore the world of the farmer from soil to growing methods, including seeing, touching, and tasting various samples and making booklets based on packets. Instructor is a credentialed teacher and a backyard farmer. (Fee-Based)

KIDS 2142
Agriculture for Kids: Wool and Fiber
Ages 9-12
Each day will cover a different topic: sheep, llama, alpaca, mohair, and angora rabbit. Students will explore the world of wool and fiber in making yarn, playing games, and making sample booklets. Instructor is a member of several local spinning guilds and is a credentialed teacher. (Fee-Based)

KIDS 2143
Funtastic Flowers!
Grades 2-6
Spring has sprung so join Mother Nature for an exciting adventure into the beautiful world of flowers. Have hands-on learning about flowers, and their pesky bug friends who keep gardens blooming bright. Design a fairy garden, make crafts, play games, and explore the delicious world of edible flowers! (Fee-Based)

KIDS 2144
Dance Performance Camp
Grades 9-12
This course is designed for beginning and intermediate high school students to learn, rehearse and perform choreographic works of the instructors in the styles of jazz, lyrical, hip-hop, African, Latin, and Middle Eastern dance. An informal recital will be performed at the end of the workshop. (Fee-Based)

KIDS 2155
Reading Skills Improvement
Grades 2-3
Does your student need an in-depth review of English language word structures and rules to improve their basic reading skills? This course provides practical and fun writing and reading activities to help the student understand vowel sounds (long and short), spelling changes, contractions, compound words, two-syllable words, prefixes and suffixes, and silent letters. The material requires that the student has already completed Grade 2. Class size is limited. (Fee-Based)

KIDS 2160
Discover the Titanic - Commemorating the 100th Anniversary
Grades 3-6
Students will learn about the famous ship the Titanic through activities, media, games, crafts and artifacts from the historic time period. Instructor was part of the 1996 exhibition to dig up the Titanic and a member of the Titanic Historical Society. (Fee-Based)

KIDS 2170
Crocheting for Kids
Grades 4-6
Learn to crochet with hook and yarn. Complete a simple project and start a second item. Supplies provided. Instructor has over 40 years of crochet experience. (Fee-Based)

KIDS 2171
Crocheting for Kids
Grades 7-12
Learn to crochet with hook and yarn. Complete a simple project and start a second item. Supplies provided. Instructor has over 40 years of crochet experience. (Fee-Based)

KIDS 2175
QuickStart Junior Tennis for Beginners
Ages 5-8
QuickStart is a new tennis training program designed just for kids! Smaller equipment is used so that children experience success more quickly. Simplified scoring is taught along with teamwork. Children are fully engaged while learning to play a lifetime sport. QuickStart tennis equals fun! Equipment needs explained at the first class session. (Fee-Based)

KIDS 2176
QuickStart Junior Tennis for Beginners
Ages 9-12
QuickStart is a new tennis training program designed just for kids! Smaller equipment is used so that children experience success more quickly. Simplified scoring is taught along with teamwork. Children are fully engaged while learning to play a lifetime sport. QuickStart tennis equals fun! Equipment needs explained at first class session. (Fee-Based)
KIDS 2180  
**Discovering Disney Magic Camp**  
Grades 2-6  
Ever wonder what is behind the Disney magic or who was Walt Disney? Students reinforce reading, math, art, and language skills through a once-in-a-lifetime journey of the world of Disney themed activities and memorabilia. Without going to Disneyland, students discover the world of Disney with hands-on activities including magic tricks, music, storytelling, drawing, games, puppet shows, skits and more. It is a rare, fun learning opportunity.  *(Fee-Based)*

KIDS 2185  
**Tennis for Kids**  
Intermediate Ages 9-12  
This course will focus on proper stroke techniques, serves, scoring, footwork and positioning, and match play. Bring racquet and a can of tennis balls. Makeup classes in case of rain.  *(Fee-Based)*

KIDS 2190  
**Jump Start for Kindergarten Skills Camp**  
For children starting Kindergarten in September or students needing a review of past kindergarten work. Your child will have fun in the sun as he gets his skills ready for kindergarten. Have your child be at the top of his class with his hand up waving with all the answers. We will power through: sounds, vowels, adding, printing, beginning reading strategies and more.  *(Fee-Based)*

KIDS 2195  
**Reading Comprehension Based on the Common Core Standards**  
Completion of Grades 1 or 2  
Come experience reading in a fun way using new reading comprehension skills. This class is for struggling readers and also those who already love to read. These lessons are based on the new Common Core Standards for students who have finished grades 1 and 2.  *(Fee-Based)*

KIDS 2200  
**You Can Dance! Summer Dance Class and Recital**  
Ages 5-7  
Students will learn basic dance routines in the styles of Jazz, Hip-Hop, Lyrical and Ethnic Dance. This class is a fun way to get exercise and learn the disciplines of dance and performance skills.  *(Fee-Based)*

KIDS 2202  
**You Can Dance! Summer Dance Class and Recital**  
Ages 8+  
Students will learn basic dance routines in the styles of Jazz, Hip-Hop, Lyrical and Ethnic Dance. This class is a fun way to get exercise and learn the disciplines of dance and performance skills.  *(Fee-Based)*

KIDS 2210  
**Tutorial: Discrete Mathematics I-Logic and Sets**  
Grade 8+  
This course covers how logic is written mathematically. Also, truth tables and Boolean Algebra are introduced. Sets and set notations are covered. This is a sample of Engineering/Computer Science courses at the collegiate level. Students should complete Algebra before enrolling in this class.  *(Fee-Based)*

KIDS 2220  
**Yoga for Pre-teens and Teens**  
Ages 12+  
Students will learn and participate in Hatha yoga, breathing and relaxation techniques, in a fun environment. These techniques will help build strength, flexibility, and balance and improve concentration and help to manage stress and anxiety. Bring a yoga mat to class, and do not eat at least an hour before class.  *(Fee-Based)*

KIDS 2225  
**Bowling for Teens**  
This course is designed for teens to develop sufficient knowledge and skill for successful participation in recreational, league and tournament bowling.  *(Fee-Based)*

KIDS 2227  
**ZUMBA® Kids**  
ZUMBA® for Kids is a fitness program designed especially for kids ages 7 - 11 years old. It combines high energy with the ZUMBA® program rhythms of salsa, cumbia, reggaeton, merengue and others. It provides a safe and effective workout. This class is designed specifically for kids, so the moves and music are kid friendly.  *(Fee-Based)*

KIDS 2230  
**Common Core Reading Comprehension Skills**  
Grades 1 & 2  
Students will read a story and learn how to create thinking maps as well as taking notes in order to comprehend the story effectively. They will learn how to use the text to answer text related questions based on the new Common Core curriculum.  *(Fee-Based)*

KIDS 2235  
**Fun with Light and Optics**  
Grades 4-6  
Students will explore the wonders of light and optics. They will learn how light is reflected and refracted. Students will examine diffraction gratings and prisms, producing colorful spectra and “rainbows”. They will learn that ordinary white light is composed of colors called a spectrum. Participants will see the effect of transmission of light through various materials, how certain solids reflect light better than others, and show how liquids and gases can scatter or reflect light. They will learn about the shape, properties, and uses of lenses and mirrors and will experience optical illusions.  *(Fee-Based)*

KIDS 2250  
**Football Skills and Drills**  
Ages 12 & 13  
This course is designed to teach students the basic theory of Football. Emphasis will be placed on both offensive and defensive position skills while participating in a team environment. The students will learn the fundamental skills, rules, and knowledge necessary to play the sport of football.  *(Fee-Based)*

KIDS 2251  
**Football Skills and Drills**  
Ages 14 - 18  
This course is designed to teach students the basic theory of Football. Emphasis will be placed on both offensive and defensive position skills while participating in a team environment. The students will learn the fundamental skills, rules, and knowledge necessary to play the sport of football.  *(Fee-Based)*
KIDS 2255
Sand Volleyball for Teens
Ages 13 to 17
This course is designed to teach the basics of sand volleyball play. Sand volleyball has different aspects of play from traditional indoor volleyball. (Fee-Based)

KIDS 2260
Introduction to Design Arts for Teens
Ages 13 - 17
This course explores three different avenues of design arts: knitting, crocheting, and beading. The course works in each media in equal segments. Design assignments incorporate the learned skills learned into teen-oriented projects. (Fee-Based)

