WHO WE ARE

NOCE Office of Institutional Research and Planning

- Established in April 2016
- First time NOCE has had a formal process to gather, analyze and report out institutional data
- Small but MIGHTY team of 3 full-timers
- Noncredit Initiatives
 - California Adult Education Program
 - Student Equity and Achievement Program
 - Perkins
 - WIOA II
 - Strong Workforce Program

DIGESTIBLE DATA

How do we as IR offices do this?

WHAT'S THE DIFFERENCE?

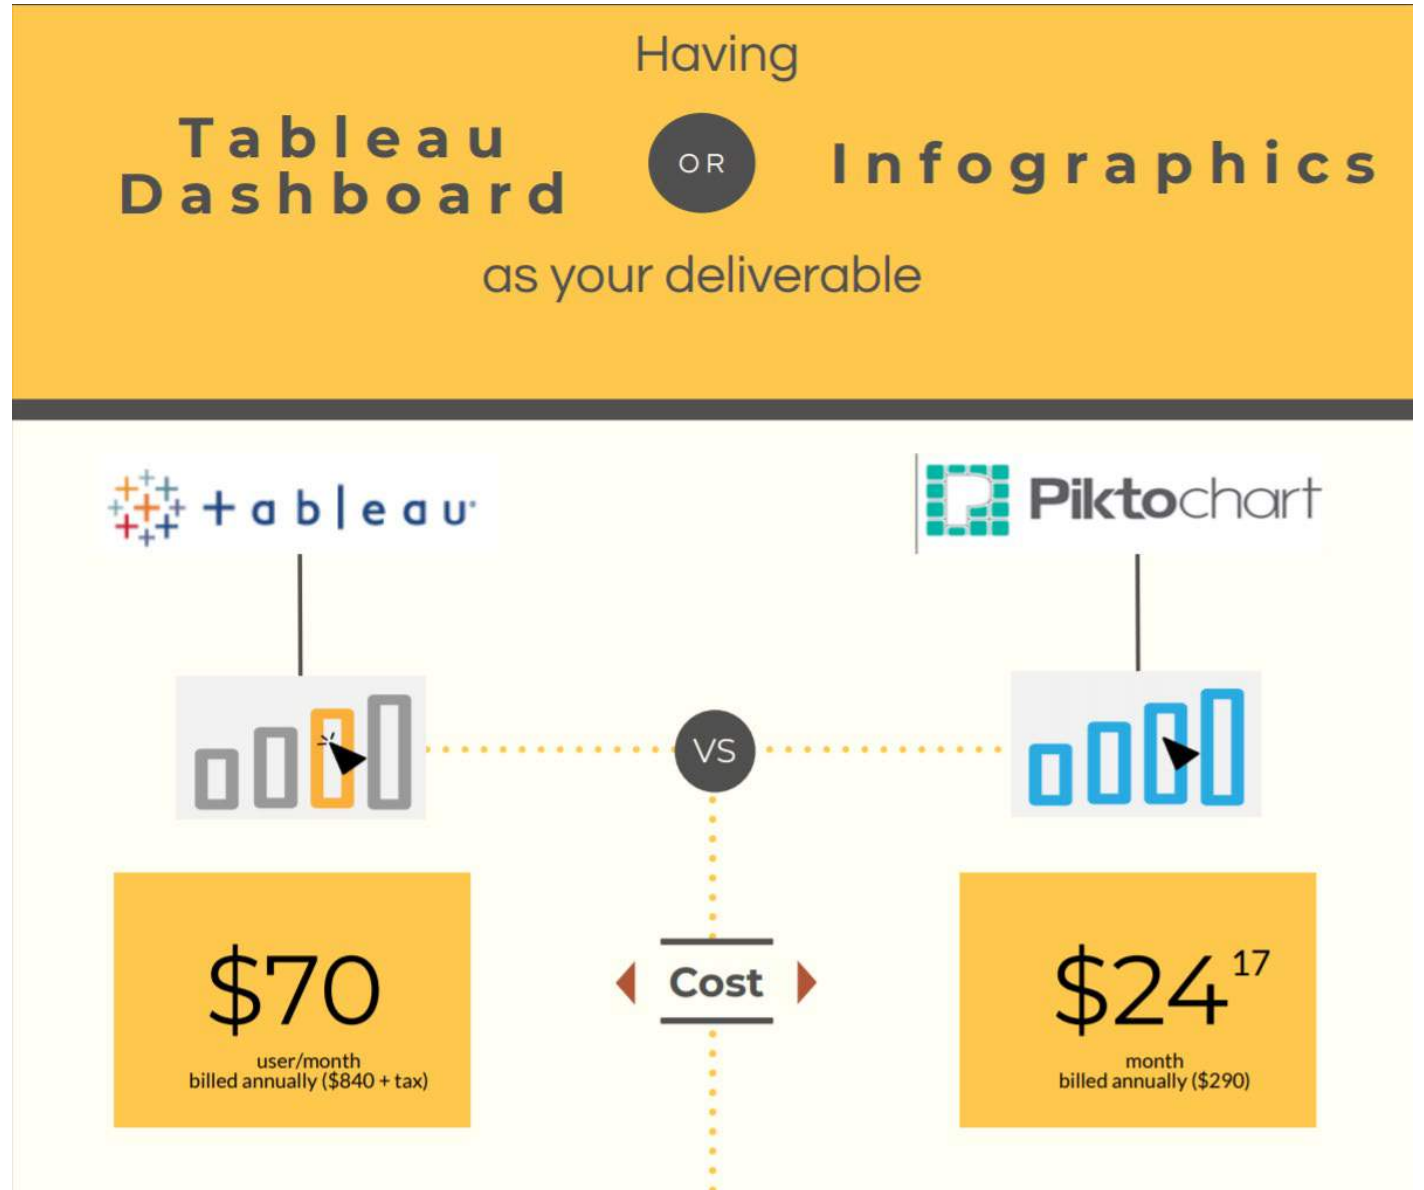

Data Visualization

- Interactive in some way
- Tableau
- Power BI
- Sinse
- Zoho Reports

Infographics

- Not interactive and usually image files
- Piktochart
- Canva
- Visme
- Vengage

LET'S START WITH
WHAT YOU'RE
FIRST THINKING
ABOUT

User Driven

User has ability to interact with the data and can infer their own analysis by drilling down into the data as much as they desire.

- Requires technology (computer, phone, tablet) and internet
- For certain functions users may need a specific type of license
- Data is dynamic
- May require training for user

Usability

Accessibility

Presenter Driven

Creator presents key findings from their own analysis in a visually appealing manner through the use of icons, numbers, and charts.