KIDS 2270
African Culture for Kids
Grades 3 - 6
This course offers a virtual safari to explore Sub-Saharan Africa’s amazing history, nature, customs and traditions. One segment focuses on the marketplace with all of its exotic tastes and foods. Another segment focuses on toys, games, and children's activities. There is also an exploration of urban and rural homes and life for African children. (Fee-Based)

KIDS 2271
African Culture for Teens
Grades 9 - 12
This course is a virtual safari to discover the similarities and differences between African and American teens. Learn about Africa's history, cultural mores, the AIDS pandemic. Visit the marketplace to study foods and fashions. Explore traditional religions of the continent as well as the current issues teens face every day. (Fee-Based)

KIDS 2275
Sign Language with Kids
Ages 7 - 11
This class will introduce the student to the basics of sign language. Content will include alphabet and counting numbers, greetings, family and friends, foods, weather, feelings, colors and shapes and animals. (Fee-Based)

KIDS 2290
Painting with Acrylics for Kids
Ages 5+
This course teaches students how to paint a variety of different projects with the use of acrylic paint. Students will have one project per class to include: landscape, seascape, animals, cartoon, floral and still life. Students will learn how to plan, sketch, and layout their project. They will also learn how to use different paint brush techniques and the color wheel for composition. (Fee-Based)

KIDS 2295
Drawing and Painting Cartoons with Watercolors
Ages 5+
Students will learn how to draw and paint a variety of different cartoon characters. This includes: dogs, cats, birds, sea creatures, people, animals and well-known cartoon characters. They will receive instruction on how to analyze cartoon characters using shapes. Other topics include: the color wheel, composition, horizon line, design, and placement. (Fee-Based)

KIDS 2300
Still-Life Art Workshop for Kids
Ages 6-8
This course teaches drawing and painting of a still-life in three different styles. Students will explore the artwork of Vincent Van Gogh, Maria Sibylla Merian, and Wayne Thiebaud. This course engages children by teaching various art techniques. Subjects will include: flowers, insects, and desserts. (Fee-Based)

KIDS 2302
Still-Life Art Workshop for Kids
Ages 8-12
This course teaches drawing and painting of a still-life in three different styles. Students will explore the artwork of Vincent Van Gogh, Maria Sibylla Merian, and Wayne Thiebaud. This course engages children by teaching various art techniques. Subjects will include: flowers, insects, and desserts. (Fee-Based)

KIDS 2400
Common Core: Preparation for Computer Keyboarding
Grades 2 & 3
This course prepares students for the requirements of the Common Core standards. Beginning in 2015, students must be able to type multiple paragraph practical paragraphs as part of the Common Core implementation. (Fee-Based)

KIDS 2401
Common Core: Preparation for Computer Keyboarding
Grades 4 - 6
This course prepares students for the requirements of the Common Core standards. Beginning in 2015, students must be able to type multiple paragraph practical paragraphs as part of the Common Core implementation. (Fee-Based)

KIDS 2403
Common Core: Online Reading and Writing Prep
Grades 3-4
This course prepares students for the Common Core English Language Assessment. Reading comprehension and writing can be challenging, especially with the tasks being transitioned to an online format. Students learn to read and write more effectively using computer skills needed to be ready for the 2015 implementation of Common Core Testing in California. (Fee-Based)

KIDS 2404
Common Core: Online Reading and Writing Prep
Grades 5-6
This course prepares students for the Common Core English Language Assessment. Reading comprehension and writing can be challenging, especially with the tasks being transitioned to an online format. Students learn to read and write more effectively using computer skills needed to be ready for the 2015 implementation of Common Core Testing in California. (Fee-Based)

KIDS 2410
Boolean Algebra
Grades 8+
Students in this class will learn about logical reasoning, truth tables, laws of Boolean Algebra, and propositions. This course is a sample of material covered in introductory Engineering/Computer Science courses. (Fee-Based)
### KIDS 2415
**Mathematical Proofs**  
Grades 9+  
This class extends a student's ability to prove statements using direct proofs, induction and contradiction. Several proofs will have concrete examples. This class is considered a higher level of math and a good introduction to Computer Science/Engineering. A good understanding of Geometry is strongly recommended. *(Fee-Based)*

### KIDS 2450
**Violin II & III**  
This course continues to build violin skills for Violin I students. Students will continue to build finger strength, fingerning agility, placement and coordination of note delivery and playing songs that are appropriate for these levels of skill. *(Fee-Based)*

### KIDS 2460
**3D Origami & Fabric Flowers Decorative Designs**  
Ages 8+  
This course teaches the art of 3D origami creations and the art of fabric flower creations - all in one course. Students will learn and produce 3D origami creations for the first three weeks and then learn and produce fabric flower creations for the last three weeks. Each art will have two beautiful projects and supplies are included in the cost of the course. *(Fee-Based)*

### KIDS 2487
**Magnetic Levitation Transportation - Camp**  
Build a "futuristic Maglev" car to race and take home. Learn about the relationship between magnetism and electricity. Build maglev cars and electromagnets. Learn how motors work, take home the world's simplest motor and experiment with magnificent magnetic activities! Have fun learning while creating! *(Fee-Based)*

### KIDS 2500
**Electronics Workshop I**  
Ages 7 - 12  
This course is an electronics workshop designed to give students ages 7 - 12 hands-on experience building electronic devices such as radios, digital circuits, radio controllers, and sound generators. Each project is supported by a simple electronics theory lecture to advance the understanding of the projects. *(Fee-Based)*

### KIDS 2501
**Electronics Workshop II**  
Ages 13 - 17  
This course is an Electronics Workshop designed to give students ages 13 - 17 hands-on experience building electronic devices like radios, digital circuits, radio controllers, and sound generators. Each project is supported by a simple electronics theory lecture to advance the understanding of the projects. *(Fee-Based)*

### KIDS 2510
**Subtraction First-Aid**  
Grades 1 - 3  
This course will assist students who are challenged by subtraction. The instructor will work in a relaxed, game-based style to improve students abilities initially with single- and double-digit numbers. Students will explore larger numbers as they progress. Success is measured in the student's ability to navigate subtraction with the methods and techniques that work best for them. *(Fee-Based)*

### KIDS 2600
**Career Academy: Computer Networking**  
Grades 7 - 12  
Students will gain introductory knowledge of computer networking as a career. The class will include the basic concepts of computer networking, troubleshooting connectivity, building a computer networking cable, and using networking software. *(Fee-Based)*

### KIDS 2605
**Career Academy: Dental Assisting**  
Grades 7-12  
Students will gain introductory knowledge of dental assisting as a career. The class will include basic oral anatomy, infection control (handwashing, personal protective equipment), impression on manikins and basic instruments for dental procedure. *(Fee-Based)*

### KIDS 2610
**Career Academy: Computer Forensics**  
Grades 7-12  
This course gives an overview of computer forensics, its real-world technique, information gathering potential, and analysis of evidence. The course also provides students with opportunities to learn about a wide variety of contemporary computer forensics techniques. *(Fee-Based)*

### KIDS 2612
**Career Academy: Cyber Security/Cyber Patriot - Cisco**  
Grades 7 - 12  
Learn and work in teams competing to secure a windows machine from hackers and get a hands-on, sneak preview into CyberPatriot, a national cyber security competition created by the US Air Force. Students will become familiar with best practices for ensuring a computer is secure for use. Students will also learn computer network fundamentals including building cables and troubleshooting connectivity. Beginning to advanced students welcome. Students can sign up for all 3 weeks or single workshop. Please bring paper and pencil. *(Fee-Based)*

### KIDS 2615
**Career Academy: Video Production I**  
Grades 9 - 12  
This course introduces students to digital video production techniques including single camera operation, recording, and video editing. Course topics include the operation of camcorders, lighting, and sound & editing. Students will develop stories, film them, and edit them for screening. Cameras and computers will be provided for shooting and editing. *(Fee-Based)*

### KIDS 2616
**Career Academy: Video Production II**  
Grades 9 - 12  
This course builds on topics covered in Video Production I course. Students learn more in depth about digital video production techniques including single camera operation, recording, and video editing. Course topics include the operation of camcorders, lighting, and sound & editing. Students will develop stories, film them, and edit them for screening. Cameras and computers will be provided for shooting and editing. *(Fee-Based)*
KIDS 2617
Career Academy: Video Game Programming
Age 13-17
This course will allow students to learn the components of simple video game programming. Students will learn the coding system required for the programming and create several games that will run on Windows operating systems. (Fee-Based)

KIDS 2620
Career Academy: Cyber Security/Cyber Patriot- Windows
Learn the basics of Information Security. Students will learn how to secure Windows operating systems and work together to secure various Windows virtual machines. Students will be familiar with best practices for ensuring a computer is secure for use. Beginning to advanced students welcome. (Fee-Based)

KIDS 2621
Career Academy: Cyber Security/Cyber Patriot- Linux
Linux
This is an entry level class on the Linux operating system with a concentration on security. Students will gain the skills needed to protect a Linux based system from various types of threats. Special consideration is given to the practice format and competition strategies useful in the CyberPatriot competition. (Fee-Based)

KIDS 2625
Career Academy: Healthcare Careers & Psychiatric Technology
Through interactive learning, students learn to provide care for someone diagnosed with mental or developmental disabilities. Activities include how and why one takes vital signs, behavioral techniques, how to assess mental illness, dealing with depression, suicide, and substance abuse. Career pathways are identified and explored through the Psychiatric Technology field. (Fee-Based)

KIDS 2650
PSAT/NMSQT Math Test Preparation
This course prepares students for the math portion of the PSAT/NMSQT test given during their 10th grade year. PSAT/NMSQT is used as practice for the SAT college acceptance test, and is also the qualifying test for National Merit Scholarships. (Fee-Based)

KIDS 2700
Math: Common Core - Kindergarten
Kindergarten students will be introduced to two critical math skill areas: (1) representing, relating, and operating on whole numbers, initially with sets of objects; and (2) describing shapes and space. This class is fun and informative with hands-on learning activities. (Fee-Based)

KIDS 2701
Math: Common Core - 1st Grade
Through games, hands-on activities and group work, 1st Grade students will be introduced to four critical learning areas: (1) developing understanding of addition & subtraction; (2) develop understanding of whole number relationships and place value; (3) developing understanding of linear measurement; and (4) reasoning about attributes of, and composing and decomposing geometric shapes. (Fee-Based)

KIDS 2702
Math: Common Core - 2nd Grade
In this fun, hands-on class, students will extend their understanding of the base-ten system. This includes ideas of counting in fives, tens, and multiples of hundreds, tens, and ones. Students use their understanding of addition to develop fluency with addition and subtraction within 100. Students will describe and analyze shapes by examining their sides and angles. (Fee-Based)

KIDS 2703
Math: Common Core - 3rd Grade
In this course students will focus on four critical areas: (1) developing understanding of multiplication and division strategies for multiplication and division within 100; (2) developing understanding of fractions, especially unit fractions (fractions with numerator 1); (3) developing understanding of the structure of rectangular arrays and of area; and (4) describing and analyzing two-dimensional shapes. (Fee-Based)

KIDS 2704
Math: Common Core - 4th Grade
In grade 4, instructional time will be focused on three critical areas: (1) developing understanding and fluency with multi-digit multiplication, and developing understanding of dividing to find quotients involving multi-digit dividends; (2) developing an understanding of fraction equivalence, addition and subtraction of fractions with like denominators, and multiplication of fractions by whole numbers; (3) understanding that geometric figures can be analyzed and classified based on their properties, such as having parallel sides, perpendicular sides, particular angle measures, and symmetry. (Fee-Based)

KIDS 2705
Math: Common Core - 5th Grade
In grade 5, instructional time should focus on three critical areas: (1) developing fluency with addition and subtraction of fractions, and developing understanding of the multiplication of fractions and of division of fractions in limited cases (unit fractions divided by whole numbers and whole numbers divided by unit fractions); (2) extending division to two-digit divisors, integrating decimal fractions into the place value system and developing understanding of operations with decimals to hundredths, and developing fluency with whole number and decimal operations; and (3) developing understanding of volume. (Fee-Based)

KIDS 2706
Math: Common Core - 6th Grade
In grade 6, instructional time should focus on four critical areas: (1) connecting ratio and rate to whole number multiplication and division, and using concepts of ratio and rate to solve problems; (2) completing understanding of division of fractions and extending the notion of number to the system of rational numbers, which includes negative numbers; (3) writing, interpreting, and using expressions and equations; and (4) developing understanding of statistical thinking. (Fee-Based)

KIDS 2950
Earth Mapping with Clay Camp
Grades 3 - 6
A science course for students who like tactile experiences will work in clay to create topographical maps for diverse areas such as Los Angeles, Northern California, Albuquerque and Oahu. Students will learn terms for land configurations and discuss longitude & latitude. (Fee-Based)
KIDS 3000
Theatre Camp
Ages 7-17
Students will explore scripts, analyze characters and create a performance. A production will be performed by students at the end of session. Students explore and create characters using masks, costumes, make-up and props using different perspectives in literature. We will have fun letting the imagination soar. Students will enjoy oral reading using expressive voices and gestures. (Fee-Based)

KIDS 3003
Theatre Camp
Ages 12-17
Students will explore scripts, analyze characters and create a performance. A production will be performed by students at the end of session. Students explore and create characters using masks, costumes, make-up and props using different perspectives in literature. We will have fun letting the imagination soar. Students will enjoy oral reading using expressive voices and gestures. (Fee-Based)

KIDS 3005
Reader’s Theatre
Grades 4-6
Improve reading comprehension skills while having fun! Students explore and create characters using masks, costumes and props using different perspectives in literature. We will have fun discovering beautiful journeys and letting the imagination soar. Join us as we read storybooks and/or scripts then turn on the lights, camera and action! Family and friends are invited for final creative performance. (Fee-Based)

KIDS 3010
Games Galore- Blast from the Past Camp
Grades 3+
Explore history and origins of games and sports from the past. Every day a different decade. Play games your great grandparents played. Discover your parent’s favorite pastimes. Enjoy different versions and see Monopoly sets from around the world and special sets (underwater Monopoly, chocolate, fancy gold, themed monopoly and the original sets) Indoor and outdoor games and sports. (Fee-Based)

KIDS 3015
Play with the Presidents
Grades 3-6
Explore U.S. Presidents and interact with the instructor dressed as Lincoln, Theodore Roosevelt and others. Read and hear stories about the presidents. Play games and share presidential memorabilia. Use president paper dolls and taste foods the presidents enjoyed. Experience a fun way to learn the names of all the presidents. (Fee-Based)

KIDS 3020
Tutorial: Math Blast - 1st Grade Review
Does your student need a blast forward for Math success? This course provides preparation for 2nd Grade Math by reviewing and practicing the key concepts from the 1st Grade California Math Standards. (Fee-Based)

KIDS 3021
Tutorial: Math Blast - 2nd Grade Review
Does your student need a blast forward for Math success? This course provides preparation for 3rd Grade Math by reviewing and practicing the key concepts from the 2nd Grade California Math Standards. (Fee-Based)

KIDS 3022
Tutorial: Math Blast - 3rd Grade Review
Does your student need a blast forward for Math success? This course provides preparation for 4th Grade Math by reviewing and practicing the key concepts from the 3rd Grade California Math Standards. (Fee-Based)

KIDS 3023
Tutorial: Math Blast - 4th Grade Review
Does your student need a blast forward for Math success? This course provides preparation for 5th Grade Math by reviewing and practicing the key concepts from the 4th Grade California Math Standards. (Fee-Based)

KIDS 3024
Tutorial: Math Blast - 5th Grade Review
Does your student need a blast forward for Math success? This course provides preparation for 6th Grade Math by reviewing and practicing the key concepts from the 5th Grade California Math Standards. (Fee-Based)

KIDS 3025
Tutorial: Math Blast - 6th Grade Review
Does your student need a blast forward for Math success? This course provides preparation for 7th Grade Math by reviewing and practicing the key concepts from the 6th Grade California Math Standards. (Fee-Based)

KIDS 3030
Money Origami
Ages 8-11
Impress your friends with fun items made out of dollar bills. Instruction and demonstrations for two dollar items (ring and bow tie) will be taught. Student required to bring three, $1 dollar bills. Parents may also register for class. (Fee-Based)

KIDS 3032
Money Origami
Ages 12+
Impress your friends with fun items made out of dollar bills. Instruction and demonstrations for $3 - $4 dollar items (ring and bow tie) will be taught. Student required to bring four ($) dollar bills. Parents may also register. (Fee-Based)