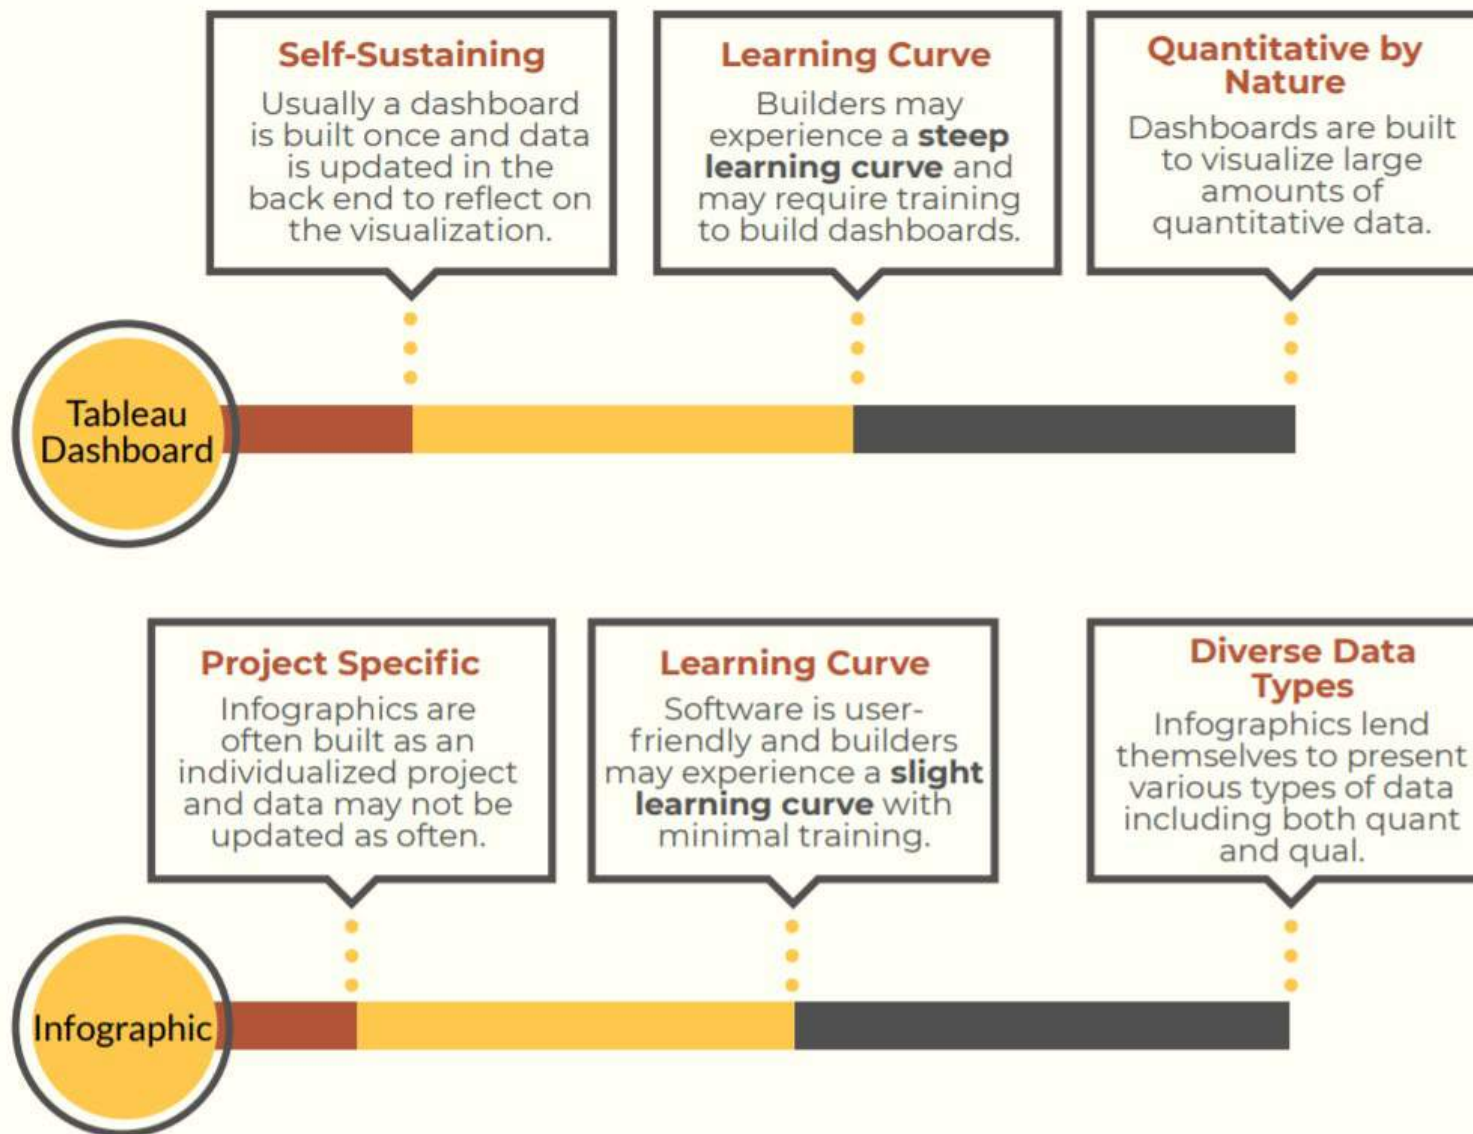

- No need for user to have access to technology
- Can be printed out and shared to a wide audience, including students
- Data is static
- User can easily share deliverable

Both can be uploaded onto a website for distribution

Building Phase

Impact

Dashboard

- Can track data over time to identify trends
- Users have access to large amounts of quantitative data
- Users could have access to download raw data
- Potential to intimidate the user with too much data
- Ability to drill down through layers of data with filters