KIDS 3034
Cruise Ship Towel Animals
Ages 8-11
Create fun and easy animals and items from bath and beach towels. Just like they do on the cruise ships!!! Have a fun creature sitting at your spot on the beach or in your room made out of your own towel! Make these creatures as gifts or great pool or beach party favors! Students will need to bring one clean beach towel and three bath towels, three hand towels, and three wash cloths (towels need not be new). Parents may also register for class. (Fee-Based)

KIDS 3036
Cruise Ship Towel Animals
Ages 12+
Create fun and easy animals and items from bath and beach towels. Just like they do on the cruise ships!!! Have a fun creature sitting at your spot on the beach or in your room made out of your own towel! Make these creatures as gifts or great pool or beach party favors! Students will need to bring one clean beach towel and three bath towels, three hand towels, and three wash cloths (towels need not be new). Parents may also register. (Fee-Based)

<tbody>
<tr>
<td>KIDS 3038</td>
<td>Sock Monsters</td>
<td>Ages 8-11</td>
<td>Learn how to make fun and crazy creatures out of socks! Use leftover unmated socks to create a special creature from colorfully designed socks. Students will need to bring sewing scissors, thread, and sewing needles, miscellaneous buttons &amp; trim. Also, bring a pair of colorful or brightly designed socks to cut up and use for their creation. Parents may also register.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3040</td>
<td>Sock Monsters</td>
<td>Ages 12+</td>
<td>Learn how to make fun and crazy creatures out of socks! Use leftover 'unmated' socks to create a special creature from colorfully designed socks. Students will need to bring sewing scissors, thread, and sewing needles, miscellaneous buttons &amp; trim. Also, bring a pair of colorful or brightly designed socks to cut up and use for their creation. Parents may also register.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3045</td>
<td>Advanced Public Speaking</td>
<td>Grades 4-8</td>
<td>Gain the self-confidence and skills to inform and persuade your audience in an organized way. Learn to share your thoughts and ideas effectively in a group. Parents invited for a presentation the last class.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3047</td>
<td>Cycling For Beginners</td>
<td>Ages 10+</td>
<td>Want to build greater confidence riding a bicycle? This course will cover many cycling topics such as proper fit, safety, handling basics, equipment and etiquette. Demonstrations and hands-on practice will also be included. Know the basics to keep riding safe and enjoyable. Adults may also register for this class.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3049</td>
<td>Bicycling Safety</td>
<td>Ages 10+</td>
<td>Want to build greater confidence riding a bicycle? This course will cover many cycling topics such as proper fit, safety, handling basics, equipment and etiquette. Demonstrations and hands-on practice will also be included. Students will learn the basics to keep riding safe and enjoyable. Adults may also register for this class.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3050</td>
<td>Dinosaurs Discovery</td>
<td>Grades 3-6</td>
<td>Explore dinosaurs and life in prehistoric times. Play dinosaur games, learn to draw dinosaurs, examine books and items relating to dinosaurs and see real dinosaur fossils. Carve dinosaurs bones frozen in ice and make dinosaur dioramas.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3055</td>
<td>Robotics 101</td>
<td>Grades 1-3</td>
<td>In this class students will learn about the engineering design process in a &quot;hands-on&quot; setting as they create a basic robot and then improve on the basic design. The robots the students build will be able to accomplish specific basic tasks. Those robots will then be modified to execute more complex tasks.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3056</td>
<td>Robotics 101</td>
<td>Grades 4-6</td>
<td>In this class students will learn about the engineering design process in a &quot;hands-on&quot; setting. They will create a basic robot with basic movements, modify the design, and then program more complex commands for movement and tasks.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3060</td>
<td>Civil Engineering</td>
<td>Grades 1-3</td>
<td>Students will be introduced to the concepts of structural engineering, tension, and force as it relates to building and construction of bridges and towers. The engineering design process will be utilized and modified multiple times over the course as students plan, create, and modify their own bridges and towers.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3061</td>
<td>Civil Engineering</td>
<td>Grades 4-6</td>
<td>Students will be introduced to the concepts of structural engineering, tension, and force as it relates to building and construction of bridges and towers. The engineering design process will be utilized and modified multiple times over the course as students plan, create, and modify their own bridges and towers.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3065</td>
<td>Aerospace Engineering</td>
<td>Grades 1-3</td>
<td>Students will be introduced to the concepts of aerodynamics, propulsion, structural design, and flight through a series of activities that explore different types of aircraft. Students will also learn the basic mechanics of flying machines through hands-on testing and revising of their initial designs using the elements of the engineering design process.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3066</td>
<td>Aerospace Engineering</td>
<td>Grades 4-6</td>
<td>Students will be introduced to the concepts of aerodynamics, propulsion, structural design, and flight through a series of activities that explore different types of aircraft. Students will also learn the basic mechanics of flying machines through hands-on testing and revising of their initial designs for better performance.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3070</td>
<td>LEGO Flix Camp</td>
<td>Ages 13-17</td>
<td>This course allows students to brainstorm and bring LEGOs to life in stop-motion animated flix. Students will create a set with LEGO characters for a movie. They will storyboard, write, shoot, and add voice-overs to the Flix they create. Flix are downloadable a month after the camp ends.</td>
<td>Fee-Based</td>
</tr>
<tr>
<td>KIDS 3075</td>
<td>Live-Action Flix Camp</td>
<td>Ages 13-17</td>
<td>This course allows students to brainstorm, plan, create, film and shoot a real-life action movie. The class focuses on each step in creating a complete movie - from &quot;Action!!&quot; to &quot;That's a wrap!!&quot;. Students will scout out characters, assemble costumes and props, and act and direct in a collaborative movie. Flix downloadable a month after the camp ends.</td>
<td>Fee-Based</td>
</tr>
</tbody>
</table>
KIDS 3080  
**Advanced Robotics- Kingii Dragon Robot - Camp**  
With flashing eyes, moving mouth and rapid neck frill, an Infra Red Sensor is used for escape and approach modes. Build robots in groups testing for speed, strength, and endurance. The free building robots are not to be taken home, but the Kingii Dragon is yours to keep!! Tires, motors, gears, and controllers are used to build and work cooperatively! *(Fee-Based)*

KIDS 3083  
**Engineering Roller Coasters & Amusement Park Rides - Camp**  
Learn simple engineering as you build working Roller Coasters! Watch as our coaster cars go up and down steep inclines and through many thrilling loops! Roller Coaster will be 3 ft. long and 3 ft. high. Learn the mechanisms and design and build more amusement park rides! Projects are built in class and do not go home with students. *(Fee-Based)*

KIDS 3085  
**Engineering an All-Terrain Vehicle - Camp**  
How about some land rover excitement? Build the All-Terrain Tracker Vehicle to take home! Take it over its own course of sand, stones and twigs. You will also learn about gears and motors. Work in a group with your newfriends as you design a robot you can control! *(Fee-Based)*

**Labs (LABS)**

LABS 100  
**Supervised Tutoring**  
Students will use tutorial assistance to enhance problem solving skills, and increase comprehension of specific subject areas. Tutors and instructors are there to help you prepare for tests and to complete homework. Enrollment is by Instructor and Counselor referral only. *(Apportionment)*

**Language (LANG)**

LANG 100  
**Arabic - Conversational**  
Beginning level class introduces students to the basic knowledge of Arabic. *(Fee-Based)*

LANG 110  
**French - Conversational**  
Beginning level class introduces students to the culture and customs of France and covers basic speaking skills. *(Fee-Based)*

LANG 160  
**Japanese - Conversational**  
Beginning level class introduces students to the culture and customs of Japan and to speak beginning level Japanese. *(Fee-Based)*

LANG 162  
**Japanese - Conversational II**  
Low intermediate level class expands students’ basic knowledge of spoken Japanese. *(Fee-Based)*

LANG 170  
**Russian - Conversational**  
Beginning level class introduces students to the culture and customs of the Russian speaking countries and addresses immediate needs of a traveler. The course will also give the language skills helpful to welcome adopted children to their new families. *(Fee-Based)*

LANG 190  
**Spanish - Conversation I**  
Beginning level class introduces students to the culture and customs of Latin America and covers beginning level speaking skills. *(Fee-Based)*

LANG 200  
**Spanish - Conversation II**  
Low intermediate level class expands students’ basic knowledge of spoken Spanish. *(Fee-Based)*

LANG 240  
**Conversational Chinese**  
Beginning level class introduces students to the culture and customs of Chinese and covers beginning level speaking skills. *(Fee-Based)*

**Medical Occupations (MEDO)**

MEDO 115  
**Medical Assisting: Front Office**  
Prerequisite: MEDO 260 Introduction of Medical Assisting and COMP 685 Beginning Keyboarding. This course introduces students to medical office procedures in preparation for entry-level positions in the front office or reception area of a medical facility. These include medical data entry. Students review reception techniques, patient records and insurance forms. Keyboarding experience advised. *(Apportionment)*

MEDO 118  
**California Child Care: CPR and First Aid**  
This 8-hour course teaches individuals to respond to breathing and cardiac emergencies, pediatric first aid and injury prevention. Upon successful completion, students will receive an Adult, Infant, Child CPR certificate valid for 1 year and a CA Child Care First Aid certificate valid for 2 years. This class meets CA EMSA requirements of daycare providers. $75 fee includes class textbooks and 2 laminated skills cards. *(Fee-Based)*

MEDO 125  
**Pharmacy Tech Educational Planning**  
Orientation and assessment to and for the SCE Pharmacy Technician certificate program, overview of occupational options. Assess math skill level for referral to basic skills support to assist with successful completion of pharmacy tech courses, overview in general of SCE student services. *(Orientation)*

MEDO 166  
**Physical Therapy Aide**  
Equips the motivated student to function safely and efficiently as a Physical Therapy Aide or Restorative Aide in a hospital, convalescent hospital or home setting. Certificate of Completion to those meeting requirements. *(Apportionment)*
MEDO 202  
Activity Leader Healthcare  
Provides basic training in planning and directing activity programs (fieldwork arranged). (Apportionment)

MEDO 220  
Out-Patient Lab for the Pharmacy Technician  
Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 104 Medical Terminology (or MEOC 110 Medical Terminology II); MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 130 Introduction to Pharmacy Technician; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an out-patient pharmacy and begin working with minimal additional training. (Apportionment)

MEDO 221  
In-Patient Lab for the Pharmacy Technician  
Prerequisite: MEDO 230 Pharmacy Operations Lab; MEOC 121 Pharmacology I; MEOC 122 Pharmacology II; MEOC 140 Pharmaceutical Mathematics; Keyboarding Proficiency score of 30 or above OR passing grade in COMP 685 Beginning Keyboarding. The practical lab class is designed to prepare the student for an externship at neighboring pharmacies. Upon completion of the lab classes, the student should be able to step into an in-patient pharmacy and begin working with minimal additional training. (Apportionment)

MEDO 230  
Pharmacy Operations Lab  
Prerequisite: MEOC 130 Introduction to Pharmacy Technician and Keyboarding Proficiency score of 30 or above or passing grade in COMP 685 - Beginning Keyboarding. This course introduces students to the operations of a pharmacy. It provides them with a working knowledge of the structural, functional, business and inter-relational aspect of pharmacy as part of the health care system. Through hands-on instruction, students develop the entry-level skills needed to assist in a pharmacy operation. (Apportionment)

MEDO 235  
Medical Assisting: Back Office Procedures I  
Prerequisite: MEOC 104 Medical Terminology and MEDO 260 Introduction to Medical Assisting. This course introduces students to the back office clinical duties of the medical assistant. It is designed to develop the necessary skills for performing exam room procedures, including medical asepsis and infection control; patient intake; vital signs; and assisting with physical examination. Specialty exams and electrocardiograph procedure are also covered. (Apportionment)

MEDO 240  
Medical Assisting: Back Office Procedures II  
Prerequisite: MEDO 235 Medical Assisting Back Office I. This course develops the necessary skills for the back office. Students review assisting physicians with minor surgical procedures, pharmacology, laboratory procedures, nutrition, patient education, diagnostic imaging, and urgent care and emergency procedures. (Apportionment)

MEDO 250  
Spanish for Healthcare Professionals  
This program is designed for a wide variety of health care professionals including medical assistants, nurses, and doctors. This course will help participants connect and communicate with Spanish speaking patients to treat illness and injury and process medical transactions efficiently. (Fee-Based)

MEDO 255  
Introduction to Phlebotomy Procedures  
Advisory: MEOC 104 Medical Terminology This course provides an introduction to the basic skills of phlebotomy through in-class instruction and hands-on practice. Students will learn venipuncture and capillary collection punctures, OSHA Bloodborne Pathogen regulations, equipment selection, and blood processing. This class does not meet requirements for state certification for phlebotomists. (Grant-Funded)

MEDO 260  
Introduction to Medical Assisting  
This course is an introduction to the medical assisting profession and career opportunities. Topics covered include personal characteristics, professional responsibilities, ethical behavior, health care settings, medical law, and therapeutic communication skills. (Apportionment)

MEDO 265  
BLS for Healthcare Professionals  
The American heart Association designed this course to prepare healthcare professionals to recognize life-threatening emergencies and to provide CPR and First Aid effectively. Upon successful completion students receive a 2 year CPR certification and a 2 year First Aid certification. (Grant-Funded)

MEDO 270  
Medical Assisting Ed Planning  
Orientation and assessment to and for the SCE medical assisting certificate program, overview of occupational options. Review skill level for referral to basic skills support to assist with successful completion of medical assisting courses, overview in general of SCE student services. (Orientation)

MEDO 275  
Medical Assistant Work Experience Part 1  
Prerequisites: MEOC 115 Medical Assisting: Front Office Procedures; and MEDO 235 Medical Assisting: Back Office Procedures I; and MEDO 240 Medical Assisting: Back Office Procedures II; and Achievement of 30 wpm Keyboard Competency; and COMP 100 Introduction to Computers; or MS 104 Introduction to Windows. This course provides students with work experience related to administrative and/or clinical medical assisting. Students will meet with the instructor for two hours per week in addition to completing 140 hours of externship in an approved facility. Class topics include portfolio development and externship performance. (Grant-Funded)
MEDO 280
Medical Assistant Work Experience Part 2
Prerequisite: MEDO 275 Medical Assisting Work Experience I. This course provides students who successfully completed Medical Assisting Work Experience I with an additional 140 hours of externship to complete training in both administrative and clinical competencies. Students will meet with the instructor for two hours per week. Class topics include portfolio development, workplace professionalism, and externship performance. (Grant-Funded)

MEDO 285
Introduction to Electronic Health Records (EHR)
Prerequisite: COMP 685 Beginning Keyboarding or Keyboarding Proficiency score of 30 or above; MEDO 315 Intro to Computer Health Care. This course introduces students to the fundamental concepts of working with Electronic Health Records (EHRs). Students will learn and exercise the practical use of EHR in administrative roles within the allied health field. Topics covered include: the history of EHR, EHR standards, patient charts, and EHR regulations. (Grant-Funded)

MEDO 290
Math For Medical Assistants
This course is designed to provide the medical assistant with the mathematical skills necessary to calculate, prepare, and administer drugs safely and confidently in an ambulatory medical setting. (Fee-Based)

MEDO 295
National Certified Medical Assistant Exam Prep
This course is designed to assist in preparing for the NCCT National Certified Medical Assistant Exam (NCMA). A comprehensive review of topics related to administrative and clinical medical assisting procedures will be provided. The course also includes valuable practice tests and test-taking strategies. (Grant-Funded)

MEDO 300
Medical Coding Basics I
Prerequisites: MEOC 104 Medical Terminology. Students will learn techniques of accurate coding of physician services, gain experience in correct application of CPT, level II coding, and ICD-9-CM/ICD-10-CM diagnosis codes used for billing professional medical services through lecture and lab. (Grant-Funded)

MEDO 302
Medical Coding Basics II
Prerequisite: MEDO 300 Medical Coding Basics. This course covers the practical application of CPT coding and coding appropriately for correct reimbursement in physician office settings. Topics covered include assigning the correct diagnosis, procedure, and supply code for a variety of clinical cases and services. (Grant-Funded)

MEDO 305
Heartsaver Pediatric First Aid
This 8-hour course teaches individuals to respond to breathing and cardiac emergencies, pediatric first aid and injury prevention. Upon successful completion, students will receive an Adult, Infant, Child CPR and Pediatric First Aid certificate valid for 2 years. This class meets California requirements for daycare providers. (Fee-Based)