Infographic

- Can help break data into digestible pieces
- Users are presented with key findings
- Users could easily share with many constituent groups
- Could be less intimidating than a dashboard for some
- Ability to embed narrative, photos and icons into deliverable

Both are Powerful

Innovative

Both are innovative ways to present complex ideas and data

Data Culture

Both can be used to change institutional culture around data

Democratize Data

Both can democratize data for your campus and community

Empowers

Both empower the users and creators

BREAKING DOWN THE 320 REPORT

320 Report

State apportionment report based on attendance hours. California community college apportionment is primarily driven by the Full-Time Equivalent Student (FTES) workload measure.

Steps to Determining FTES

FTES

FTES is not a headcount. Each FTES is equivalent to 525 hours of student instruction. One FTES can be generated by 1 student or multiple part-time students.

How does FTES help NOCE?

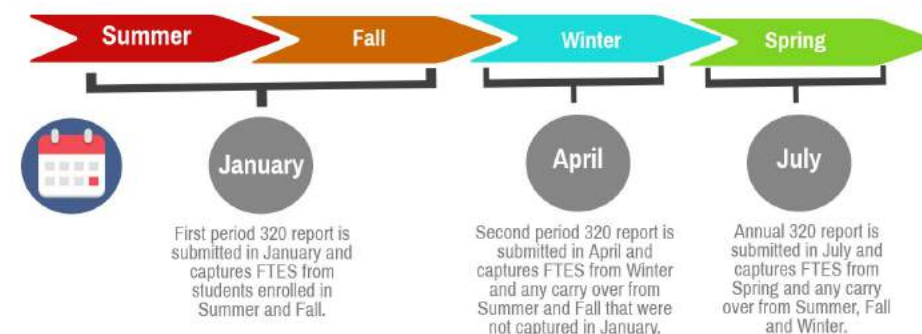

State Reimbursement Rates for 17-18

\$5,320 for 1 enhanced noncredit FTES

\$3,323 for 1 basic noncredit FTES

Timeline

The 320 report is submitted to the Chancellor's office 3 times a year. Timely and accurate submission is very important in order to maximize the amount of funding NOCE receives.

Important Message!

If attendance hours are updated in iTendence AFTER June, NOCE does not receive money to account for those hours. It is vital to update student attendance hours in a timely manner as they are directly connected to NOCE receiving adequate funds from the state.

How can I help?

By setting up a checklist to review student enrollments for apportionment classes, NOCE staff can contribute to streamlining the process of accurately reporting FTES for the 320 reports.

CAEP Outcome Goals

The data gathered from students served by NOCRC will assist the California Community Colleges Chancellor's Office, administrators, and program staff in tracking participants' progress in attaining the following outcome goals:

Adults Served

Adults served by members of the consortium will be disaggregated into three categories:

- Service only students.
- Students receiving 1-11 instructional contact hours in any of the seven program areas.
- Participants who received 12 or more instruction contact hours over a single program year in any of the seven program areas.

Progress

Adults served by members of the consortium who have demonstrated the following measure of progress:

- Improve literacy and basic skills: includes completion of a course in ABE, ASE, or ESL for levels below transfer or CDCP certificate in basic skills or ESL.
- Transition to a new program: From ABE to ASE or from ESL to ASE or from ABE/ESL/ASE to CTE.

Completion

Adults served by members of the consortium who have demonstrated the following measure of completion:

- Completion of high school diplomas or recognized equivalents.
- Completion of postsecondary certificates, degrees, or training programs: CDCP CTE certificates (48+ hrs), locally approved certificates eligible for inclusion on the Eligible Training Provider List (ETPL), any credit college award, certificate, degree that is not developmental.

Placement into Jobs

Adults served by members of the consortium who have demonstrated the following measure:

- Employment after two or four quarters post exit.

Improved Wages

Adults served by members of the consortium who have demonstrated the following measure:

- Wage gain four quarters after exit.
- Median wage attainment two quarters after exit.
- Attainment of a living wage.

Transition to Postsecondary

Adults served by members of the consortium who have demonstrated the following measure of completion:

- Transition to noncredit or credit CTE program.
- Transition to credit courses that are not developmental.