MEDO 307
Personal Care Aide
This class will prepare the student to provide or support activities of daily living, personal care, and homemaker services to elderly and disabled individuals needing assistance to remain safely and independently in their own home or in an assisted living facility. Upon successful completion students receive a certificate of completion. (Grant-Funded)

MEDO 310
Medical Assistant Skills Open Lab
Co-requisite: MEDO 235 Back Office Procedures I. This open-entry, open-exit course is designed for medical assistant students to practice clinical skills and procedures. (Grant-Funded)

MEDO 315
Introduction to Computers for Health Care Workers
This course is an introduction to computers for individuals entering the health care field. Introduction to Computers for Health Care Workers provides a general introduction to computer literacy and information technology for health care students. The course provides a comprehensive survey of the interconnections of information technology and health care. (Grant-Funded)

MEDO 316
In-Patient Externship for the Pharmacy Technician
Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Health Care Workers; and MEDO/221 In-Patient Lab Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an in-patient pharmacy setting. It requires weekly class meetings plus 200 hours of externship in an approved and contracted pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. (Apportionment)

MEDO 317
Out-Patient Externship for the Pharmacy Technician
Prerequisite: MEDO/220 Out-Patient Lab: Pharmacy Technician; MEOC/135 Human Relations for Health Care Workers; and MEDO/221 In-Patient Lab Pharmacy Technician. This course is designed to provide pharmacy technician students with field experience in an out-patient/retail pharmacy setting. It requires weekly class meetings plus 120 hours of externship in an approved pharmacy. Class topics include portfolio development, job search, professionalism, current issues in pharmacy, and work performance. (Apportionment)

Medical Occupations Clerical (MEOC)

MEOC 104
Medical Terminology
Required course for Pharmacy Technician Certificate program but also welcomes all students preparing for a variety of professional/paraprofessional careers in the medical field. Learn medical terms or strengthen prior knowledge. Offers basics of terminology, anatomy and diagnostics. (Apportionment)
MEOC 112
Medical Insurance Billing - A Practical Approach to Medical Billing
Prerequisite: COMP 100 Introduction to Computers or MS 104 Introduction to Windows Operating System and keyboard competency of 30 wpm. An overview of outpatient medical insurance billing in preparing students for entry-level positions. Students review theory and practice data entry for private, Blue Cross/BlueShield, Medicare, Medicaid/Medi-Cal, TRICARE/CHAMPUS and workers’ compensation billing. CPT and ICD-9 coding covered. Medical billing software utilized in computer lab. Keyboarding experience advised. (Apportionment)

MEOC 121
Pharmacology I
Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Equips students with the necessary beginning theoretical knowledge. Includes categorizing, differentiating between drug classifications and inventorying. Provides a basic knowledge and understanding of drug effects on the body. (Apportionment)

MEOC 122
Pharmacology II
Prerequisite: MEOC 104 Medical Terminology. Bring original certificate to first class. Provides a continuation of theoretical knowledge acquired in Pharmacology I. Includes categorizing, inventorying and differentiating between drug classifications. Equips students with an advanced knowledge and understanding of drug effects on the body. (Apportionment)

MEOC 130
Introduction to Pharmacy Technician
Course orientes students to pharmacy practice and the work of pharmacy technicians. It covers pharmacy technician registration process and educational requirements, the role of the technician, duties and tasks technicians perform as regulated by pharmacy law, and the necessary abilities and skills for a successful career as a pharmacy technician. (Apportionment)

MEOC 135
Human Relations For Healthcare Workers
Covers basic communications skills with emphasis on health care. Includes non-verbal communication, group communication, conflict resolution, ethics in health communication, elements of intercultural communication, resume writing, job application and interviewing techniques. (Apportionment)

MEOC 140
Pharmaceutical Mathematics
A review of basic mathematics focusing on its application to common pharmaceutical calculations, abbreviations and units; how to interpret pharmaceutical documents using acquired pharmaceutical math knowledge. (Apportionment)

MEOC 144
Out - Patient Externship
This course is designed to give pharmacy technician students field work experience in an out-patient pharmacy. Students must complete the didactic portion of the program and the corresponding lab course prior to their field work experience. The program requires 120 hours of out-patient externship. (Externship)

MEOC 146
In - Patient Externship
This course is designed to give pharmacy technician students field work experience in an in-patient pharmacy. Students must complete the didactic portion of the program and the corresponding lab course prior to their field work experience. The program requires 200 hours of in-patient externship. (Externship)

MEOC 205
Introduction to Electronic Health Records (EHR)
Prerequisite: MEOC 210 Introduction of Computers for Health Care Workers and COMP 685 Beginning Keyboarding or Keyboard competency of 30 wpm. This course introduces students to the fundamental concepts of working with Electronic Health Records (EHRs). Students will learn and exercise the practical use of EHR in administrative roles within the allied health field. Topics covered include: the history of EHR, EHR standards, patient charts, and EHR regulations. (Apportionment)

MEOC 210
Introduction of Computers for Health Care Workers
Image
Prerequisite: COMP 685 Beginning Keyboarding or Typing 30 words per minute. This course is an introduction to computers for individuals entering the health care field. This course provides a general introduction to computer literacy and information technology for health care students. The course provides a comprehensive survey of the interconnections of information technology and health care. (Apportionment)

MEOC 225
Medical Coding-Introduction
This course covers the practical application of CPT-4 coding as well as both ICD-9-CM and ICD-10-CM coding for correct reimbursement in the physician's office setting. Course instruction will also cover applying the student's knowledge of anatomical body systems and disease processes. The following anatomical and physiology concepts will be covered in this course: (a) integumentary system, (b) musculoskeletal system (c) respiratory system (d) cardiovascular system (e) hemic and lymphatic systems. (Apportionment)

MEOC 227
Medical Coding-Intermediate
Prerequisite: MEOC 225 Medical Coding - Introduction. This course covers the practical application of CPT-4 coding as well as both ICD-9-CM and ICD-10-CM coding for correct reimbursement in the physician office setting. Course instruction will also cover applying the student's knowledge of anatomical body systems and disease processes. The following anatomical body systems and disease processes concepts will be covered in this course: (a) urinary and male genital systems, (b) female genital and system, (c) general surgical, (d) medicine (e) radiology, and (f) pathology. (Apportionment)

Microsoft (MS)

MS 104
Introduction to Windows Operating Systems
Advisory: Knowledge of Windows. Learn the newest Windows operating system: includes desktop and file management, security, adding hardware and software, personalizing Windows XP, making connections and communicating with other people. (Apportionment)
MS 105  
**Introduction to Excel**  
Provides a basic working knowledge of this popular spreadsheet program. Covers topics such as formulas, functions, and charting. *(Apportionment)*

MS 106  
**Introduction to Access**  
Advisory: Introduction to Computers, Introduction to Windows or equivalent. Design databases using this popular software package. Includes creating tables, forms, reports and labels. *(Apportionment)*

MS 107  
**Intermediate Access**  
Learn how to build and modify advanced tables, forms and reports. Develop proficiency in use of encrypting database files, defining relationships and defining queries. Text/disk required. Recommended proficiency in: Introduction to Computers, Introduction to Windows, Introduction to Access or equivalent. *(Apportionment)*

MS 119  
**Introduction to PowerPoint**  
Advisory: Knowledge of Windows. Learn how to create on-screen presentations using text, graphics, sound effects and movies. *(Apportionment)*

MS 134  
**Intermediate Word**  
Advisory: Introduction to Computers, Introduction to Windows, Introduction to Word or equivalent. This continuing course covers features such as mail merging, styles and templates, large documents and WordArt. Textbook purchase may be required at first class. *(Apportionment)*

MS 143  
**Introduction to Publisher**  
Advisory: Recommended proficiency in COMP 100 Introduction to Computers and MS 104 Introduction to Windows. Provides a basic working knowledge of this popular desktop publishing program. Covers topics such as flyers, newsletters, and business cards. *(Apportionment)*

MS 144  
**Introduction to Word**  
Advisory: Introduction to Computers, Introduction to Windows or equivalent. Provides a basic working knowledge of Word. Covers topics such as formatting with fonts, paragraph alignment, indents, margins, inserting clip art bullets and numbering, columns and tables. *(Apportionment)*

MS 156  
**Computer Bytes**  
This course covers various topics for Microsoft Windows on how to buy or upgrade a computer, buy and use a digital camera, use a scanner, create a slide show, and set up a home wireless network safely. *(Apportionment)*

MS 160  
**MS Office - Overview**  
Advisory: Knowledge of Windows and keyboarding. Learn the basics of Word, Excel, PowerPoint and Access in one class. Topics include document formatting, working with graphics, basic formulas, queries and reports. This class serves as a foundation for other MS Office Courses. *(Apportionment)*

MS 165  
**MS Excel - Power-User Skills**  
Advisory: MS 105 Introduction of Excel or equivalent. This course is for people who are comfortable using MS Excel and who want to develop "power skills". Topics include computational techniques (defining names, nested IF functions, summarizing data), using Excel's database tools (tables, database operations, lookup functions), and expert skills (conditional formatting, macros). Also covered are advanced formatting techniques and shortcuts for accelerating productivity. *(Apportionment)*

MS 610  
**Windows Operating Systems - Intermediate**  
Advisory: MS104 Introduction to MS Windows or equivalent. A second course in Windows operating environments covering more topics and techniques. This course will help you learn to communicate more effectively over the Internet, share information between programs, understand basic Windows network principles, share files, use Windows Media projects, manage hardware, backup files, and use Windows administration tools. *(Apportionment)*

**Music (MUSC)**

MUSC 108  
**Guitar for Adults**  
Learn to play the guitar! Students will learn chords, strum pattern styles, new songs, simple ear training and rhythm training. Students will also learn a I, IV, V blues progression and how to read the tablature for guitar. Bring a nylon-string or acoustic steel-string guitar and a medium pick. *(Fee-Based)*

MUSC 109  
**Adult Guitar (Fee-Based)**

MUSC 200  
**Music Arts for Older Adults**  
This course provides stimulating interaction for older adults through musical reminiscence, discussions, and listening to music from different time periods and genres. Older Adult students will participate in sing-alongs and rhythmic activities. Older adult students will learn to appreciate and understand different varieties of music. *(Apportionment)*

MUSC 302  
**Cypress Masterworks**  
This is a large ensemble (70-100) singers who perform major masterworks for choir and orchestra in addition to a variety concert repertoire. The Chorale presents four major concerts in the campus theater, participates in regional music festivals, and tours Internationally. *(Fee-Based)*

MUSC 303  
**Senior Chorus**  
This course introduces older adult students to a broad spectrum of choral music including its cultural and historical aspects. Older adult students will gain knowledge of correct posture, breath control, enunciation, harmony, rhythm and basic music concepts appropriate for the older adult. *(Apportionment)*
MUSC 304
Tone Chime Choir for Older Adults
This course provides instruction to older adults on handbell performance skills using chime instruments made by Suzuki. The music will be beginning level handbell music, level 1 and 2, as defined by the American Guild of English Hand Bell Ringers. The class will share their music by performing to the community in different public venues. (Apportionment)

MUSC 305
Introduction to Opera
This course is an introduction to the standard operatic repertoire in terms of development of musical style, dramatic structure, and performance tradition. Open to all students. (Fee-Based)

MUSC 310
Star Carolers
This course is designed for both music majors and non-music majors who wish to sing in a holiday caroling ensemble. Plus three quarters of an hour laboratory TBA per week. (Fee-Based)

MUSC 315
Beginning Voice
Students will study basic vocal techniques including tone production, breath control, and diction. Songs will be drawn from popular and traditional songs. (Fee-Based)

MUSC 320
Beginning Piano
Beginning with the abc's at middle C, the student learns to read music using familiar songs and pieces in folk and classical styles. Basic chords also help with rock and jazz. The student learns rhythm as the heartbeat of music. (Fee-Based)

MUSC 321
Beginning Adult Piano/Keyboard
This course will introduce adults to reading notes, rhythm, music symbols, sight-reading and keyboard activities to develop technique and listening. Book required. Bring your own keyboard (40 key minimum) every week! (Fee-Based)

MUSC 335
Adult Keyboarding
Beginning II
Comprehensive music course in reading, playing and listening to music. Lessons include learning chords, sight-reading and understanding basic harmony. (Fee-Based)

MUSC 345
Guitar for Adults - Level 1
Learn basic chords, strumming, picking and the classical rest stroke. Slowly but surely develop the confidence and coordination to play along to a handful of oldies and classic rock songs. Bring your nylon-string or acoustic steel-string guitar and medium guitar pick to class. (Fee-Based)

MUSC 350
Guitar for Adults - Level 2
If you have a little guitar experience already, this is the class for you! Designed for graduates of the level 1 class, and for anyone else who "knows a few chords." We will learn new chords, songs with strumming and picking, scales for soloing, and blues/rock songs with riffs. (Fee-Based)

MUSC 355
Adult Guitar & Bass Workshop
Students will learn music theory and concepts including notes on the guitar: major and minor keys, how to count and construct rhythm patterns that go together with each other and drums. Students will be able to play simple songs together by the end of classes. (Fee-Based)

MUSC 360
Adult Guitar - Intermediate
If you have a little guitar experience already, this is the class for you! Designed for graduates of the beginning class, and for anyone else who "knows a few chords." We will learn new chords, songs with strumming and picking, scales for soloing, and blues/rock songs with riffs. (Fee-Based)

MUSC 365
Beginning Vocal for Adults
Learn to develop your singing with an introduction to vocal technique. You will learn the tools necessary for every singer to help with diction, breath control and correct posture as well as shaping tone quality. Group singing as well as individual solos will be used. (Fee-Based)

MUSC 370
Guitar Workshop for Adults
Learn guitar in a friendly group environment. If you are a beginner, or already know how to play some things, this is the class for you! Learn to play the chords, strumming and picking techniques of your favorite classic songs. Bring your guitar and a medium or heavy pick to class. (Fee-Based)

MUSC 375
Masterworks Chorale
The Masterworks Chorale (80-110 singers) presents four major concerts each year with emphasis on masterworks for choir and orchestra. The Chorale participates in regional music festivals, performs at numerous locations throughout the Los Angeles basin, and tours internationally. Open to students and members of the community with prior singing experience. (Fee-Based)

MUSC 378
Community Symphony
The Community Symphony is dedicated to the rehearsal and performance of standard and contemporary symphonic literature. There will be concert performances. (Fee-Based)

Parenting (PARN)

PARN 101
Joyful Parenting - Creative Art/Music
Ages 1.5-2.5
Parent and child will enjoy self-esteem building activities together: songs and music; easel and finger painting; band and blocks; school readiness; crafts and Playdoh. Includes activity ideas to do at home. (Please bring a snack). (Apportionment)

PARN 102
Effective Parenting
Designed to lend support and provide some realistic parenting techniques that can be used in the parent's day-to-day life. (Apportionment)
PARN 104A
Kindergym - Toddler Fitness
Ages 1-4.5
Parents and children enjoy exercise, movement and music together. Emphasis on developing large motor skills, coordination and self-esteem. Class provides an opportunity for parents to observe and interact with child. All activities introduced can be done by parents with child at home. (Apportionment)

PARN 108
You, Your Child and Music
Learn how to use simple musical games and activities to aid your infant/toddler in motor, cognitive and social development. (Apportionment)

PARN 147
Babies Love Music
Ages 4-14 months
Music listening and music activities provide an excellent foundation for your baby's cognitive and social development. Mix together: One part thunder on a large gathering drum. Add small hand drums. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm... good! Enrollment limited to 14. (Fee-Based)

PARN 148
Kids Love Music
Ages 1-2
Music activities provide an excellent foundation for your preschooler's cognitive and social development. Mix together: One part thunder on Indian tom toms. Add glockenspiels and xylophones for rain. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm...good... Enrollment limited to 14. (Fee-Based)

PARN 149
Kids Love Music
Ages 2-4
Music listening and music activities provide an excellent foundation for your preschooler's cognitive and social development. Mix together: One part thunder on Indian tom toms. Add glockenspiels and xylophones for rain. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm...good... Enrollment limited to 14. (Fee-Based)

PARN 150
Kids Love Music
Ages 1-4
Music listening and music activities provide an excellent foundation for your preschooler's cognitive and social development. Mix together: One part thunder on Indian tom toms. Add glockenspiels and xylophones for rain. Sprinkle liberally with rhythm band instruments, singing and puppets. Top it off with guitar, harmonica, and recorded music. MMM...mmm...good Instructor: Gary Greeno Registered Music Therapist. Enrollment limited to 14. (Fee-Based)

PARN 170
Parenting Adult/Children with Disabilities
A class designed to provide support and resources to parents who have an adult child with a disability. Guest speakers will be invited to present information to help parents be knowledgeable of what their community offers in regards to independence. For additional information, please contact 714 484-7057. (Apportionment)

PARN 200
Joyful Parenting: Art, Music & Movement
Ages 2.5-5
Parents are introduced to the latest information about child development and parenting skills, through lecture, discussion, observation and hands-on learning with other students. Age appropriate activities are offered to the children so that parents can learn the importance of developmental stages that prepare children for preschool and/or kindergarten. For all classes, please bring a lunch. (Apportionment)

PARN 220
Helping Your Struggling Child
So many children today are struggling in school, acting out at home, having social problems, and/or experiencing mood changes. Parents are often frustrated, confused, and unsure of what to do. This course will assist parents in understanding children's issues, and recognizing symptoms of common disorders such as ADHD, learning disabilities, anxiety, depression, and autism. In addition, the course will focus on how to determine whether a significant problem exists, and how to obtain an accurate diagnosis. (Fee-Based)

PARN 225
Homework Tips Workshop (How to Really Help Your Child)
Help improve your child's changes of success in school by learning the key issues and strategies you need to know about helping your child with homework. Parents will complete a Checklist for Helping Your Child with Homework to help you develop a plan for guiding and monitoring your child's homework as well as communicating with your child's teacher. (Fee-Based)

PARN 230
Parenting Tips & Tricks Interactive Workshop
Do you want to encourage cooperation and respectful behavior in your children? This course covers specific techniques that will help your family to listen and cooperate with you on: chores, homework, problem solving & using reward systems. Cooperative communication is the key to making your home a more peaceful place! (Fee-Based)

PARN 232
The Parent Project
The Parent Project is a 35 year-old evidence based program for parents of at-risk children to help them regain control of their families. It is one of a few parenting programs in the United States that is endorsed by juvenile court judges, the American Bar Association, probation officers, mental health practitioners, religious personnel and social service professionals. The project provides counsel to parents who want to bring their out-of-control children back into behavioral compliance. (Fee-Based)
PARN 235  
**Raising Caring Kids**
This workshop will review and present practical tips and implementation strategies for parenting today's children. The focus will be on developing caring behaviors through everyday scenarios. Topics will include caring about family, friends, difficult situations and showing appreciation. Parents will be guided on steps to teach their children how to become kids that care. *(Fee-Based)*

PARN 240  
**Navigating Resources for Adults with Disabilities**
A class designed to provide support and resources to parents who have an adult child with a disability. Topics include: Overview of the service delivery system, eligibility for regional center and service agencies, adult transition, role of service coordinators, obtaining services, college, employment, independent and adult living options. *(Fee-Based)*

PARN 245  
**Runaway Teens in Orange County**
The purpose of this seminar is to provide information and resources for parents of at-risk and/or delinquent children, and for parents of highly defiant and strong-willed children. *(Fee-Based)*

PARN 250  
**Pre-schoolers and Parents: Fine Motor Skills**
This course exposes children to various hands-on activities in which fine motor skills will be developed and strengthened. Fine motor skills activities help prevent small muscles from fatiguing easily. This course will help prepare children for activities in pre-school and kindergarten. *(Fee-Based)*

PARN 260  
**Developmental Movement**
Ages 1 - 2
Parents and children are introduced to developmental movement and music for one and two year-olds. Emphasis is on identifying milestone-appropriate large motor skills, coordinated body movements and introductory behaviors associated with demonstrations of self-esteem for this age range. *(Apportionment)*

PARN 261  
**Developmental Movement**
Ages 2 - 3
Parents and children are introduced to developmental movement and music for two and three year-olds. Emphasis is on tracking developing milestone-appropriate large motor skills, coordinated body movements and milestone psychological behaviors associated with demonstrations of self-esteem for this age range. *(Apportionment)*

PARN 262  
**Developmental Movement**
Ages 3 - 4.5
Parents and children are introduced to developmental movement, and music for three to four and a half year-olds. Emphasis is on continued tracking of milestone-appropriate large motor skills, coordinated body movements and psychological behaviors associated with demonstrations of self-esteem for this age range. *(Apportionment)*

### Safety (SAFE)

SAFE 205  
**Mature Driver Improvement**
Improvement classes for licensed drivers age 55 and older who wish to qualify for a reduced insurance premium; and brush up on traffic laws and safety techniques for a driver's license exam. A Certificate of Completion will be awarded as evidence of attendance to obtain up to three years of reduced insurance rates from participating insurance companies. *(Apportionment)*

### Shop (SHOP)

SHOP 100  
**Cabinet & Millwork**
Learn vocational skills in cabinet-making, millwork and furniture products. *(Apportionment)*

### Sign Language (SIGN)

SIGN 001  
**Sign Language - SEE Level 1**
This course gives an overview of the Signing Exact English (SEE) model of sign language. Students will explore the philosophy and rationale of the sign system while developing both expressive and receptive delivery skills. It is designed to introduce students to a 700 word working vocabulary and to prepare them to continue on to Sign Language - SEE Level 2/3. *(Fee-Based)*

SIGN 002  
**Sign Language - SEE Level 2/3**
Students will acquire approximately 1,000 additional signs and will improve expressive and receptive fluency with both signs and fingerspelling. Students will continue to address the rationale and philosophy of using the English sign model: Signing Exact English. *(Fee-Based)*

SIGN 010  
**Educational Interpreting Practicum**
This course allows students to build educational interpreting skills for service to the elementary, middle, and high school settings. *(Fee-Based)*

SIGN 020  
**Sign Language for Parents**
This is a beginning level Signed English sign language course for parents of elementary school-aged Deaf and Hard of Hearing children. *(Fee-Based)*
The North Orange County Community College District (NOCCCD) is governed by elected trustees who establish all policies that guide the general operation of the District. Student trustees representing each of the colleges also sit on the board.

The NOCCCD Chancellor has responsibility for carrying out the decisions and directions of the board. The college presidents and provost of continuing education oversee the operations of their respective areas and work closely with the chancellor in the management of the District.

### Board of Trustees
- Stephen T. Blount
- Jeffrey P. Brown
- Barbara Dunsheath
- Leonard L. Lahtinen
- Molly McClanahan
- M. Tony Ontiveros
- Jacqueline Rodarte

### Student Trustees
- Francisco Aviles-Pino, Fullerton College
- Tanya Washington, Cypress College

### Chancellor
- Dr. Cheryl Marshall

### Interim Provost, School of Continuing Education
- Valentina Purtell

### Faculty
The tenured full-time faculty teaching for SCE are as follows:

**Barbara Anderson**
Instructor, Disability Support Services  
B.A. Speech Communication, CSU Long Beach  
M.S. Education (Special Education), CSU Fullerton

**Barbara Bennett**
Instructor, Disability Support Services  
B.A. Psychology, San Diego State University  
M.S. Education (Special Education), CSU Fullerton

**Julie Brown**
Instructor, Disability Support Services  
B.A. Psychology, CSU Dominguez Hills  
M.A. Psychology, San Diego State University  
MLIS (Masters in Library and Information Service), San Jose State University

Notice to Students

The School of Continuing Education has made every reasonable effort to determine that everything stated in the Catalog is accurate. This publication is prepared in advance of the time period it covers; therefore, changes in courses and programs offered, together with other matters contained herein, are subject to change without notice by the administration of the School of Continuing Education. For the most up-to-date information, please see the class schedule at www.sce.edu/schedule.

In addition, some courses or programs that are offered may have to be cancelled because of insufficient enrollment, elimination or reduction in programs, or for any other reason considered sufficient by the Provost. The information contained in this catalog is advisory only and does not constitute a contractual agreement by the school or guarantee that course content will be strictly followed or fulfilled.

Acknowledgments

The School of Continuing Education would like to thank Mary Ann Babbo, Danielle Davy, Dennis Davino, Vaniethia Hubbard, Luis Madrid, Diane Mendoza, Shelia Moore-Farmer, Jennifer Perez, Chelsea Salisbury, Monica Torres, Lysa Tribolet and Aruni Wijesinghe for their hard work and dedication to this project.
